ANNOUNCEMENTS

FOR RECORD.
I, W. W. Walker, do hereby certify that I am a resident of the County of Brewster, State of Texas, and have been duly qualified as a Justice of the Peace for the County of Brewster, State of Texas, for the term of one year, commencing on the 1st day of January, 1891, and terminating on the 31st day of December, 1891.

CITY ATTORNEY.
I, W. W. Walker, do hereby certify that I am a resident of the County of Brewster, State of Texas, and have been duly qualified as a Justice of the Peace for the County of Brewster, State of Texas, for the term of one year, commencing on the 1st day of January, 1891, and terminating on the 31st day of December, 1891.

CITY MARSHAL.
I, W. W. Walker, do hereby certify that I am a resident of the County of Brewster, State of Texas, and have been duly qualified as a Justice of the Peace for the County of Brewster, State of Texas, for the term of one year, commencing on the 1st day of January, 1891, and terminating on the 31st day of December, 1891.

GOV. HUBBARD'S INAUGURAL ADDRESS.

Upon his inauguration Gov. Hubbard delivered the following address to the people of Texas. It will be read with interest by all.

Called upon to assume the responsibilities of the Executive office under circumstances unusual in our history, I find no legislative body, representing our interests or speaking your will, in session at the opening of my term.

It is a custom as old and as honored as the history of our Federal and State governments, which requires the chief executive officer, upon his installation, to make a declaration of his faith and devotion to the honor and interest of Texas, during a citizenship of more than a quarter of a century, I also claim to be the peer of any of her sons, whether among living contemporaries or sleeping with her honored dead.

Upon your counsel and your forbearance, which are now and henceforth earnestly invoked, I confidently rely in discharging the duties of my office, and in upholding this Executive in the faithful execution of the laws.

There is no high-sounding promise to make for the future, as I have indicated, I trust, no pledge in the past; yet, fellow-citizens, while claiming no exemption from the frailties of passion or the infirmities of human judgment, I nevertheless, desiring to preserve the integrity of my administration, that I shall have no friends toward and no enemies to punish in the official discharge of the great trust which devolves on me in this office, which I shall discharge with impartiality to all sections of the great State, I shall be satisfied to rest my laurels here in the public service with the calm judgment of my countrymen.

The station which by the consent of the Legislature, without the fault of either the executive or legislative department, not yet been placed in the hands of all civil officers of the State, and a year ago, books to the great masses of the people.

Until they shall have passed judgment on these laws; until their efficiency or inefficiency shall have been weighed in the balance of intelligent popular discussion; until the people shall have pronounced their verdict in the judicial forum; and by intelligent assemblies of the people, the executive surely should not anticipate that discussion, or that judgment, by assuming them on all questions of public policy, and by the judiciary, or other measures of State policy, the recent Legislature was a failure, or in advance of a trial that their majesty would fail to preserve the public credit in the State, and by the constitution themselves have been too often unwisely swept away in suit each with change of popular passion and prejudice. Let us be patient of all

real or fancied present ills till the remedy proposed by the legislative department of the government shall at least have been actually and fairly tested. Whatever may be the judgment of individual private citizens, it is surely not to be taken for granted that the representatives of the people who so recently met in the capital have already changed or would change their published record on grave questions of State policy so shortly after the close of a long and arduous session—and almost at the beginning of the fiscal year, and before the actual experiment made testing the capacity of these laws to meet the wants of the State government. Until they shall have reconsidered their ordinance—more a part of the State's history, and so announced to the country a charitable judgment will concede that the representative still stands by his record.

I have not briefly thus much, fellow-citizens, because I can not ignore the fact that the question of calling an extra session of the Legislature at an early day is agreed among the public mind. I here announce to you, therefore, that I shall hold myself free to act on this as on other grave issues, as my convictions of duty are directed by the developments of the future. I assume the full measure of responsibility of assembling the representatives of the people together to consider whether or not immediate action may be required, and to consider the honor or credit of the State at home or abroad. My fellow-citizens have a right to demand that in this direction I take no inconsiderate or hasty step, and their criticisms and criticisms shall not be disappointed.

