spirit of the article, we make the following extract:

Whether we will or not, the people of the South, by force, have to remain one people with the people of the North. As there is no escape, ever since the war the people of the South have realized the situation, and fir haying down their arms they accepted, in their literal terms, the conditions imposed upon them by the conquaring disberals. But those terms, after being agreed upon, were repudiated by the Northerm Covernment and its people. We of the South continue to struggle on in our efforts to be at one in kindness and sympathy with those of the North-for though for colbly held in the leash, we are not such fools but that we know it will be better for our material interests for us to pull logether, than to waste our strength in autagonistical excitons—the North against the South—or vice versa. KING MESA'S PILLAR.

THE OLDEST DECIPHERED INSCRIP TION IN THE WORLD-HOW THE STELA WAS BROUGHT FROM THE BAST.

Galignani's Messenger prints the following interesting article: "This tamons stells has now been placed for public inspection in that part of the Louvre which is set apart for Hebrew antiquities. It bears the oldest inscription in the world, as vet deciphered, and is a historical monument without rival, cotemporaneous with the Bible, dating back 900 years before the Christain eraz The pillar is of black basalt, having, almost the same form as the tables of the Decalogue. It measures for-ty inches in height, twenty-eight in width, and fourteen in thickness, and for 2,800 years has remained in the same position in the country of the Moabites, on the shores of the Dead Sea, at the spot, as is supposed, where the frontier of their territory joined that of the tribe of Reuben. The column of Mesa was not buried. It had remained creet in the full light of day for twenty. in the full light of day for twenty-eight centuries. In 1870 M. Cler-mont-Gomeau, attached to the French Consulate at Jerusalem, heard something about a stone placed at the entrance of a small vil lage near the Dead Sea, and covered with "mysterious" characters. Attracted by those reports, he sent two intelligent Arabs, with instructhe inscription, by using the same was caused by an alarn of fire care process as is employed in printing lessly raised by a mischievous bey offices for obtaining proof of type in the gallery. He would, therefore, say to the unfortunate sufferer who may red this notice, that you are treading upon dangerous ground when you longer delay in seeking the proper remedy for your complaint. You may be in the first stage, remember you are approaching the last. If you are bordering upon the last, and are suffering some or all of its ill effects, remember that if you obstituately persist in procrastination, the time must come when the most ckillful physician can render you no assistance; when the door of hope will be closed against you, when no angel of mercy can bring you relief. In no case has the Doctor failed of success. Then let not despair work itself upon your imagination, but avail yourself of the beneficial results of his treatment before your case is beyond the reach of medical skill, or before grave.

READ AND BE CONVINCED

THAT THE

OIL

OIL

Best, Purest and Safest Oil

EVER OFFERED IN THIS MARKET.

A FEW OF OUR REASONS WHY WE CLAIM IT AS SUCH :

1. It is made upon scientific principles, and guaranteed to be pure, containing a mixture nor chemical of any kind, no Naptha nor Gasoline.

11. It burns slowly, and is hence more economical, and has no offensive edge sequently found in burning other oil.

III. It gives a mellow light, thereby more beneficial to the eye.

IV. It will not explode, and is as safe as the old lard oil.

V. It will in all tests and trials be found fully up to the standard of the chemical contribute.

Why We Denounce

Inferior Oils

It is a deplorable fact, but nevertheless frequently practiced in several branches of manufacture, that whosever an article has assumed and attained a popularity and reputation on the merits for its good quality, those manufacturers, presuming to have established an unflaching demand for such, then see fit, for ressons best known to them, to send out an inferior article under the same name and style of packages, and now we assert and prove by the below submitted certificates of our local chemists (known as competent and honorable men, who made six tests of STAR OIL and Astrai Oil,) that such is the case with the brand of oil introduced here in

1870 as Pratt's Astral Oil.

At the time of its introduction said oil was then fully up to the standard of the certificate of G. H. Kalteyer, chemist. To what has it been reduced wew? Those recent tests show in one instance IS degrees, and in another 26 degrees below the referred to fisahing point of 1870.

We turthermore desire to impress upon the minds of consumers that even at the present standard of said Astral Oil there is no uniformity in its quality, (a property generally found with the most inferior grades,) as in testing a case, containing two five-gallon cans, purchased from H. Grenet, it was discovered that a Difference of Nime Degrees existed in the fishing point of the cans alluded to.

Those advertisements claiming such superior qualitize for the Astral, prove to be exaggerated, as only recently, at different times, in the Casino building, a lam, filled with that Astral Oil fell to the floor and in a moment all was in a blaze, and had it not been for the prompt assistance of those present the building would be a total ruin. How reliable and of what good qualities oils so extensively sold in this city, is found in an article offered by the trade as Pratt's Radiant Oil, which proves to have only a fishing point of 92 degrees and burning point 102 degrees.

As it is our constant desire to turnish our

Unexcelled, Twice Distilled Star Oil.

always uniform and up to the advocated standard, we have effected an agreemen with Mr. G. H. Kalteyer to examine each and every case and attach a certificate with his signature to such, before offered to the public. The Star Oil is only for nished in cases of two five gallon cane, and every can is stamped with our trademark, of which this cut is a fac simile.

OUR PROOFS Certificate from Kalteyer's Chemical Laboratory, San Antonio, Texas :

One Hundred and Seventeen Degrees Fahrenheit

I have tested one case bought from H. Grenet, containing two five gallon came of Astral Oil, and found the flashing point of the oil in one can to differ NINE DEGREES from that of the other.

Yours truly,

GEORGE H. KALTETER, Chemist.

Costificate from Kalteyer's Chemical Labratory. Measrs. Wagner & Rummel, City—Gentlemen: According to your request to examine the different brands of Astral Oil made by Measrs Charles T Pratt & Co., which is sold in this city, and the Star Oil sold by you; the undersigned took samples of the different Oils, and find the following results:

Pratt's Astral Oil from the shores of Mr. H. Grenet, A. Brunt and H Wagner. The mean of six tests give the following results:

PRATT'S ASTRAL OIL-Flashing Point, 125-Burning Point, 136, PRATT'S RADIANT OIL-Flashing Point, 92-Burning Point, 102.

Wagner & Rummell's Star Oil, from the stores of L Briam & Bro., T H Schaeffer Bruni and L Moke. The mean of seven tests gives the following result: Wagner & Rummell's Star Oil-
