Crash Stops

Police Chase

Monday Night

A police chase which started out on American Blvd. in front of the Corral Restaurant late Monday night ended up in the city of Clovis a short time later with a Texas Highway Patrol car crashed.

Muleshoe City Police Sgt. Wayne Holmes was parked near the Corral shortly after 11 p.m. Monday night when he saw a small car coming down American Blvd. at a high rate of speed. Radar locked the speed on the screen at 84 miles per hour as the car sped by Holmes in his patrol car.

Sgt. Holmes gave chase, according to Muleshoe City Police Chief Johnny Richards, and kept the car in sight while calling for assistance from the Texas Highway Patrol stationed at Farwell.

Approaching Farwell, the small car failed to stop for DPS Trooper Jim Bishop of Farwell and the chase continued into New Mexico, passing the Port of Entry, at speeds estimated 90-100 miles per hour.

Chief Richards said the small car, driven by a man later determined to be an airman from Cannon Air Force Base, attempted to run the highway patrol car off the road at least three times. Then as the car drove past the Holiday Inn in Clovis, it crashed the left front fender and door panel of Bishop's state patrol car.

Also occupying the vehicle were three other persons, according to Chief Richards.

The driver was issued a citation by Sgt. Holmes. It was indicated that he would also be charged by the Texas Department of Public Safety; the City of Clovis police and possibly other New Mexico chagres.

Youth skating will be 7-10 p.m. tomorrow, Friday, at the Bailey County Exhibition Center and Coliseum, sponsored by the Muleshoe Area Youth Activities Committee, Inc.

Admission for the three hour skating will be 50 cents per skater. YAC said any youth not accompanied by their parents will also be charged the admission price, even if not bringing skates to the Coliseum.

Mrs. Thelma Laux, Los Alamos, N.M., and her son, Jimmy, and family, were weekend visitors in Muleshoe. While here, they visited friends and conducted business.

Returning home for a two week visit with Mrs. Laux was Mrs. Pearl Cox.

Sunday visitors in the home of Mr. and Mrs. Ray Kemp at Amarillo were Cleta Williams and Hazel Cunningham.

Mrs. Kemp is the daughter of Mr. and Mrs. Buck Creamer and has been ill for the last several months.

GIVEN TOP AWARDS--Neal B. Dillman, left, and Gil Lamb, received the two top awards during the 30th annual Muleshoe Chamber of Commerce and Agriculture banquet last Saturday night. Dillman, retiring Muleshoe High School Superintendent, was named Citizen of the Year and Lamb was the first Citizen of the Decade for the Muleshoe area.

Lamb, Dillman, Given Major CofC Awards

U.S. Congressman Kent Hance emphatically defended his position on the comments he has made about current practices by

Lions Club Will Host Telethon

The Texas Easter Seal Society and Muleshoe Lions Club will present the ninth annual Easter Seal Telethon the weekend of March 22-23. The 20-hour show, hosted in Hollywood by Suzanne Somers, will begin at 10:30 p.m. Saturday and will continue until 6 p.m. Sunday.

Muleshoe Lions Club members have joined hands with the Texas Easter Seal in bringing the Ninth Annual National Easter Seal Telethon to this community. The Muleshoe Lions have established a pledge center at Southwestern Public Service Company. The organization's members will be manning telephones at the facility.

Individuals in Bailey County wishing to contribute to the telethon may call 272-4578 between the hours of the telethon.

Ted Barnhill of First National Bank is county treasurer for the Easter Seal Society and Jo Ann Head, RN, of the State Department of Health office in Muleshoe has information about Easter Seals and application forms for patients requesting service.

Jerry Redwine is president of the Muleshoe Lions club who will be conducting the telethon.

The Easter Seal Telethon, which helps to raise funds needed to bring Rehabilitation Services to people who have handicaps, has been an annual feature since 1972, and has raised more than \$37.5 million.

the Texas Legal Aid in the Hereford area. "They have abused the authority they were authorized to do. I'm not going to back down from any statement I have made, and in fact, it is an issue I feel very strongly about," said the Congressman.

"The Texas Rural Legal Aid was not created to go out and file random law suits against the city, county, state, schools, or hospitals without notice."

His position was soundly applauded by the approximately 300 people who attended the 30th annual Chamber of Commerce and Agriculture banquet at the Muleshoe High School cafeteria Saturday night.

