In 1977, the Mules traveled to Friona on a 7-0 record for the season, they posted a narrow 13-6 victory, but the Chieftains added insult to injury. For the first known time in history for the Chieftains they adopted a Muleshoe finale, and ran to the end zone and picked the grass.

But, by the time the 1978 game rolled around, the Mules were ready for their revenge. Again the Mules traveled to Friona, for the second year in a row. There, they held the Friona team scoreless in

Merriott Named To Committee For Handbook

Bailey County should be proud of District Clerk Nelda Merriott, has been chosen to be on the committee for the revision of the County and District Clerk's manual.

Very rarely does a small county or a small community become involved with decision making in the predominantly urban dominated decision making groups.

She explained that the revision will be decided by 11 district and county clerks from throughout the state.

Mrs. Merriott is the first and only district clerk in Bailey county, having served in that capacity, since it was separated from the county clerk's office. She has served as district clerk since January 1, 1967.

Presently, she is one of seven state directors of the County and District Clerks Association. President of the group is Billie Nance Hill, district clerk from Potter County.

Blackman Is New Optimist Leader

A former Army Colonel, who served six years in the Pentagon in Washington spoke briskly against 'joiners' and 'do-nothings' when he was guest speaker for the Optimist Club of Muleshoe during their annual installation banquet Monday night.

Clayton Day of Fort Worth, who is now with the Southwestern Baptist Theological Seminary, is also the Governor of the North Texas District for Optimist International.

He firmly state, "I believe in Optimism. I have never been introduced to any organization which has added more to my life. I believe Optimism should be made a Philosophy of Life."

Day spoke of the relatively small club, with 3,500 clubs, and 126,000 members, who devote their life to aiding youth. "He said it is the smallest in the big four civic organizations, but is the fastest growing civic organization of all. And, why is that? Because it addresses itself to the needs of youth."

He gave figures showing how many troubled youth were reported in the U.S., such as young people who run away from home between the ages of seven and 16, and the more than 2 million who are not attending school, but are

Hayes Wins F-B Contest This Week

It was a beautiful weekend for football, and for a longtime faithful contestant, who had never won before, the weekend was much more beautiful.

Mrs. John (Kathleen) Hayes, who has entered every contest and has been faithful to get her entry in, to the Journal, finally won a contest. She was all by herself in guessing the outcome of the weekly football contest and missed two games.

Mrs. Hayes missed the Mississippi - Kentucky game and the USC - Stanford game.

Several persons missed three games, but the second place winner was only 17 points off on the double tiebreaker combined score. She is Neva Calvert. Also missing three games, but 20 points away was Anna Gutierrez, another contestant who enters every week, and she took the third place slot.

Cliff Buckner missed three games but was 25 points away; Patsy Bara was 27 points away and former first place winner Maureen Jesko was 35 points away from the money.

To date, there are no dual winners, although several from a same family have won either first, second or third places. However, an individual's score may not

Until the students reach high school age, there is very little difference in the percentage of students in the three lower level schools who participate in the free lunch programs, according to the figures presented during the meeting.

Free lunches are served to 14 of the 15 Black students at Richlands Hills Primary for a percentage of 93.33; 226 of the 257 Mexican American students are on the program for 87.94 percent and 17 of the 168 Anglo students for 10.12 percent. A total of 441 students are enrolled at Richland Hills.

At Mary DeShazo Elementary, seven of the eight Black students are on the program for 87.50 percent; 18 of the 177 Anglo students for a percentage of 9.83 and 157 of the 194

MJHS Coaches Comments

First of all, the coaches are pleased with the efforts of both 7th and 8th grade teams. The 7th grade didn't have quite the enthusiasm that they had the first time they played Farwell, but I also feel as if Farwell played better than they did a week ago in Muleshoe. We have things to improve on before we play Friona next Thursday. However, attitudes have been good and with hard work everything should be fine for a tough game with Friona.

