the spectator is not unnaturally inclined to doubt whether the painter was altogether justified in his creations.

When buttons were invented is a problem that very probably can not now be solved; but it is a question whether they were used in the days of Isaac. Silvin Manaigo, however, evidently thought that to be the case, for in his picture of the sale of Joseph to the Ibsmaelites, the coat of one of the brothers is not coat of one discovered in a prayer that is overly in the coat of will coat on the coat of the mote and the picture; and from the eye of one man a huge log of wood is protrucing while, in that of the other is a very fine case.

Lucas Van Lenden, too, was bold enough to put a chignon on the head of Joel, the rent, in order to let the people know what he meant. Another picture of about the same date, represents a pair of copper scales falling from St. wite of Heber, the Kenite; and not content with this, he surmounted Panl's eyes on his recovery from blindness; and it is not unlikely the edifice with a beautiful coal scuttle bonnet of straw. SAN ANTONIO, Oct. 5tb, 1876. EDITOR EXPRESS :- Learning that the cenerally in vogue throughout the country are almost entirely unknown in San Annio, and expecting to make of myself a utizen of your place, in view of the ab ence of popular pastimes which render winter evenings so pleasantly spent in I am influenced to request you to urge in your columns the introduction into San Autonio society of such pleasures.

We scarcely comprehend from the above what our correspondent refers to. We shall willingly encourage any move looking to an improvement upon, social pleasures, however, and ask him to make ggestions as to the most popular manners of spending the winter evening, in older and better regulated communities than our own.

Here in Sun Autonio, Terpsichere holds lmost universal sway. Dancing, we are most familiar with. But there are other sources of enjoyment more appreciative, and more worthy by nature, than dancing -for instance, parlor dramatic clubs, not organized for a public display of talent, we can tell the people, and add to the ate. nor lfor public amusement, but for the clusive enjoyment of society circles. We should herald with gratification the

introduction of these sustems. We understand that there will be muscal organizations attempted to be perfeeted this winter, merely for social enjoyment, and there is also a move in progrees to introduce parlor theatrical permances. In view of these latter efforts we think our correspondent will be given an opportunity to assist in making them successful, and he would no doubt meet with encouragement were he to make an effort to institute other pleasures.

LET US HAVE LIGHT .- It was nine o'clock last evening before the moon had eached such a height as to shed its lustre over the city, to the advantage of persons upon the streets. So from dusk until nine o'clock, two and a half hours and just the time when there are most people upon the streets, they had to mope about in the dark, the same as if no gas was obtainable, and paid for, by We have asked for pretection over and the city. On the other hand, we have over again, still the red men and their often known the gas lamps to be lighted white conserts come in and murder our at dusk, the moon would rise at ten people and take our property from us, and often known the gas lamps to be lighted o'clock, but the lamps would be allowed our means of redress are very slim. Are to burn the night through. If the city pays for the gas, and pays the Company for lighting the lamps, why there should and one wounded man were serried into be an effort made to give the people all Frio City, who had been killed by Indians. possible benefit of it. There is no necessity in allowing the lamps to burn when the moon shines brightly, but there is a necessity in lighting the city when the oon does not shine. But, as wo understand the present arrangement between the Gas Company and the City Council leaves six nights in the month, three just before and three just after the full of the moon, upon which the lamps are not to be lighted. But this arrangementdoes not work well, and so we their people as dear to them as they do would suggest that the City take the their own lives and property. I do ask overy individual, white, black and brown, to come forward and let us establish from hands, and employ some one to keep hands, and employ some one to keep the protection by defeating Hayes, our them burning when light is most need-ing trant, and electing Tilden. ed. COMMUNICATED.

Epiron Exerus : I observe that the City Council has given a Mr Muegge the privilege et crecting hay scales on the Military Plazy, where he will be allowed weigh, for all time hay, and such, brought to our market, and for which privilege the city receives no return from Mr Muegge. What do you think of this unqualified grant ?

