Freak Accident Injures Four Monday Night

A freakish set of events Monday night, beginning shortly after 9 p.m., resulted in eventual injuries to four persons, only two of them directly connected to the first accident, which involved a bicycle and a pedestrian.

In the first activity, the Bailey County Law Enforcement Center received a call asking for an ambulance because a child in a bicycle had been run over. Ambulance attendants from Singleton-Ellis Funeral Home found 10 year old Andy Olivarez and eight year old Ramona Aurillo both injured. They were taken to West Plains Medical Center, along with Mrs. Mary Hodges. Andy, riding the bicycle, struck the Aurillo girl. He received a broken shoulder and Ramona had a deep gash in her leg. Mrs. Hodges, who had been released from the hospital on Sunday following surgery, saw the accident happen and when she saw the blood, fainted. And, Journal photographer Cleta Williams, twisted her foot, spraining it and ended up on crutches.

Around Muleshoe

The Lazbuddie Young Homemakers still have a few pecans available and they will be sold for \$3.25 per pound. To reserve your pecan halves for holiday baking, contact Mrs. Harrol Redwind at 965-2247 or Mrs. Kirby Burch at 965-2717.

Mrs. A.G. 'Toots' Taylor is undergoing treatment at Methodist Hospital in Lubbock and is in room 341.

She would appreciate cards, letters and visits from her friends during her hospitalization. *con't on page 6 col 1*

Farmer County Farm Bureau Plans Meeting

Members of the Farmer County Farm Bureau will attend their annual meeting Saturday, September 15, at the Friona Community Center/Showbar. All members of the Farm Bureau and their wives are asked to attend. Refreshments will be served and five members will be elected to the board of directors.

Also planned will be a policy-making session, and resolutions will be adopted to forward to the Farm Bureau's state and national organizations.

Directors whose terms are expiring include Harry Hamilton, Clarence Monroe and Larry Potts, Friona area; John Dixon, Bovina area; Don Gerles, Farwell area and Frank Hinkson II, Lazbuddie area.

Holdover directors are Leland Gustin and Floyd Schueler, Friona area; Hugo Falkenberg and Leroy Mayfield, Bovina area; Donald Watkins, Farwell area and Preston Cargile, Lazbuddie area.

THE REAL CULPRIT--Monday night, a series of freakish events started with this bicycle and its rider, and ended up with injuries. Andy Olivarez, 10, was riding this bicycle when he struck a young pedestrian, Ramona Murillo, about eight. He received a broken collarbone and she received a deep laceration to her leg and possible concussion.

Mules-Whirlwinds Set Friday Clash Here

What's black and white and green all over, the field, that is? It's a green and white invasion of Whirlwinds, who hope to come to Muleshoe Friday night, and possibly take home the elusive win they failed to get when the Mules traveled to Floydada last fall. In a shocking upset last year, the Mules bested the Floydada 'Winds on their home field, holding them scoreless in the first half while racking up 21 points. In the second the Mules made another six points and the 'Winds scored, with the game ending up, 27-7.

So-o-o-o, just look out this year. The 'Winds head football coach L.G. Wilson

Youth Disco Slated Friday After Football

Muleshoe Area Youth Activities Committee Inc. will sponsor a youth disco Friday night, September 14, following the Muleshoe-Floydada football game in Muleshoe.

The dance, featuring disco sounds by a Lubbock musical group will get underway at 10 p.m. and will conclude at 1 a.m. All area youth are invited to attend the disco. Tickets will be \$2 for singles and \$3 for couples.

If the Friday night disco is successful, other discos will be scheduled to follow home football games in Muleshoe.

Junior Varsity To Play 'Horns Here Tonight

Thursday, at 8 p.m., the Muleshoe Junior Varsity team will take on the neighboring Lazbuddie Longhorns.

Gametime will be 8 p.m. at Benny Douglass Stadium in Muleshoe.

For good football action, and the opportunity to see two almost home teams in action, be at the football stadium Thursday evening.

said Tuesday morning, that the 'Winds will not be looking for revenge, as they feel that each year is a new year, but commented, "You can't keep that out of the back of your mind, though."

Ettie Jesko Wins First In Contest

Had anyone guessed that James Roy Jones is back in town? If there was any doubt in your mind, the first merchant's football contest for 1979 should dispel that doubt.

Always a strong contender before he moved to Amarillo a couple of years ago, the longtime prognosticator is right up near the top in the first contest for this year.

He wasn't first, that honor went to Ettie Jesko, wife of Pete Jesko of the Lazbuddie community. All the Jesko family faithfully enter the contest each week during the season. Mrs. Jesko missed four games, Colorado-Oregon; the San Jose St.-Utah State tie; North Carolina St.-East Carolina and the Texas A&M-Brigham Young game. She was also 21 points away on the combined tiebreaker.

Mrs. Jesko won \$5 and 10 points toward the grand prize at the end of the season.

James Roy Jones was in second place, being barely edged on the tiebreaker scores. He had four wrong guesses and was 26 points away on the tiebreaker. James Roy missed exactly the same games as Mrs. Jesko.

In third place, also with four wrong guesses, his wrong one other than the same missed by Jones and Jesko was Roque Flores, who missed the New Mexico-Drake game instead of the North Carolina State-East Carolina game.

At this time, another reminder must be issued that in order for the entry to be considered, the tiebreaker scores must be put on the entry blank. An entry that does not show points: 7-6; 21-10, etc. will *con't on page 6 col 1*

Naturally, said the coach, they are looking for a win when they visit Muleshoe for the first time, adding, "We're looking forward to this one."

Coach Wilson said the 'Winds are in pretty good shape and did not attempt to gloat over the 'Winds 40-6 shellacking of the Dimmitt Bobcats for season openers. "We just got started rolling," he said, "and everything just pulled together."

The coach said that except for normal bruises and stiffness, his players are ready for the game, including Mac Collins, who rushed for 131 yards in the game, and scored two touchdowns against Dimmitt. They also scored two touchdowns by passes from quarterback Troy Marques. One was a 62-yarder from Marques to Tracy Womack and a 26 yarder to Danny Nutt. Also scoring was Ludie Younger.

For Muleshoe, both Marvin Lewis and Dennis Watson will be doubtful starters, says Athletic Director and head football coach, Mike Wartes. He said they prefer to hold them out so they will be in good shape before district action begins. *con't on page 6 col 1*

Annual Fish Fry Scheduled Friday By Lions Club

This week, for the first pre-game meal at the Muleshoe High School cafeteria, the Muleshoe Lions Club will be serving their annual fish fry.

Serving will begin at 6 p.m. and conclude at 7:30 p.m. in the Muleshoe High School cafeteria. Tickets will be \$3 for adults and \$2.50 for children under the age of 12.

Lion President Dr. Jerry Redwine promises a generous serving of fish, with pinto beans, French fries, cole slaw, cornbread, cherry cobbler and ice tea or coffee.

The popular fish fry is sponsored each year by the Lions Club.

School Will Not Accept Illegal Alien Students

Would Be Supported
By Local Taxpayers
**Punt, Pass & Kick
Clinic Is Slated**

Youngsters who have registered for the local Punt, Pass and Kick competition to be held Saturday, September 29 will have a chance to tune up their skills at a special practice session to be held Saturday, September 22 at the new city park behind Radio Station KMUL.

"Our PP&K clinic will begin at 9 a.m. and will end at 11 a.m.," said Terry Gunter, president of the Muleshoe Jaycees, who are co-sponsoring the PP&K competition. "The purpose for the clinic is to familiarize the youngsters with the competition procedure and provide help

4-H Fair Scheduled Saturday

The Bailey County 4-H Fair is scheduled for Saturday, September 15, at the Bailey County Civic Center and Coliseum. To obtain exhibit numbers, exhibitors are asked to contact Donna Shaw. Bookkeepers will be Bobbie Harrison and Letha Wheeler.

