Around Muleshoe

Saturday, from 9-midnight, the Muleshoe Area Youth Activities Committee Inc. will sponsor a youth disco at the Bailey County Exhibition Center and Coliseum.

Providing disco sounds will be Bear Enterprises of Portales. Admission will be \$2 each to attend the dance.

According to Elmer J. Reed Jr., SC Manager/Postmaster at Lubbock, applications will be solicited from outside the postal service to fill the postmaster vacancy at Goodland. Starting salary for this position is \$3,198 per year. Consideration will be given to qualified individuals, who, on the date they submit their application, actually reside in the Goodland area.

PS Form 2591, PS Form 2181 and self-addressed envelope may be obtained at the Goodland Post Office.

Applications will be concluded on March 13.

Public hearings have been scheduled by the Texas Parks and Wildlife Department. They have announced they are considering several changes in hunting, fishing and fur-bearing animal regulations for 1980-81.

Included will be changes in the dates for quail and pheasant seasons in this area.

The meeting in Bailey County will be at 2 p.m. March 11 in the Bailey County courthouse.

Bailey County Rye Production Is Rated High

Rye production in Texas was up more than 25 percent in 1979, with Bailey County among the state's top ten producing counties, Agriculture Commissioner Reagan V. Brown has announced.

Bailey County farmers produced 13,000 bushels of rye from 600 harvested acres, or 2.5 percent of the state's total production.

Statewide, rye production totaled 513,000 bushels, up considerably from 1978's yield of 406,000 bushels. Harvested bushels per acre were up from 14 bushels in 1978, to 19 bushels in 1979, Brown said.

JUST PRACTICIN' --Richard Orozco will be a highly paid young man Friday night and Saturday when he joins the 'rocker' crowd at the Bailey County Exhibition Center and Coliseum. The DECA student will be earning at least \$30 an hour as he rocks away for the DECA Rock-A-Thon to aid the Muscular Dystrophy Foundation.

DECA Rock-A-Thon Planned Friday Night

It will be a first in Muleshoe, and many months of preparation have gone into the first Annual DECA ROCK-A-Thon. No, it's not a rock concert, but rather a rocker racket, with a very good purpose.

More than 200 youths from Muleshoe High School and Muleshoe Junior High School will be involved, with the numbers possibly going as high as 500 students before the ROCK-A-Thon ends at 7 p.m. Saturday evening.

Expending time and energy to making prepara-

tions for the event to benefit the Muscular Dystrophy Association is Lola Pylant, instructor for the Distributive Education Club of America from Muleshoe High School. And, although the DECA students will be fully involved, so will numerous other young people, who will rock away the hours between 7 p.m. Friday and 7 p.m. Saturday.

The young people will be furnishing their own rocking chairs, and the rules are simple.

Several authorized breaks

will be given, such as 30 minute breaks for snack, breakfast, lunch, afternoon snack and dinner. There will also be additional group breaks at periodic intervals.

There will be no 'nap' break. For instance, if a young person cannot continue rocking and quits to sleep, they are through rocking in the ROCK-A-Thon.

Also, NO contestant will be allowed to leave the ROCK-A-Thon without their parents being notified.

Prizes will be awarded to the young person turning in the most money with a first through third place given, as well as a prize to the person within each participating group. Also, a prize will be awarded for the best decorated chair.

Throughout the ROCK-A-Thon, various entertainment will be offered, starting off with the Square Dancers from the Texas Lubbock Federation and the Clovis New Mexico District. Square Dancers will be coming to Muleshoe from Lubbock, Plainview, Amarillo, Clovis and Portales. Some will be driving 100 miles or more. The Square Dancers will be performing from 8-11 p.m. on Friday night, March 7.

A spokesman commented, "We would like to thank the Muleshoe High School DECA Club for inviting us to be a part of the ROCK-A-Thon."

"We would also like to invite everyone in the Muleshoe area to come out and see what square dancing is all about, and help support the fight against Muscular Dystrophy. We helped the Crime Line at Cont. on page 6, col. 6

Colonel Discusses Equipment, Men

He brought good news, and bad news, but nonetheless, Colonel Richard A. Ingram, Commander of Reese Air Force Base was well-received, and got an enthusiastic response from members and guests at the Muleshoe Rotary Club Tuesday.

Col. Ingram, who is a Brigadier-General elect, said he planned to speak on two items which should be of vital concern to

Steers Shown At Houston Win Ribbons

"Our youngsters had the highest placings at the Houston Livestock Show in the cattle division that they have had for the last eight years," commented Bailey County Agent Spencer Tanksey Monday morning. He had just returned from the annual show and also commented, "Seven of the 12 cattle shown placed first or second and all 12 placed in the show. We are extremely proud for all the kids who showed, and their parents who have supported them in their efforts."

Belinda Wheeler placed second in the heavyweight Hereford division and showed the Reserve Champion of Breed.

Other placings included Alan Harrison, first heavyweight Charolais; Jacinda Gleason, first heavyweight British Cross; Delia Shaw, first lightweight British Cross; Greg Young, second medium-weight Angus and Jerry Gleason, second, lightweight Simmental.

