Around Muleshoe

Carson Clayton, manager of Perry's in Muleshoe, said the store anticipates moving to their new location at the corner of Main Street and Avenue C during this weekend.

The new store is expected to open sometime late next week.

Monday night, the Muleshoe Independent School District Board of Trustees met in special session with Bob Ashworth, consultant. They reviewed and discussed the thirty-two applications for the position of Superintendent of Schools for Muleshoe.

The thirty-two applications were eliminated down to four applicants. Two of the applicants met with the school board for interviews on Wednesday night.

John Gulley was guest speaker for Rotary Tuesday at noon and discussed Dirk West's visit to Muleshoe Monday night.

He expressed regret that more people could not have been invited to the mini-banquet, but cited a lack of room. He also expressed appreciation to the local restaurants who provided the food and service for the banquet.

Guests at the meeting included Prentice Mills, John DeFoor, Walter Hughes, Russ Wilkerson, Buddy Wells and Jerry Mick.

The Rotarians said they would like to thank Mrs. Bob Stovall, Mrs. Clinton Kennedy and Mrs. Bob Blackwood for their assistance with the wrestling projects in Muleshoe.

Elder Sonny Pyle of Graham will preach at the Muleshoe Primitive Baptist Church from Monday, November 12, through November 16.

All members and interested persons are cordially invited.

W.M. Pool Jr. Funeral Rites Conducted Monday

Funeral services for former Muleshoe civic leader, W.M. Pool Jr., 79, were conducted at 3 p.m. Monday at the First Baptist Church in Muleshoe. He died in a hospital in Albuquerque last Friday. Officiating at the funeral were Rev. J.E. Meeks and Rev. James Russell. Burial was in Bailey County Memorial Park under direction of Steed-Todd Funeral Home of Clovis.

He was born August 18, 1900 in Bell County, Tex.

W.M. POOL, JR.

UM-UM-MMMM, GOOD--Lubbock Sports Cartoonist and Mayor Dirk West and Mrs. West were in Muleshoe Monday night for a mini-banquet hosted in his honor. He came to town to prove the food was good. He warned the people following the banquet that a lot of good cartoon material had been ruined because "the food was fabulous." He apparently enjoyed the food and the evening being roasted by some of the local residents.

Mules-Dimmitt Will Clash Here Friday

This Friday night will be a night for the purple and white Bobcats from Dimmitt to invade the Muleshoe area. They will be coming to town on a 2-6 record for the year and 1-2

in district action. They will be here in hopes of improving that mark before the final two games of the year. Last Friday night, Morton, who is undefeated in district play, intercepted a Dimmitt pass and converted it to a touchdown to take the victory 13-0.

However, Dimmitt proved to be strong in the rushing department despite the loss to the Morton Indians, and had 208 yards, with one Bobcat especially proving to be strong, Jimmy Stewart carried 21 times for 148

City Okays Resolution On Lights

Tuesday morning, the Muleshoe City Council met in a rather short session as only one item on the agenda required immediate attention.

Following a discussion, the city council approved a resolution which would allow residential and commercial users of gas outdoor lighting to file for exemptions from the Federal Power Plant and Industrial Fuel Use Act of 1978.

City Manager Dave Marr explained that Governor Bill Clements had turned regulation of the new Act over to cities in the state, and the Railroad Commission of Texas would be the regulatory authority for all unincorporated areas.

All commercial users of outdoor gas lighting must file for the exemption by January 1, 1980 and all residential users must file for an exemption by January 1, 1982. If no exemption is filed, such as for a gas yard light, the light will be disconnected.

No new gas yard lights will be installed as per regulations of the new federal regulation.

In other action, city representatives will attend a meeting today, Thursday, at Canyon as a hearing

Cool, Rainy Weather Slows Cotton Harvest

Rain Is Promised Rest Of This Week

Frequent snappy days and nights are a constant reminder that winter is just around the corner, bringing with it the colder temperatures, harvest-time, cold, flu and pneumonia and icy driving conditions.

