WITTE SLAVERY.

I recently met a lady who told me aome of the hardships of the d'anting flareau of the Treasury Department. That bureau is just under the roof of the building. These warn sultry days, the heat is overgowering. At the close of the day's work a printed pheet was missing. As money, it was valueless, and therefore aculd not have been stolen. Five hundred employes were kept untill 7 o'clock in the evening without food, and nearly stifled, until the missing sheet was found where it was not lost. There was fear and consternation in many families that long, hot afternoon, for those who had been definited three hours had families dependent upon them, and could not been detained three hours had families dependent upon them, and could not know what had happened. If any are sick or a memous tate in reporting in the morning, even after such an occurrence, their pay is deducted. WE have received a circular announcing that there will shortly be published in Chicago a newspaper to be termed the "Im perialist." It will oppose universal huffrage, communism, and trades unions, regard Republican government as a failure, advocate a restriction of the ballot to property holders, have no mercy on the Molly Maguires, and, finally, it will propose the abrogation of the Presiden-Empire, with a responsible ministry. The man who can run a newspaper in Ameriea advocating measures so adverse to the common sentiments of the country, certainly has more thock than brains.

In those spacious but insignificant advertisements of C. Pratt & Co., they endeavor to convince the public that our STAR OIL and PEERLESS are identically the same, which they know, even better than we could ever attempt to convince them, is not the Case. Peerless is by no means one of the inferior grades of oil; it is in every respect equal and fully up to the actual standard (not the advocated) of Asiral, and is like the latter 12 degrees below the burning point of our STAR OIL. Now we propose to Furnish the Peerless, guaranteed equivalent in every respect to Asiral, at One Poliar a case loss than our STAR Oils, which we see at the price of Asiral, at lithough our STAR OIL is 12 degrees better, hence safer, and consequently has the preference of the command public.
