CONKLING bide fair to be the Republican applies for President, and Hayes for Vice-President -- a powerful ticket.

Tus Houston Military companies had a grand ovation from the Galveston military and citizens on the occasion of tneir wish a few days ago, to the Galveston pic-nie for the benefit o' t'ie Bay-land Orphan's Home.

JUDGE SIERRINING, editor of the German Freis Press of this city, informs the St. is Globe Democrat, that the Texas del-tion to the Cincinnati Convention will Minine. The St. Louis paper says that this vote will secure Mr. Blaine's nominaon on the first ballot. Should this not scear, we think the Texas delegates will very likely wate for Mr. Cookling.

The Poutentiery topuble in the Legis- the magnitude of which can not be cetiture is growing to huge proportions. it is the sense of the House that the publie safety and interests require a termina-tion of the lease of the penitentiary and its resumption by the State. The Governor has decided to remove Campbell from the Inspectorship and appoint White, who is now Deputy Inspector. This is sonsidered a trimmple for the lessees.

Fon the first time in a long political story, the Southern States are contending for the retention of a protective tariff. na, South-Carolina, Texas and all regions in the South where sugar and rice are staple products, are fighting treaty, which would permit the introducof those articles into our country free of duty. These portions of the South ve found out at length that there is a totake as to the man whose ox was roads, and which is to be extended to the ced, just as the man did we read of in. me spelling-books. And when whole Bouth becomes wise and entersing enough to manufacture our own ol, cotton, leather, iron, and wood, thus publing our agricultural wealth, the west from the City of Mexico, under conof a tariff incidentally protecting Amerian industries, will be understood for the first time in the South, and there will be an end of the senseless free trade clamor

charges against him is acceptable to the majority of his friends. The fact that he is continually compelled to make these explanations is having the effect ate a sympathy in his favor as the victim of persecution. At the same time there are those among the most devoted friends of the Republican cause who believe it rould be bad policy to a question of time. Their importance is mominate any man for the high office to se obtions that no system of transporta-which Mr. Blaine aspites whose record tion is complete without them. presents so many points of attack. This class advances the argument that the eampaign should be conducted aggres-sively by the Republicans from the out-set, and that the time of their stump set, and that the time of their stump

apeakers should not be consumed in defending any man's record. There is a
cold-heartedness about this arguments. es about this argument because it shows an inclination to abandon an innocent man to the merciless

man referred to stated that he had talked or times in Eastern Texas. The present with Masers. Evans, Thompson and others organization has good men in it, but organization has good men in it, but others and business men of Caero, others join it to have protection in acts of revenge. The country must have protection by the State government or anarchy will result. Large bands had traversed the country, numbering from Hage od, which would easile him to switch his case ente and set the latter, or naite with Coi, Pierce in pushing through his read. It has been the moderateables for some time with the Onero people that torgan conditions with the Onero people that torgan conditions with the impression that it would be to branch his line of to Harward hat this deed not come to be the purpose of Reegas in suspending the runting of his area, which certainly would not advance such as cal. The personning of the gastlebase whom we converted with it that Morgan and Pierce are perfecting arrangements to labor together. We shall know more about the matter before the these of the present week.

We cannot understand what Hon, John H. Reagan says below to reference to the Texas Pacific railroad, so-called, nor can we understand the Galveston News in reproducing his views in outline in its editorial columns. The views of Mr. Reagan are given in response to a circular from an officer of United States engineers who contemplates the compilation of statistics, preparation of a large map, etc , showing lines of national and international transportation, open or projected, to be used during the Centennial Exposition.

We do not object to Mr. Reagan's yiews particularly when he says that the shortest and cheapest route from ocean to benefit to the people of the Mississippi Valley, those bordering on the Gulf of Mexico, and theze berdering on the Atlantic and Pacific coasts—a route which will command the travel and traffic between Europe and Asia across the continent of America—is from Galveston to San Diego, being about two-fifths of the distance from San Diego to New York. A fullroad along this line would encounter other that can be suggested. It would not be liable to obstruction from spow during the winter, and will meet the great commercial necessity of the times—wheap, the great markets of Europe, the East,

around the Cape of Good Hope. In connection with a railroad across the continent on the line suggested, the great water route across the peninsula of Pionide to the most eligible harbor of the Gulf of Mexico, is worthy of consideration. Such a connection would greatly shorten the distance between the month of the Mississippi to all the Atlantic ports and Europe, and the centr and it de on the Pacific, as well as the commerce between Europe and Asia. A survey of this route has been ordered by the government, and

and America. This road will bring the

But we do object decidedly when Mr. Reagan, as summarized by the News, says that the Texas and Pacific tailroad, of which some two hundred miles are already built, with its contemplated branches, will give the desired shortest connection between San Diego and Galveston, and accommodate many of the great interests. which only require a reliable and cheap

Everybody knows that the solexes and Pacific railroad instead of running on the shortest line between San Diego and Galveston, runs on the shortest line between San Diego and St. Louis and Philadelphia. Mr. Reagan is an attorney of the read named, and this may account for the obliquity of his mental vision. The shortest line between gan Diego and Galveston is via El Paso and San Antonio and not by Fort Worth and Dallas. The rest of Mr. Reagan's Tom Scott

brief for the defense of his scheme before Congress and the world, "and the rest of mankind" in the Texas Legislature, is not so bud. He says that the Interna-tional railroad-over two hundred miles of which are in operation-extending from meters to southwestern Texas, six hundred miles or more, having connecroute first named between San Diego and Galveston, is worthy of special consideration. It is understood that this road is now under contract for some distance pushing on to meet the International, which has the promise of a liberal subsidy from the government of Mexico.

This route, when completed, will become

one of the great transportation lines of the continent, passing, as it will, through a domparatively populous country, with wealth. By this road the productions of the United States will reach Mexico, and the coffee, sugar, cotton, tropical fruits and precious metals of Mexico will reach the markets of the United States.

Bennett arrested one or two su appropriation made to defray the ex of the parties, and succeeded in restoring order. The affair created much excitement in Harrisdurg.

A man named Reynolds was killed by his brother-in-law, Sam Harding, at Wheelock, a few days ago. It seems that Reynolds, while under the influence of liquor, whipped his own father and then his mother-in-law; whereupon Harding shot him. Harding gave himself up to the authorities, and was released under a two hundred dollar.

At Dallas on the night of the 1st, four negroes effected an entrance into the residence of J. C. McConnell, and made off with a trunk which they rifled of its contents and left on the street. Capt. Morton, City Marshal, being informed of the burglary, pursued and exchanged several abots with them, without harm to either, as fir as known. The negroes escaped for the night, but two were arrested the next day on suspicion.

FACTS BY WHICH DECIDE.

In those spacious but insignificant advertisements of C. Pratt & Co., they endeavor to convince the public that our STAR OIL and PEERLESS are identically the same, which they know, even better than we could ever attempt to convince them, IS NOT THE CASE. Peerlest is by no means one of the infarior grades of oil; it is in every respect equal and fully up to the actual standard (not the advocated) of Astral, and is like the latter 12 degrees below the burning soint of our STAR OIL. Now we propose to Furnish the Peerless, guaranteed equivalent in every respect to Astral, at One Dollar a case less than our STAR OIL, which we sell at the price of Astral, atthough our STAR OIL is 12 degrees better, because when the preference of the consuming public.