At mid-week, farmers were keeping a wary eye on threatening skies which held a promise of moisture, predicted to be in the form of rain.

Despite a cold front to the west and north, overriding Gulf moisture had turned the cold front to a 'cool front' and only intermittent showers had been predicted for this area.

National Weather Service predicted a 60 percent chance for rain on Wednesday, dropping to a 20 percent chance of measurable precipitation by night-fall.

According to the NWS spokesman, the chance for showers and rain should

continue through Saturday. Temperature was expected to range in the low to mid 50s, dropping to near 40 at night. Light wind was expected to stay around during the rest of the week.

In the meantime, farmers who were just getting into cotton and grain sorghum harvest found the damp weather to really be putting a damper on harvest operations.

Cotton ginners were just beginning to get into the season in full swing and the promised moisture was expected to put a halt to the harvest as producers waited for drying conditions.

Amendments Are Defeated Here Tuesday

Apathetic Bailey County voters stayed away from the election polls in droves Tuesday, and two of three proposed constitutional amendments were soundly defeated during this 'off-year' election.

Only 311 of the county's more than 3,000 registered voters took time to go to the polls Tuesday and cast their vote for or against the three proposed amendments.

Although it was approved state-wide, only 123 persons voted for approving state-named Notaries Public, instead of the applicant going to the county clerk for application. A total of 180 persons in this county voted against the amendment.

Also failing in this county, as well as statewide, was Amendment Two saw 130 voters 'for' the proposed state regulatory process and 167 voted against the amendment.

Receiving an overwhelming approval in this county, and also approved in the state was Amendment Three by a 249-61 vote. The amendment will allow the state to guarantee loans for young farmers to purchase land and equipment.

Dirk West Feted At Mini-Banquet

Well, folks, it finally happened! Dirk West finally made it to town for the evening -- and what an evening it was! From the time he reached the Muleshoe City limits, only to be greeted by a bevy of flashing red and blue lights and surrounded by uniformed police, until he eased out of town nearly two hours later, it was truly Dirk West Night here.

After he was stopped at the east city limits at dusk, and he was removed from his white Lincoln Continental, and given his rights by Muleshoe City Police Chief Johnny Richards, he was escorted amid pomp and lights and sirens to the Capitol Freehold Land and Investment Company Ltd. Restaurant west of Muleshoe.

Apprehensive, he was rather reluctant to leave the confines of his automobile, especially right after the "two gun salute." It seems that he was greeted by the firing of two miniature cannons set up on the restaurant parking lot, of course, they were loaded with a super large charge.

Leaving his vehicle, he was escorted into the restaurant where he was astonished to be greeted by some 40 persons, all attired in tuxedos. Now, the tuxedos were not quite like his black tuxedo, but they were, nonetheless, tuxedos -- T-Shirts, that is. The hosts and guests for the evening, including the ladies present, were all attired in the black T-shirts, with painted tuxedo fronts.

On this light-hearted manner, the banquet officially began. He was offered his choice of cuisine from the local restaurants, who contributed food and service.

Included on the menu from the Corral Restaurant were Prime Rib of Mule au jus; Broccoli;

salad dressings and a dessert cart featuring Texas Cream and Millionaire pie disguised as boarding house pie.

From the Capitol Freehold Land and Investment Co., Ltd. Restaurant were Mule Ribs and brisket; beans, bread and a garnish plate.

The Pizza Hut provided Mulatini and Mulaghetti and Mule Fodder. Enchiladas, Rice and Tostados were served by El Nuevo Leals. San Francisco Cafe ser- Con't Page 6, Col 1

Youth Skating Friday

The Muleshoe Young Homemakers will sponsor a youth skating party for the Muleshoe Area Youth Activities Committee Inc. on Friday night from 7-10 p.m. at the Bailey County Exhibition Center and Coliseum.

They suggested dropping your young skater by the arena enroute to the football game, then picking them up when the game is completed.

It will cost only 50 cents for the three hours of skating and a concession stand will be available.

