of the Commission made carnest speeches. The business men were, bowever, unmovable. They said that rather than run the risk of having to endure Packard as Governor, would resist with arms so as to make a military Government necessary. Today's experiment end this compromise plan. The Commission may now try to bring about an adjustment nor a basis of a legislature made up from the face of the parish returns. This is the only compromise that has the least prospect of acceptance by the conservatives.

Very extensive revenue frauds in the manufacture of tobacco in North Carolina, have recently been discovered and the Department purposes taking vigorous measures to bring the parties concerned in the matter to speedy punishment. Some thirty manufacturers in the county of Surrey are charged with participation in these fraudulent transactions, and have been indicted before a Grand Jury of the U. S. Circuit Court for the Western District of North Carolina, within the past few days, through the effects of revenue agents Brooks and Wagner. Major Wagner has charge of the district in which these frauda were perpetrated. As a means of defracting the revenue agents from the performance of their duties, a number of suits have been brought against them for alleged technical violation of law, but the Department has signified its intention fully to sustain the agents in tueir prosecution of these and all violators of the Internal Revenue laws, and has as sared them that the power of the government will be invoked to protect them against all such suits. The frauda discovered in North Carolina are estimated by the revenue agents to exceed one-third of the total amount of internal revenue taxes collected in that State.

SIR-R-plying to your note of this date

I have to say that my private secretary will meet such officer as you may designate at 12 m. to-morrow, at the skeentier chamber, for the purpose indicated in your note.

Very respectfully,

D. H. CHAMBERIAIN,

Governor of S. C. Governor of S. C.

There is no excitement here whatever, and all seem to regard the results as proper for the future welfare of the State.

The surrender of the government to, Hampion was preceded by an interesting dignified statement of the sliu-tion by Chamberlain, add essed to the Republicans of South Carolina. It concludes as follows:

But the edict has gone torth No argument or bousidest ou which your friends ment or bousidest ou which your friends But the edict has gone torth No argu-ment or bonsiderat ou which your friends-sought to present have sufficed to avert the disaster. No effective means of resistr-ance to the coosumention of wrong are left. The struggle can not be prolonged. My strict legal rights are of course whol-ly unaffected by the action of the Presi-dent. No court of the state has juries diction to pass upon the title to my effice. No lawful legislature can be convened except upon my call. If the use of these powers promises ultimate success to our

except upon my call. If the use of these powers promises ultimate success to our ca. a. I should not sluriak from any sacrifices which might courfront me. It is a cause in which, by the light of reason and couscience, a man might well lay down his life, but to my mind my present responsibility involves the consideration of the effect of my action upon those whose representative I am. I have hitherto been willing to ask yeu republicate of S. C., to risk all danger and endure all hardships nutil relief should come from the government of the United States. That relief will never come. I can not ask you to follow me further.

MANGLED AND SCALDED.

New Orleans, April 10. -Yesterday the Commission had a three hours' secret consultation, and then received a delegation of the Cotton Exchange, representing its basiness, to whom they are reported to have said they had sought Louisiana, but could not find it. They found two governments, two Supreme Courts and an adleged dual government in all the departments, but, in fact, by the acknowledgment of all parties, there is only one Lezislature, though it meets in two halls. The moment that Legislature meets in one budy it will be the State of Louisiana, and while it is in sevaiou, the only power in the State that can secure the intervention of the army. If self-government is desired, and the withdrawai of the army, It can probably be secured in a day should the public opinion of the State compel its Legislature to meet as one body. There are 33 of the 36 Senators, and 104 of the 120 Representatives, whose election is not disputed by either party, and the Commission orged that when they assembled as such the Commission could have nothing whatever to say about its action. The discussion continued three hours. The delegation was not inclined to accept the suggestion, maintaining that Nicholis must be defended, as Governor, to the fullest extent. The Commission was in session nine hours.

A Richmond Ghost.

The Richmond (Va.) Whig of the 26th says: "A rumor has been in circulation in the city for several weeks past that has caused no little nervousness among the superstitious, especially those of the gentle sex. The basis of this story is: Not a great many years ago, a young and beautiful lady who came here on a visit to friends, during her sojourn was taken to one of the large manufacturing establishments upon the James River to see the machinery of the manufactory in operation. While going through the establishment she ventured too near a line of horizontal shafting, and her clothing becoming entangled in one of the pulleys, she was lifted from the floor, thrown a distance of fifteen or twenty feet, terribly crushed, and killed. This was many years ago. Since that event feet, terribly crushed, and killed. This was many years ago. Since that event transpired the husband of the unfortunate lady has removed near this factory, and for the past few weeks rumor has it that whenever he visits the scenes that witnessed the horrible death of his wife, whether it be in the day or night, he sees what is to all appearances his former companion in life in flesh and blood. The ghost, or spirit, or whatever it may be termed, has on several occasions remained near him until he moved toward her, when she or he would quietly glide mained near him until he moved toward her, when she or it would quietly glide away in the dim distance. These unnatural visits from one who has been dead for more than afteen years have not only been witnessed by the husband, but by many others who knew the lady well during her life, and vehemently assert that they have witnessed all of these visitations. The story, whether it is true or false, has caused no little excitement among the friends of the parties most intimately connected with the af-

STANLET's explorations of the sources of the Nile have added to the number of lakes and connecting streams from which the White Nile is supplied, but seem to have developed problems as great as those which have already been solved. The Alexandra Nile is the titile given to the stream which carries the waters of the newly discovered Alexandria lake to the Victoria lake. It is in keeping with the tities given to adjacent waters—Albert and Victoria—that the Princess of Victoria, should give title to the newly discovered lake and river, but it is slightly confusing when Stanley, speaks as he must of the Alexander Nile being the "mother" of the Victoria Nile.

The uncertainty whether the Eastern question is to have a peaceable or warlike solution, still continues. While it is evident that the leading powers of Europe are not averse to the postponement of the final issue of this vexed question as long as possible, it seems now quite probable that Russian diplomacy and Turkish fanatioism may precipitate the issue between the Moslam and the Christian, which has been so long impending, and which can only be terminated by a result to the sword. The downfail of the Ottoman Empire has long been a subject of prophecy. The sick man of Enrope has time and again been supposed to be arther last gasp, and the leading powers of Enrope have held themselves in readiness to administer upon his estate and di-How absolutely the so-called Packard administer upon his estate and di-

What Is It |

It is a compound extracted from Barks, Roots and Herbs. It is nature's remedy. It is entirely harmless. It has no bad effect upon the system. It is nowrishing and strengthening. It acts directly upon the blood. It gives the swectest sleep at night. It is the great panaces for our sged fathers and mothers, as it gives them strength and their much needed rest and quiet. It is the greatest blood purifier. It has relieved and cured thousands. It is very pleasant to take. It removes the cause, and thereby cures all diseases arising from impure blood. Try Dr. Sherman's Prickly Ash Bitters. Give them a fair trial, then you will recommend them to your triends and acquaintances. Tell J w Stone, I agrocery for yield Bulling them to go to J. Clavin and get a bottle. Price One Dollar. All druggists keep them.