Also, Jamie Wheeler, second lightweight Maine Anjou; Darin Shaw, fourth lightweight Santa Gertrudis; Jay Gleason, fourth lightweight Maine Anjou; Jimmy Gleason, sixth mediumweight Maine Anjou; Kelly Harrison, seventh heavyweight Limousin and Jodie Wheeler, eighth heavyweight Maine Anjou.

In the Barrow division, Wesley Rasco had the second mediumweight Spotted Poland China; Sharla Morris, sixth heavyweight Duroc; Chris Young, eighth lightweight Duroc; Preston Scoggins, 10th heavyweight Hampshire; Curtis Hunt, 20th heavyweight Hampshire and Greg Harrison, 24th heavyweight Yorkshire.

Showing at the Houston Livestock Show in the barrow division, but not placing were Mike Dunham, Staci Kirby, Tracy Tunnel, Todd Bessire, Darin Shaw and Danny Seales.

people, everywhere, and concentrated on equipment and people in the U.S. Military.

The guest speaker said people were made in the early part of the current president's period in office.

Of vital concern, according to the speaker was the MX missile system which needs to be re-worked and updated. He said USSR is now superior in air power, and cited the United States Air Force Crew members are much younger than much of the aircraft they are flying.

He expressed much concern about the 715 'back-fire' bombers built by the Russians, and questioned why the Russians needed the intercontinental bombers.

Also mentioned by Col. Ingram were the SS18 and SS 20, which he termed as very effective weapons in the USSR missile stockpile and said the U.S. has gone behind the Soviets in accumulating effective and up-to-date missile system.

Col. Ingram compared the United States ceasing to construct missiles to GM stopping building cars for 15 years, then trying to start right up again. He said if they did that, they would be in more trouble than Chrysler is now.

"You can't stop building tractors and convert immediately to stoves," he added.

He said the United States is superior in power to every nation except Russia and said they are superior in numbers. "We can whip them," he said, "But can we whip enough of them." He gave numbers that indicated Russia has 20 planes to every one for the United States, and said he did not know if the U.S. was 20 times as good as Russia.

The colonel spoke about a new plant that has been developed for the United States, which is a very

Seal Coat Program Okayed By Council

Muleshoe residents received a 'double whammy' during the past week, and this was the main topic of discussion by members of the Muleshoe City Council when they met in regular session Tuesday morning.

Last week, General Telephone filed with the Public Utility Commission a request for a rate increase for their basic rates for service affecting more than 200 cities and more than 1.4 million people, including the 3,000 plus telephones in Muleshoe.

According to the request filed by GTE, the requested rate increase is from 50 percent to more than 120 percent, with local businesses expected to bear the brunt of the proposed increase in rates.

It was explained that cities no longer have original jurisdiction over proposed rate increases. On September 1, 1976, the Public Utility Commission

Social Security Supplemental List Growing

Latest figures available show that Bailey County has 122 persons drawings SSI (Supplemental Security Income) who receive a total payment of \$13,568 and an average payment of \$111.21 per month, according to Jim Latimer SS Field Representative from Lubbock.

SSI checks are issued to persons with very low or no income or resources, and who are age 65, blind, or disabled.

Formerly, said Latimer, the program was handled by the State of Texas, and was known as Aid to the Aged, Aid to the Blind, and Aid to Totally and Permanently Disabled. The program has been administered by the Social Security Administration since January 1974.

took over and make the decision on whether or not to grant an increase, and what percentage to approve.

One of the council members explained, "I think any business is due a fair rate of return to their investment, but it should be geared to the level of service provided."

At this point, the continuing problems with telephone service in Muleshoe were discussed at length. It was suggested that letters be mailed to the city outlining telephone problems and giving the resident's view or the businessman's view on whether or not they think GTE merits an increase at this time.

GTE said they could not say the local telephone service would be significantly improved until 1990.

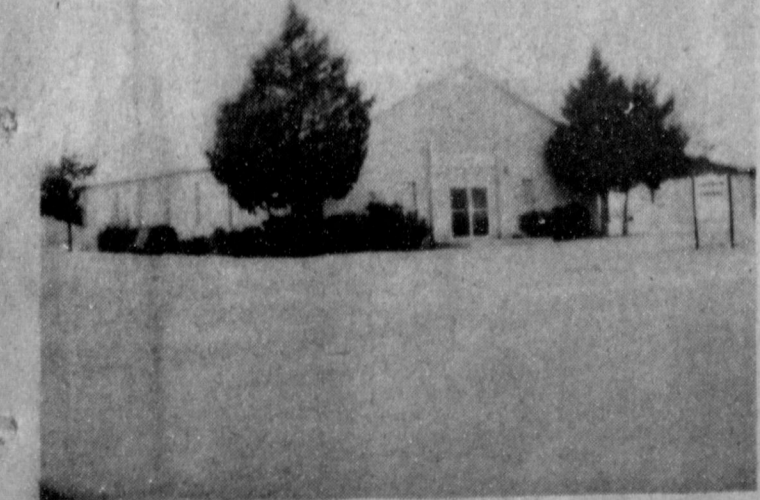

Methods of reaching the local public and asking them to submit their views were discussed, and a letter writing campaign was suggested so the letters can be taken to a PUC meeting in Austin.