The Bailey County Extension office said exhibits will be accepted between 8-10 a.m. and entries will not be accepted after 10 a.m. Exhibitors will not be allowed in the building during judging, explained Jim Irwin, assistant county agent. Immediately following the 3:30 p.m. awards presentation, baked goods and garden products will be sold at auction to the highest bidder. A bid may be left with the officials before the auction, but Irwin explained that this will not guarantee a purchase of the item since the product may receive a higher bid during the sale.

Irwin suggested that all boys and girls, who are 4-H members, bake something for the auction. He added that any 4-H member is eligible to exhibit his or her work and said the agricultural and horticultural products must be grown in the exhibitor's own garden, farm or yard during 1979. All other exhibits must not have been entered in previous Bailey County 4-H fairs.

The Bailey County Extension office has issued an invitation to the public to view the entries from 1-5 p.m. and said the proceeds from the auction of baked goods and garden products will be used to support 4-H activities in Bailey County.

For further information or a fair catalog, call 272-4559 or visit the County Extension office in the Bailey County courthouse.

from the football coaches on punting, passing and kicking."

Gunter added, "We're fortunate to have Mike Wartes as our clinic director. Throughout his years of experience in athletics, Coach Wartes has made football his specialty and has devoted much of his time working with young players."

"In addition to Coach Wartes, we'll also have a number of able assistants," added Robert Hooten of Muleshoe Motor Company, the other sponsor of the annual competition.

Hooten noted that registration for Punt, Pass and Kick is still open to all youngsters eight through 13 years of age. All that is required is that the youngster come into Muleshoe Motor Co. showroom with either a parent or guardian and sign up for PP&K. *con't on page 6, col 3*

Congressman Asking Reduction For Loans

U.S. Rep. Kent Hance has written Secretary of Agriculture Bob Bergland to request a 20 percent reduction of outstanding loans held by farmers who suffered the most damage from the recent hailstorms in Texas.

The Congressman asked for the special consideration for those farmers who suffered at least a 70 percent loss of crops expected to be harvested this fall.

"We have some farmers who will be wiped out because of the severity of this disaster," said Hance. "Many will simply go out of business, but hopefully, this action could make the difference that many farmers need to continue farming."

In addition to the request

During the Monday night meeting of the Board of Trustees of the Muleshoe Independent School District, board members re-affirmed and chose again to follow a ruling of the Texas Education Agency.

According to the Texas Education Agency, the children of illegal alien parents are ineligible students and the board voted to continue the rule to not accept the children in the Muleshoe Schools.

Board members explained that no state funds are granted for the education of these students, as determined by a decision of the State Supreme Court.

If such students were accepted in the Muleshoe Schools, the local district, the school taxpayers, would be responsible for the funds to educate them.

Jim Shafer and Ernest Ramm, members of the Muleshoe Independent School District were appointed to the Board of Directors, Bailey County Tax Appraisal District and

the school approved two resolutions concerning formation of the new district as mandated by a new law in the state of Texas.

Board members also reviewed the current collection report and heard the audit on the School-City tax office for the fiscal year, July 1, 1978-June 30, 1979. The audit report was presented by Creston *con't on page 6, col 4*

YAC Relinquishes

Scheduled Disco

To Carnival Night

During a meeting Monday night of the Muleshoe Area Youth Activities Committee Inc., treasurer Joyce Holmes reported that to date, YAC has spent \$4,317.31 on construction at the miniature golf course adjacent to the Bailey County Exhibition Center and Coliseum.

In a unique process, YAC is constructing as funds become available, and only current charge accounts are owed by the organization.

It was determined that with completion of the fence surrounding the site, the lights will be hooked up this week, and some night construction will get underway.

Immediate plans are to construct a concrete slab for the ticket/concession restroom area of the golf course, and this will be followed by construction of the golf holes.

YAC also agreed to give up the disco scheduled for October 27, to the Muleshoe Fine Arts Booster Club. Vice President Wayne Holmes explained that although YAC was formed to help youths, the Fine Arts Boosters are also a youth-orientated organization. Terry Bouchelle attended the meeting and expressed his appreciation to YAC for relinquishing October 27 for the Fine Arts Boosters to conduct the annual Halloween Carnival.

ALL WRAPPED UP IN HIS WORK--Victor Leal (No. 55) puts the 'big stop' on a Portales runner in football action at Portales last Friday night as Terry Burton No. 43 comes up from behind to see if he can help. Despite good defensive action, Portales won the game, 7-2.

Cotton Today

DUST RESEARCH STRESSED: A plan for increased funding of cotton dust research was outlined to National Cotton Council directors at their meeting in Little Rock this week. Dr. Phillip J. Wakelyn, staff manager of safety and health technology, said an intensive short-term research effort is needed to eliminate the source of byssinosis.
 He outlined a program calling for \$4 million to \$6.5 million over and above current expenditures. Dr. Wakelyn said, "There is every reason to believe that a crash

research effort over 18 to 24 months would identify a practical means of eliminating or deactivating the causative agent."
 Directors also were brought up to date on: farm fuel supplies -- tight and expensive; cotton economy -- sagging in recession but still bright because of consumer demand for denim, corduroy, and other textile favorites; and exports of U.S. cotton -- going strong. Other reports covered legislative developments concerning the reclamation law and crop insurance, clean air regulations, and the Council's campaign for regulatory reform.
OFFICIAL OPENING SET: Cotton Council Int-

ernational President Fred Deans announced this week that CCI's Hong Kong office will officially open Oct. 9. "Having a base for operations in the Far East demonstrates our commitment to improved service and future development in these important U.S. cotton markets," he said. The Memphis merchant pointed out that the Far East is U.S. cotton's major overseas market and the potential for increasing U.S. market share make the Hong Kong office a top priority for CCI. In 1978-79, the U.S. shipped more than 5 million bales to the Far East. This represents almost half of the cotton imported by these

countries.
 John Maguire, director of the new office, said personal contacts will be maintained from Hong Kong with textile leaders and government officials throughout Asia. "By locating here, we can concentrate on even better service to maintain this highly competitive market for U.S. cotton," he said.
EXPORTS REPORTED: New cotton export sales of 96,700 running bales were reported for the week ended Aug. 26. Chief buyers were China -- 25,300; Japan -- 12,300; Zaire -- 9,600; and Israel -- 8,800. The sales brought total commitments thus far to 4,049,100, or 70% of USDA's projection of

5,700,000 for the season.
AND COTTON YESTERDAY: In 1849, Texas was producing a little over 58,000 bales of cotton. By 1920, however, about one-fifth of the world's cotton was Texas-grown.
Use of pesticides widespread in cities
COLLEGE STATION — For years farmers have taken the blame for pushing chemical farming to the extreme, but Dr. Ted Granovsky, a Texas A&M University urban entomologist, says at least 25 percent of the pesticides in the United States are applied in urban areas.
 Living in an urban environment does not protect you from insects or insecticides. Granovsky says that common urban insect pests in Texas include: termites, cockroaches, fleas, ticks, white grubs, and chinch bugs.

TWDR Named Member New Oil Spill Team

The Texas Department of Water Resources (TDWR) in mid-July was named principal state agency member of the oil spill Regional Response Team by Governor William P. Clements, Jr., to represent the governor and all state government agencies in responding to oil and hazardous waste spills.

The governor's Division of Disaster Emergency Services based with the State Department of Public Safety was named the alternate member of the RRT.

Consequently, since late July, the TDWR has had several staff members working for state government, with the Coast Guard on-scene-coordinator on the Mexican oil spill. Another staff member is the public information officer who represents the State of Texas in the RRT press center in Corpus Christi. Additionally, one or more TDWR persons from the Weslaco and Corpus Christi field offices are assisting Coast Guard representatives at their command posts in Port Isabel and Port Aransas with the clean-up operations.

