Tun Stalesman says that those good mer at Sherman who agreed to fork over for Austin College have miserably failed, and the institution may yet slide over to Austin, where every law of nature and pre-ference of its managers would have loca-

A STRANGER reports that Col. Taylor and Frank Taylor report that the bodies of two men were found in a box a few days ago near Brushy, on the road from Circleville to Bastrop. He also reports that a footman, poorly clad, was shot and killed the other day in the road in Basirop county. The man, it was thought had been followed and murdered.

Go FROM home to hear the news. The Anstin Statesman says that trains are now running to the Guadalupe on Pierce's road, four and a half miles from Seguin, and a temporary bridge has been built that the road may progress rapidly west of the river. We had heard something of the same sort, but we notice that the mail stages get into San Antonie just as late as over. Why is this thus?

FATAL AFFRAY AT BROOKVILLE,-A fatal affray occurred last week at Brookville, in Williamson county, between two men named Adkinson and Brooks. The latter had been going to see Adkinson's daugh-ter, and Adkinson had told him if he came again he would do so at the peril of his But nevertheless he called, and was met by Adkinson before he had dismounted, who knocked him of his horse with a tone. Brooks recovered from the fall and rushed upon the old man with a knife, making several wounds, when young Adplunged a knife several times into Brooks Both men were expected to die.

THE EXPRESS SUSTAINED AGAIN.

The course of the Expanse in relation to the responsibility of the present State dition of public and social affairs in Texas, has been inspired by honest motives, and dictated, as we believe, by sound views. At the outset, and afterwards, some thought us mistaken, and many thought us too severe, but our views and sentiments are rapidly becoming those of the masses of the people generally, especially in the West. Our cautious and dispassionate contemporary, the San Marcos Free Press, until lately a cordial supporter of Gov. Coke's Administration, now says that "the censure which is justly given by the public press to the present Legis-lature, is extending to Gov. Coke. We will not say it is without reason, yet in view of the fact that he has twice in sucssion been elected Governor by overwhelming majorities, and since to the U. S. Senate, the present fierce denunciation he is receiving is remarkable, to say the least. Our explanation is that the Southern people are impulsive, and apt to run from one extreme to the other. To gratify a friend, and not that it accords with our cooler temperament or judgment, we give place to the following communi-

munication above alluded is from a West Texas Democrat, and is addressed to Gov. Coke. We make some

dressed to Gov. Coke. We make some extracts:

Bir:—In the name and in behalf of the people of Texas, it is hoped you have still remaining a sufficient sense of propriety to see the pour are not acceptable to the people as their Governor, and to resign the office at once, (not that we want Dick Hubbard in your place, for he has degraded the high position he now holds). The copie want officers that will carry out their wishes. While there was complaint against Gov. Davis and his administration, the people, balleving any change would be for the better, elected you, and your administration has been a blot and a lie from that beginning. You promised you would have the finances of the State on a specie hasis in one hundred days, we all know how truthful that has been. You promised to suppress crime in the country, and you have vetced every bill of the Lagislature that tended in that way. You recommended the new constitution to the people as the best we over had, and in your first message you recommended amendments enough to make a constitution within thamselves. You were elected because of your opposition to railroad menopolies, and you have been aiding and abstring a party in the Lagislature treating a party in the Lagislature to steal land and territory enough to make a state as large as Tennesso.

Let us, if you please, also have your room in the U S Senate, because if you ever had any usefulness you have now lost it and you can do us no good there.

Pancest & Son are countertly received. rewarded for all the evil he has done by a season while sating a party ont their wishes. While there was compleint against Gov. Davis and his administration, the people, believing any change would be for the better, cloted you, and your administration has been a blot and a lie from that beginning. You promised you would have the finances of the State on a specie basis in one hundred days, we all know how truthful that has been. Ann promised to suppress arime in the country, and you have vetoed every bill of the Lagislature that tended in that way. What is the International railway com pany going to do when they reach Austin f Are they going to continue on not? We had it from high authority last winter that they intended to come on at nce, or at least to make a junction with he Peirce railroad near Braunfels. And ow we see from the Austin Stateman that they have had a surveying party out running a line some ten or fifteen miles south

oward San Antonio. Railroads are so important to the future of this city and all Western Texas, we have had such long and discouraging da lays in regard to them, and there have con such huge and selfish legislative, adninistrative, and corporation combina ions against us, that we feel almost left to ourselves and throws upon our ewa resources. The fate is a hard one, and the work before us a herculcan one, but we must accept the one and address ourselves to the other with what manhood we may. But we shall succeed if we unite together, follow wise counsels, and put forth all our energies, notwithstanding the unnatural bitterness of other parts of our great State toward us. Our country is ertile in soil, of immense extent, capable with a beauty and healthfulness unsurwrte of the world, in spite of our difficulties, to find homes among as. Our prosperity and wealth are increasing every oas. The Petroe railroad is now a cer ainty. This will give new life and pros erity to the city and the whole West ne railroad will be an immense inspiration and leverage in working to obtain thers, and they will be certain to come We have already a vigorous daily press