Coaches were very pleased with the 8th grade effort. Farwell only trailed Muleshoe by a score of 7-6 in the third quarter and controlled the ball almost the entire eight minutes of this quarter. Farwell had an excellent chance of scoring and going ahead in the game but the Mules showed they had pride by finally halting the Farwell drive with defensive determination. Later, Richie Richards recovered a fumbled punt by Farwell, Hector Garcia caught a big 3rd down pass and Aldo Almanza ran extremely well for the clinching 60-yard touchdown. If this type of effort is continued, so will the record continue to improve.

Farwell Falls To 8th Grade: 15-6 Victory

The MJHS 8th grade Mules played the Farwell Yearlings at Farwell Oct. 11, bringing home a victory of 15-6. On the first touchdown of the game the Mules marched the ball down to the 15 yard line where Aldo Almanza ran it to the two. On the next play Mike Pecina ran up the middle, but fumbled in the end zone and Jason Scoggins recovered the touch-down. Mike Pecina kicked the extra point. The Yearlings scored a touchdown in the second quarter, but missed their try for the conversion and at the end of the half the score was Mules 7, Yearlings 6.

On the next touchdown drive Richie Richards caused a fumbled punt and the Mules recovered. Hector Garcia caught a fifteen yard pass from Darin Shaw on a crucial third down play. On the next play Aldo Almanza made a 60 yard touchdown run and Trent Hysinger ran the two point conversion to put the game out of reach. Mike Pecina made another touchdown in the game, but it was called back on a clipping penalty. The game ended with the score Mules 15 and the Yearlings 6.

Yearlings Down By 12-6 Score To Seventh Grade

On October 11th, the 7th grade Mules traveled to Farwell for their second game against the Yearlings. Once again the Mules were victorious with a final score of Mules 12, Yearlings 6.

The Mules made their first touchdown when Hector Flores ran the ball into the endzone from 8 yards out. Smiley Orozco made the second touch down of the game, receiving a pass from Mark Moton and running it 60 yards for the final touch-down. The Mules returned to Muleshoe with the victory of 12-6.

Chase's increase in the rate charged on loans to the most credit-worthy corporations is now effective.

Study Club

Muleshoe Study Club met Thursday Oct. 11, 1979 in the home of Mrs. J.G. Arnn. The club collect and pledge of Allegiance was led by Mrs. Horace Blackburn.

The program for the day was given by Mrs. G.E. Reeves, of Friona on how to fill out the reports properly on different programs, projects, etc. To be mailed to the Caprock District of Federated women clubs. These reports are to be judged and honors awarded for those best prepared and projects that are outstanding in each division. Mrs. Reeves is the Vice President of the Caprock District.

A program was also given by Mrs. Joe Costen on

Federation COUNSLER. The topic she chose was entitled, A Crusade for Light.

This report consisted of the needs for lighted areas and how some of the Federated Women Clubs had banded together and achieved some projects in this area. In Cleveland alone, the lighting of the areas where so many crimes had been committed cut down on the crime by 85 percent.

The club voted to adopt another girl from Girlstown for one of the yearly projects.

Club members being served delicious pumpkin pie, and whipped cream, were as follows: Mrs. Horace Blackburn, Mrs. Charles Shain, Mrs. A. C. Neely, Mrs. Joe Costen, Mrs. Luther Pitts, Mrs. Walter

Bartholf, Mrs. Betty Jo Carpenter, Mrs. Wilma Thompson, and the hostess Mrs. J.G. Arnn.

American businesses built up inventories by a hefty 1.9 percent in July, a trend that emphasizes the nation's slide into a recession, economists said. Bulging inventories were most evident in the auto industry, where stocks rose another 3.6 percent after increasing nearly 25 percent in June.

they swarmed over the Mules for a 14 point gain, but couldn't keep it all together enough to come up with the points to win.

Somehow, Muleshoe and Friona really tee-off to fast and furious action for both teams, and this year is expected to be no different in the district opener, scheduled this year for Muleshoe.