Late in July, the TDWR developed and presented to the on-scene-coordinator a "first cut" strategy for protecting the bays up to the Colorado River and later in August prepared a like strategy plan for the remainder of the Texas coast. These plans had earlier been coordinated with other state agencies and the governor's DES unit. This strategy has been refined by the Coast Guard strike teams and their consultants and

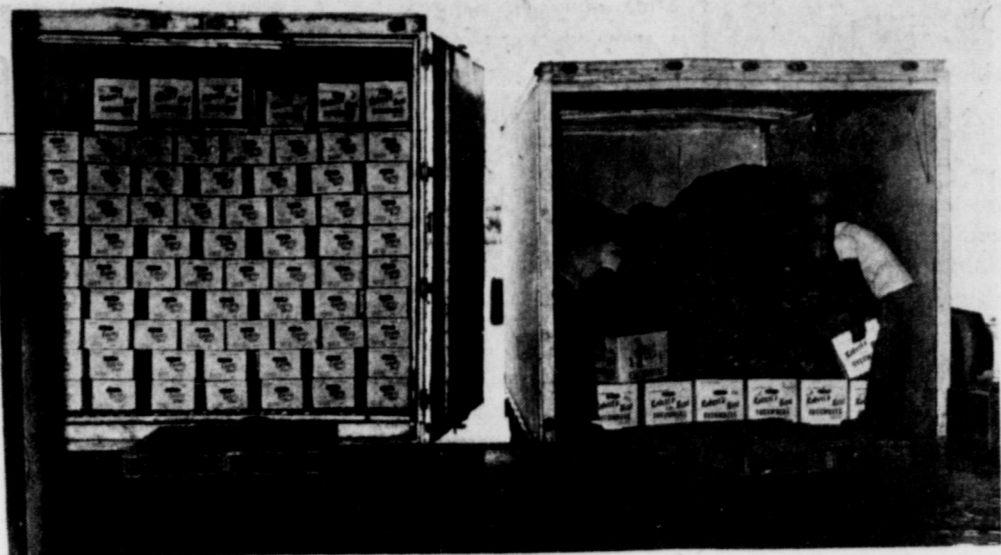

placed into effect. Principal State of Texas agencies involved with the TDWR on a daily basis to assist the federal agencies in the oil spill cleanup and containment are: the State Department of Highways and Public Transportation; Texas Department of Health; Texas Railroad Commission; the General Land Office; the Texas Parks and Wildlife Department, and Texas Air Control Board.

In addition, assistance has been given by the State Attorney General's office as well as the governor's staff and by the Texas Legislature through the offices of the lieutenant governor and the speaker of the house.

A brief description of each state agency's functions follows: Disaster Emergency Services--While serving as alternate member of the RRT, this office has interfaced with all political entities in explaining the disaster declaration program and/or the Small Business Administration's low interest, long-term loans for coastal businesses impacted by the Mexican oil spill.

Texas Highways and Public Transportation--This agency is under contract with the TDWR to provide men and equipment for constructing temporary roads, temporary disposal sites, beach cleanup, fish pass closings, and other services attendant to the use of their expertise and equipment.

Texas Department of Health--This agency is making background surveys of food fish inside the

LOADING OUT VEGETABLES--Cabbage, cucumbers and peppers are loaded in the large trucks shown here backed up to the loading docks at Robert Ruiz Inc. near Muleshoe. Despite recent heavy hailstorms and damage in the area, the vegetable harvest continues in Muleshoe.

Laguna Madre so as to establish a baseline to work from should oil impact the nursery and feeding grounds behind the Padre Island natural barriers. They also are working with the Federal Food and Drug Administration and National Marine Fisheries in order to sample shrimp and oyster catches to prevent any oiled food fish from entering normal trade channels.

Texas Parks and Wildlife Department--Coordination with federal fish and wildlife agencies is provided by this agency concerning oiled bird cleanup, interaction with other state agencies such as the TDWR when dredging and filling operations are contemplated, and liaison work with other private and/or political entities involved with fish and wildlife resources.

Texas Railroad Commission--This agency regulates the oil and gas industry in Texas and as such assists the TDWR and the Coast Guard when assistance is needed from commercial oil companies engaged in offshore production. The regional

office in Corpus Christi has provided counsel, advice and personnel to assist the scientific team in locating and gaining permission from oil companies for the installation of solar powered portable weather data gathering apparatus to complement the regular National Weather Service work. They also have assisted in interfacing with oil companies for storage tanks to be used for temporary storage of oily wastes taken from the beach areas.

General Land Office--Personnel from this agency have been made available to provide information on public lands along the coast which might be used as temporary storage areas for oily wastes. The GLO state commissioner also has coordinated the requests from the on-scene-coordinator for cooperation from two privately owned islands near Corpus Christi.

State Attorney General's Office--Legal counsel has been provided the on-scene-coordinator as needed. Texas Department of Water Resources--In addition

to the functions mentioned previously, TDWR personnel have been responsible for locating, with the assistance of other agencies, solid waste disposal sites, both temporary and permanent. Also, much time has been devoted by TDWR staff on scene, in regional offices and in Austin in securing equipment, either state-owned or private for lease and/or loan to be used by the Gulf Strike team personnel.

In addition, several TDWR personnel are serving as aerial observers at the request of the OSC.

India's party brings down India's government.

Letters To The Editor

Muleshoe Journal
304 West Second Street
Muleshoe, Texas 79347

Dear Editor:

Until two weeks ago I have been a member of the silent majority. This change occurred when I was visited in my office by two members of the LaCasa Buenas Salud. They told me of a new government financed health program for the migrant workers and their families. This program is totally financed by tax money. I cannot understand how this non-citizen minority can obtain our tax money for this project when a large percentage of the working American population cannot afford medical care or medical insurance. It is not fair! Where are our equal rights? We as citizens are apparently not receiving all the benefits of living in the United States as shown by the migrant programs. This health program for the migrants is only a small portion of the problem.

In the Muleshoe School System, our government

has required the hiring of over 17 teachers and personnel for just the immigrant educational program. This apparently costing us, as taxpayers, over \$170,600 per year. Migrant students cannot be in a class with more than 8 students per teacher, or 15 students per teacher and aide. Also, if needed, the migrant student has the right for a certified teacher for his/her personal tutor in any subject. In addition, the school is required to have a special bilingual through grades 1-6 in a self contained classroom for students who have been tested and cannot work competently in the English language.

Where are my family's equal rights? My son sits in a class of 25-30 students with no private tutor. My child has no bilingual studies.

Migrant students receive free breakfasts and lunches - my child does not. Some teachers told me that they see free lunch students dispose of their lunch before they even taste it, and walk across the street and pay money for a hamburger, etc., for lunch.

If I move to Mexico, as a migrant worker, do you

think the Mexican Government will feed my children, provide free medical care, and supply English speaking teachers for my children?

I feel that if migrants come to our country to work, they should be prepared to function in our society through the Mexican government or their employers.

I also feel that we can best serve people from other countries by teaching them to be productive in their own areas. This can be done through missionaries, work groups from the United States, Peace Corps, and the development of vocational programs in their countries.

If a non-citizen minority can be heard in Washington-surely we, as a majority can be heard also. We, as a majority, need to get off our rears and be heard! Write your Congressman! Now!

Respectfully,
G.R. Albertson, D.O.

NO INFLATION RELIEF
The cost of energy products pushed wholesale prices up 1.1 percent in July, dimming the nation's hopes for relief from inflation in the coming months, the government said. The rise in the Producer Price Index in July was more than double the 0.5 percent increase of the previous month.

PUBLIC NOTICE
BRIEF EXPLANATORY STATEMENTS OF PROPOSED
CONSTITUTIONAL AMENDMENTS
SPECIAL ELECTION
NOVEMBER 6, 1979

PROPOSITION NO. 1 ON THE BALLOT (H.J.R. 108)
House Joint Resolution 108 proposes an amendment to the Texas Constitution relating to the appointment and terms of notaries public. The proposed amendment would:

- Require the Secretary of State to appoint a convenient number of Notaries Public for the state; and
- Authorize terms of office of Notaries Public of not less than two years nor more than four years.

