HOW A SQUATTER WAS SERVED. A man in Montana, a short time tively refused to do so; so one night a squad of men came round, after the addator and his wife were asleep, and, litting the whole concern, shauty and all, with deliberate care, and carried it to the river and set it on a small raft. Then they pushed the raft out into the stream and left her go. When the squatter got up in the morning to go out, he was surprised to find himself about sixty miles down stream, and making good time in a nine knot current. This is all we shall say about that man. It would be extremely improper to report his remarks in full in this paper .-Philadelphia Bulletin.
