GOV. NEMPER'S PROCLAMATION.

Richmond, Va., Nov 6—Governor Kemper has issued a proclamation stating that information has just been received to the effect that a detachment of United States troops have this day been quartered at Petemberg under orders to remain till after the election, and to be under the sole direction of the Federal officials. The proclamation sets forth that the Federal constitution provides that the government shall protest each State upon application of the Legislature or the Executive against domestic violence, and the Governor says New Orleans, Nov 6-A special to the Picayone from Vicksburg, says: The Sheriff's posse sent from Fayette to arrest a negro for sheeting another, were fired ou and two of the posse mortally wound-

Every citizen of whatever color or condition, is, and will be protected in all his personal and political rights and privileges, by the authorities of the State of Virginia. No application by the Legislature or Executive has been made to the President for protection against any violence, and no sensiplaint is made that the rights of pay citizen are assailed or threatened, but, in the A dispatch from Monroe says that a large body of assed negroes entered that place, and after secreting their arms remained. To-day the Mayor issued a proclamation commanding them to leave their arms and return to their homes. They were about to comply when Hamlet, larger sheriff, collected about 300 negroes in the city limits and selved them not to observe Marouria. and advised them not to obey the Mayor's proclamation. The negroes took the viberiff's advice and concluded to remain. They say they will have another company join them to night! OUTRAGES.

Mew York. Nov. 6.—After the Democratic torchight procession at Brooklyn-last night, Gev. Tilden was entertained at a hotel by his political friends, and made he is speech, as follows:

This contest is the greatest, the most interesting, the most aclemn, the most interesting. The question is, whether we shall have a natical, harmonious government, and a country suited to the people of all political stations—whather we shall join with our friends, and sarry forward the great principles to which we have devoted ourselves. Too long, also, have we been engaged is domestic broile. Can New York and Brooklyn he proposed with the favor of a policy that destroys one half of the country? INDEGRATION.

Richmond, Nov 6—Our people are considerably excited over the sending of Federal troops to Petersburg, and indignation is general at the action of the President.

The following order was received here by District Attorney, Lowis, from the Executive Mansion:

"Sir—Whereas I have reason to believe that Generas will be committed within

I understand that Parson Browlow was circulating my letter, to get votes for the Republican cance, which I am very happy to have him 6. pass a summary of the situation to South Carolina, which leaves Governor Chamber-lain scarcely a shred of the clumsy woven fabric out of which he made the latest bloody shirt. It at the same time sheds quite a new light arous the Governor's necessity for tacops. It would seem that Chamberlain seeks protection from the houses members of his own party more than from the terrible white Democrats. The Governor's excuse—want of meney—for not calling the Legislature together (from whom, if convenable, the appeal whould have come) is admirably disposed of. The members would in any case have had to provide the expenses. The real ranson is, however, laid bare—namely, that the malcontent Republican members of the South Carolina Legislature would have kicked in the harness and refused to bring a needless discredit on the State. By appealing directly to the Precident Chamberlain avoided all this disaster to his canyase. If the appeal were not littened to he would be no verse off than before; but if sustained by foderal bayonets behoped to drive the citizens of the State literally linte opposing camps, so that any concert of action between the white swd negro races to prevent his own re-cleation would be impossible. The evidence is pass a summary of the situation in South negro races to proyent his own re-cleation rould be impossible. The evidence in irect that the respectable Republican who proposed to scratch Chamberlain on election day were equally determined to vote for Hayes. That would not seit Chamberlain. He must have a het blooded canvass to make fusion impossible. The Republican calculation brings Hayes to this city with 6400 majority, while the Democratic calculation brings Tilden here with 15,750 to wrestel with the unknown quantities of a Philadelphia majority. to the contests of the last five years, the Republican leaders of this city could command not less than five thousand Democratic votes whenever it was a necessity to have them; but this year the whole commercial elements of the Democracy are invulnerable to either gifts or promises, because they believe nothing to be successful but success, and they worship Tilden as the rising sun. The Democracy are the most spontaneous sort of voters in a hopeful contest, and it is idle for the Hepablican leaders to close their eyes to the fact that since 1856 the Democrats have not been so inspired with confidence as now (Nor is it the mere niathematical culculation of leaders that has made it so. On the contrary, the masses have taken it as mothers' milk, and are nourished or wherefore. They believe, since the October elections, that Tilden will be successful, and that is the element of the contest that confronts the Republicans with the gravest perils in struggling for Pennsylvania. This inspiration of Democratic confidence is what will embarrass the Republican managers at every step in Philadelphia. In vain will they have 180,000 names on the list of voters if there are resolute, hopeful Tilden men at every poll, meeting them as did the quiet but earnest voters on the the October elections, that Tilden quiet but earnest voters on the adoption of the new constitution. Here and there fictitious names may be yoted in numbers, and by fraud; but there is every difference between running such a battle with the tide and pushing it is the likely to impress itself most pointedly upon the Republican leaders of this city at the November election. If the current of the last ten days abali continue for ten days more, Philadelphia will be taxed to the characteristic of the standard depoying in the tendy supply in the most depoying in the tendy supply in t and the vote of the country will swallow Philadelphia up and have some thousands to spare. Can the current be changed I This is the problem to be solved. There are

but a few days in which to do it, and what reserves have the Republican to bring into action to reverse the tide of battle? Certainly, war proclamations against the South will but swell the current against them, and the popular conviction that the least of the Southern greatStatesasNew York, Pennsyl mains to discuss as a vital issue before the people but the question of a regenerated government.