Football Contest Still Wide Open With No Leader

More than half the contest is over this year for the annual Merchant's Football contest and no leader has emerged.

Three new winners joined the ranks this week as Larry Price gathered in first place by missing two games and being a total of 33 points away on the double tiebreaker score.

Second place this week was won by Adele Tompkins. She also missed two games, and she was 38 points off on the tiebreaker scores.

In third place was Cliff Buckner. He missed two games and was 40 points away on the tiebreaker scores.

Close, but just out of the running were several other persons who missed two games, but just had too many points difference on the combined scores.

Included were Mabel Wolfe, 43; Maureen Jesko, 44; J.E. McVicker, 46; Travis Bessire, 46; Jo Brock, 49; Gerald Shanks, 47; Elaine Roddam, 48; Debbie Weir, 50; and Philip Wilcox, 52.

There is still plenty of time to enter the contest and become the winner of the two tickets to the Cotton Bowl on January 1 and the check for expenses. As the season winds down, the contest still is on a normal basis, with no leader to date.

Be sure to get your entry in. Bring it by the Journal before 5:30 p.m. on Friday, or be sure it is post-marked on Friday. Mail entries should be addressed to 'Football Contest', Box 449, Muleshoe, Texas 79347.

If you are at the scene where a person is badly burned, there are some things you can do to prevent further complications until emergency medical help arrives.

EXTINGUISH FLAMES
First, make sure that the flames on the person are out.

The advice of "stop, drop, and roll" is a good rule to follow. The natural reaction of a person on fire is to run, but that provides more oxygen for the flames.

The person should stop, drop to the ground and roll. A blanket or other covering thrown around him will also smother the flames.

Exporting expertise
AUSTIN, Texas (Spl.) — The University of Texas Graduate School of Business will soon be in the "exporting" business.

What it plans to send abroad is management expertise.

In summer 1980 in Singapore and Europe, faculty members from the UT school will conduct two-week management development programs for foreign nationals who work as mid- or lower-level managers for Texas-based firms. Many of those foreign nationals have never had any formal graduate business education.

Not only will the sessions help foreign nationals understand better how U.S. corporations operate, but they also will increase contacts between the UT business faculty and international businessmen.

Grow vegetables in a hydroponic garden

COLLEGE STATION — Plowing the fields at sunrise is a thing of the past to the urban farmer who lets automation do the hard work of irrigating and feeding his snap beans, peas, cucumbers and plump red tomatoes, using a technique called hydroponics.

An agricultural method that uses no soil, hydroponics has been around since 1929 but has made a comeback in the 70s.

"You can grow anything in a hydroponic garden," says Dr. John Larsen, a plant nutrition specialist at Texas A&M University. "From sweet corn on down. We've even grown strawberries, green beans and cantaloupes."

Instead of soil, the plants are set in inert media such as sand,

NOTES, COMMENTS

Fear is kin to both envy and a guilty conscience.

Almost every new mother asks, "At what age should my baby begin strained foods?" Some babies need more nutrients than breast milk or formula can provide much earlier than others, sometimes as early as two months. Several signs will help you and your doctor determine the right time:

-If your breast-fed baby demands feedings less than three hours apart.

-If baby drinks more than a quart of formula each day.

-If baby's birth weight has almost doubled; or if baby weighs 11 to 13 pounds.

-If baby seems dissatisfied or hungry.

There's no set time when baby should start on strained foods. Each child's nutrient needs are unique. Gerber baby foods have helped little ones get a healthy start in life for more than 50 years.

Nutrition Habits

Selecting and preparing foods that are nutritious has been the object of learning for the Muleshoe 4-H foods group. Each week members of this junior group have taught Pee Wee members on how to identify foods from the four foods group. Young 4-Hers have learned that all people need each day four servings of vegetables of fruit, four servings of bread or cereal, three servings of milk and two servings of meat.

Also these young 4-Hers have spent time in Preparing various foods in the most nutritious way.

4-H encourages all to practice good eating habits. Knowing about food and how food works for you, can make the difference in your health today.