The Mules are coming off a 21-15 victory over state-ranked Idalou, and provided they do not take to the field with an over-confident attitude, should make good time against the Friona team.

Two years ago when the Mules went to Friona, it was with a 7-0 record and last year, they went there the week after dropping their only loss of the season, to Idalou.

To date this year, the Mules were defeated by Portales, 2-7 in the first game of the season; roared back to narrowly defeat Floydada by 9-7, then humbled the Tulia Hornets, 24-0. Then came the homecoming game against the Abernathy Antelopes. Antelopes and Mules made an even match that night as it ended on a 20-20 tie. Tough Idalou was the next opponent, and they fell to the Mules by 21-15.

At the same time, Friona is coming into the game

with a 1-3-1 record for the year. But, don't downgrade the Chieftains. They may be hungry enough for a win this week to work extra hard against the Mules.

Dual Wrecks Injure One Late In Week

A car-pickup accident shortly after lunch on Friday sent a local man, C.F. Garth, to West Plains Medical Center where he was admitted for treatment of facial and mouth lacerations received.

According to witnesses at the accident at West Sixth Street and American Blvd., the Garth car was involved in an accident with a pickup from Kansas, driven by Luther Cook.

Garth's car was spun out of control after hitting the east bound pickup, and ended up slamming against the curb on the southwest corner of the intersection.

Investigating officer was Lt. Jerry Hicks of the Muleshoe City Police Department.

No injuries were reported from an early Thursday morning accident at the west end of the Muleshoe Co-op Gin road north of Muleshoe.

Involved in the accident was Merle Bussey, of Muleshoe, who told officers he did not realize he was approaching a dead end in the road.

Bussey attempted to turn and ended up slamming into a high dirt embankment on the west side of the road. He was reported to be uninjured in the accident which occurred at approximately 12:45 a.m.

Investigating officer was DPS Trooper Morris Arnold of Littlefield.

Friona's sole victory to date this year has been a 14-0 victory over the Farwell Steers. They battled to a 14-14 draw with the Lockney Longhorns, and losses to Amarillo River Road, 27-20; the Vega Longhorns, 30-26 and the Tulia hornets, 13-0.

Joe Malouf is quarterback for the Chieftains, and he will be attempting aials. However, he may have trouble as Mule Quarterback Mike Northcutt is anywhere near the passing percentage he showed last Friday night at Idalou.

The offensive line provided Northcutt with very good coverage and he hit on seven of his ten attempted passes. Two of the Muleshoe TDs were on passes, from Northcutt to Jesse Silguero and from Northcutt to Cam Hawkins.

Tough Mule defense digs in and holds the opponent's offensive line, holding the five opposing teams to a total of 49 points after the first five games of the year.

Gametime is 7:30 p.m. at Benny Douglass Stadium in Muleshoe.

Texas-Arkansas Game Of The Week

Southern California nipped Notre Dame 27-25 in 1978. Texas beat Arkansas 28-21. Alabama was the winner over Tennessee 30-17. and North Carolina State romped over North Carolina 34-7. All of these football rivalries which resume Saturday date back at least fifty years-one almost seventy. And with but one exception, the favorites are last year's winners.

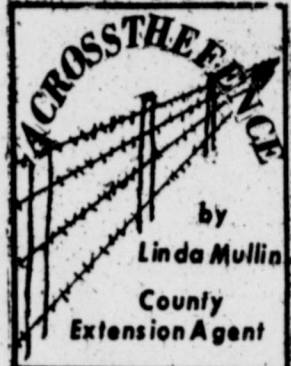

The exception involves the oldest rivalry of the four, the match-up between the Tar Heels of North Carolina and the Wolfpack of N.C. State. They'll do battle for the 69th time. State was the big winner last year, but North Carolina just has to be the favorite this year. The Tar Heels lead the long series almost three to one. The difference: fourteen points.

