Memphis, April 1—A special from Jackson, Mississippi, to the Avaianche says the Republican State Convention adjeurned at 2 o'clock this a.m. The delegates to the Cincinnati Convention are uninstructed, which is considered a victory for the Conservative Republicans. Among the delegates are Ames, Alcoin, Ex Governor Powers, and Bruce. Powers, and Bruce.

The delegation is divided between Bristow, Blaine and Morton, the majority being anti-Morton. Pinchback spoke, enlogizing Morton in

rincheson spone, enlogizing abricon in the colored men's convention to day, to appoint delegates to the national con-vention of colored men.

A resolution that the colored people south of Mason and Dixon's line have corrupt leaders and that the race would not pledge their vote to any but good men was voted dewn.

NOT TRUE.

Augusta, Go, April 1 The statements in the Washington Rapublican that two negroes were killed last week in Columbia county, Georgia and that over a dozen, were taken from their homes and severely whipped, four of them having been tortured by having but sealing wax dropped. tured by having hot sealing wax dropped upon their bodies, are without a shadow of truth. No outrages have been commitof truth. No outrages have been committed on colored people, in the counties of Burke, Jeffersou and Chatham, and there is no truth in the further statement that in the vicinity of Manon three negroes were found hanging to tree in the neighborhood of leading Democrate.

Relations between the races are amicable and friendly, and at no time since the war has there been a better feeling between whites and blacks.

The statements of outrages contained in the Republican are purely fabrications manufactured for political effects. The following is from the proprietors of

the Macon Telegraph, and is in answer to a dispatch asking if there was any ground for the statement in the Washing-ton Republican. MACON, GA., March 31st, 1876. To Patrick Walsh, Agent Associated Press, Augusta, Ga:

There is not one word of truth in the report of three negroes being hour and to a shadow of any ground for it.

After a three hours' discussion in regard to fop hornation cocks, valves, lights, larboards and starboards, courses and other matters about which one of the members participating professed to have much information, and as there was an equal lack of interest as sof knowledge of the subject, the further consideration of the bill was postponed till next Saturday. book a line California shawl from my brother and strapped it on one of the horses. THE OFFICE IN MEW QUARTERS. The Western Union Telegraph office he pied over Bennett & Thornton's bank, to nore commodious and convenient quarters, over the drug store of J. Clavin. The change is an agreeable one to the operators and of great convenience to our citirens, the new office being of much easier access, and the rooms in every way better adapted to the purpose for which they are employed. The large room has been partitioned off into three portions, that at the head of the stairs being the receiving room meing on Main street, the third room being used as a battery and store room. The whole is brilliantly lighted by gas, and presents a very cony and attractive appearance at night as well as in day time. The stairs approach from Main street, and immediately at their upper landing are tables well supplied with the different blanks of the company, and the partitions are so erected that the sender cannot in the least disturb the operator in the discharge of his duties. This is a convenience the operators will appreciate, as not a little have they been annoyed by conversation and questions from persons

heretofore been arranged. The change is an appropriate one in every respect, and we congratulate our citizens and the gentlemanly operators, Messrs. Petricli and Dunbar, upon their good fortune in securing an office, at once so convenient in every respect to the publie, and so comfortable and attractive to the attachees of the office.

-The half-mile track letely surveyed and graded by the managers of the Agricultural Association, is one of the best race courses in the State. It is much wider than the aid mile-track and is laid off in an opposite direction, lying cast and week. We did not understand why the buildings created by the Association last fall should have been placed as they were, but we understand now, and admire the good judgment of the managers of the made. Nearly all the racing taking place here is half mile running, and it is much more desirable to all concerned, especially to those attending merely to witness the racing, that they should be at the starting point and at the finish also. There are dark necks and corners in some portions of the city that require lighting, but sconomy demands the exercise of some judgment in the matter. A great many of our street lamps are so situated that they are of no possible use on such clear moonlight evenings, and the burning of gas in these localities is an unwarranted weste of spears which might be more profitably

-We learn that the day after the stage was robbed, two men, undoubtedly the robbers, called at a farm bouse in Hays county, and told the farmer that they would reward him liberally if he would return to the Stage Compaby two horses they had which belonged to the company. Among other remarks they made to the farmer was this -that if they were called upon, they would assist the U. S. authorities in finding a true bill against the passengers who robbed the mail bags. This

The meeting was an interesting one and the little people listened with marked attention to the earnest efforts of Mesers Cree and Hall, who related with feeling, numerous apecdotes so interesting to young people. The singing in which the little folks joined with ardor, was de-sidedly a pleasant feature of the meeting.

San Antonio, Texas. Sin-I had the pleasure of a visit from Mr. Leighton, who wished to inform himself of the truth of a statement made in yesterday's Herald, which I deem somewhat highly colored; however, I was not present when the so called explosion took place. I have directed Mr. L. to the proper sources of information. It was given to the public, I presume, by Mr. Kalterer, in whose possession the lamp is, and who also examined the segro man. I shall send him to your house, to give you a fair chance of finding out what may be true or not.