In the second portion of the 'double whammy' on Thursday, February 28, Southwestern Public Service Company also filed a rate increase request. Their request was for an additional \$42,647,065 in revenue, with an average increase of 14.78 percent.

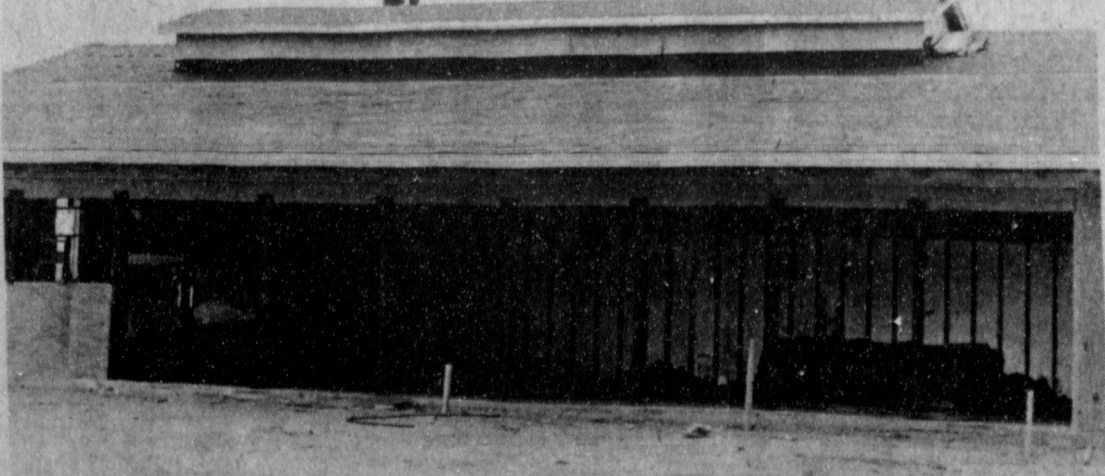

Local SPS manager, Dave Cavitt was at the meeting to discuss the rate increase request with the city council and to hear questions from the council members concerning the proposed hike.

One of the main objections appeared to be that the city council does not believe a utility company should be charging the users with the construction of plants not completed and not in operation. It was explained that Texas is the only state that allows new plants under construction to be charged back to the users before the plants are operational.

'ugly airplane' and is in fact, called the war hog. However, the plane, which is heavily reinforced with very heavy steel, will offer added protection for both the pilot and the plane.

He gave the role of the C-5 in helping Israel becoming an independent nation. He said the C-5 could carry 1,000 people inside and could carry tanks.

Also, commercial airplanes are adapting some of their planes to some military specifications, and some of them could be used as military planes in

Revival Week

Is Planned

At Circle Back

A revival meeting will begin Monday, March 10, and continue through March 16 at the Circle Back Baptist Church. Services will begin on Monday at 7:30 p.m. and will be conducted each evening through Saturday at that time.

Morning services will be Tuesday through Friday at 10 a.m. and on Sunday, March 16, Sunday School will be at 10 a.m., with the morning service scheduled for 11 a.m. and evening service at 6:30 p.m.

Guest evangelist and musicians for the revival will be Rev. and Mrs. Ferrel Massey and their daughter, Sherri, from Kiowa, Okla. Rev. Massey is a full time evangelist and Sherri is a student at Oklahoma Baptist University.

Sherri Massey is a ventriloquist, and with the help of her doll, Kelly Jean, she is especially interested in children's work. Both the guest evangelist and his wife are singers and work together leading music and doing the preaching in revivals.

On Sunday, March 16, a basket lunch will be served at the church following the morning service. All attending the Sunday morning services are asked to bring their basket lunch and stay after the services for the luncheon.

Rev. Douglas Gardner is pastor of Circle Back Baptist Church, and he and the congregation said they would like to extend an invitation to the entire community to attend any or all of the special services.

the event of war.

He also spoke about a new gun which has replaced the formerly rather ineffective aircraft guns.

For people, "I am in the business of training people at Reese AFB to kill," he said, "and when they are combat ready, we have an investment of \$2 and a half to \$3 million dollars in them."

He was high with praise for the caliber of young people in the military today, and added, "If they don't do it well in the service today, it is because we don't show them right."

The colonel said most of the enlistees today have at least one year of college, and said it is a tragedy

when a young man, supervising up to 25 men, and working up to 80 hours a week, has to go on food stamps for a living. He

Job prospects look encouraging for Aggie graduates

COLLEGE STATION — Nearly 95 percent of the eligible spring graduates at Texas A&M University have jobs lined up before leaving the university and a large percentage will command top dollars despite predictions of recession and increased unemployment, university officials report.