FNGLMAT

A mnemonic is a device for remembering—from the ancient Greeks where Mnemonic was supposed to be the mother of the Muses. The letter "H" is a handy mnemonic for those concerned about quality eye care, who must distinguish between such as optometrist, optician and ophthalmologist.

The American Association of Ophthalmology points out that "H" is found only in ophthalmologist—the only one of the above who is a physician, specializing in medical eye care and your overall health.

 ved Mule Ear Tamales and Oaxacmoles.
 Of course, tea was served in the famous Capitol Freehold Fruit Jars, and the guests were presented the imprinted jars to take home.
 Other members of the Bon Vivant Club of Muleshoe were listed as Dairy Delite, Dairy Queen, Diner Bell Cafe, Damron Drug, El Huasteco Cafe, Sonic Drive In and Webb Spudnut Shop.
 Max King served as master of ceremonies and started the evening off on a light note as he explained the reason for the banquet. He introduced Muleshoe Mayor Charles Bratcher,

who welcomed the Sports Cartoonist and Lubbock Mayor, Dirk West and Mrs. West. He also welcomed the representatives of the various Lubbock news media, newspaper and television, who also attended the banquet.
 Now, speakers included Harmon Elliott of First National Bank; Paul Poyner, of Poyner's White Stores; Derrell Oliver, Irrigation Supply Co. and Dr. Homer Allgood, M.D. They 'slightly' roasted West for his recent cartoons lampooning the food in Muleshoe and presented a 'not too true' picture of the other side of West.
 West was given an opportunity to respond, and he presented the Muleshoe Mayor a proclamation designating Muleshoe as an honorary suburb of Lubbock, "without any of the big city privileges, of course." He also presented the city with a rug in full color of the "Red Raider". On Tuesday morning, the rug went on display at the Muleshoe city hall.
 Sports cartoonist West gave the background of "my love affair with my cartoons Muleshoe and my cartoons" and said, "You have taken away some of my good material -- the food was fabulous."
 He reminded that he was in Muleshoe as a cartoonist and not as mayor of Lubbock and concluded with, "I am deeply honored that you would take the trouble to invite me

here, and I am delighted that I came." Unfortunately, due to limited space, the invited guest list was kept rather small, and the restaurant owners and operators provided all the food served during the evening. They also had personnel from their own restaurants, along with the Muleshoe Chamber of Commerce and Agriculture Ambassadors, who also served.
 The small dining room at the restaurant was packed with visitors and guests who were kept laughing throughout the evening.
 At the conclusion, John Gulley, manager of the CoFC, presented West with a proclamation designating him as an "Ornery" citizen of Muleshoe and a key chain. Gulley commented, "We had planned to give you the keys to the city, but didn't have time to change the locks."

ON COAST TO COAST TOUR--From left, Lynn Azzinaro, Terry O'Hara and Kim Matheson are on a tour from Rhode Island to California. During a 'snappy' cold spell Thursday morning, the trio stopped at West Plains Medical Center to warm their toes and drink coffee before resuming their bicycle tour. Entering the State of Texas on Sunday, the trio was leaving the state at Clovis Thursday.

Rhode Island Trio Make Bicycle Tour

Three young ladies from Rhode Island pedaled into the front of West Plains Medical Center Thursday morning and depositing their ten-speed bicycles in front of the hospital, went inside to warm their toes and drink coffee before resuming a long journey.
 Seven weeks ago (yesterday) Lynn Azzinaro, Terry O'Hara and Kim Matheson left Rhode Island enroute to California. However, they chose a rather unorthodox method of travel for young ladies and for the beginning of winter. They chose 10-speed bicycles.

