The War in Mexico

- SAN ANTONIO, TEXAS. Things Mixed-Rard to Tell Which Way the Wind Blows

Special to the Express.

Laredo, August 29, 1876. Attorney-At-Law, Solicitor for Cinim-The town of New Laredo was evacuated by the revolutionists on August 22ad, and they moved into the interior to a place called Lampasas, where they are concentrating their troops and awaiting the Government forces, which are coming this way under the command of General Quiroga.

A party of Government troops under the command of Captain Quintana, took pos session of New Laredo on the night of the 27th. A few shots were fired at them by the citizens, but no one was hurt.

People from the interior say that a de cisive battle may be expected soon in the vicinity of the Lapasas mountains. Intelligence has just been received that 2000 revolutionists under General Narapio attacked and defeated the Government

troops under General Quisoga at the Baranco ranch, yesterday. Quiroga is reported wounded. Couriers have been dispetched for furth er particulars.

The Mexican War.

Great Suffering at Matamoras Business totally Paralyzed

Brownsville, August 29, 1876. Matamorasis still closely guarned by the revolutionists. The accessaries offlife for beast and man have to be imported from this side of the river.

Cortina has his headquarters about ten miles aboye the city, while another large force of Canales' men is six miles below. All roads and means of communication are closely guarded.

Great suffering exists among the poorer classes with no way to relieve them. Sunday morning there was a slight skirmish sutside of the fertifications, but as usual no one was hurt.
Were it not for fear of United States were interference, the Government troops would have been driven out long ago. Seven of the Mexican soldiers, going up the river, jumped from the steamer Scott, yesterday, and swam to this side, and they

are constantly descring in squade.

Business is totally paralyzed, and the prospect is very gloomy for the future, it will take a number of years to overcome the effects of the present destruction.

That road should be extended to the Texas Pacific at Fort Worth or Weatherford. It would be a splendid investment for the Central, and a vast advantage to the country.

### SEVERE BUT JUST.

The Seguin Times is very severe on the late lamented 15th Legislature. It esys that "should we happen to get outside of Taxas we should certainly never point to this Legislature as a correct representation of Texas. They have shown to the world that they belong neither to themsalves, the people of the State, but to for-eigners body and soul. We are satisfied they were not instructed to do as they have done, and the only thing that we can say for them is, that they were lured away by those things which were so enticing, that are often round in the sent of government. They left their mothers too oop. Had some of them been kept at some and their places filled by some of the old stagers, those who have had the tinselplaced before them before, perhaps we night have been the better off. Not only do we find that in one case they have represented the people, but we see that all the way through they have had but -and everything that was in antagonism shown a clear and comprehensive idea of party out of the way in order to organize law-making in anthing, but upon the contrary the most strongly developed idea we have seen advanced by them is that of tickle you and you tickle me and we'll all tickle Coke."

DANCING ACADEMY.-I would respectfally announce to my former patrons, and friends, and to the citizens of San Autonio generally, that I will respon my Dancing agairs, as they are dependent upon that Hall on Market street on the 15th of leptember, and there resume the exercises so far as the Presidential election is con-

Several months ago, after Coke had been and make the best fight they could against the new constitution, and against the errors of the Coke administration, then becoming every day more apparent. We ence to partizan objects whatever in this suggestion. We then foresaw the evils likely to fall upon the State from the overwhelming and unmanageable Demoeratic majority, untempered by "a vigorous and healthy opposition." At that time the Galveston News speered at our suggestion, assuming that it had a mere partizan object and inspiration. Since then, the Expuess has favored a tempor ary combination, without regard to party. of all those opposed to the errors and evils of the Coke administration, and the Com Scott majority in the Legislature.

The first suggestion of such an opposition for the good of the State which we have seen outside of the columns of the Experses, we find in the Galveston News of last Saturday. It is the very same that we have made from time to time, and its treatment is judicious, timely, and able. It is a thousand pities that the News and other leading Democratic journals had not led off in this direction months ago. Had they done so we should have been saved from the humiliations and evils under which the State is now suffering.