Of the 2,700 potential graduates, most will have degrees in engineering, agriculture and science — all highly prized by employers.

Salaries for Texas A&M students have in recent years been above average in all fields, especially engineering, said Ron

added, "Something's wrong when they can make more sacking groceries than they can by leading people."

Winn, associate director of the university's placement office. Petroleum engineering topped the latest list at \$2,007; chemical engineers averaged \$1,788 and other engineering disciplines ranged from \$1,745 to \$1,483, based on figures voluntarily reported to the university by its 1979 fall graduates.

PRINCE IN FRANCE — PARIS — Exiled Cambodian Prince Norodom Sihanouk arrived in the French capital recently to the cheers of his compatriots to head a campaign calling for an end of the genocide of the Cambodian people and the ouster of the Vietnamese-backed Phnom Penh government.

Despite some reports to the contrary, Col. Ingram said there is no free dental care, no free medical care and a very small housing allowance in the military. "We lose up to 50 percent of our total work force in their first enlistment," he added, "And, I am talking about young enlisted people, the finest young people this nation produces, and can't retain because he can't afford to put braces on his children's teeth."

Col. Ingram emphasized, "We are not asking for a handout, but only are asking for a fair shake. You pay the bills, you elect the people who set the priorities. Right now, 95 percent of the commercial

pilots are military trained. We can't keep them because they make more money on the outside."

He closed with the comment, "If you want us to fight a war, just aim us an let us fight it, so that when we come back home, we won't have to have a critique."

The guest speaker was introduced by Jess Winn.

This hybrid's record for consistency has made it one of the most popular hybrids on the High Plains. In 77 comparisons over the last four years against competitive hybrids, 3184 has shown an average yield of 183.7 bu./A. with a yield advantage of 14.3 bu./A. over competitors. Bred with outstanding drought tolerance, 3184 can adjust ear size and kernel depth to match growing conditions. And strong stalks keep 3184 standing straight for speedy harvest. It's just what High Plains farmers need in a dependable, high-yielding corn hybrid. And its maturity makes it a good companion for 3183.

Push this one for highest yields! In 43 comparisons on the High Plains in 1979, this hybrid averaged 192.1 bu./A. A sampling of yields from 1979 includes 216 bu./A. for Sheldon Rapp at Hooker, Oklahoma . . . 210.4 bu./A. for Larry Kemp of Muleshoe . . . and 196.7 bu./A. for Doyle Underwood at Dimmitt, Texas. 3183 has demonstrated very good standability and ear retention in this area. Excellent drought tolerance helps 3183 maintain outstanding consistency year after year. And it has been especially impressive on gray soils. Plant 3183 along with 3184. Spread genetic risks and get top performance, too.

Church...

Cont. from page 1

The pastor and members of the church said they would like to extend a cordial invitation to everyone to "come and take part and enjoy the inspirational lessons—that will be taught."

Janice Bradshaw compiled the following history to commemorate the 50th year of the church in Lazbuddie:

The Lazbuddie Church of Christ had its beginning in 1929. The idea had been planted in the minds of a few families who had been meeting with a group at the Cracker Box school house. Some of the families who met were the Clarks, W.J. Coffman, John Crims, Oattie York, Joe Jarmans, W.H. Gammons, Roy Daniels, Lawrence McKillips, Cecil Wylies, Roy Carrs, Mrs. Anna Templar and others who were not on record.

W.M. Thompson held a meeting for us. There had been complaints from the teachers and children that some books had been misplaced and desks rearranged. Bro. Thompson said, "This will not do, brethren, you will have to get a place to worship of your own. You can if you want to badly enough."

Joe Jarman, W.H. Gammon and some of the men checked around for a possible location. Bill Sherley offered two acres north of the Lazbuddie School. This location was chosen as it was in an established community.

A lumber yard in Muleshoe was given the contract for a building and a down payment was made. This building would seat 150 people with a classroom on either side of the pulpit.

The new building was completed and was opened in May 1930 with Bro. W.M. Thompson of Oklahoma holding a meeting for them. There was an all day meeting with "dinner on the ground and singing in the afternoon." Many visitors from the community and surrounding areas came and enjoyed the time.

Many of the families from Cracker Box came to Lazbuddie to worship. A few families near Jesko School house met there for awhile because of the distance and ways of travel.

The building was heated by a pot-bellied stove in the center of the auditorium. The first one to arrive built the fire. When it was especially cold, all met around the stove for the lesson. On one Sunday, Joe Jarman was especially eloquent. Joe taught many good lessons in his good old homespun way. One lesson especially apt was on being faithful in attendance. "You can be absent once and it will not bother your conscience. The second time, it will bother you some and by the time you are absent three times, you are ready to go fishing." Joe was a faithful Christian and an inspiration to everyone.

In the 1930s, several families moved into our community. Some of these families included the Benton Burtons, Ralph Dishes, Clyde Carters, Ab. Carrol and his father, Sam; Jessie Vaughns; Luther McKillips; Elbert Ropers; Garvin Thorns; George Crains; Frank Wagons; Happy Wagons; I.G. Roberts; Jim Moodys; the Sartens; The Vinsons; John Gammons; Cecil Simms; Mrs. Mahon and her daughters; the Armstrongs; Hershel Brawleys; the Eckridges and the C.C. Matthews.