A temporary provision of the proposed constitutional amendment provides that the amendment would take effect January 1, 1980; that each person who was appointed a notary public before January 1, 1980, would continue to serve as a notary public for the term for which the person was appointed; and that this temporary provision would expire January 1, 1982.

The proposed amendment will appear on the ballot as follows:
"The constitutional amendment to provide for the purchase of farm and ranch real estate for a term of not less than two years nor more than four years as provided by law."

PROPOSITION NO. 2 ON THE BALLOT (H.J.R. 133)
House Joint Resolution 133 proposes an amendment to the Texas Constitution to provide for legislative review of the process of rulemaking by agencies in the executive department. The proposed amendment would allow the Legislature to enact laws:

- To provide for legislative review of the process of rulemaking by agencies in the executive department;
- To prescribe conditions for rules to take effect;
- To provide for suspension, repeal, or expiration of rules;
- To prescribe procedures; and
- To delegate powers to either or both houses or to committees of either or both houses.

The proposed amendment will appear on the ballot as follows:

ENMIENDAS CONSTITUCIONALES
PROPUESTAS
ELECCION ESPECIAL
6 DE NOVIEMBRE DE 1979

PROPOSICION NO. 1 EN LA BOLETA (H.J.R. 108)
La Resolución Conjunta #108 de la Cámara de Representantes propone una enmienda en la constitución de Tejas referente al nombramiento y a los plazos de los notarios públicos.

La enmienda propuesta: Requiere que el Secretario de Estado nombre a un número conveniente de notarios públicos para el estado; y autorizará para que los plazos oficiales para notarios públicos sean por no menos de dos años y por no más de cuatro años.

La provisión temporal de la enmienda constitucional propuesta declara que la enmienda entrará en vigor el 1° de enero de 1980; que cada persona que haya sido nombrada como notario público antes del 1° de enero de 1980 continuará ejerciendo como notario público hasta vencerse el plazo por el que fue nombrado; y que esta provisión temporal se vencerá el 1° de enero de 1982.

La enmienda propuesta aparecerá en la boleta como sigue:
"La enmienda constitucional para el nombramiento de notarios públicos para el estado para un plazo de no menos de dos años ni de más de cuatro años, según lo previsto por la ley."

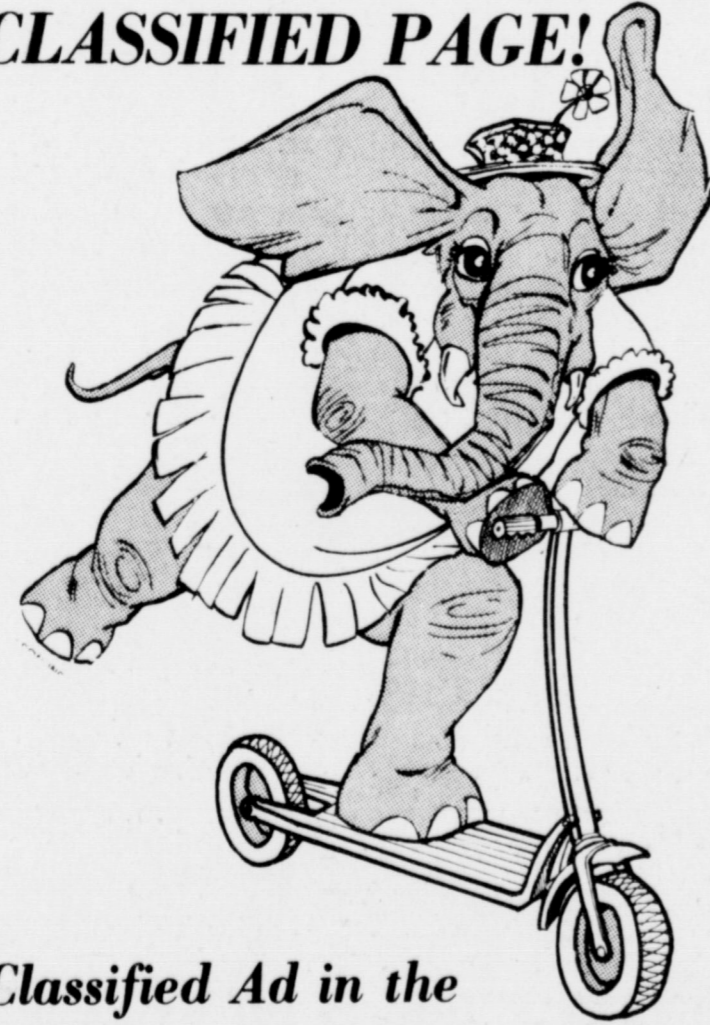

PROPOSICION NO. 2 EN LA BOLETA (H.J.R. 133)
La Resolución Conjunta #133 de la Cámara de Representantes propone una enmienda en la constitución de Tejas para proveer una revisión del proceso reglamentario en las agencias del departamento ejecutivo. Esta enmienda propuesta permitirá a la Legislatura el decretar leyes:

- Para proveer una revisión legislativa del proceso reglamentario en las agencias del departamento ejecutivo;
- Para prescribir condiciones para que las leyes sean puestas en vigor;
- Para suspender, revocar o expirar las reglas;
- Para prescribir procedimientos; y
- Para delegar autoridad a cualquiera o a ambas cámaras, o a los comités de cualquiera o de ambas cámaras.

La enmienda propuesta aparecerá en la boleta como sigue:
"La enmienda constitucional para proveer una revisión legislativa del

JAN HARLIN

Miss Jan Harlin Honored With Lingerie Shower

Jan Harlin, bride elect of Rick Powell, was honored with a lingerie shower on September 10 at 4 p.m. in the home of Mrs. Corkey Biggerstaff.

Judy Biggerstaff and Jill Turner. Mary Furgeson signed the guests in the bride's book.

Cookies and soft drinks were served by Susie Pierce and Sandra Graves. The hostess gift was a black negligee.

Brenda Black and Mary Furgeson were special guests.

The occasion was hosted by Miss Harlin's high school students.

Cecil Davis' Hosted Patio Barbeque

Mr. and Mrs. Cecil Davis entertained in their home with a patio barbeque for several relatives and friends Saturday evening. Those attending were Mr. and Mrs. Waymon Mitchell of Clovis and their three sons, Mr. and Mrs. Davayne Mitchell, Jason and Stephanie of Plain-

view; Mr. and Mrs. Derral Mitchell, Brent and Brian of Melrose, N.M. and Mr. and Mrs. Kevin Mitchell of Portales, N.M. Also attending were a niece, Mrs. Junelle Weigl of Clovis, N.M.; Mrs. Lillian Guess, a sister-in-law of Mrs. Davis from Farwell; and a friend, Mrs. Alma Biss of Farwell.

Local guests were Mrs. Mamie Askew and Mrs. Mary Finley, who have been friends of the family for over 50 years. Mrs. Waymon Mitchell provided a birthday cake for the occasion. Dwayne Mitchell celebrated his 32nd birthday and Mary Finley celebrated her 90th birthday.

Mr. and Mrs. Harlan Dorris and Shelley and Mrs. Collie Campbell were guests Sunday night for the evening meal.

BIBLE VERSE

"And this is life eternal: That they may know thee, the only true God, and Jesus Christ, whom thou has sent."

- Who recorded the above words?
- By whom were they spoken?
- Upon what occasion?

Answers To Bible Verse

- John the Apostle.
- Jesus, himself.
- In his prayer, just before his arrest in the Garden of Gethsemane.

Mrs. Mason Installed As YH President

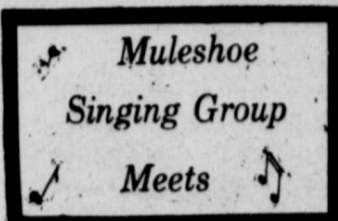

The Lazbuddie Young Homemakers met Thursday, September 6, in the Home Ec room of the Lazbuddie School, to install new officers.