The News very winely says that "we have had in Texas for nearly three years past a signal illustration, of the disadvantages and perils of an immense party majority free to expatiate at will and at milten duties, always in his seat when the random in control of public affairs. Not only this, the heterogeneous character, and cose and simless organization of the party majority, have encouraged the conselidation of the elements of personal government about the shrewd, ambitious and grasping politician who has been twice elected by unprecedentedly large votes Chief Executive of the State. Coneding him both the desire and the ability to make a useful administration, it is only too obvious that he has disappointed the hopes of the public. It is only too obvious that, presuming beyond bounds upon his personal popularity, he contracted a mor-bid impatience of contradiction, and, beedless of counsel and deliberation, went headlong into the induigence of his own by purging and creating a fictitious appe-whims, prejudices and crotchets. In the absence of such an opposition party rule loses its equipoise, becomes licentious or incoherent, and ends in a straggle of its merit, are now its most ardent friends unprincipled factions. As far as the home affairs of Texas are conserned we can hardly be said to have a Democratic ascen. Instead of being a puffed up medicine has Presidential election, and we are thankful dency, to such an extent has the party worked its way up to its present astonishment for it leaves to the electoral candidates of both parties that discussion, and let both description. We have a Coke party that is distinct and militant enough, to be sure, and, to judge from the language and conduct of some of the Coke partizans, the News constitutes another and opposing party. But this is an office foreign to the aspirations and the normal functions of the paper. It is not for the News to organize or manage any party, but to watch all parties, and especially, the tinet and militant enough,

> tions, and well it may be, for so long as the Coke ring holds the offices and patron age of the State government, and the control of the party machinery of conventions and the like, it will be very difficult to dislodge. But the time is close at hand when there will be a great change. Coke and the Tom Scott ring of the Legislature are now weakening every day, have been placed on the defensive, and are begging a suspension of judgement by special pleadings; and the heavy suggestion of an organized opposition by such a journal as the News will produce panie throughout the Coke ranks. The News says truly that but little good can be done "without an organized and formidable opposition, and there is the great trouble at present in Texas. If the Republican party were over thrown and shattered, and new issues divested of sectionalism and radicalism arose to create 'political divisions and combinations, the problem would be easy." The News should recollect, however, that in this Presidential year the whole body of the Republicans of Texas will vote enthusiastically and solidly for Hayes and Wheeler, and that now is no time to think of putting the Republican

the opposition to Coke.
Our auggestion is, that all the ele of opposition to Cokery units in State affairs without regard to party-lines, but leave every man free, and each party intact, so far as the national election is con-cerned. The Republicans would be willing, we should think, to act with a sound anti-Coke Democratic party in State September, and there resume the exercises and improved instructions belonging to my profession.

I would further say that said Hall has been under my control since the closing of my school last winter, therefore may be expected to be found in nice and complete order for the reception of pupils this conden.

They are not organs of the people, but mere gambling machinery of the Coke politicians. The one in the Fifth district was a mere box of loaded made this suggestion more to promote the healthfulness of the Democratic administration of the State government than anything else. As a sincerely and thoroughly independent paper, and looking solely to the welfare of the State, we had no referportunity afforded in the Fifth district is The anti-Coke men will be compelled to organize an opposition party, and the opthe finest that could be imagined. Let some brave man run against Coke and Giddings, and make them spend that \$31,-000 of the school fund they divided be tween them. Giddings is anxious for Han cock to take the stump for him. Hancock is the very man to take the stump for Con gress for himself, and lead off in the or ganization of the "vigorous and healthy oppposition" recommended by the Galveston News. The Fifth district is full of able and patriotic men of both parties. By friendly consultation and party co operation, regardless of party lines, they can out a man in the field who can easily best Giddings, and break the back bone of Cokery. Will they sit supinely down and allow Coke, Tom Scott, and their minions and lobbyists to continue to ride rough shod over their people and the interests of the State. ### FACTS BY WHICH DECIDE

In those spacious but insignificant advertisements of C. Pratt & Co.; they endeavor to convince the public that our STAR OIL and PEERLESS are identically the same, which they know, even better than we could ever attempt to convince them, is not that Case. Peerless is by no means one of the inferior grades of oil; it is in every respect equal and fully up to the actual standard (not the advocated) of Astral, and is like the latter 12 degrees below the burning point of our STAR OIL. Now we propose to Purnish the Peerless, guaranteed equivalent in every respect to Astral, at One Dollar a case less than our STAR OIL, which we sell at the price of Astral, atthough our STAR OIL is 12 degrees better, hence safer, and consequently has the preference of the communing public.