The lumber yard that

built the house sold. They said they would discount the note if the remaining money could be raised, and it was.

Since there was no preacher's house, preachers came from the area towns. Among these were: Bro. Chapin, who had a grocery store in Friona; Ebb Randol, a store owner in Farwell; Lewis Cox, who worked for the railroad in Clovis and Houston Biggerstaff. There were some of the best preachers, and others who were just learning.

During the summer, there was always a two week meeting. At least one Sunday was an all day meeting with dinner and singing. The house was always full and times were enjoyable.

Some of the preachers who came our way for meetings were Bro. Turner, W.L. Wallace, R.A. Hartsell, Wallace Thompson, Mid McKnight, Virgil Trout, Walter Bostick, Roy Cogdell, Durward Lee and others.

In the 1940s Edd and Calvin Clark; the Ray Lahons; the J.M. Bakers; the Shanks Ivys, the Clevengers and the Roy Whites joined the number. Joe Jarman, Frank Wagon and W.O. Burford served the church as elders.

A house for a preacher was planned. The material was purchased and Bro. Eskridge, who had some building knowledge, helped the men build a two bedroom house. The women helped with the painting and papering of the new house.

Harley Stone and his family were the first occupants. Then John Wilson from Oklahoma preached for a time before going on to do evangelistic work.

Leroy Thompson, son of W.M. Thompson, worked with us until 1947. He

taught in the Lazbuddie school system and was basketball coach.

The church was showing steady progress.

Howard Subblefield was the next minister. Then L.L. Freeman came and was here for several years. During this time, three classrooms and a baptistry were added to the church building and another bedroom added to the preacher's house.

In the late 40s and early 50s, Pete Mimms, Neal Bradshaw's family; the Duane Darlings; the Willie Waddells; the Riley Goodnoughs; the Loyd Brandons; Frank and Joe Bozeman; the Choates and the Hartis moved into the community and church. Many of the young people married and established homes in the community. These were D.B. Ivy, Orbie Jarman, J.W. Gammon, J.J. McDonald, Everett McBroom, Andy Brown, Albert and Wayne Clark, Dalton Mimms, Joe Briggs, Billy John Thorn, Max Steinbock and Junior Matthews.

Condy Billingsley, Loyd and LaVerne Vaughn, J.C. Scruggs, Sal Tipton, Homer Mangum, E.H. Hall, Frank Hunts, Marvin Mimms, James Wards, Everett Maxwells, Fred Burch and the John Bonds began worshipping at the church also. Many others also started attending the church.

With the encouragement of the Lazbuddie congregation, Condy Billingsley became a minister of the gospel.

Denton Thompson, another son of W.M. Thompson, preached and he and his wife and family were a great help to the church and community.

R.A. Hartsell from Kouawa, Okla. was the minister when a new auditorium

was added. The old auditorium was divided into classrooms and a new preacher's house was moved in to replace the old one. During this time, John Gammon, Duane Darling and Roy Daniel were appointed elders. Pete Mimms and Harold Wilson were added later.

Dennis Smith and Glenn Annear were the next preachers. Then came Gaither Vandivear and family who encouraged the church to be involved in bible study and mission work.

When he left us he went to Sao Paulo, Brazil.

The church has been involved in helping in mission work in Mexico, Brazil, Australia, Greece, Ireland, as well as work in the United States and helping and encouraging young preachers.

The preachers following were Willie Hamblen, Barry Jones, Curtis Brown and Andy Rogers, who is the preacher at this time.

Elders serving the church at this time are Wayne Clark, Duane Darling, Pete Mimms and Willie Waddell.

All present members and former members are encouraged to attend the special week of services commemorating the 50 years of the Lazbuddie Church of Christ.

"Every year, we have a Christmas special at Level-land, with each dancer bringing a Christmas gift for the girls at Girlstown."

At designated times, couples will be chosen from the audience Friday night to join the square dancers. They will be wearing their colorful square dancing clothing and boosting their form of dancing. They suggest that you bring a car load of people and join the fun at the Bailey County Exhibition Center and Coliseum. Door prizes will be given, and contributions will be accepted for the Muscular Dystrophy Foundation. Merchants have donated many prizes which will be awarded during the ROCK-A-Thon and a concession stand will be in operation.

A concession stand will be open during the entire event, and will be operated by Richland Hills PTA from 7-11 p.m. on Friday. The Muleshoe Jaycees will operate the concession stand from 11 p.m.-8 a.m. with the Rainbow girls operating the stand from 8 a.m.-1 p.m. and the closing 1-7 p.m. time will be the Triangle CB Club.

A spokesman for the Richland Hills PTA commented, "We are asking anyone who can to bake either one dozen brownies

or cookies and take them to the Civic Center on March 7 from 9 a.m. to noon, or after 6 p.m. All funds received from the concession stand is for Muscular Dystrophy. Our sole purpose is to operate the concession stand for the MD fund drive."

