Brackett, August 31, 1876. A party of men from the Nueces river attending a theatre at this place last night, became disorderly, and at about half-past eleven o'clock commenced talking in loud and insulting language to all the ladies in the house, when a Mr. Robinson, a citizen of this place remonstrated. One of the intraders pulled his pistel and fired at Robinson. The ball missed him, but the powder from the cartridge burned his eve severely, the pistol being to close to his face. Rebinson then knocked the man down before he could fire again, when all the party commenced firing at Robinson, who then pulled his revolver and returned the fire, and drove the party off. Millions of money are golds to be spent in New York by both parties. Gov. Tilden mem is rich, and so is Gov. Morgan, and the sion. money will flow like water

The opinion of the New York Herald, an adependent paper, is valued in relation to this contest in New York. It says that the Republican Convention has, been skillfully piloted through a piece of diffi cult navigation without damage to ship or cargo. A row was expected, and there has been no row. Instead of a bitter and demoralizing squabble between the sup-

porters and opponents of Senator Conkling for the mastery of the Convention the formal proceedings have been marked by singular good feeling. The nomination of Governor Morgan is a strong one in itself, but the real strength of any Republican nomination in this conjuncture lies in its fitness to secure party unity, and from this point of view, even if from no other, Mr. Morgan is a well selected leader of the State canvass. The Cunvention Las met and adjourned without a quarrel, and this is a great dealconsidering the inflammable and mutually repulsive elements with which it had to date saids from the fact that his nomination restores harmony in a distracted that the people will no longer telerate party. COKE AGAINST THROCKMORTON.

There is one feature in the character of our "horn frog" Governor that is not generally understood. He has not only failed in everything required by the executive of the State during the time he has been in office, but he is filled with the most fiendish feelings of revenge for all the public men of the State who ever rivalled him, or who are likely to do so in the future. When he was nominated for Governor, it was a question between him and Throckmorton and Ireland. By certain unfortunate combinatious he succeeded. VEGETINE. Does not decrive invalids into false bope by purging and creating a fictitious appe-tite, but assists nature in cleaning and purifying the whole system, leading the patient gradually to perfect health.

VEGETINE. Was looked upon as an experiment for some time by some of our best physicians, but those most incredulous in regard to its merit, are now its most ardent friend

FACTS BY WHICH DECIDE

In those spacious but insignificant advertisements of U. Pratt & Co., they endeavor to convince the public that our STAR OIL and PEERLESS are identically the same, which they know, even better than we could ever attempt to convince them, is NOT THE CASE. Peerless is by no means one of the inferior grades of oil; it is in every respect equal and fully up to the actual standard (not the advocated) of Actral, and is like the latter 12 degrees below the burning point of our STAR OIL. Now we propose to Furnish the Peerless, guaranteed equivalent in every respect to Astral, at One Dollar a case less than our STAR OIL, which we sell at the price of Astral, although our STAR OIL is 12 degrees better, hence safer, and consequently has the preference of the consuming public.

Our, certificates, formerly published, (originals of which can be seen at our office) from our local, disinterested chemists, Messrs, Geo. II. Katteyer, A. Nette and E. Dreiss, who tested both oils, and declare our Star Oil

by 12 degrees better than Astral.

In Addition to the cortificate aliuded to, we herewith annual a certificate from Chemist Theo. Odet.

Certificate.

At your request, I have tested the samples of Star Oil taken from the store of George Dullnig, and find the flashing point at one hundred and thirty-three (123) degrees Fahrenheit, the burning point at one hundred and forty-four (144) degrees Fahrenheit. Astral oil, taken from the store of E. Kotula & Co., the flashing point at one hundred and twenty-one (121) degrees, and the burning point at one hundred and thirty-two degrees Fahrenheit. I am of the opinion that the Star Oil is by all means the best and safest oil. THEODORE ODET. Signed

FRIDAY MORNING, Sept. 1st, 1876. PAST, PRESENT AND FUTURE OF THE BUFFALO.

The time was, and that within the memory of the "oldest inhabitant," when the region of country represented by the Express was as abundant in buffalo as it now is in long horned cattle; and as they are passing away from the State, and ultimately from the country, it is interesting occasionally to chronicle the progress, Like the Indian, the buffalo once roamed

over all Texas, and over all the country now covered by the United States and the British Territories; and like the Indian, and keeping step and company with the Indians, they are gradually disappearing never to return. The theory says a recent and well informed writer on the subject, is that the buffalo and the Indian will perish together. Though the Indian is in constant pursuit of this noble game, the buffale never avoids his savage persecutor. On the contrary, the Indian will establish his camping ground, and then actually drive the buffalo to within a short distance of his wigwam before he kills him, thus avoiding les ladez says that the mail agent are dressed by the squaws. The same writer says that the buffalo ranges are annually becom ing more circumscribed, and they can only be found in about three localities. CENTAUR

Letter from a Minister.]

Wm. II. Hickox, Rector of St. John's P. E. Church, Wakefield, Clay Co., Kansas, writes: "Rhuy years I have been enfering from a weak back, caused from a sprain more than 40 years ago. I have not found any thing to relieve me until I commenced the use of Centsur Liniment. I feel it my christian duty to inform you that by its wonderful effects I am entirely relieved of pain."

"Jan. 22d, 1876.

This is a sample of many thousand ter timentals received, of wonderful cures effected by the Centaur Lintment. The ingredients of this article are published around each bottle. It contains Witch Hazel, Mentha, Arnica, Rock Oil, Carbelic, and ingredients hitherto little known It is an indisputable fact that the Centaur Liniment is performing more cures of Swellings, Stiff Joints, Eruptions, Rhoumatism, Neuralgia, Sciatica, Caked Breasts, Lock-jaw, &c., than all other Liniments, Embrocations Extracts, Salves

Dintments, and Plasters now in use. For Toothache, Earache, Weak Back, Itch, and Cutaneous Eruptions, it is admirable. It cures burns and scalds without a scar, Extracts poison from bites and stings, and heals trost-bites and chilbiains, in a short time. No family can afford to be without the Centaur Liniment, white wrapper.

THE CENTAUR LINIMENT, Yellow Wrap-THE CENTAUR LINIMENT, Yellow Wrapper, is adapted to the tough skin, museles and flesh of the animal creation. Its effects upon severe cases of Spavin, Sweeny, Wind Gall. Big-Head, and Poll-Eyil, are little less than marvellous.

Mesers. J. McClure & Co., Druggists, cor. Elm and Front Sts.. Cincinnati, O.,

"In our neighborhood a number of tea sters are using the Centaur Limiment They pronounce it superior to anything they have ever used. We sell as high as lour to five dozen bottles per month to these teamsters."
We have thousands of similar testing

nials.
For Wounds, Galls, Scratches, Ring-bone, &c., and for Screw Worm in Sheep, it has no rival. Farmers, Livery-mon and Stock-raisers, have in this Liniment a remedy which is worth a hundred times Laboratory of J. B. Rose & Co.,

PARTY SPIRIT.-There are indeed but

w politicians who, when office chances are good, do not display a feeling of the nost intense devotion to their party. We have seen the greatest magnanimity and liberality displayed by politicians along about election times, ever manifested by haman beinge, but when their day of grace is over, or the boon of office safe, they get cold hearted, and selfish. Some of the leading Democrats of this city have been endeavoting the past week to get people to enlist in a public demonstration upon the arrival of our worthy Congress man, Hon. G. Schleicher, but all in vain Hence but a little affair of a private na ture.