It is easier to destroy than to rebuild. The patient feels the disease, but it requires the skill of science to prescribe the cure. There is such a thing in political life as a political epidemic, which recognizes that after a certain period of disease nature must work the cure and bring back the life-blood into healthy channels. It is a grave question—whether the Executive is not now called upon to answer—whether, if the Fifteenth Legislature has failed to provide for the present fiscal year, against all deficits, and the conditions which now be applied, in time to prevent the threatened evil. The record of that most important and in many respects exciting period of our legislative history is before the country.

It is a grave question—whether the Executive is not now called upon to answer—whether, if the Fifteenth Legislature has failed to provide for the present fiscal year, against all deficits, and the conditions which now be applied, in time to prevent the threatened evil. blood of our youth, or the inopportune zeal of manhood. He is our high privilege, by heroic fortitude under great wrong, to appeal, not to arms, but to the convictions and the laws, and the common justice of mankind, to secure our final triumph.

In this spirit Texas, through her Executive, sends fraternal greetings to the patriots of all sections and of all parties throughout the Union.

HOLLOWAY'S PILLS AND OINTMENT—We stand ahead of the thousands yearly afflicted by a premature grave, victims of having neglected the first symptoms of disease. Whether the complaint originates in the body, or be introduced accidentally through the skin—fatal results may be averted by a timely recourse to one or both of these medicines. 25 cents per box or pot.

Three Points for Consideration.

During the past five years VERTIGER has been steadily rising into public favor, and those who were at first most incredulous in regard to the cure of the disease, are now its most ardent advocates. There are three essential points in favor of this medicine, which I have found that a little experience and reading in the history of the disease will convince you of the truth of.

The Tired Body Sues for Sleep.

It is easier to destroy than to rebuild. The patient feels the disease, but it requires the skill of science to prescribe the cure. There is such a thing in political life as a political epidemic, which recognizes that after a certain period of disease nature must work the cure and bring back the life-blood into healthy channels.

DAILY EXPRESS. THE GRANGE AND THE CHURCH.

It is a pity when in this world of trouble and difficulties, men have to manufacture trouble and difficulties for the sake of overcoming them.

We have been led to this train of thought by a letter we have recently received from an esteemed friend in DeWitt county, this State, informing us of an attempt being made there by some persons, professing, we believe, to be acting under the authority of some Christian church, to overthrow the Grange, denouncing it as a "secret society."

Now, every man whether a Patron or not, who possesses common sense and any knowledge of the organization, knows that such language is not only absurd, but most maliciously untrue. A secret society? Well, supposing it is: is there a verse, or a clause, or a principle in the Bible that forbids a man to keep his own affairs to himself? And if individuals have this privilege, do they lose it as soon as they begin to act together? Do such reasons never hold meetings and transact business that is kept most rigorously secret from everybody but themselves? Do State and public bodies never hold meetings with closed doors? Do joint-stock corporations and private companies hold their meetings with open doors, and permit any one who desires to enter and learn all he will concerning their business and private affairs? And has not the Grange as good a right to keep its business and private affairs to itself as an individual, as a church session, as a public committee, as a joint stock company? And if not, why not? If we are sick of this sort about secret societies. We have no desire to insist on any one's joining such a society unless he feels so disposed.

SCENES IN THE SOUTH-CAROLINA LEGISLATURE.

HOW THE LEGISLATORS SLEPT, AND HOW THEY WERE KEPT AWAKE.

The Columbia correspondent of the N. Y. Herald writes as follows of the scenes and incidents which transpired in the South Carolina House of Representatives on December 1st.

THE SPEAKERS RESPECTIVE ADVANTAGES.