Entertainment will keep things lively during the ROCK-A-Thon. Starting off the evening will be the Square Dancers and the Round Dancers.

At 11:30 p.m. Steve Claybrook will perform trombone solos.

After midnight, the rockers will be playing frisbee from their rockers, and that will be followed by games at the tables and volleyball from the rocking chairs.

A movie will also be shown on "Undersea Kingdom" which was made by Republic Pictures in 1936. The film will star

Roy 'Crash' Corrigan and Smiley Burnett.

Saturday morning, Tri-County gymnastics will perform at 9:15 a.m., followed by Cindy Purdy School of Gymnasts and Dance at 10:30 a.m.

From 1-2:30 p.m. on Saturday, the Mighty 'M' Stage band will perform, followed by the Tex-Anns from South Plains College Drill Team at 2:30 p.m. From 5-7 p.m. Saturday, the Espinoza Band will perform.

All activities are being presented free of charge, and all contributions and pledges will be accepted. The young people are soliciting pledges with amounts pledged for each hour they rock without stopping except for the designated breaks. Also, persons who do not wish to make a pledge may make a contribution. All funds will be used for the MD fund.

General Telephone Files For First Statewide Rate Changes Since 1976; New Rates Should Be More Equitable

For the first time since the Public Utility Commission of Texas began regulation of Texas telephone companies, General Telephone Company of the Southwest is asking for rate changes designed to produce about \$58 million in additional annual local revenues. Because this case is being filed on a statewide basis, adhering to statewide rate-making principles, there is no "average" increase we can quote for an "average" customer. Increases will vary from community to community. Rates for all General Telephone customers in Texas will be affected, but there will be no changes in long distance rates. Here is our case:

Phone service is a good buy

You don't need to tell you prices have gone up. But the price for phone service hasn't gone up as much as you may think. In fact, you may easily spend more on coffee for coffee breaks than you do for a month of basic local service. Contrast that with the prices you pay for shoes and sugar or gasoline and hamburger. Or contrast it with what we pay for poles, wires, cables, etc. We can't sell 1980 service at 1976 prices...and stay in business.

We're facing facts

America's investor-owned utilities are fighting to stay financially sound and we're in the middle of that fight. As part of on-going good management, we constantly work to improve the efficiency of our operations. We've even gone to the length of redesigning truck bodies ourselves because we needed a less expensive, lighter weight, more fuel efficient model and automotive engineers weren't interested in the small (to them) number we'd purchase. We've managed to avoid the rate increase arena for nearly four years through efforts like these but they aren't enough any more. We don't intend to become a financial burden to anyone...and we can face facts. So, let's face this one: it's either a rate increase or some other alternative.

What alternatives?

1. Downgrade customer service.
2. Defer plant and equipment additions.
3. Let our shareholders' investment deteriorate.
4. Ask our employees to give up justified wage increases.

Alternative 1: Downgrade customer service

You expect phones to work as close to 100 percent of the time as is possible and when phone service is out, you want it fixed. Fast. We agree. And you don't want to wait to get service to begin with, no matter how fast Texas grows. We also agree. Therefore, we can't let service deteriorate simply because costs of providing it increase. In fact, from our point of view, service in some spots could stand improving...and we ought to know; we've been in this business a long time. But improvements cost money.

Alternative 2: Defer plant and equipment additions

We've already done that...or as much as we possibly could. Texas has been experiencing unprecedented growth and that's nice, because growth is healthy. The trouble is we have had to spend (and borrow) unprecedented amounts of money (at unprecedented interest rates) to provide the facilities to meet that growth. And the dollars we spent in 1979 and will spend in 1980 don't buy as much as they used to. They don't even buy as much as they did the last time we had increases in rates - 1976. We've had customers tell us, "Look, my service is fine. Let it stay the same until 1999, just leave the rates alone." Sounds great, but it's not that simple. Even if it were possible, we'd still be spending millions each year just to maintain what's out there now. Practically speaking, however, we can't stand still. The rules under which we operate say we must meet all reasonable service requests in a timely manner. Telephone equipment is complex and it can't be put in overnight. With the way Texas has been growing and the way inflation is rampaging, some days it seems as though it will take all the running we can do and all the dollars we have just to stay in the same place. The engineering and construction work we do (and pay for) today determines the quality and quantity of service tomorrow.

Alternative 3: Let our shareholders' investment deteriorate

Everyone loves this answer...except the shareholders...and they may be you directly, or indirectly, if you have a pension plan, life insurance or own mutual fund shares. Realistically, however, shareholders have to earn a reasonable return on their investment. Otherwise, they don't invest. Would you? It was yesterday's investment money which bought the equipment serving you today and today's investment money is needed to buy the equipment to serve you tomorrow.