We have thought over the matter, and do not consider it of much importance at present. But the city should, we think have kept control of any and all scales erected for public weighing purposes. In time, the weight of articles by the public weigher will be no small source of reve nue, and which should properly be turn ed into the city treasury. At present, though, the income from this source would not justfy retaining a salaried person to attend to the duties of public weigher. The Council, it seems, only considered the present in this grant, without looking into the future.

oxplicit and well given. He spares no pains in making all his proceedings understood by the juries, that no errors may be committed by them. By legislation, and under a proclamation from the Governor of Texas, there was an election The Dillas commercial of the 30th ult. held in the 24th Judinal District for District Attorney on the 2nd of October 1876. Jno. C. Sullivan, Esq., is now Dis trict Attorney of the 24th Judicial District. On the night of the 2nd, there was speaking at the Courthouse. The audience was addressed by Meers. asges of the day in the main. Mr. Sullivan spoke of the position he now occupies, that of District Attorney. He depicted to the audience the duty devolving upon him by assuming the office of District Attorney, and how ardnous the labor when the functions of the effice are properly performed.

In view of the crime and lawlessner extant in the land, he said, with the support of the good people, he would suppress it, and make the law the severeign power The people seem to have become more sensible of the situation, and are determ-

ined to uphold the majesty of the law. Dr. Goza, in the course of his remarks on the Presidential election, and by way of exposing some of the frauds practiced by the present administration he said, in an official statement made in the United States Senate on the 6th of August, 1876 was shown the loss sustained by the Government since 1869 to June 30th, 1876, on account of defalcations in the levenne department, to be \$1,276,892.60. This bear in mind, was official, and a careful revision showed that the real losses sustained were \$5,500,595.93. He further said the whisky frauds will amount to \$50,-

000.010. I think with this, and the statements made by the other gentlemen who spoke, and referred to the sycophantic operations of Grant & Co, the audience was pretty generally convinced that Tilden and Hendricks are undoubtedly the men to save our government from destruction. The suffering we undergo by Indian incursions is enough to condemn the It is only three days ago that three dead There were no doubt white men among them, for the wounded Mexican said that two of the party spoke the English langaage, and they were white. The same party killed a man near Dhanis, and it is supposed that they have a good many horses. I did not sleep soundly last night en account of expecting the blood-thirsty devils to visit me. It is very disagreeable to be so situated. The only way to obtain relief is by voting for humanitarians men who hold the lives and property of their people as doar to them as they do their own lives and property. I do ask

OVER THE STATE.

WACO, Oct. 4, 1875. A. W. Jones, a colored preacher and school teacher, was arrested this evening on the charge of being one of the murderers of McCann, It is believed the evidence will prove the colored Masonic fraternity of this city did the work. The five negroes under arrest are said all to be Masons. The District Attorney says there is not a particle of doubt as to Jones being the author of the card pluned on the murdered man's coat. There is a good deal of excitement among the colored people. All the parties concerned have heretofore borne

HOUSTON, Oct. 4, 1874. The event in social circles of this week was the marriage, which took place at the Hebrew Temple this evening, of Mr. Moses Raphael to Miss Lillie Gerson. The ceremony was performed by Rev. Dr. Meyer, Pastor of the Congregation. Both Israelites. The Temple was filled with a fashionable audience of the friends of the parties.

The affair had been on hand some Coth parties are young and handsome, accomplished and the center of a large circle of admiring friends.

A PAMILY OF SYSTEMATIC MUR-

gue reports great excitement in that county, over new-developements which mplicate certain parties in a systematic series of murders and robberies. They say the plan of these murderers has been to kill off all witnesses, and that this terrible system has been kept up for number of years. Seven murderers well armed, are now surrounded in a ouse in Montague, by a large number of citizens. They will be starved out and captured. The England family, murdered not long since, were witnesses against some of them. The following is from the Cambridge North-West, of the 23rd inst

EXCITEMENT IN MONTAGUE." We learn from Mr. Johns that develpments have recently occured in Montague county that implicates a family of Browns, consisting of Geo. and Geo. Brown, Jr., Jesse and Andy Brown, tiving near Red River, as the murderers of Rat Morrow and wife, a man by the

name of Bachelor, and Mr. McClain. Some of these murders were committed near two years ago, but no certain clue to the murderers had been obtained. Recently some domestic difficulties occured esulting in one of the Brown's wives leaving her husbahd, and threatening to avenge herself for wrongs she had endured by informing the public who were the murderers. This determined the murdering party to protect themselves by putting her out of the way, and one of them was ordered to kill her.

He refusing to obey, became another dangerous element, and he was sen-tenced to a like fate. He flew to the authorities for protection, and the secret was out. How true it is that "murder will out.'

The Montrgue people are alarmed and excited, which will result in bringing such criminals to justice, and shielding society from their dangerous influence and destroying power.