nd it as growing in power every day. The press is the great power that moves the world at the present day. Ours, has not, as yet, been strong enough to insure more than one railroad, but it has already shown itself strong enough to prove a terror to legislative and executive incomstency, delinquency, and corruption. The egislative and executive corruptionists who have combined against us for the last few years would have hesitated about taking the step had they not undervalued the power of the press of San Antonio, and the West. That press has at length brought to its aid the better and more powerful class of journals in the other parts of the State, and the result is that these official corruptionists, while satisfying their selfish greed of place and emolunents, have morrally gone down before the indignation of a betrayed and outraged that while, with their unholy official op-

np, we were mighty to pull them down.

That moral victory has already been won. The enemy will fear us in the future. Let us wisely improve upon this moral victory that we may gain others more estantial in the future. Let us stand ogether, and against all who are not heartily disposed to accord us right and ustice. Let us not give our countenance to any man who is not heartly with us, and who is not brave-and strong enough to battle successfully for us. We need brains, character and courage in our reresentative men, and we must have no other sort in the future. Party rings have divided and weakened us heretofore, they must do so no more. A large portion of the East is roady to do us justice; we must not forget it; they need us also,

OUR FEARFUL STATE DEBT.

The Austin Stateman gives the official figures of the public debt of the State of Texas as they stood May 1, 1876. They footed up at that date in the sum of \$4,801,033.29. By the present time the debt of the State is, in round numbers, fully five millions dollars, with a large estimated deficiency in the expenses of the State government for the current year. When the present administration went into power the State debt was about s million and a half, and yet the State was at that time supporting a successful system of public schools, with over a hundred thousand children in them, a State Police system that had effectually put down immigration that would soon have filled our fine lands with hundreds of thousands of immigrants who would have "made the wilderness a fruitful field." We have none of these things now, but we have a debt of five millions with nothing to show for the money spent but outraged law and demoralized society, and everything, debt and all, getting worse every day. And yet the gentleman who came into office with such a blaze of glory, and who made such magnificent promises that his credulous constituency went into transports of delight, and confidently looked for a political millennium of peace and plenty,-this gentleman, who has thus betrayed the hopes of his people, and mur-dered the best interests of the State, and who has forced upon us a constitution and laws that we cannot get rid of for years, and which will rapidly increase our present sylls as time rolls on,—this gentleman is

The French Canadians-who, in group long the Northern frontier of our country and down the Mississippi, number mor than six hundred thousand in the United States, and who, by their language, their nanners, their churches, their schools their societies and their press, form, as Il were, a republic within the Republic-held their twelfth annual national con vention at Holyoke, Mass., on the 15th inst. Delegates from the national societies and from the centres of Canadian popula tion, such as Biddeford, Suncook, Boston St. Albans, Fall River, Providence, Troy, Plattsburg, Oswego, Roobester, Detroit band Pembina will attend. Among the questions discussed the the organisation of State conventions, the formation of a bureau of history and statistics, the propagation of the French language through the medium of Franch schools naturalization and the education of the people in the politice of their country of adoption, encouragement of the press, the formation of societies, the propagation of the principles of temperance, the general welfare of Canadians in the United States, the question of repatriation. We are sur prised to see no mention made of delegates from the Arcadians of Louisiana and South-eastern Texas, whose expulsion from Canada by the British government has been immortalized in Longfellow's "Evangeline." A company of this race served during the late war under our observation. They were under the command of Col. Pickett, late President of the Senate, and of the Constitutional Convention, and made excellent soldiers

The remarkable cures effected by Vegetine have induced many physicians and apothecaries whom we know to preribe and use it in their own far In fact, Vegetine is the best remedy yet discovered for the above diseases, and is the only reliable Blood Purifier yet placed before the public.

PREPARED BY H. R. STEVENS, Boston, Mass

What is Vegetine? It is a courpound extracted from barks, roots and herbs. It is Nature's remedy. It is perfectly harmless from any bad effect upon the system. It is nourishing and strengthening. It acts directly upon the blood. It quiets the nervous system. It gives you good, sweet sleep at night. It is a great panacea for our aged fathers and mothers; for it gives them atrength, quiets their nerves and gives them Nature's sweet sleep—as has been proved by many an aged person. It is the great blood purifier. It is a scothing remedy for our children. It has relieved and cured thousands. It is very pleasant to take; every child likes it. It relieves and cures all diseases originating from impure blood. Try the Vegetine. Give it fair trial for your complaints; then you will say to your friend, heighbor and acquaintance, "Try it, it has cured me."

Vogetine for the complaints for which it is recommended, is having a larger sale throughout the United States than any other one medicine. Why f Vegetine will ours these complaints.