Alternative 4: Ask our employees to give up justified wage increases

Our employees are skilled and dedicated and we need them. To cut costs by denying them justified increases would be counterproductive. We must pay competitive wages and benefits to attract and hold employees with the skills and productivity we need. As Texas grows, we'll need even more. If we lose or can't find quality employees, your service could suffer.

So what's left?

That's pretty obvious: a rate increase. But it won't happen right away. It's not that simple and it isn't automatic. Most businesses, if their costs go up, simply raise their prices or drop the service. We are a regulated utility and even when we aren't receiving enough money for service, we must continue providing it and keep on doing so until we can

prove to the Public Utility Commission of Texas (PUC) that we're in financial need. Only then can we plead our case for a rate increase. What's more, it takes time before we receive authority to increase rates. By then, inflation may have lowered the buying power of the dollar enough so we're right back where we started or worse.

The tax collector wins

We're asking for about \$58 million in additional annual local revenues, half of which will go to increased taxes. Just about half of any increase we ever get goes to increased taxes.

About those varied increases

We can't give you an "average" increase for an "average" customer. Increases are going to vary, literally, all over the map of Texas. The chief reason is a shift from city-by-city rate-making to statewide rate-making. When this shift is completed, you will be paying rates based on the number of telephone numbers you can call without a long distance charge. We think you'll find this system fairer to all.

No increase is popular

We know you aren't going to like an increase in phone rates. In today's economic climate, we don't blame you. We don't like it, either. We also didn't like the astounding increases in electricity, gasoline, telephone equipment, taxes, interest rates, etc., we've faced over the last few years...but we've had to pay them.

We're consumers ourselves

We're trying to be as open and aboveboard as we can. There's nothing hidden about our operations and we aren't some giant out to gouge the consumer. We're consumers ourselves and we're doing our best to protect you and your phone service...and to keep the rates for it within everyone's reach.

We'll talk and listen

So, there it is. We've got to earn more money and raising rates is our only choice. If you have questions about your individual service rate, call your local business office or your division manager. Division managers are listed in the front of your phone book. They'll even help arrange speakers for your club or organization. We're all people you can talk to...and we want to keep you talking.

**Statement Of Intent
To Change Rates**

General Telephone Com-
pany of the Southwest, in
accordance with the Rules
of the Public Utility Com-
mission of Texas, hereby
gives notice of the Com-
pany's intent to implement
a new schedule of rates in
Texas effective April 1,
1980.

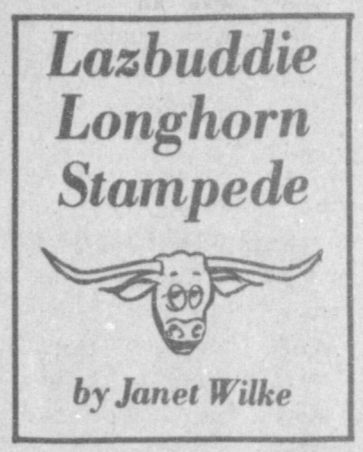

The proposed changes in
rates will affect all
customer classes and are
designed to increase the
Company's gross annual
revenue derived from local
service by 37%.

A complete set of revised
rate schedules has been
filed with the Public Utility
Commission at Austin,
Texas, and is available for
public inspection in each of
the Company's Business
Offices in the State of
Texas. A summary of the
Company's rate filing has
also been sent to the

Frank Jesko, son of Pete
and Ettie Jesko, was
awarded a Division One on
his baritone Saxophone
solo, "Deep River", at UIL
Solo/Ensemble contest
which was held recently in
Lubbock.

Frank was the only
Lazbuddie youth to enter
the competition and it was
the first time that anyone
from the LHS band had
ever tried in UIL solo
competition.

Outside of his obvious
interest in band, Frank is
drum major of the band, is
active in FFA, 4-H where
he is an officer, and is an
alterboy at St. Teresa's
Catholic Church in Friona.
He also attended Texas
Tech Bank Camp last
summer and has plans to
attend again this year.

For his efforts, Frank
was awarded a medal
which he can wear on his
band uniform.

Open House for Lazbud-
die ISD was held on Thurs-
day, March 3.

The event was kicked off
with a community meal in
the school's cafeteria at
5:30 p.m.

At 6:45 p.m., parents
visited in rooms throug-
hout the school to see what
progress their children had
made.

As a special treat, at 8
p.m., the Lazbuddie Band
department presented a
concert featuring all of the
musicians from grades
4-12.

Many parents and visi-
tors came to the open
house and the meal and
concert was enjoyed by all.

All of the students who
were enrolled in the ECA
(Emergency Care Attendant
Training course) re-
ceived their marks from
the State in the mail
during the past week.

Several of the persons
who took the courses offer-
ed at Lazbuddie made high
marks on their tests.

Shoulder patches, which
normally accompany the
certificates of course com-
pletion, will be arriving as
soon as the State gets
them in, according to a
letter received from the
certificate information.

Names of sponsors and
coaches were selected dur-
ing the past week for UIL
contest which will be held
this month. The final district
competition will be held
in Sundown on March
28.

Last year, Lazbuddie
carried off the trophy for
the winning Literary team
there.