Mrs. Bill Morris, advisor, presided over the installation ceremony. Installed were: Mrs. Darrell Mason, president; Mrs. Rick Seaton, vice-president; Mrs. Dave Engeling, secretary; Mrs. Kirby Burch, reporter; and Mrs. Clay Mimms, historian.

Each new officer lit a candle, symbolizing her office and her pledge to fulfill the duties of that office. They were each presented a red silk carnation.

Mrs. Darrell Mason, president, then presided over the business meeting. Dis-

cussed were plans for the membership tea to be held Thursday, September 13, in the school cafeteria. The tea will be at 2 p.m., and there will be refreshments, a door prize, and a pro-

The Muleshoe Singing Group met in Fellowship Hall of the Trinity Baptist Church Saturday at 7:30 p.m. with 28 present.

The meeting was opened with the theme song, "The Old Country Church".

J.M. Pruitt gave the invocation. Solos, duets, quartets were presented along with congregational singing.

There were four present from Clovis, N.M. including Ralph Miller with his electric guitar.

The benediction was given by Omer Kelton.

BARBECUE SAUCE

- | | |
|-------------------------|-----------------------------------|
| 1/2 C. butter | 1 C. peanut oil |
| 1 lg. onion, grated | 1 (12 oz.) bottle tomato sauce |
| 3 cloves garlic, minced | 1 sm. bottle Worcestershire sauce |
| 3 T. brown sugar | Juice of 1 lemon, strained, |
| 1/4 tsp. red pepper | or to taste |
| 1/2 tsp. dry mustard | Tabasco sauce to taste |

Melt butter in a saucepan over moderate heat, add onion and garlic. Cook until onion is a golden color. Add all the remaining ingredients and simmer 10 minutes. Let stand at least 30 minutes. Use as a baste only in the last few minutes of cooking, then serve either on the side or poured over the finished pork before serving.

BASTING SAUCE

- | | |
|-----------------------|---------------|
| 2 sticks margarine | 1 tsp. salt |
| 1 med. onion, chopped | 1 tsp. pepper |
| 1/4 C. vinegar | |

Melt margarine in saucepan, add onion. Cook until onion is golden color. Add vinegar, salt and pepper. Simmer 10 minutes. Baste pork frequently with sauce while grilling.

Many Human Organs Can Help Others Live

The human body is a storehouse of human tissue valuable for transplantation, medical education, research and therapy. A person willing to donate all or part of his body after death for one of these purposes is making a generous contribution to society.

The American Medical Association frequently is asked: "How can I leave my body to help others?"

Actually, it isn't difficult. The Uniform Anatomical Gift Act now adopted by all 50 states and the District of Columbia provides that any person 18 or over may donate all or part of his body after death for research, transplantation or placement in a tissue bank. The donor's wish may be expressed in a written document, often incorporated into his will. His intent should be made known to friends and relatives who will make certain that his wishes are carried out.

Many individuals carry in wallet or purse a small card which states that the bearer wishes to make an anatomical gift after death. The donation is effective only after death. And the doctor who will handle the donated organ cannot be the one who pronounces death. No money can be exchanged in

making an anatomical donation. Expenses for funeral arrangements and care of the body after removal of tissues and organs are the responsibility of the donor and his family.

Organs and/or bodies are accepted on a need basis. No medical facility is obliged to accept an offered gift. There may be periods in which the local medical school actually has a surplus of bodies for anatomy studies. And at other times there may be an acute shortage.

Kidneys are routinely transplanted in more than 2,000 individuals each year and more could be used if they were available. Corneas of the eye may be transplanted to restore sight in many persons. Many structural tissues, including bone, tendons, heart valves, fibrous tissues that cover the muscles, and cartilage have been transplanted with success. These tissues can be stored until needed.

SPORT SHACKS INC.
Exclusive Franchises now available in Texas. Join the multi-billion dollar sporting goods industries with a Sport Shack Franchise.

Start your business right at your home, part-time, full time, and/or open a Sport Shacks Store.

\$1500 minimum Franchise fee depending on the population of area. Over 600 Sport Shacks Franchise owners in 40 states are part of a system that:

- Doesn't require inventory.

gram on "chalking ceramics" given by Mrs. L.D. Clark of Portales. Anyone interested in joining the Lazbuddie Young Homemakers are urged to attend.

The next order of business was the exchanging of gifts and revealing the secret pals. The door prize a frosted crystal butterfly sculpture, was drawn by

Mrs. Darrell Mason. Refreshments of donuts and coke were served to: Mrs. Lloyd Bradshaw, Casey, and Lori; Mrs. Kirby Burch, Jessica and Keith; Mrs. Jim Collum, Tracy and Christy; Jonathan Wilson; Mrs. Dave Engeling and Heather; Mrs. Skip Magby, Dawnda and Mandy; Mrs. Darrell Mason; Mrs. Clay Mimms

and Blake; Mrs. Bill Morris; Mrs. Harrel Redwine, Susan and Russell; Mrs. Jimmy Dale Seaton and David; Mrs. Rick Seaton; and Mrs. Doyle Weir.

Joseph Patrick Hurtado Jr.

Joseph Patrick Hurtado Jr. was born September 10 at 12:33 p.m. in the West Plains Medical Center to Mr. and Mrs. Joseph Patrick Hurtado of Muleshoe. He weighed six pounds and eight ounces. He has one sister, Monica, age four.

Grandparents are Mr. and Mrs. Leton Grogg of Arizona and Mr. and Mrs. Locario Hurtado of New Mexico. Viola Lucus of Cisco is the great-grandmother.

JoAnn Serna

A daughter was born September 5 at 1:27 p.m. in the West Plains Medical Center to Mr. and Mrs. Francisco Serna of Muleshoe. JoAnn weighed six pounds and ten ounces and is the couple's first child.

Grandparents are Mr. and Mrs. Avelardo Gallagos and Mr. and Mrs. Salome Serna, both of Mexico. Great-grandparents are Mr. and Mrs. Octavir Gallegos and Amelia Serna, all of Mexico.

Vanessa Sanchez

Mr. and Mrs. Jerry Sanchez of Dimmitt are the proud parents of a new baby girl born September 8 at 5:40 a.m. in the West Plains Medical Center. Vanessa weighed seven pounds. She has one sister, Elisa Danet, age one year.

Grandparents are Mr. and Mrs. George Lopez and Mr. and Mrs. Margarito Sanchez, all of Dimmitt.

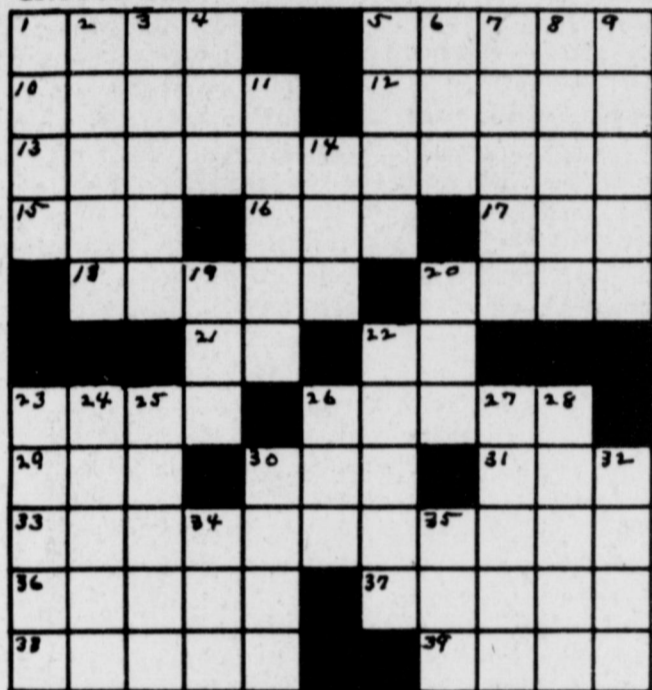

Society Deadlines Set

Weddings must be in the office by Monday noon for the Thursday paper and by Thursday noon for the Sunday paper. Any wedding more than two weeks old must be edited and only the basic information included.

