Liverpool, April 27—The Courier's London correspondent telegraphs that the British government has resolved to interfere between Russia and Turkey, and has the highest authority for stating that her Majesty's government has just been called upon by Austria to folfil her engagements under the tripartite treaty of 1856, for protecting the integrity of the Ottoman Empire, and that a decision has been come to at the Cabinet Council. The Cabinet resolved, as a first step, to make a formal request to the Russian government to state the object of the military oporations now being undertaken against the Ottoman government and define the extent to which it is proposed to carry those opera-

which it is proposed to carry holoso operations.

The correspondent also says the Austrian government will address an inquiry of the same purport to Russia. France, the third party to tripartite altinnee, has not been requested to take action in consideration of the strained relations between France and Germany. The treasy enables any one of the three powers to act separately in the fulfillment of its terms or its call upon either or both powers to fulfill the treaty by joint action. Austria has obvious reasons for not embracing France. Yet Austria cannot longer hesitate in resisting the Russian invasion. Though Earl Derby was able to confidently state a week ago that this country was not likely to be called on to fulfill the tripartite treaty, yet within six days the British government has actually been required to fulfill its undertaking, and it is anticipated that the momentous undertaking of declaring war against Russes will arrive shortly. The situation is regarded at Vienna as far more urgent than the British statesmen admit, and the initiative of military action lies with Austria. It was reported last night that Lord Napler, Governor of Gioraltar, has been instructed to go to Malta, and that a portion of the guards are prefered to embark for Malta immediately. These reports are believed to be premature, although it is understood the strengthening of the garrison at Malta has been under efficial consideration since the government received from Vienns the requisition to fulfill the tripartite treaty

They unite advantages of a Hom- House and a large Eastern House. They have every advantage and facility that can be obtained and will sell at prices below competition. The attention of close buyers is solicited.

They localize cheir business, making it a Home Institution everywhere. They new do business in over one hundred towns in Texas, and can refer to hundreds of persons in this State who are using their instruments.

They are sole proprietors of the DORMAN, HOLMES & CO., and "STANDARD" PIANOS. They also control for this, and several other States, the

Chickering, Steinway, Bradbury, Mathushek, Lighte, and other First Class Ptanos, and the Taylor & Fartey, Standard, Whitney & Holmes, and other First-Class Organs.

They can deliver to their customers at any point in Texas as low as same instrument can be bought from the factory in New York or Boston, saying the purchase, the expense, delay, and risk of long transportation.

They supply families direct, giving them every advantage usually given agenta. Parties living in towns on any of the different lines of railroad in the State, wishing to test their instruments before buying, can have them placed in their homes for trial without extra expense, and in all cases they ship on approval, and do not require a dollar in money until the instrument is received and found satisfactory in every repect.