An adventure. The girls said their parents have large maps on their walls at home in Rhode Island and are keeping up with the girls' journey as they travel.
 As they shop their way across country, one of the major purchases by the trio has been 'cowboy' boots. They said they were proud of their purchases, especially the boots, but found they could not pedal the bicycles in boots as they were too heavy. Instead, they are wearing jogging-type shoes as they pedal along.
 After six and a half weeks of travel, Kim had her first flat on a tire on Wednesday. Three times since the journey began, the girls have stayed in motels. Their latest overnight stay in a motel was in Matador, Tex. on Monday night. They were invited to the motel to spend the night after severe storms were bouncing around that small town and tornadoes were predicted.
 They said they have also spent the night in their sleeping bags in a sheriff's back yard, and said they are not hesitant to sleep outside near sheriff's offices and police departments.
 The young ladies said they started planning the trip last spring, and Kim agreed to make the trip only two weeks before they left Rhode Island.
 By December 12, they plan to be in San Francisco, and after visiting friends and relatives, will fly back to Rhode Island.

The laden bicycles carry clothing for both hot and cold weather, sleeping bags, a tent, cooking utensils, personal items, food and tools.
 They say they are averaging 80 miles per day and then rain and cold does not stop their journey. In fact, they plan to eat Thanksgiving dinner in California.
 As they left Rhode Island, one of the girls put her back wheel into the Atlantic Ocean and they plan to put their front wheels in the Pacific Ocean when they reach their destination in the next two to three weeks.

According to the trio, 'cafes' are welcome when they pedal along the highway. They stop and drink coffee and occasionally eat out when they find a cafe. However, they said they have become rather adept at preparing meals along the road and have been eating good meals. In fact, last Monday night, Kim had a birthday cake. It happened to be her favorite. Pound cake smothered with pineapple, and candles, of course.
 And the reason for the journey? A challenge and

Fire Department Gives Thanks For Assistance

Glenn Lust, chief of the Lazbuddie Fire Department, said the volunteer fire department wants to thank the Lazbuddie farmers who assisted the fire department with tractors and disk plows in putting out fires in corn fields and corn stubble during October. "We also want to thank the Muleshoe Volunteer Fire Department for their assistance at three of these fires," he added. He said the Lazbuddie Fire Department answered four fire calls and one false alarm during October. Chief Lust said to report a fire to the Lazbuddie Volunteer Fire Department, Call 965-2800. A recording will answer the call. The chief said that at the end of the recording, give the location of the fire, or emergency, what is on fire, or what kind of emergency, and the caller's name or telephone number. "Your message will be transmitted to the Lazbuddie Firemen's pagers as you talk," he said. "Please repeat all information twice to eliminate chance of error. If you dial a wrong number and get the Lazbuddie Volunteer Fire

Department recording, when there is no emergency, please report that you dialed a wrong number." The fire chief also said the Lazbuddie Volunteer Fire Department will sponsor a pheasant hunt during the pheasant season, December 8, 1979 through January 6, 1980. The Lazbuddie Volunteer Fire Department is asking land owners in the Lazbuddie area to donate the use of their land to the Lazbuddie Fire Department as a shooting preserve, to be licensed by the Texas Parks and Wildlife Department. He said the land will be posted and hunting will be allowed only after obtaining a permit from the Lazbuddie Volunteer Fire Department. He added that if landowners will donate the use of their land, please contact Gilbert Lueras at Sherley-Anderson Elevator, Lazbuddie, 965-2934; Eddie Matthews at Lazbuddie Grain Inc., 965-2926 or Glenn Lust at 965-2828. Landowners or renters who have donated the use of their land will be given a free breakfast on Saturday, December 8, if they will take a group of hunters to hunt on their property after breakfast, he concluded.

ODESSA SLAYDEN

Financial failures

AUSTIN, Texas (Spl.) — A University of Texas finance professor is convinced that "mismanagement of financial affairs" is the chief cause of failure among small firms.

Dr. Ernest Walker, a national authority on the financing of small businesses, says lack of knowledge about managing cash flow is one of the major shortcomings, but others include getting the wrong kind of debt mix, having too much money tied up in accounts receivable and not expanding the management staff once the firm begins to grow.

He teaches a graduate course on Financing the Dynamic Small Firm, wherein students use small business firms in the Austin area as their "laboratories."