No shower picture will be taken without a 24 hour deadline notice and copy must be in the office by Monday afternoon for the Thursday paper and by Thursday afternoon for the Sunday paper. An honoree's picture will be taken at only one shower.

All club stories for following edition of paper just be in the office by 10 a.m. on Tuesday and Friday preceding next issue of paper.

Answers on page 5

Alcoholism Identified

How can you tell that a regular, heavy drinker has crossed over the line and become an alcoholic, who no longer can control his or her drinking?

The American Medical Association in its Manual on Alcoholism points to some markers to help identify the alcoholic.

1. Increasing consumption of alcohol, with frequent, perhaps unintended, episodes of intoxication.
2. Drinking to handle problems, or relieve symptoms.
3. Obsessive preoccupation with alcohol and the frequent need to have a drink.
4. Surreptitious drinking or gulping of drinks.
5. Tendency toward making alibis and weak excuses for drinking.
6. Refusal to concede what is obviously excessive consumption and expressing annoyance when the subject is mentioned.
7. Frequent absenteeism from the job, especially following weekends and holidays.
8. Repeated changes in jobs, particularly if to successively lower levels, or employment in a capacity beneath ability, education and background.
9. Shabby appearance, poor hygiene, and behavior and social adjustment inconsistent with previous levels or expectations.
10. Persistent vague physical complaints without apparent cause, particularly insomnia, stomach upsets, headaches, loss of appetite.
11. Multiple contacts with the health care system with disorders that are alcohol caused or related.
12. Persistent marital and family problems, perhaps with multiple marriages.

IDA SINA NAIRN COLLINS

Former Resident Honored

Mrs. Ida Collins, a former Pleasant Valley resident, was honored with a party along with Slim Williams at the Knights Rest Home at Littlefield recently.

Mrs. Ida Sewell read the highlights of each honoree's life. She then assisted Mrs. John Adudell in serving the residents ice cream sandwiches.

The corsage and boutonniere were furnished by Chisholm Floral of Littlefield.

Guests were Mrs. Collins' daughter and family, Mr. and Mrs. E.C. Galyon and a grandson, of Littlefield.

Ida Sina Nairn Collins

was the youngest of four children born to Sina and W.G. Nairn on January 20, 1896 in Lubbock county.

She spent her childhood in the same area just east of Lubbock.

She was married to Robert S. Collins in 1921. He died in 1947. They had one daughter who grew up and attended school in the same area.

In 1948 she built a home

Delta Kappa Gamma Plans Program

Muleshoe members of the Epsilon Delta Chapter of Delta Kappa Gamma were hostesses for a 10 a.m. Brunch Saturday, September 8 at the 16th and D Church of Christ.

Members from Olton, Springlake-Earth, Littlefield, and Sudan attended this initial meeting of the 1979-80 school year.

Officers of the Epsilon Delta Chapter are Mary Smith, president, Sudan; Mrs. Darwin Reid, 1st vice-president, Sudan; Carmelita Barnett, 2nd vice-president, Olton; Mrs. Eric Smith, recording secretary, Muleshoe; Nettie Belle Hilburn, corresponding secretary, Littlefield; Linda Campbell,

just east of the Children's Home of Lubbock. She donated 200 acres of land for the beginning of the children's home.

Mrs. Collins is the grandmother of four children and the great-grandmother of six.

She moved to Pleasant Valley, north east of Muleshoe in 1960 where she remained until ill health forced her to enter Knights Rest Home in Littlefield.

treasurer, Littlefield; Nancy Baucum, parliamentarian, Springlake.

After the brunch, Mary Smith, presided during the business session. Mrs. Darwin Reid previewed the programs for the year which follow the theme "Women: Architects of the Future", and the chapter theme will be "Blueprint for Action."

Virginia Bowers led the members in singing school fun songs and the Delta Kappa Gamma Song.

Ruby Reid gave a grief report on the Regional Conference which was held in Dallas July 23-27. Three of the purposes of this International organization are (1) to unite women educators of the world in a genuine spiritual fellowship (2) to honor women who have given or who evidence a potential for distinctive service in any field of education (3) to advance the professional interest and position of women in education.

Muleshoe members attending were: Carrie Lee Bishop, Virginia Bowers, Mrs. Joe Costen, Kathleen Francis, Mrs. James Jennings, Mrs. E.W. Johnson, Mrs. Jack Obenhaus, Mrs. Oscar Rudd, Mrs. Eric Smith and Mrs. John Watson.

RECIPE

By Sarah Ann Sheridan

Pork is a favorite meat in fall and winter. It can be prepared in many ways—but should always be served well done.

Pork—Bean Stew

- 1 lb. dried white kidney beans or navy beans salt
- 1 onion, stuffed with 3 cloves
- 2 celery stalks
- 2 T shortening
- 2 lbs. boneless pork shoulder, cut into 1-inch cubes
- 1 c chopped onions
- 1 garlic clove, minced
- 1 c tomato puree
- ¼ t pepper

In large kettle, boil beans with 2 quarts water and 1 tablespoon salt for 2 minutes. Remove from heat; let stand one hour. Add onion stuffed with cloves, celery stalks and bay leaf; cover; simmer one hour.

Meanwhile, in Dutch oven or large heavy kettle, in hot shortening, brown pork and onions. Spoon off any excess fat. Add 1½ teaspoons salt, garlic and 1½ cups water; cover; simmer 40 minutes. Stir in tomato puree and pepper; continue cooking until meat is tender, about 20 minutes more.

Drain beans, removing onion, celery and bay leaf. Stir beans into pork and simmer about 10 minutes longer, stirring once or twice. Makes 6 servings.

The Right Pan For The Right Chicken

Correct cookware is as important to the success of any dish as the ingredients themselves. The wrong pot can spoil good food as surely as a bad egg can, and the wrong pan can reduce a beautiful roast to a shriveled mess.

OVEN FRY coating for chicken actually fries chicken in the oven, using a small amount of oil. This oven method of preparation has distinct advantages over the traditional skillet method -- less turning, less time and less splatter. However, the splattering problem is even more controllable if the right size pan is used. Package directions call for a 15x10 inch jelly roll pan. Not to be confused with a cookie sheet, the jelly roll pan has sides 1 inch high all the way around which prevent any oil from spilling out and allow maximum control over the degree and evenness of browning.

For fried chicken that's

crisp on the outside and moist on the inside, try OVEN FRY in a jelly roll pan.

GRAVY WITHOUT EFFORT

For all those who prefer fried chicken crispy, crunchy and unadorned, there are just as many who feel that fried chicken without pan gravy is heresy.

OVEN FRY coating for chicken has taken most of the work out of preparing fried chicken -- less oil, less splatter, less cleanup -- and provides simple directions for pan gravy as well. After chicken pieces have been removed from the pan, blend 1 table-

spoon all-purpose flour into pan drippings. Add ½ cup water or milk. Cook and stir over medium heat to dissolve brown particles. Gradually stir in 1 cup water or milk and continue stirring until smooth and thickened. Season to taste and strain, if desired.

Webster defines gravy as "something got without effort." That's exactly right with OVEN FRY.

We sometimes wonder what cats and dogs think of people.

Hard work isn't as tiring as incessantly thinking about your work.

FOOD MARKETING ALERT

USDA Agricultural Marketing Service

SPECIAL ALERT: USDA's AMS suggests that consumers make full use of abundant **Pork and Broilers** this September. Supplies of both are unusually large.

As of mid-August, the September supply situation looks like this...

