Washington, April 25—A clause in the appropriation bill, abolishing the commissioners of Indian Affairs, was objected to so not germain to the bill. The Speaker dustained the objectes and the clause was stricken out. Randall said he inquiesced in the ruling, but he hoped and believed another and more itselligible mode of reaching the same result would be found. The object of the clause was to compel the Senate to game the bill to the find. The object of the clause was to compel the Senate to game the bill to the find. As the abolition of the office of Commissioner would desiroy the Barcan, as it exists it will probably find its way into the Indian Surean to the War Department. As the abolition of the office of Commissioner would desiroy the Barcan, as it exists it will probably find. The Legislative, Executive and Judicial appropriation bill.

The Legislative, Executive and Judicial appropriation bill was then passed by a vote of 200 to 17.

The bill appropriating \$50,000 for the Apache Inflant, was planed.

The Cabinet discussed the necessity of furnishing the Indians from army supplies until return stores can reach them. Mexican affairs were discussed. The mercany had no late reports of outrages on American citizens on the Rio Grande. The latest advices to the War Department represented matters in botton condition.

CHANTER PRESENT. CHARLES PICKET

San Antonio, April 12, 1876, dim

In those spacious but insignificant advertisements of C. Prait & Co., they endouver to convince the public that our STAR OIL and PEERLESS are identically the same, which they know, even better than we could ever attempt to convince them, as now we can be seen in by no means one of the inferior grades of oil; it is in every respect equal and fully up to the actual standard (not the inferior discount of Astral, and is like the latter 32 degrees below the bursing point of our STAR OIL. Now we propose to Farnish the Poeriess, guaranteed equivalent in hyper, respect in Astral, at One Dellar a case less than our STAR OIL, which we sail at the prior of Astral, although our STAR OIL is 12 degrees befler, hence unler, and consequently has the preference of the accounting published. (originals of which each be seen at our office) from our local, disinterested chamists, Bessre, Geo. II. Kaiteyer, A. Rette and E. Dreiss, who tested both oils, and declare our Star Oil

y 12 degrees better than Astral.

In Addition to the certificate alluded to, we herewith annea a certificate from Chemist Thee, Odes.

George Duling, and find the flashing point at one hundred and thirty-three (133) degrees Fahrenheit, the burning point at one hundred and foray-four (144) degrees Fahrenheit. Astral oil, taken from the store of E. Kotula & Co., the flashing point at one hundred and the hundred and twenty-one (131) degrees, and the burning point at one hundred and thirty-two degrees Fahrenheit. I am of the opinion that the Star Oil is by all means the best and safest oil.
