premature to indulge in any illusion, we may safely gather encouragement from the fact that the Russian government is apparently disposed to meet the wishes of England and endeavor to come to a mora reasonable arrangement than the inadmissable conditions lately put forward." The Russian telegraphic agency says it is hoped that the Cabinet council, to be held in London today, will lead to a definite result one way or the other.

Wilmington, N. C., March 26 .- Governor Wilmington, N. C., March 20.—Governor Hampton, Attorney General Conner, and Senator Botler, reached here on the southern train this morning. Wilmington, N. C., March 20.—The following is a verbatim extract from Gov. Hampton's speech here this morning:

"My friends—I go to Washington simply to state before the President the faet-that the people of South Carolina have elected me Governor of that State. I go there to say to him that we ask no recognition from any President. We claim the recognition from the votes of the people of the State. I go there to assure him that we are not fighting for party, but we are fighting for the good of the whole country. I am going there to demand our rights, nothing else, and so belp me God, to take nothing less. I go to tell him the condition that South Carolina has been in for year's past. That our people have been nuder disadvantages never encountered by any other people on this continent. Goldsboro, N. C. — March 28.—Gov. Hampton and party passed this point at noon. Two attempts were made to delay the train by misplaced switches. At Timmonsville, Florence, Wilmington, and Magnolia, the citizens turned out in great force and cheered enthusiastically for Hampton. Bands of music, hand shaking and handkercheif waying accompanied every demonstration. Hampton briefly addressed the crowds from the platform of the cars. The gist of his remarks was that having been elected Governor of South Carolina and being recognized by the people as such he intended to exercise his right. His visit was merely a matter of personal courtesy to the President.

Thus is it manifest that tradition in the objectionsense is not confined to Church and State, but it is as common among farmers as it is among politicinus and christians.

One of the most common errors of traditional farming is that of working over to much land, and, for his corn crop, on about three daces of land, and raised corn for making bread for his tamily. It is for every farmer's interest, if he intends to live by his vocation, to learn what he can produce best on his arrable land. The next thing is to ascertain the best methods, so that whigher the crop be wheat, corn, barley, hops, tobacco or grass, it shall be the best of its kind.