RED MEATS

Beef...adequate. Although down from high levels of recent years, supplies should continue adequate due to large supplies of competing meats. Production to average 9-11% below year-earlier level, and about 13% below 1976-78 average for September.

Pork...plentiful. Pork output during September likely will reach a record for the month. Production 18-20% above year-earlier, or about 22% above 1976-78 average for September.

POULTRY & EGGS

Broiler-fryers...plentiful. Marketings 9-11% above year-earlier and 15-17% above 1976-78 average for September.

Turkey...plentiful. Supplies 15% above year-earlier and 7% above 1976-78 average for September. New-crop turkey output and cold storage holdings to continue well above year-earlier levels.

Eggs...plentiful. Output 2-3% above year-earlier and 4-5% above 1976-78 average for September.

MILK & DAIRY PRODUCTS

Milk & dairy products...adequate. Milk production declining seasonally, but expected to continue above year-earlier levels -- July production was up around 2%. July American cheese production was up 10%, and end-of-June commercial stocks were up 7% from low year-earlier levels. July butter production was 5% above year-earlier level, and end-of-June commercial stocks were up 32% from low levels of a year earlier. June nonfat dry milk production was down slightly from year-earlier, but end-of-June manufacturers' stocks were up 34% from a year earlier.

FRUITS, VEGETABLES & NUTS

Fresh grapes and Bartlett pears...plentiful, but **apples** and **fresh purple plums**...adequate. **Fresh California plums and nectarines**...adequate for the first part of September, but light at month's end. **Lemons**...light, until new crop begins, but **Valencia oranges and limes**...adequate. **Canned peaches, pears, and fruit cocktail**...adequate. **Canned, frozen and chilled citrus juices**...adequate. **Dried prunes**...adequate, and **raisins**...light.

Processed vegetables...adequate overall, with most **canned and frozen vegetables** above moderate year-earlier levels. **Canned lima beans, snap beans and sweet corn**...adequate, and **frozen snap beans and corn-on-cob**...plentiful. Other **frozen vegetables**...adequate.

Potatoes...adequate, although fall storage crop to be slightly below last year's record-large crop. **Frozen potatoes**...plentiful.

Fresh vegetables, including **onions**...adequate. Supplies of **carrots, celery and green peppers** to be larger than last year's.

Peanuts...plentiful. The 1979 crop to be record large, about 2% above 1978 crop.

Almonds...adequate. Although record-large crop is expected, export demand will likely be strong.

GRAINS & LEGUMES

Rice...plentiful. The 1979 crop to be 4% below 1978 production, and 3% above 1976-78 average.

Dry beans...plentiful. The 1979 crop to be 4% below 1978 production, and 3% above 1976-78 average.

Dry split peas...adequate. The 1979 crop to be 42% below high year-earlier levels, and 7% below 1976-78 average.

Modern life moves with a snap and a hustle, which come so fast that few of us have time to think.

MULESHOE MULES HONORED--For their actions in the first game for 1979 at Portales last Friday night, six Mules were honored. They are from left, back row, Bones Norman, Curtis Elder and James Atwood, and front row, From Left, Tommy Wheeler, Victor Leal and Zeke Pecino. This Friday night, the Mules will take on the Floydada Whirlwinds in Muleshoe.

Mules...
con't from page 1

Coach Wartes said the team is doing better, with a goal to improve some each week. He said he and the coaching staff are appreciating the good working attitude of the team this week, after their 7-2 loss to Portales last Friday night.

Contest...
con't from page 1

Most contestants found the early going rough, as they missed a lot of games for the first contest. But, keep those entries coming in, the grand prize winner is usually never established until the final contest of the season.

Muleshoe...
con't from page 1

The Lazbuddie Young Homemakers will host a tea for new members on Thursday, September 13, at 2 p.m. in the Lazbuddie School cafeteria. Mrs. L.D. Clark, of Portales, will bring a program on "How to chalk ceramics." Refreshments of "Texas Delight" and "County Line" punch will be served and a door prize given. Everyone is cordially invited to attend.

Loans...

one of the Farmers Home Administration declared disaster area counties: (2) have no other farming operations in any county not so declared a disaster area; and (3) experience crop damage of 70 percent or more on crops to be harvested this fall.

He said the team is improving and some good competition can be expected Friday night when the Mules host the 'Winds from Floydada.

Again, the coach expressed the appreciation of the team and all the coaching staff to the fans who traveled to Portales and literally packed the grandstand at Greyhound stadium. He said the players feel much better about their efforts when they see a good hometown crowd and enthusiastic fans.

Back the Mules in all their games, at home and out of town. The young men represent Muleshoe, Bailey County and the people of this area. Show your appreciation by attending all their games. Gametime is 8 p.m. at the football stadium in Muleshoe.

Clinic...

There is no entry fee or charge of any kind. Registration closes prior to competition time on September 29.

"We'll be awarding a total of 18 trophies on our local PP&K competition on September 29," the Ford Dealer said. "And from our contest, winners could go on to win in the Zone, District, Area and Division competitions."

After that, top competitors in each age group will go to the National Finals at Super Bowl XIV. The Ford dealer further explained that each youngster, upon registration, receives a free PP&K tips book. In the 1979 edition, there are competition tips by NFL stars Pat McNally, Roger Staubach and Frank Corral.

School...
Con't from page 1

Faver of Williams, Adair, Faver, Sudduth and Co.

Superintendent of Schools Neal B. Dillman reported enrollment has increased by 37 students in the four schools. Last year on September 11, enrollment for the four schools was 1,687 and on September 10 this year, enrollment was 1,724. Most of the increase was in Richland Hills Primary with 35 additional students and 24 additional students for Muleshoe High School. Muleshoe Junior School was down by three students and Mary DeShazo Elementary School was down by 19 students.

Jim Shafer was named delegate and Royce Harris alternate for the Texas Association of School Boards Convention, scheduled to be held in San Antonio, October 6-8. Because of the convention, the next school board meeting has been moved from October 8 to October 15.

Two new school buses will be purchased for Muleshoe Schools for the 1980-81 school year and the board approved adult basic education classes at junior high school and evening college courses at high school.

Reviewed was the bi-lingual education program as mandated by the state of Texas and Office of Civil Rights in Dallas and discussed upcoming maintenance projects, including roof repair, pipe fence at Richland Hills and ramps into building entrances at all campuses for the handicapped.

Good Soil Samples Help Crop Prospect

Two major reasons suggest the need for good soil sampling to have soil analyzed, County Extension Agent Spencer Tanksley said. A primary reason is so the producer can apply the proper amounts and grades of fertilizer to his cropland. The second major reason is that following a good production season, previously applied or accumulate fertilizer nutrients may have been utilized. A good soil sample and a soil test will then help maintain yield.

PROPER TOOLS
"As with all things, proper tools to accomplish the task are required," the county agent said. "Suitable tools include the soil sample probe, the auger, and sharp shooter shovel. Also, a two-gallon plastic bucket is needed for mixing the sample to prevent contamination of the soil sample and therefore, erroneous soil analysis."

"Normally, the soil sample probe is best suited for sampling. The

Rural People Due 'Update' For Problems

Because of the Texas Community Improvement Program (TCIP), rural residents don't have to accept poorer community facilities and services than their urban counterparts.

The Texas Agricultural Extension Service to cooperating with investor owned electric utility companies is conducting the TCIP to help rural communities of under 1,000 population to deal with their problems, says Tim L. Shaunty. Shaunty is an Extension specialist in community resource development, Texas A&M University System.

According to Shaunty, the YCIP assists local citizens without the usual "red tape." Although the program has no available funds, free help is available to those who seek it.

Shaunty says many rural residents have received facilities and services through TCIP.

If your community could be improved and you are willing to work, contact your local county Extension agent for more information, suggests the community development specialist.