Several students are ex-
pected to be entered in the
contests, which will
include such events as
ready writing, spelling,
oral reading, number

Letters To The Editor

To the Editor of the Muleshoe Journal and to the Residents of Bailey County: There are several conclusions that could be formed from the information given at the Public Meeting conducted in the Bailey County Courthouse February 6th 1980. This meeting concerned the paving of a road north from Farm Road 54 to Farm Road 298. The question is should the paved road start at Bula or one mile west of Bula. Here are some of the conclusions.

1. The meeting of the Bailey County Commissioners Court March 18, 1975 was in violation of the Texas open Meetings Act. Any action taken here will not stand any kind of legal challenge.
2. The Texas State Highway Department did not change the designation for the West Road, the Bailey County Commissioners did at the March 18, 1975 meeting.
3. The Bailey County Commissioners Court has been on dead center as far as any road program is concerned.

Marion Carter Services Sunday

Funeral services for Marion Wells (Buck) Carter, 63, were conducted Sunday, March 2, at 4 p.m., in the Chapel of the Chimes with Terry Bouchelle, minister of the 16th and Ave. D Church of Christ officiating.

Burial was in the Muleshoe Cemetery under the direction of Singleton-Ellis Funeral Home.

Carter died Friday, February 29 in the Veterans Administration Hospital in Big Springs.

He was born in Turkey, Texas April 26, 1916 and moved to Muleshoe in November 1979, from Long Beach California.

Carter was a retired machinist, a veteran of WWII, serving in the U.S. Navy and a Methodist.

He is survived by a sister, Mrs. Sarah McMahan of Muleshoe.

cerned for nearly five years trying to coverup a meeting conducted in an illegal manner. It is way past time for some positive action.

4. A study of the history of the road controversy combined with the information given at the February 6th meeting will show that in any kind of fair atmosphere, the effort to move the paved road designation from East to West would have failed. In all probability the East Road would have been paved about four years ago at a saving of around \$300,000.00 to the tax payers of the State of Texas.

Now one question for the commissioners: Because any action taken at the March 18, 1975 meeting is legally vulnerable, does this mean that the East Road is now the road of choice?

Thank You,
H.M. Black
Rt. 1, Sudan, Tx.

Herbert Reed Services Tuesday

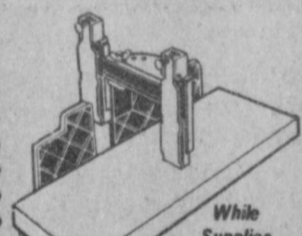

Services for Herbert Lee Reed 55, were held Tuesday, March 4 at 2 p.m. in the St. Matthews Baptist Church, with Rev. Arthur Hayes, officiating, assisted by Rev. M.S. Brown, Muleshoe and Rev. E. Mac Frazier of Littlefield.

Burial was in the Muleshoe Cemetery under the direction of Singleton-Ellis Funeral Home.

Community Church Will Host Guests

Pastor H.D. Hunter, of the Community Church,

Tax Pamphlet Available At Lazbuddie

Dennis Owen, tax assessor-collector for the Lazbuddie Independent School District, announced the availability of a new 12-page pamphlet which may help district residents save on their property taxes.

According to Owen, the pamphlet explains how the property tax system in Texas operates, and highlights possible tax savings available to citizens.

Owen noted the homeowners are eligible for a \$5,000 school homestead exemption, and that certain disabled persons and those aged 65 or older may qualify for additional ex-

emptions from the value of their property. Also, he said, farmers and ranchers have the option of having their agricultural land taxed at its productive rather than market value.

To qualify for exemptions and productivity valuation, however, he said application must be made to the school tax office before the district rendition period end on April 1, 1980.

"District residents are encouraged to review the pamphlet and make application for all tax relief to which they are entitled before the rendition period ends," Owen commented.

Highway 214, south of Muleshoe, has issued an invitation to all interested persons to two special meetings at the church on Sunday, March 9.

Rev. Don Shockley and his wife, Donetta, will be speaking and singing at the church for the morning services at 10:30 a.m. and the 7 p.m. evening service on that day.

Rev. Hunter said, "Rev. Shockley's background of pastoral ministry, combined with a unique music ability, form a versatile outreach in evangelism. His preaching and teaching sparks a challenge as it becomes evident the vital message of truth is being spoken."

"Rev. Shockley and his wife provide a balanced ministry of music and depth in Word. At an early

age, Donetta began singing for churches and conventions. Keyboards are a special feature of this couple. The ministry of Word and song is expressed as they lift up Christ."

Census collections

AUSTIN, Texas (Spl.) — One of the best international census collections in the world is at The University of Texas.

The collection in UT's Population Research Center includes more than 80 per cent of all the censuses ever recorded anywhere in the world. The material is used in a variety of research about populations.

Contained in the collection are all or part of the information gathered in U.S. censuses since 1790, and complete censuses since 1950. European census information also is extensive. Among the oldest data are a 1703 census taken in Iceland and a 1659 survey of names for an Irish poll tax.
