A NEW SERVIAN MINISTRY London, Sept 23—A Belgrade dispatch to the Daily News says, that in consequence of the unwillingness of the Ministry to recognize the action of the army in naking Milan King, a new Ministry cam

into power to-day. The Times' Belgrade dispatch says no official news has been received regarding the prolonging of the armistice.

THE "BOSS" TO BE SETURNED Loudon, Sept 23—A dispatch to the Reuter Telegraph Company from Madrid, in reply to an inquiry in regard to Wm M Tweed, says it is now definitely settled that he said his companion, Haut, will be ombarked on board the United States steamer Franklin, at Gigo, for conveyance to the United States. The order to send Pweed and Hunt to Cuba was withdrawn the Spanish government and the United States representative here, which was made when it became known that the Prentite had been codered home. Franklin had been ordered home.

The Franklin left Gibraltar at ten THE EASTERN QUESTION

dispatch from Vienna to the Times explains that a difficulty has arisen be-cause the Ports, before granting a pro-longation of the armistice, desires the longation of the armistice, desires the powers to give their opinion in regard to its prefatory proposition. The powers on hand persial in demanding a conclusion of the armistice, irrespective of this condition, because they have from the commencement insisted that an armistice was indespensible. They consider that it would be derogatory to admit that sort of a commencement of the subject. The powers would be derogatory to admit that sort of a compromise on the subject. The powers also intend this attitude as a concession to Russia, she having throughout the negotiations determinately supported an unconditional armistice. As the term for which the present suspension of hostilities has been granted draws to a close, the demands of the powers become more pressing, some of them having quite plainly intimated that the Porte's refusal to grant an armistice would lead to the suspension of their diplomatic relations.

Last night, at Shiioh Mill, Yorktown, Dr. Brazzell, Gr., and son George, were taken out by unknown parties and shot. The Doctor was a good snd peaceable citizen. He will be buried on the 21st by the Masonic fraternity. The son did not bear a good name in the community and his deathis not regretted, but the killing of the old man is looked upon as a celd-blooded murder. He was taken from a sick bed at the time.

The French who set tied in Canada formed one of the happiest, best ordered.

Mobile, Sept 23-The publishers of the Mobile, Sept 23—The publishers of the Register denounce as a forgery what purports to be an extract from that journal now being quoted as John Forsyth. The forgery reads: "The great question is how to get rid of the negroes as voters. White men of all parties and all religious may come quickly to the consideration of how to get the negro out of politics with the least confusion and cost. He must go, and there is no profit in standing long on the order of his going. The question of suffrage belongs to the States, respectively. Russia will stop the despatch of soldiers to Servia when Turkey will no longer object to grant a prolonged armis-tice. PARIS EXPOSITION.

Work was begun in August on the Pair to which the city of Paris invites the nations for May 1, 1878. The edifice is to be composed of the now generally accepted materials of glass and fron, with the exception that the two extremities, or two grand facades, will be constructed in dressed stone, on a grandiose design. ornamented with statuary. It is to be arected on the grand Champ de Mars, of which it will occupy two hundred and forty square metres, or nearly thirty sectares. One of the facades will look toward the Seine, the other toward the military school, and there will be the orter sides of the parallelogram. There will be no restaurants or cafes, theatres, proort halls-in short, no establishments whatever of a catchponny nature within the limits; but every enterprise of that just over the river. There will be a double desailication of all admitted articles They will be classed by nationality as well as by industrial or artistic character. This most desirable result is secured practically as it was in 1867. The passages cross one another at right angles. If one follows an alley in the direction of the length of the edifice he will be always in machinery or porcelain or furniture or dress goods, and o on. If he follows an alley that crosses the building he will keep always in on county. It seems to be the intention of the government to exhaust the resources of the national ingenuity in the endeavors to make a grand success.

GOOD-BYE, HELL GATE.

CHARGING THE EXCAVATIONS WITH DYNAMITE.

To-day has been set apart for special up of Hell Gate, the great obstruction at Hallett's Point, East river, New York. As we stated in a previous article, the difficult character. The reader will receive much enlightenment upon this matter from the following, which we

elip from the New York Sun: The dangerous task of charging the holes drilled in the bed of the gnelss rock at Hell Gate was continued yesterday, and the men, having become more accustomed to handle the cartridges, accomplished more than during the previous day. Forty of the 200 "groups" were finished, making a total of 1400 holes, or 4900 different sized cartridges, that have been made ready for priming that have been made ready for priming during the two days. As Gen. Newton anticipated, the men have so improved in this kind of work that the final explosion may take place prior to September 23. Every one connected with the nown no doubt renewed zeal could be and three-quarters acres in superficial roused to secure the sum needed, saide extent—and over twenty hours will be remed to secure the sum needed, saide required to flood the works to the river level. Tunnels Nos. 7, 8, 9 and 10 are covered with damp sawdust, and in each the unpacking, wiping and assorting of cartridges went on steadily yesterday. The explosive cartridges are permitted to be received only as rapidly as they can be unpacked, examined and used.

J. R. Shook, Esq., who has just returned

from New Braunfels, informs us that besides himself and Mr. Diffmar, of this place, Judges Ireland and Manuy, W. E. Goodrich and District Attorney Jno. C. Walker were in attendance on the District Court, which is now in session, but is expected to adjourn this week. Up to the present, only one indictment has been dered. Mr. Shook says, moreover, that there is some hitch in the proposed New Braunfels railroad prospect, which we recently mentioned. The people think Col. Peirce wants more than they are able.

Many more will be astonished at the greater amount of happiness enjoyed in leading a simple life than being burdened with the demands and worse, the expenses of style and fashionable life. The Fair Grounds.

Our Tocal was invited by Muesrs. O'Bryan nd Hunter to ride out with them and inspect the improvement a that have been made at the Fair grounds since the last Pair. He availed himself of their layita tion, and on reaching the grounds, saw some new stables in the course of erection, which will be completed in a very short space of time. Capt. Peay, the Superintendent, who was on the grounds at the time, showed us some shade trees which had been recently planted, and were grow ing very rapidly.

THE PAGODA which was in the first place badly constructed, top-heavy and liable to fall at any time, had been braced and strengthened by building a beavy balcony, supported on substantial uprights around the old structure, securing it with stout log chains connecting with the cupalo of the pagoda. The new structure dees not mar adds to its beauty.

The present course has a short turn at each end, which will make it very dangerous in turning either in a trotting or a running -Dr. J. Beall has removed his office to race. Capt Peny said, however, that as soon as it could possibly cleared, there would be a mile course laid off.
