CONGRESSIONAL Washington, Feb 2-Senate-The chair laid before the Senate a request from the Treasurer of the United States, asking ermission to have access to certain quar permission to have access to certain quarterly accounts of the Treasurer on the lin in the Senate for the purpose of correcting an error therein. Granted.

Ingalls said, that on Thursday last, after a debate of three days, the Senate passed a bill in relation to the rights or proempton.

tion and homestead settlers on railroad grants. Last evening a member of the Mone of Engreeoustives called on him and inquired why the bill had not been forwarded to the House for action in that body. Upon engity at the Clerk's desk Mr. Ingalls was informed that a Senator had entered a private request that the bill be retained in the Senata in order that

bill be retained in the Senate in order that he might enter a mation to reconsider the vote by which the bill was passed. He raised the point of order as to the right of any denator to make such a request.

The chair (Ferry) replied that as one of the Senate, he had been allowed the right to votate the bill not longer than two days to allow the motion for reconsideration, if any. If any Senator wished to do not the senate allowed the retention of a bill for such a purpose. He directed the Secretary to read the 2sth rule, which provided that a motion to reconsider shall not be in order inches made within two days after the passage of a bill. Such motion could not be made after a bill had left the Senate.

THE conviction of Col. McKee the senior proprietor of the St. Louis Globe Democrat, one of the ablest and most powerful journals in the West, of complicity in the whisky conspiracy, as reported in our telegrams, is one of the most startling facts connected with that hugely startling affair. The whisky conspiracy has turned out to be the hugest swindling system ever brought to light in this country. Millions of money were stelen from the Government and placed in the bank accounts of the conspirators, and luxury, pleasure, and apparent prosperity followed But guilt, shame, and misery are now being reaped as the harvest of the inignitour seed sown, involving wives, shildren, and friends in disgrace and rein. But of what value is ill-gotten wealth, even if detection does not follow? Better far to live poor, and to labor hard for even that poor living than to blust soul and family

Edgarton, Special Agent of the Postoffice Department, has caused the arrest of A. B. Hall, late Postmaster at Galveston, for embez-sling postoffice funds. Hall's defalcation amounts to over ten thousand dollars. He was taken on a bench warrant from the United States Court at Gulvesten, and is in the custody of the Sheriff of Har-ris county. THE State Gazette is a great friend of Tom Scott's so-called Texas and Pacific Railroad, and a great enemy of the International Railroad, and of the Southern Pacific or California and Texas railroad. As Tom Scott's road will be a positive injury to Texas, and as the International and California roads will run through the heart of Texas, develop our Texas ports, and give us putlets to the Pacific, both through Mexico and at San Francisco, besides making the fortune his late severe illness, of Austin and San Antonio, we are at a loss to understand the course of the Gazette. As to its assertions about the Statesman's being interested in these things, we know nothing and care less. That has nothing to do with the great Of the People's meeting held at Wolfram's railroad problem of Texas. We oppose Garden on Monday, January 24, 1876, put ROOFING TIN the Tom Scott hunding, and support the International and Huntingdon roads, because of their value to Texas. And if, in doing our duty, we should also become "interested," we should not feel that we had done anything but gained a ed Chairman of the meeting, and upon

READ AND BE CONVINCED

THAT THE

OIL OIL

Best. Purest and Safest Oil

EVER OFFERED IN THIS MARKET.

A FEW OF OUR REASONS WHY WE CLAIM IT AS SUCH:

1. It is made upon scientific principles, and gnaranteed to be pure, evaluing to mixture, any chemical of any kind, no Naptha nor Garoline.

11. It bears slowly and is hence more economical and has no offensive oder so requestly found in burning other oil.

III. It gives a millow light, thereby more beneficial to the eye.

IV. It will not applied, and is as safe as the old lard oil.

V. It will in all tests and trials be found fully up to the standard of the chemical standard.

Why We Denounce

Inferior Oils.

It is a deplorable fact, but nevertheless frequently practiced in several branches of manufactures, that whosever an article has assumed and attained a popularity and reputation on the merits for its good quality, those manufacturers, presuming to have established an unflacthing demand for each, then see fit, for reasons best known to them, to seed out an inferior article under the name man style of package; and now we assert and prove by the below submitted certificates of our local chemists (known as competent and honorable men, who made six tests of STAR OIL and Astrai (NI,) that each is the case with the brand of oil introduced here in

1870 as Pratt's Astral Oil.

At the time of its introduction said oil was then fully up to the standard of the certificate of G. H. Kalteyer, chemist. To what has it beem reduced now? Those rangest tests show is one instance IN degrees, and in another 26 degrees helow the telegrad to dishing point of 1970.

We turthermore desire to impress upon the minds of consumers that even at the presson standard of said Astral Oil there is no eniformity in its quality, (a property generally found with the most inferior grades,) as in testing a case, containing two five gallon came, purchased from H. Grenet, it was discovered that a Difference of Name Degrees existed in the dashing point of the case alluded to.

Those advertisements claiming such superior qualities for the Astral, prove to be anaggerated, as univ recently, at different times, in the Casino building, a lamp filled with that Astral Oil fell to the floor and in a moment all was in a blaze, and had it not been for the prompt assistance of those present the building would be a total rain. How raisable and of What good qualities oils so extensively sold in this city, is found in an article offered by the trade as Pratt's Radiant Oil, which proves to have only a fashing point of St degrees and burning point 102 degrees.

As it is our constant desire to furnish our

Unexcelled, Twice Distilled Star Oil.

always uniform and up to the advocated standard, we have effected an agreement with Mr. G. H. Kalteyer to examine each and every case and attach a certificate, with his signature to each, before offered to the public. The Star Oil is only furnished in cases of two five-gallon cans, and every can is stamped with our trademark, of which this cut is a fac simile.

Meaner. Wagner & Rammel, City.—Gentlemen: According to your request to examine the different brands of Asteal Oil made by Measur Charles T Pratt & Co., which is sold in this city, and the Star Oil sold by you; the endersigned took comples of the different Oils, and find the following results:

Pratt's Astral Oil from the stores of Mr. H. Grenet, A. Bruni and H Wagner, The mean of six tests give the following results:

PRATT'S ASTRAL OIL-Flashing Point, 125-Burning Point, 136, PRATT'S RADIANT OIL-Flashing Point, 92-Burning Point, 192.

Wagner & Rommell's Star Oil, from the vierce of 1. Briam & Brr., T. H. Schnefler, Bruss and L. Moho. The mean of seven tests gives the following result:

Wagner & Rommell's Star Oil-Flashing Point, 134, Burning Point, 148.

From the result of above the tosts it will be seen that your STAR OIL IS THE BEST AND SAFEST.

From three bundred and sixty-five different experiments, with twenty-five different kinds of lamps, made by Prof O T Chandler, of New York, the highest temperature renched in lamps was 129 degrees Fabrenheit. (See American Chemist of August, 1232.) By referring to the above it will be seen that YOUR STAR OIL IS YIVE DEGREES ABOVE THE HIGHEST TEMPERATURE EVER OBSERVED