She is also in Student Council. These students are well liked by the 8th grade classes as evidence their selection.

Colts Kick 8th. Grade At Olton

This week the 8th grade Mules traveled to Olton to try to break a two game losing streak, but were defeated by the score of Mules 14 and the Colts 34. The Colts scored on the second play of the game and ran in the conversion to lead eight to nothing. The Mules responded with a 65 yard touchdown run by Aldo Almanza on their first drive. Dennis Ruthardt then proceeded to run the two point conversion. The Colts scored again in the second quarter to bring the score to Colts 16 and Mules 8. The Colts scored once in the 3rd quarter and three more times in the fourth to lead 34 to 8. Then with one minute and 45 seconds left in the game Mike Pecina ran the kickoff back 80 yards making the final touchdown of the game.

MJHS Students Will Attend Convention

The alternates are Jason Scoggin and Connie Pucket. These people were selected by the Student Council. The sponsors that will be going along are Mrs. Mary Scoggins and Mr. Mike Richardson. The students plan to leave Nov. 15, and return Nov. 17. While there, they are going to stay at the Villa Capri. There are eight different discussion groups and each of the delegates will attend at least five or these. There will be Officers' Swap Shops to give the officers a chance to see what other Student Council officers from over the state do. They also have a dance for entertainment to climax the convention. We want to wish the best of luck to them and hope they have a real good time!!

This brought the final score to Mules 14 and the Colts 34. The Mules record is now three wins and four losses for the season, with two games left to play.

The Sandhills Philosopher

Editor's note: The Sandhills Philosopher on his Johnson grass farm on Sandy Creek May have his tongue in his cheek this week, although it's hard to tell.

As I understand it, the latest move to whip inflation is the raising of interest rates. Right now they've been raised to 14 1/2 percent and no telling what they'll be by the time you read this.

Now this may work, I hope so, but if it doesn't I've got an idea.

As I recall, the fight on inflation began when they raised the price of a tractor bolt from 15 cents to 85 cents. That didn't work, so next they tried sodawater, from 5 cents a bottle to 25 cents on up. Didn't work. Then they tried raising

the price of all sorts of things, gasoline, heating oil, shoes, cars, houses, Congressmen...but none worked. Inflation kept on rising.

Now here's my idea. If raising interest rates doesn't work, there's just one thing left to try. Farm and ranch products. As a last resort, raise them.

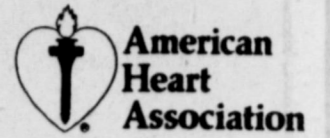

Farmers have been delinquent about fighting inflation, charging today about what they got 20 years ago. If farmers had kept pace with say gasoline, which has tripled in price in less than ten years, inflation might now be behind us. What would be ahead I can't say. Afraid to look.

Nonetheless, as everybody knows, the three

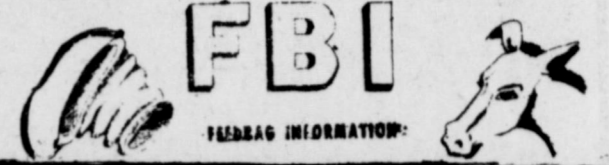

basic necessities for life today are food, shelter and gasoline, and farmers ought to be holding up their side of the inflation fight. Everybody except them is out raising prices. Why I even heard of a politician who's running on a platform of rising expectations.

But take heart, the end of inflation might be just around the corner, except that we live on a round planet.

Yours faithfully J.A.

MJHS Coaches Comments

I feel as if our 8th graders played pretty well for almost three quarters last Thursday night against Olton. At the time we were behind by only one touchdown and had a couple of chances to be either ahead or tied in the ball game. In the fourth quarter Olton managed a couple of long runs and outran us to put the game out of reach. Aldo Almanza ran a reverse 65 yards for our first half score and Mike Pecina ran an Olton kick-off for an 80 yard touchdown run in the second half.