When the raid was made on the hall by the united democratic forces one of the greatest achievements and triumphs of the hour was the capture of the chair. The first thing they did was to place Speaker Wallace in the chair, and being there he had to sit. Having obtained possession of the chair the next thing they wanted was the gavel, but alas! that instrument, so potent and effective in the hands of a parliamentarian, was not to be found. When Speaker Mackey came and found his seat occupied

and usurped by a democrat, who would not be made to vacate, he at once thought of the gavel. With the gavel he would be all right, and honors would be easy. Mackey forgot it, whereabout, and in despair almost he looked around in every nook and corner of the stand, but without finding it. At length he spied a dapper youth who was a page of the House; he whispered a few words, the page vanished and re-appeared in a moment, placing the magic gavel in the hands of Mackey. It was a victory that can hardly be appreciated by ordinary mortals who have not been legislators or Speakers of a House.

HOW THE ADVANTAGES WERE USED. Mackey flourished it, and though he could not sit down, as Wallace did, he rapped away while the democrats were speaking with such force and effect as to drown the utterance of his opponents. Besides the noise it made Mackey could put the gavel in his pocket and walk about with it, but Wallace dare not for the life of him forsake the chair for an instant. The seat had to be watched and it was amusing to see how carefully the occupant got out of it, and how quickly his successor popped into it, Mackey or his representative eyeing it all the time in the vain hope of finding it unoccupied at every instant.

AFTER MIDNIGHT THE REPUBLICAN SPEAKER being tired standing had to call for one of the ordinary floor chairs, and the position, though not so dignified, became less disagreeable. The hour of three A. M. found even the oratory of Fanny Bill Picketney had given out and a great majority of the houses were slumbering in their seats or stretched on benches or the floors, when Judge T. Mackey came in and aroused the white and black legislators with a humorous speech, which again kept them awake till after four. A denunciatory debate was kept up from that time till daylight, in which the wit and humor of both sides found considerable display and kept them all in a pleasing mood and good temper. At last the long look for day dawned upon the half sleeping and half awake crowd of black and white. Some of them went out to breakfast early. There came back quickly and then others went, relief after relief, until all the legislators had satisfied the cravings of their appetite. Toward ten o'clock visitors began to drop in, and by twelve M. there were good many privileged persons on the floor.

THE EUCALYPTUS TREE.—The St. Louis Republican says that the cultivation of the eucalyptus tree in California has been attended by such manifest benefits that it promises to become a regular business. A very high estimate is set on the tree. In Los Angeles, Alameda and Sonoma counties there are large plantations devoted entirely to it, and new ones are being constantly set out. Fire wood in that region is worth \$10 to \$15 a cord. Experiment show that five of these trees four years old will make a cord of wood. They are planted about eight feet apart, so that making about seven hundred to the acre, so that an acre of trees will yield about one hundred and forty cords of wood, which, at \$10 per cord, would be worth \$1400; or, allowing one-half for cutting it, would yield a net profit of \$700 per acre. But the tree has other uses than that of fuel; it is more valuable for ties, posts, piles and building purposes, so that its value as fire wood is its minimum worth.

THE NEWEST WAY TO PAY OLD DEBTS.—A Maori, having been the unfortunate creditor of a bankrupt and lost \$200 or so, was determined to master the system by which he was deprived of his money.

Having done so, he was able to explain to his friends that he had lost his money because the debtor became 'Packarapu.' In explanation of this word he said that a white man who wants to become a 'Packarapu' goes into business and gets quantities of goods and does not pay for them. He then gets all the money he can get together, say \$10,000, and puts it away where no one can get it, all except \$25. With this he goes to the judge of the Supreme Court and tells him he wishes to become a 'Packarapu.' The judge says he is very sorry, but of course, it cannot be helped, and he then calls all the lawyers together, likewise all the men to whom the 'Packarapu' owes the money, and he says, 'This man is 'Packarapu,' but, wishing to give you all he has got, he has asked me to divide this among you all.' The judge thereupon gives \$20 to the lawyers and \$5 to the other men, and the 'Packarapu' goes home.

FINE STOCK FOR SALE.

LE Ranger line for sale two six and colts, one 2 and the other 3 years old; also a few middle horse. These horses can be seen by calling at Reiner & Bergstrom's livery and wagon office, west side of Military Plaza, San Antonio. dec 1
