THE PLATFORM The report opened with congratulations on the part of the Republican party siscs, noder Providence, it was called to purge the country from slavery and to establish a government of the people and for the people. It declared that the United States is a Nation and not a mere league of States, and the Republican party is the defander of popular government. It proceeded to state in detail the duties of the purty, in the protection of our citizens overywhere, to make steady progress to specie payment. Senators and Represen-tatives should not dictate appointments. specie payment. Senators and Represen-tatives should not dictate appointments. Recommendations of constitutional au-andment schines appropriations for schools ander cectarian central. [Great applause] The latter was re-read in response to food only, and the cheers were renewed.

It restlies our opposition to further graph of land, for railroad purposes; asserte the daty to prefere timigration, suggested a very moderate resolution relative to an inquiry into the effect of Mon-

going immigration, on moral and politi-cal grounds, favored the respectful con-sideration of women's claims to partici-pate in the government; re-affirms the duty of suppressing polygamy. Duty to the sold erade recognized. It deprecates sectional strife, and arraigns the Design tional strife, and arraigns the Democratic party as the same in character
and spirit as when it sympathized
with and was allied to treason, and declared it as being unworthy and incapable.
President Grant deserves the gratitude
of the people for his herojem and services.
The question was next stated to be on
the financial question. The Committee
on resolutions reported as a substitute a
resolution declaring distinctly that there
shall be no further postponement of
specie resumption beyond the date fixed
by law. He thought the resolution of the
Committee too indefinite, and ineffect

ment. There is mystery about the deep-ping of ellers from the coinage years ago, and there is mystery about the question of putting it into circulation again. The lovernment is in great need of coin in order to resume specie payment, that we may once more have honest mone; and that we may be redeemed from the curse ey. We have the most productive silver

mines in the world, we have access to the valuable silver mines of Mexico, and by proper legislation the silver of the nations of Europe, where it has been demonstized, will drift to this country. It would seem that this would he a grand opportunity for our Government to accumulate a large portion of the coin so much peeded to reaume specie payment and bring currency to par. And yot we find a world of opposition to the restoration of silver to circu-

The demand for It was and is overwhelming, there is plenty of it in possession or reach of the seems very strange when we remember that the proportion of coin to currency last the government pared with the proportion in circulation before the war. Then, when coin, silver included, was no pleatiful, we heard nothing of the depreciation of silver. Now, tin let ue hear something in relation to when the edge, silver included, is gaseacce, the proposition made a year or two since paratively valueless. Moreover, throughit depresents to below the value of our and Westerey, though its circulation were as large living!

It acems to us that this whole mutter of money has fallen into the hands of specalators, who seek to manage and manipulate the whole legislation of the country in the interest of their own craft. They are the men who, after the currency had appreciated to 1.10, kept it from rising to par. When the confidence of the financial world had become so strong in the solfency and honor of the Government as to cause currency to appreciate from 1.50 to 1.10, there is not a philosophical reason on eacth that can be given why it should not have risen to par. It would have risen to par at that very time had not the legislation of the country been, to a large extent, under the control of the men whose sole business it is to tends in the fluctuations of prices, both of money and

By this monatons iniquity the people have been for twenty-three years rothed of the right to pay public and private debta in silver dollars, worth from 2 to 6 cents more than the gold legal-tender dollar. And yet this is fondly called a free country. That the peop quietly submitted to this wrong during all theyears when the silver dollar was worth 1.05, and was not to be had at any price, is a striking instance of the subjection of people to law in a popular government. Most forethly does the Commercial amplify this wrong:

FACTS BY WHICH DECIDE.

In those spacious but insignificant advertisements of C. Pratt & Co., they en deavor to convince the public that our STAR OIL and PERLESS are identically the same, which they know, even better than we could ever attempt to convince them, is not the Case. Powless is by no means one of the inferior grades of oil; it is in every respect equal and fully up to the actual standard (not the advocated) of Astral, and is like the latter 12 degress below the burning point of our STAR OIL. Naw we propose to Furnish the Poerless, guaranteed equivalent in every respect to Astral, at One Dollar a case less than our STAR OIL, which we sell at the price of Astral, although our STAR OIL is 12 degrees better, hence safer, and consequently has the preference of the consuming public.

Our, certificates, formarly published, (originals of which can be seen at ou office) from our local, disinterested chemists, Messre. Geo. H. Kaiteyer, A. Nette at d. E. Dreiss, who tested both oils, and declare our Star Oil

by 12 degrees better than Astral.

In Addition to the certificate alluded to, we herewith annex a certificate from Chemist Theo. Odet.

Certificate.

At your request, I have tested the samples of Star Oil taken from the store of George Dulling, and find the flashing point at one hundred and thirty-three (133) degrees Fahrenheit, the burning point at one hundred and foray-four (144) degrees Fahrenheit. Astral oil, taken from the store of E. Ketula & Co., the flashing point at one hundred and twenty-one (121) degrees, and the burning point at one hundred and thirty-two degrees Fahrenheit. I am of the opinion that the Star Oil is by all menus the best and as fast oil.

PRIDAY MORNING, June 16th, 1876. LEGISLATURE SCENES.

In the Senate, on Saturday last, in the debate on the homestead question, Mr. Brady said this hydraheaded monster had been endeav oring for several days to crush out the rights of the widow and orphan. Though crushed several times by vote of the Senate, it has again raised its mangled head in the form of the Senator from Cald-

well. Mr. Storey hurled back the insinuation in his teeth, and told him that the only hydra-headed mounter he had seen drew his slimy folds from Buffalo Bayou, and seated himself in senstorial garb in the seat

of the Senutor from Harria.

A long personal controversy en-sued, in which Mr. Brady referred to shysters all over the State, some in Caldwell county, perhaps, disappointed in collecting claims on

dead men's estates.

Mr. Storey replied and, after other speaking had intervened, Mr. Brady apologized to Mr. Storey and the Senate in a handsome manner. Strangers in the Senate Chamber applanted.