We were very pleased with the effort and hustle shown by all of our 7th graders in their 19-0 win over Olton. The 7th graders have worked well together as a team and have displayed a winning spirit so far, which is the big reason for their win over Olton. Coaches are encouraged by determination of this group. Any time a team is going to be successful, attitudes play the major role, and thus far attitudes have been excellent in the 7th grade.

To my many customers I would like to thank you for making this opportunity to say "THANK YOU FOR MAKING THIS ONE OF MY BEST YEARS." I have appreciated your patience and confidence in the work that I do. Muleshoe is truly a place of opportunity for someone who wishes to apply their skill. For the next few months I shall be working in a different area of Texas (Bryan, Texas). So during the winter months or at least for a couple of them, I shall not be here to answer my phone. I am taking schedule applications for the Spring-Summer-Fall season of 1980 and am pleased to have six (6) jobs scheduled already. So should you be thinking of doing some painting or repair work next year, I would be glad to give you an estimate (no charge) and put you on the schedule. Southwestern Conference Leadership In Doubt

If Texas should beat Houston Saturday night, the question will quickly pop up as to just who is the top team in the Southwest Conference. Houston beat Arkansas who beat Texas who beat Houston! Guess the only way out of all that is for the Cougars to beat the Longhorns. Houston has been making life a little miserable for each team it faces, and the Cougars are planning that Texas, who they'll meet on familiar home ground, will be number nine on the list. The Horns are on the road after entertaining Texas Tech last week. In a series that has a short history - two games apiece - we like Texas over Houston by

three points. The Washington Huskies are in position to do themselves a huge favor in the Pac-10 Conference race by upsetting Southern California. Easier said than done. However, Washington is at home against the Trojans and has only Washington State remaining on its schedule. The Trojans still have to contend with stubborn U.C.L.A. We're not picking an upset, but it'll be close. Southern Cal is favored by only six points. Two weeks ago Florida State eased over a major hurdle by beating L.S.U. This week upset-minded South Carolina visits Tallahassee to possibly give the Seminoles some of the

same fits it recently gave Notre Dame. Florida State is expected to survive...the spread is ten points. North Carolina and North Carolina State both tackle toughies this week, and it's just possible that neither will escape. The Tar Heels host Clemson in an Atlantic Coast Conference skirmish while the Wolf-pack tangles with Penn State. Based on the power quotient differences, North Carolina will nip Clemson by five, and Penn State is 11 points stronger than North Carolina State. In other features, Alabama will beat L.S.U. by sixteen, and Tennessee is favored over Notre Dame by four points. Harris urges Congress to act quickly on fuel rebates. House votes to raise debt ceiling by \$49 billion to May.

Brown Protests Import Changes To Protect Texas Produce

AUSTIN--Objecting to proposed changes in quarantine measures regulating the importation of Hawaiian fruits and vegetables, Agriculture Commissioner Reagan V. Brown has filed a protest with the U. S. Department of Agriculture (USDA).

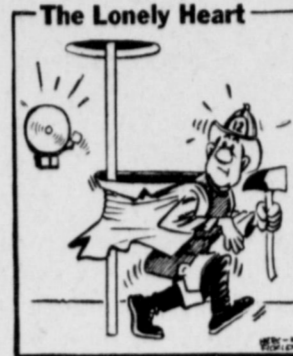

The proposed changes would relax inspection and treatment requirements on avocados shipped to the mainland from Hawaii. Brown called for a continuance of present regulations which are based on certification treatments which have been thoroughly tested and "proven to be 100 percent effective" in controlling the target pests.

"Adequate research must be done to prove that the new procedures would equal existing requirements," Brown contended.

"Oriental fruit fly, melon fly, and the Mediterranean fruit fly are serious pests of

fruits and vegetables in Hawaii, and could move into Texas in untreated produce," Brown explained.

"And while Texas, at the present time, is free of infestations of these pests, if only one of them became established in the state or in any other major citrus or vegetable producing areas of the mainland, the cost would far exceed the benefits derived from relaxation of the quarantine requirements," Brown explained.