Shaunty adds that the TCIP sponsors an annual awards program to recognize those rural communities that have made significant progress in overcoming economic and social problems.

sandy soils are easily cored and sampled; however, with our clay loam soils, the core frequently gets stuck inside the probe. The remedy to this problem is to cut the nipple off the probe and sharpen the edge on a grinder," he added.

FIELD INSPECTION
Prior to going into the field, the overall appearance of the land should be inspected and if aerial maps are available; study them.

This procedure provides the producer an opportunity to sample problem sites separately so problems associated with depression areas, old fence rows, mixed soils, seep areas, and gullies can be identified. Tanksley suggest.

If crops are present, inspect the uniformity of the crop and record growth differences. Also, note if any irregularities are repeated throughout the field fairly uniformly. This condition suggests that problems exist in fertilizer or herbicide application. A note of this condition can help correct the situation next year through proper equipment calibration.

Next, examine the field for areas of irregular growth. This situation can be attributed to low phosphorus levels, micronutrient deficiencies, or plant diseases. These sites should be sampled separately so the cause can be identified. Sample weak areas the first time the spots are noticed. Historically, the trend is that next year, the spots become bigger and the cause of the problem is even more puzzling to the producer, the extension agent said.

Next, map all these unusual areas, note terrain

features that will help locate problem sites and identify the farm for future references.

County Extension Agent Tanksley says to consider these points prior to sampling. How is the land plowed and fertilized? If the land is bedded, the best sample site is about halfway down the bed. The sample on the bed prevents one from getting into high salt levels that form on the tops of the beds during dry spells. If stand problems due to salt have occurred, one should be sampling the top of the bed to determine salt levels and intensity of this problem.

Consider if the land was broadcast or band fertilized. Avoid sampling from last year's band, if possible.

HARD PANS
"Sampling time is a good period to take notes on soil compacting and plow pans. If the soil prevents the probe from penetrating the soil, it is doubtful crop roots will penetrate. A good figure to keep in mind is a soil test probe will exert about 12,000 pounds per square inch if pushed into the soil by an individual weighing 200 pounds. If the probe does not penetrate, it is comparable to the penetration of a growing root on a vinyl tile floor," Tanksley warned.

PROPER SAMPLING
Normally, a soil sample at

plow depth is adequate which is about six inches deep. If a subsoil sample has never been taken, then take complete samples from several sites to look at nutrient status below the surface. Subsoil fertility status is very important in deep-rooted crops such as cotton.

Next, the question that needs answering is, "How many subsamples and what size field should a single 100 acres should be adequate for a good soil analysis. Fewer subsamples and a larger area are possible if the field has never been fertilized," Tanksley commented.

Prior to taking small samples scrape the litter from the surface, then use a spade, soil auger or soil sampling tube. To use a sharp-shooter, dig a V-shaped hole and take a one-half inch slice of soil from the smooth side of

the hole. Repeat in 10 to 15 different places.

Place subsamples in a clean container (plastic bucket, paper sack, etc.), mix thoroughly, and take out approximately one pint for the composite sample, Tanksley suggest.

"To aid the interpretation of the soil test and in making recommendations, fill in Form D-575, 'Soil Sample Information Sheet on Field Crops' as completely as possible and submit your samples," added Tanksley. "Each soil sample should be marked with your name and sample number, which should correspond with the information furnished on the information sheet.

Mark the analysis desired and include the proper fee. The information sheets are at my office or the Soil Testing Laboratory in Lubbock," Tanksley concluded.

 8:00 P.M.

HERE'S YOUR CHANCE TO WIN WEEKLY WIN CASH PRIZES

1st Prize **\$5** 2nd PRIZE **\$3** 3rd PRIZE **\$2**

GRAND PRIZE \$50⁰⁰

And TWO tickets to the Cotton Bowl, January 1st.
There Will also be a contest and prizes for the Bowl games.

RULES:

1. The contestant must be 12 years or older.
2. Only one entry per person may be made for any one contest.
3. Weekly contests are open to everyone except employees and families of this newspaper; bring or mail your entries to the Journal office.
4. Mailed entries must be postmarked not later than 5:30 p.m. Friday; winners names will be published in this newspaper each Thursday following the close of the weekly contest.
5. Check the team you think will win; 10 points for 1st place, 6 points for 2nd place and 4 points for 3rd place determines the Grand Prize winner.
6. The tie-breakers will count as one of the games picked, the predicted scores will be used to determine the top three places in that week's contest, if necessary, and cash prizes and points will be divided between winners in event of ties. Please write **FOOTBALL CONTEST** on envelope of mailed entry. Decision of the Journal's scoring judges will be final.

LAST WEEK'S WINNERS

FIRST PRIZE **Ettie Jesko**

SECOND PRIZE **James Roy Jones**

THIRD PRIZE **Roque Flores**

New Natural Death Directive Available

Changes in the Texas "living will" law make it easier for terminally ill patients to have their own life support measures withdrawn, the Texas Medical Association says. The Texas Natural Death Act states that an adult can sign a document saying that a physician can halt life support measures that would only artificially prolong the moment of death. The Texas Legislature passed the law about two years ago and amended it last session. Changes permit a patient to sign the document as soon as two doctors have said the patient is terminally ill. Another change keeps the document in effect until the patient cancels it. Supporters of the law say that it does not legalize mercy killing; it only permits terminally ill patients to decide their own fates. Only adults can fill out the form and only for themselves. Someone does not have to be terminally ill to fill out a directive but it only will

indicate his or her wishes and will not be legally binding. The more widely known Living Will is not legally binding under any

circumstances in Texas. The Living Will, which is distributed by the Concern for Dying organization in New York, partially says, "I do not fear death itself as much as the indignities of deterioration, dependence and hopeless pain. I therefore ask that medica-

tion be mercifully administered to me to alleviate suffering even though this may hasten the moment of death." The Texas Natural Death Act does not mention medication but it does say in part, "...where the application of life-sustain-

ing procedures would serve only to artificially prolong the moment of my death and where my physician determines that my death is imminent whether or not life-sustaining procedures are utilized, I direct that such

procedures be withheld or withdrawn, and that I be permitted to die naturally." The directive must be signed by the patient and by two witnesses who are not related to the patient and who will not benefit

from any inheritance. For free copies of the Texas Natural Death Act directive, write Texas Medical Association, Communication Department, 1801 North Lamar Blvd., Austin, Texas 78701.

AUTO SALES SLUMP
DETROIT -- Sales of U.S. auto producers fell 18 percent in the first 10 days of August compared with record sales in the same period last year, according to company reports. For the year as a whole, GM was down 5.7 percent, Ford was off 17 percent, and Chrysler was down 19 percent.

Each of these advertised items is required to be readily available for sale at or below the advertised price in each store, except as specifically noted in this ad. We reserve the right to limit quantities. None sold to dealers.

TRIPLE THE DIFFERENCE
Come into Piggly Wiggly and buy 25 different grocery items, any items you wish except for meat or produce, since quality and trim varies from company to company. Then compare our prices to those items at any other supermarket in town. If you find a lower total, bring in your Piggly Wiggly tape along with the other store's prices, and we'll pay you TRIPLE THE DIFFERENCE in CASH! Now that's a serious money saving offer!

SP College Has Building Trade Class Starting

LEVELLAND-- Openings are still available in the one-year building trades program offered at South Plains College, Levelland. Classes meet from 8 a.m. to 2:30 p.m. daily under instruction of Steve Stephens. Material covered during the first semester will be general job safety, equipment safety, blueprint reading, building construction surveying, trade math, footing, foundation and form work, elementary rough-out and stack-out plumbing, framing, sheathing and insulation and elementary wiring. For their project during the year, the students will construct a 2,600 square foot home with basement two miles north of Levelland on the Littlefield Highway, said Stephens. Students completed and 1850 square foot home last year. Students completing the one-year program will receive a certificate of proficiency and be eligible for employment in the construction industry. Persons needing more information should contact Stephens at 894-9611.