Wild scoring and unbelievable second half comebacks have highlighted the long series between the Irish and the Trojans. Both teams have eyes on the national championship, but Notre Dame's hopes were dimmed a bit after the upset by Purdue. Southern Cal comes off a big Pac-10 Conference game with Stanford. Notre Dame is the host for the 51st renewal of the series. The Trojans should win it by five points.

Texas-Arkansas, always a tough one to pick even though the Longhorns hold a huge lead in the series 46-14. There has never

been a tie between these two Southwest Conference powerhouses. The Razorbacks are coming off a conference struggle with Texas Tech, Texas from its Big One vs. Oklahoma. We'll pick the Horns over the Hogs by six points.

Finally, the Southeast Conference features Alabama and Tennessee. Mississippi State upset the Volunteers a couple of weeks ago to put a big damper on their conference title hopes and an undefeated season. The Crimson Tide also has big designs on another national championship. The forecast here: Alabama over Tennessee by 21.

Mopeds offer consumers an alternative method of transportation to beat the high cost of gasoline.

Most mopeds achieve 135 miles per gallon of gasoline.

Mopeds are a recent vehicle innovation which allow the user the option of pedaling like a bicycle or using the motor like a motorcycle.

Today's consumer, however, should consider other aspects of moped travel along with the fuel-economy factor.

Moped owners in Texas must license them as a "motor-assisted bicycle." The vehicle must pass the

vehicle inspection code. The operator must pass the motor-assisted bicycle written exam at the Department of Public Safety office. A moped operator under 18 years of age must wear a helmet.

The vehicle operator is subject to the financial responsibility laws the same as for any other vehicle. It is recommended that the owner-operator of a moped be covered by liability insurance, too.

In terms of safety,

mopeds are generally believed to fall somewhere between bicycles and motorcycles, and they share some of the dangers of each.

Because a moped moves faster than a bicycle, a rider has less time to react, and the impact forces are greater.

On the other hand, a motorcycle has the power to accelerate to avoid and accident, but a moped has no excess power. The most powerful moped is unable to exceed 30 mph on level ground.

Also, repair of a moped is often hard due to the lack of standardized, interchangeable parts.

However, buying a well-known brand or one that has been around awhile from a manufacturer with warehouses in the U.S. would make parts and service more readily available.

Army Releases Information On Interview

ALBUQUERQUE -- First impressions are important, especially when you're interviewing for a job. An Army publication called "How Not To Blow A Job Interview" is must reading for high school students entering the job market, according to Lieutenant Colonel Thomas Schatzman, Commander of Army recruiting activities in New Mexico and West Texas.

Advice in the publication includes selecting interesting career paths, lining up interviews with prospective employers, preparing a resume, dressing for an interview and conduct during the interview.

"This free booklet can be a valuable guide for students who are looking for part-time jobs or career fields," Colonel Schatzman noted. "You can pick up a copy from your high school's Army recruiter at the local recruiting station."

"Of course, the Army is right in there competing in the job market for young men and women," continued Schatzman. "But with the Army, the prospective employee can demand a training program of his or her choice, is guaranteed skill training before enlistment, and receives a uniform allowance, full medical and dental benefits, educational programs, free housing and food as well as the recreational facilities and travel opportunities that are part of the Army lifestyle."

Why is the Army offering a booklet that tells young men and women how to find a job outside the Army? Colonel Schatzman explains, "The Army is not for everyone. We have lot to offer but not everyone is cut out for Army life. This booklet can help young people do their best when looking for a job... and it just might make some of them aware of the opportunities available in the Army."

COOPERATIVE MONTH: OCTOBER 1979

COOPERATIVES ARE PEOPLE!

All kinds of people belong to cooperatives. More than 23 million American families are members of one kind of co-op or another. They have joined together to provide themselves with all kinds of good and services.

Through cooperatives, people market farm products and buy farm supplies, fuel oils, gasoline, and even groceries.

Other cooperatives provide their members with credit, health care, electricity and telephone service. Still others provide housing, insurance and other services.

Whatever the human need, people can fill it themselves through cooperatives.