In those spacious but inalgnificant advertisements of U. Pratt & Co., they endeavor to convince the public that our STAR OIL and PEERLESS are identically the same, which they know, even better than we could ever attempt to convince them, is not the Case. Peerless is by no means one of the inferior grades of oil; it is in every respect equal and fully up to the actual standard (not the advocated) of Astral, and is like the latter 12 degrees below the burning point of our STAR OIL. Now we propose to Furnish the Poerless, guaranteed equivalent in every respect to Astral, at One Dollar a case less than our STAR OIL, which we sell as the price of Astral, at although our STAR OIL to 12 degrees better, hence safer, and consequently has the preference of the consuming public.

Our, certificates, formerly published, (originals of which can be seen at our office) from our local, disinterested chemists, Massru, Geo. H. Kaiteyer, A. Nette and E. Droiss, who tested both oils, and declare our Star Oil

by 12 degrees better than Astral.

In Addition to the certificate alluded to, we herewith annex a certificate from Chemist Theo, Odet.

At your request, I have tested the samples of Star Oil taken from the store of George Dulling, and find the flashing point at one hundred and thirty-three (133) degrees Fahrenheit, the burning point at one hundred and forty-four (144) degrees Fahrenheit. Astral oil, taken from the store of E. Kotula & Co., the flashing point at one hundred and twenty-one (121) degrees, and the burning point at one hundred and thirty-two degrees Fahrenheit. I am of the opinion that the Star Oil is by all means the best and safest oil.

THE GREENBACK CANDL

There is quite an effort being made in the East in behalf of a third ticket for the Presidency. There is always a dissatisfied and stubborn class of men in general polity ical movements, occupying an estranged position between the two leading parties. For instance, there are the Prohibitionists, in the Western States, who, although too weak and insignificant ever to accomplish any thing, still venture to make regular nominations, especially in Gubernstorial elections. Now, in the East, the Greenback party has assumed the power. complish any thing, still venture to make regular nominations, especially in Gubernatorial elec-tions. Now, in the East, the Greenback party has assumed the power;

Regarding the nominees of the Greenback party, a correspondent in the New Orleans Times asks, "Who are this party's candidates, and have they any chance of being elected?" to which the editor of that journal makes the following interesting reply:

Mr. Peter Cooper is a wealthy

Mr. Peter Cooper is a wealthy gentleman of New Work, who, after gentleman of New Tork, who, after acquiring a handsome fortune in the business of gun making, became inoculated with the "green-back heresy." This mild form of financial mania broke out in Ohio, when Gov. Allen was nominated for Governor the second time.

Hayes, Republican candidate for President, was elected. The canvass was one of great interest. Mr. Allen had arrayed against him not only the hard money Democrats of his own State, but the whols force of Wall street and the influence of the holders of United States bonds everywhere. The vote in Ohio was the largest ever east in that State. Governor Hayes received 297,817 votes to 292,273 cast for Governor Allen, giving hard money a majority of 5,534 over green backs.

Mr. Cooper is in his eighty sixth year. About his early life we have but little information. From a circular issued at the time of his vass was one of great interest. Mr.

I have not found any thing to relieve me until I commenced the use of Centaur Liniment. I feel it my christian futy to inform you that by its wonderful effects I am entirely relieved of pain."

"Jan. 294, 1876.

This is a sample of many thousand tes-timonials received, of wonderful cures of-fected by the Centaur Liniment. The in-gredients of this article are published around each bottle. It contains Witch Hazel, Mentha, Arnion, Book Oil, Carbel-io, and ingredients hitherto little known. ic, and ingredients hitherto little known, it is an indisputable fact that the Centaur Liniment is performing more cures of Swellings, Staff Joints, Eruptions, Rheumatism, Neuralgië, Sciatica, Caked Breasts, Lock-jaw, &c., than all other Liniments, Embrocations Extracts, Saives Ointmente, and Pimters now in use.

For Touthache, Earnache, Weak Back, Itch, and Cutaneous Eruptions, it is admirable. It cures burns and scalds without a soar. Extracts poison from bites and stings, and heals front-bites and chilblains, in a short time. No family can afford to be without the Centaur Liniment, white wrapper.

The Chertaur Linguister, Yellow Wrap-

ford to be without the Centaur Liniment, white wrapper.

THE CENTAUR LINEMENT, Yellow Wrapper, is adapted to the tough skin, muscles and fleets of the suimal creation. Its effects upon severe cases of Spavin, Sweeny, Wind Gall. Big-Head, and Poll-Eyil, are little ions than marvellous.

"In our neighborhood a number of team sters are using the Centaur Liminess They protected it superior to anythin they have ever used. We sail as high a four to five dozen bottles per month i these teamsters."

For Wounds, Galle, Scratches, Ring bone, &c., and for Serew Worm in Sheep it has no rival. Farmers, Livery-men an Stock-raisers, have in this Liniment, remedy which is worth a hundred time Laboratory of J. B. Rose & Co.,