Chapman Named Telephone Rep For This Area

General Telephone has announced the appointment of Bruce Chapman as the Muleshoe Area Installation and Maintenance Foreman. Chapman is a former resident of Muleshoe and completed his education in the Muleshoe Public Schools, graduating in 1972.

In making the announcement, O.D. Hearn, Brownfield Division Manager, stated that Chapman will be in charge of all customer installation and maintenance work in the exchanges of Muleshoe, Friona, Bovina, Sudan, Amherst, Earth-Springlake and Olton.

Chapman returns to Muleshoe from Lovington, N.M. where he worked as a Communications Technician. Other assignments during his six year career

MS Read-A-Thon Is Winding Down For This Year

The Multiple Sclerosis Read-A-Thon is drawing to a close. Students in the third, fourth and fifth grades have been reading books for four weeks in hopes of earning money for Multiple Sclerosis.

Beginning March 21, they have one week to return to sponsors to collect their pledges. A drawing will be held March 31 to determine winners of three cameras and 16 Mystery Sleuth Dogs.

Anyone who reads eight books and collects at least \$20 will be given a Star Wars Frisbee.

Multiple Sclerosis is the most common central nervous system disease among young adults in the U.S. It is a disease of the brain and spinal cord and interferes with the brain's ability to control such functions as seeing, walking, talking, and other activities.

It's called Multiple because many scattered areas of the brain and spinal cord are affected and symptoms can be mild or severe, and unpredictable.

It's called Sclerosis because the disease involves 'sclerosed or scar tissue in

Greenbug Population Increasing In Wheat

Wheat producers in Bailey County should keep a sharp lookout for increased populations of greenbugs, advised County Extension Agent Spencer Tanksley.

"Recent surveys show the insects have build up in damaging populations in some fields," Tanksley said. "We urge producers to carefully check their fields about twice a week to keep abreast of the greenbug situation."

"The weather plays a big role in greenbug activity and reproduction," he added. "Mild weather brings about increased greenbug numbers as they can reproduce rapidly at

Candidate Is Speaker For Rotary

Guest speaker for the Muleshoe Rotary Club Tuesday was Lt. Jerry Hicks of the Muleshoe City Police Department. Lt. Hicks was introduced by Howard Watson.

Lt. Hicks is currently a Democratic candidate for the office of Sheriff of Bailey County. He outlined some of his thoughts and ideas on how the office and position should be conducted.

He commented, that in his opinion a policeman should treat everyone fairly and that it is not necessary to be unhuman to be a police officer.

Hicks said that although it had been reported that he would hire different people if he won the election, he has made no decisions. However, Hicks said he would put the county deputies in uniform and that he believes the county deputies should have lights atop their vehicles.

The city police lieutenant, who recently was named a Lt. Col. in the Air Force Reserves, is a strong advocate for training for the deputies. Also, the retired Air Force officer advocates that there should be close coordination between the city, county and state police. He also said it would be convenient to have the city police deputized so that they could legally answer calls outside the city limits.

In other areas, Hicks said he would like to see a change in the procedure for handling 'hot checks' to speed up the processing; and advocated that the city, who pays 60 percent of the salaries for police dispatchers, should have more input on the dispatching.

The candidate also said a sheriff should work with

Representatives Give Explanation To City

Two representatives of utility companies were at the Muleshoe City Council meeting Tuesday to answer questions about proposed rate increases made by their companies recently.

Dave Cavitt, local manager of the Southwestern Public Service Company office, had been asked several questions during the last city council meeting and came back to the Tuesday meeting to try to answer the questions following research.

One question was why the city rate was being increased more than rates for other entities, such as business and homes. Cavitt explained that in the past, cities have enjoyed the lowest rates. He said a city is not charged a minimum, but only pays for electricity actually used.

Also, on the percentage of the SPS revenue that is paid for employees, he answered that the 2,200 SPS employees last year were paid nearly \$50 million, which breaks down the some 16 percent of the total revenue for the electric company. Total revenue for Southwestern Public Service Company for 1979 was \$398,565,000 according to Cavitt's figures.

Youth Disco Slated

Saturday night, March 22, from 8-midnight, the Muleshoe Area Youth Activities Committee will host a youth disco at the Bailey County Exhibition Center and Coliseum.

Admission will be \$2 per person for the dance, and Bear Enterprises of Portales will provide disco sounds. Several door prizes will be awarded during the evening.