Our, certificates, formerly published, (originals of which can be seen at our office) from our local, disinterested chemists, Messre, Geo. II. Kaiteyer, A. Nette and E. Dreiss, who tested both oils, and declare our Star Oil

by 12 degrees better than Astral.

In Addition to the certificate alluded to, we herewith annex a certificate from Chemist Theo. Odet.

At your request, I have tested the samples of Star Oil taken from the store of George Duling, and find the flashing-point at one hundred and thirty-three (123s degrees Fabrenheit, the burning point at one hundred and forty-four (144) degreet Fabrenheit. Astral oil, takes from the store of E. Kotula & Co., the flashing point at one hundred and twenty-one (121) degrees, and the burning point at one hundred and thirty-two degrees Fabrenheit. I am of the opinion that the Star Oil is by all meases the best and safest oil. [Signed] THEODORE ODET,

> BRIEF SKETCH OF THE LIFE OF THE LATE SPEAKER.

Mr. Kerr was born near Titus. ville, Crawford county, Pa. March 15, 1827, the parents in moderate circumstances. He was chiefly self-educated, but studied at the Erie Academy, where he graduated at the age of 18. During his attendance at the academy Mr. Kerr became attached to Miss Coover, school-teacher in Erie, and immediately after his graduation macried her. At his request the marri age was kept a secret until his remained for two years. By teaching school Mr. Kerr earned the means to defray his expenses at the Louisville University, where he received the degree of bachelor of laws in

1851

In 1852 he began to practice law in the office of Judge Smith at New Albany, Ind., nearly opposite Louisville, on the Ohio river. His ability, industry, and integrity, soon brought him to the notice of the public, and in 1854 he was elected city attorney. One year later he was chosen prosecuting attorney of the county (Floyd.) In 856 and 1857 he was a member of the Indiana Legislature. Five years later, in 1862, he was elected reporter of the Supreme Court of Indiana, and edited, with great ability and clearness, five volumes of the reports of that body. In 1864 Mr. Kerr was elected as a Democrat to the Thirty ninth Congress, in which he served on the commit tees on Private Land Claims and on Accounts. In the Fortieth Con. gress he was a member of the Com mittees on Elections and Roads and Canals, in the Forty-first Congress of the Civil service Committee, and in the Forty-second of the Committee on Ways and Means.

In 1872 he was deteated for Congressman-at-Large in the For-ty Third Congress by Godlove S. Orth, the administration candidate, ex.Minister to Austria, who receivcanvass, which was unusually arduous and heated, made serious recover after election from the consequent weariness of over exer. tion as rapidly as usual, and soon became alarmed in regard to his condition. Wm. H. Hiekox, Rector of St. John's P. E. Church, Wakefield, Clay Co., Kansas, writes: "Many years I have been suffering from a weak back, caused from a sprain more than 40 years ago." I have not found any thing to relieve me until I commenced the use of Centaur Liniment. I feel it my christian dgty to inform you that by its wonderful effects I am entirely relieved of pain."

"Jan. 22d, 1876.

This is a sample of many thousand tes timonials received, of wonderful cures effected by the Centaur Liniment. The ingredients of this article are published around each bottle. It contains Witch Hazel, Mentha, Arnica, Rock Oil, Carbelic, and ingredients hitherto little known It is an indisputable fact that the Centaur Liniment is performing more cures of Swellings, Stiff Joints, Eruptions, Rhoumatism, Neuralgia, Sciatica, Cakod Breasts, Lock-jaw, &c., than all other Liniments, Embrocations Extracts, Salves Ointments, and Plasters now in use.

