When we get a Railcoad, we will have to have more hotels to accommodate travelere. Our good looking young friend, Mr. Chas. Knochler, has his new barber shop in full blast, on the Mais Plaza, next to Jack Harrie salook. Helf-respect prompts every man is de-sire to drine well, and it beder to look well dressed it is absolutely necessary to have your clothes fit you neatly. We are led to make these remarks by an exami-mation of a cut of clothes made by our popular marchant tailor, Mr. George Hilgers, which fitted the wearer so neatly that we ordered a suit made for ourself. Mr. Hilgors does his work well, and guar-anteen his an every instance, and we cheerfully recommend him to our readers who desire to have elething made.

Our enterprise of brinting a Dally paper for Seguin is preasing very successful. Through the able energies of our Agent, Mr. D. J. Our ambacriptics list in San Autonio is larger, at present, by about one fourth, than any newspaper over before printed in our city could boast of in its almiest days, and we have a constant and steady increase of subscribers, both to our Daily and Weekly. We speak facts, and are ready to compare on lists with anyone. What makes a newspaper val-uable to advertisors! Is it not the extent of its popularity? We think so, and should always give our advertising to journale of the largest circulation. It is the popularity of a newspaper, its worth, that carries it over the world. True, our prices for advertising are somewhat higher than those of others, but we are the cheapest in the sud. We make up, you, more than make ap our extra charges to our patrons by placing what they have to say for themselves before a larger num-ber, and different class of people, than can o done orlsewhere. The Express does not boast of having the business men of San Antonie on her flat of Pally suborlbers, for it is their particular duty to patronize the paper, but we do feel proud of the number of subscribers we have outside of the business places and homes of our business men. Our paper circulates. mong the purchasing pepulation of San Autonia, and its extension over the country about us, far and near, makes it invalable as an advertising medium. Strangers who come to San Antonio to spend the winter, and these who arrive and take up their homes with us, always take the Expanse. They will refer to its polumns o direct them where to go to satisfy their secessities, and their trade is worth con-iderable and should be sought for.