In a cooperative, PEOPLE are number one

They're first because they're not only the customers, but the owners, too. In cooperatives all across the United States there are 50 million people who use cooperatives as a way of working together to obtain the kinds of services they need and want.

Farmers Win Point; Ton Limit Is Lifted

The Farmers Union announced today that it is continuing its legal studies of the matter but has suspended for the time being plans to proceed with a lawsuit to compel the Department of Agriculture to raise price support loans on wheat and feed grains to 90 percent of parity.

Tony Dechant, National Farmers Union President, stated, "The announcement yesterday that the U.S. Government is raising its limit on grain export sales to the Soviet Union to 25 million tons probably removes any actual restriction on the amount the Russians would want to buy immediately. For that reason, we are suspending for the time being our plans for initiating legal action to compel observance of Sec. 1002 of the Agricultural Act of 1977, which requires that price supports be raised to 90 percent of parity whenever sales of certain agricultural commodities are suspended to any country with whom sales of other goods are permitted.

"Nevertheless, we regard the bilateral agreement with the Soviet Union

as a 'standby embargo' measure which has the effect of restricting the market opportunities of American farmers both in the short run and the long run.

"Under terms of the agreement, the U.S. Government as it has in the past, might again restrict sales of grain to quantities smaller than the Soviet Union might otherwise want to buy.

"In the longer run, existence of the agreement has a dampening effect upon the Soviet Union's planning for expansion of its poultry, meat and dairy

industries so as to provide better diets for its people, and for expansion of its port and transportation and processing facilities to enable its use of large volumes of imported grain.

"By barring American farmers from selling their grain without governmental restriction and by prohibiting this important customer from competing to buy American grain on even terms with customers in other countries' our government is singling out farmers and imposing a measure of price control over them. No comparable controls on prices are being imposed on other industries from which farmers must buy their production inputs and family living items. This

price ceiling measure is being imposed while failing to guarantee price floors at least equaling the farmers' costs of production. This is government regulation without any standard of fairness.

"The Agricultural Act of 1977 attempted to avoid this unfair treatment of farmers by providing for an increase in the parity price floor whenever sales of farm commodities are suspended by government action. We will continue to monitor the situation and we are prepared to resume our legal action whenever the situation warrants."

Last August 1, USDA notified a Soviet trade delegation that the USSR would be permitted to buy only 10 million tons of

wheat and 5 million tons of corn through September, 1980. The USSR had purchased 11.6 million tons of corn and 4 million tons of wheat in the current year.

Beef Still A Bargain Despite Higher Price

Cattlemen and consumers have one major point in common—they can't understand why a steer at the feedlot brings only 68 cents per pound when a sirloin steak costs almost \$3 per pound.

However, the price difference sounds higher than it actually is, says Dr. Ed Uvacek, economist in livestock marketing with the Texas Agricultural Extension Service, Texas A&M University System.

Uvacek explains the price dilemma this way. "A Choice steer that weighs 1,000 pounds actually yields only about a 600-pound carcass. The other 400 pounds are by-products, some of which have

value, such as hides and tallow.

"Even the beef carcass that is left is not all steaks and roasts," emphasizes the economist. "The average 600-pound carcass provides only about 50 pounds of sirloin steaks, 37 pounds of rib roasts and 66 pounds of round steaks. Hamburger, stew meat and miscellaneous cuts add up to another 146 pounds. Waste or cutting loss amounts to a huge 162 pounds."

At 68 cents per pound for the live steer, the average cost of all retail cuts from the carcass would have to be about \$1.56 per pound just to pay for the animal. This does not include any

costs for slaughtering, wholesaling, cutting, wrapping, transporting, or retailing, points out Uvacek.

Since the average national retail price for Choice beef is now about \$2.20

per pound, the consumer is paying only 64 cents per pound for the entire cost of all marketing and merchandising functions.

"That's pretty cheap," contends the economist.

"What's ironic about all this is that while consumers are already getting a bargain, feedlot operators are losing about 10 cents a pound on that 68-cent live steer," adds Uvacek.