For Toothache, Earache, Weak Back, Itch, and Cutaneous Eruptions, it is admirable. Is cures burus and scalds without a scar. Extracts poison from bitos and stings, and heals trost-bites and chiblains, in a short time. No family can afford to be without the Centaur Liniment,

THE CENTAUR LINEMENT, Yellow Wrap-THE CENTAUR LINMENT, Yellow Wrapper, is adapted to the tough skin, muscles and gesh of the animal creation. Its effects upon severe cases of Spavin, Sweeny, Wind-Gall. Big-Head, and Poll-Eyil, are little less than marvellous.

Dr. E. Dimoch, of Dupont, O., says: "I am using Castoria in my practice with the most signal benefits and happy results, and find it a perfect substitute for Castor Oil."

RHEUMATISM

is a disease that afflicts over 25 per centum of the human race. Al-most every effort herotofore made in the treatment of this disease has been to allay the present suf-fering—trusting to luck to effect a cure, Dr. P. J. GRIFFEN & CO., after years of research, now present to the public the only

The disease is treated externilly by means of the Liniment, which, when properly applied reduces the swelling relieves the tension and removes the inflammation, the cause of pain in a very short time, thus restoring freedom of movement and elasticity to the joints. ### WHAT IS OUBEN'S DELIGHT?

It is a plant that grows in the South and is the only actual blood purifier ever discovered, by which all diseases that centre in the blood can be eradicated at once and forever. It expels for life all Scrofulous, Syphilitic, Cutaneous and Rheumatic affections, and is the only true remedy for this class of diseases. Alone, it is a searching alterative, but when combined with Honduras Sarssparilla, Yellow Dock and other roots and herbs, it becomes a blood purifier unsurpassable and unequalled. Such is the combination of DR. TUTT'S SARSAPARILLA AND

QUEEN'S DELIGHT. forming the most powerful alterative known to Medical Science for the cure of old Ulcers and Sores, Diseased Joints, Foul Discharges from the Ears and Nostrils, Abcesses, Skin affections, Rhoumatism, Dropsy, Kidney Complaints, Evil effects of Secret practices, Diseased Scalp, Discredered Liver and Spicen, and all discases that centre in the blood. It possesses the peculiar property of imparting a fair complexion and CAUSES THE BODY TO GAIN IN

SOLID PLESH. Its value cannot be too strongly impressed upon the attention of those who have been expected to a taint of improper character. The afflicted are assured that this is not one of the worthless nostrums of the day, but is prepared upon scientific principles, by a physician of thirty years experience. Sold everywhere.

Expuses, we find in the Galveston News of last hatarday. Had they done so we should have been eared from the humiliations and evils nader which the State is now suffering. The News very wisely says that "we harehad in Texas for nearly three years past a signal illustration of the diead-

Concoding him both the desice and the ability to make a useful administration, it is only too obvious that he has disappointed the hopes of the public. It is only too obvious that, presuming beyond bounds upon his personal popularity, he contracted a mor-bid impuliance of contradiction, and, headless of counsel and deliberation, went headless of counsel and deliberation, went headleng into the induigence of his own whime, prejudices and evotchets. When the News comes to suggest a plan of opposition, it hesitates, and is yet a cantions, and well it may be, for so long as the Coke ring holds the officer and pattorage of the State government, and the control of the party machinery of conventions and the like, it will be very difficult to dislodge. Coke and the Tom Scott ring of the Legislature are now weakening every day, have been placed on the defensive, and are begging a suspension of judgement by special-pleadings; and the heavy suggestion of an organized opposition by such a journal as the News will produce panie throughout the Coke ranks. ## FACTS BY WHICH DECIDE.

In those spacious but insignificant advertisements of U. Pratt & Co., they endeavor to convince the public that our STAR OIL and PEERLESS are identically the same, which they know, even better than we could ever attempt to convince them, is not the Case.