On questions about pollution near the Harrington plant in Amarillo, Cavitt said the problems had been taken care of. They found the problem in a leaking holding tank and drained the tank, and also drilled new wells for several residents, he added.

Representing General Telephone Company was O.D. Hearn, regional manager of GTE.

He was asked if there was any truth to the rumor that GTE would be closing their facility in Muleshoe, and the city council members were assured that there was no truth in the

Fine Arts Boosters

Dinner-Theatre Slated Next Week

Fine Arts Booster Dinner Theatre is scheduled Saturday, March 29, with dinner from 6:30-8 p.m. in the high school cafeteria. The play will begin at 8:15 p.m. in the auditorium with tickets for adults at \$5 and \$2.50 for children under 12.

Tickets may be purchased from any Fine Arts Boosters member or the ticket may be purchased at the door.

"Mother Courage and her Children" is the play for this year. The story takes place during the 30 year war in Europe from 1624-1636. Mother Courage is a peddler of wares and travels with her three children. Her conflict is to protect her children and sell her goods at the same time. Money overshadows her children and she loses all three to the war. People must decide which is more important, money, life, religion, sin, death, etc.

Castmembers include Lauri Burgess, Mother Courage; Fran Berryhill, Katrin; Manuel Garcia, soldier; Marlin Bynum, soldier; George Vela, Eilif

Brownies Exhibit Crafts In Fair

Brownie Troop No. 247, traveled to Lubbock, Saturday, March 8, to attend the area wide Council Girl Scout Fair. Brownie and Girl Scout Troops from all over the area attended the Fair and exhibited crafts and projects they had been working on throughout the year.

They constructed a computer and named it, Mr. Greenfeet. They presented a skit called "Pixie and Mr. Greenfeet" in which Pixie and the Brownie tried to get the computer to do her homework for her.

The Brownies also showed their scrapbook throughout the afternoon and displayed different projects they worked on through the year, such as a list of emergency phone numbers and a Brownie plaque.

The girls visited other booths and enjoyed seeing puppet shows, first aid skits and participating in lots of other projects, it was reported.

Before returning to Muleshoe the Brownies visited 31 Flavors.

It was reported that the Brownies returning home happy and tired were, Lisa Coleman, Lily Garza, LaTavia Copley, Marcia Blackwell, Brandi Estep and Beth Johnson.

Leaders going were: Mr. and Mrs. Johnnie Estep, Mr. and Mrs. Randall Copley and Betty Campbell.

Tiffany Copley, Casey Estep and Bretta O'Tay also attended the fair.

The troop met Tuesday, March 11, in the Girl Scout Hut. Leaders Cherry Estep and Glenda Copley brought the meeting to order with the pledge of allegiance, and the girls paid their Brownie dues and checked their name on the attendance poster.

The Brownies worked on posters to put over town announcing Girl Scout Week.

Members attending were Brandi Estep, Beth Johnson, LaTavia Copley, Lily Garza, Marcia Blackwell and Lisa Coleman. Next meeting date will be Tuesday, March 18.

3184
This hybrid's record for consistency has made it one of the most popular hybrids on the High Plains. In 77 comparisons over the last four years against competitive hybrids, 3184 has shown an average yield of 183.7 bu./A. with a yield advantage of 14.3 bu./A. over competitors. Bred with outstanding drought tolerance, 3184 can adjust ear size and kernel depth to match growing conditions. And strong stalks keep 3184 standing straight for speedy harvest. It's just what High Plains farmers need in a dependable, high-yielding corn hybrid. And its maturity makes it a good companion for 3183.

3183
Push this one for highest yields! In 43 comparisons on the High Plains in 1979, this hybrid averaged 192.1 bu./A. A sampling of yields from 1979 includes 216 bu./A. for Sheldon Rapp at Hooker, Oklahoma... 210.4 bu./A. for Larry Kemp of Muleshoe... and 196.7 bu./A. for Doyle Underwood at Dimmitt, Texas. 3183 has demonstrated very good standability and ear retention in this area. Excellent drought tolerance helps 3183 maintain outstanding consistency year after year. And it has been especially impressive on gray soils. Plant 3183 along with 3184. Spread genetic risks and get top performance, too.

GOLD BUYERS, SELLERS BEWARE
Only karat gold jewelry is **Friendship Club**

The Friendship Club met Thursday afternoon in the home of Susie Smith with Jewell Griffiths as co-hostess.

Invocation was given by Olive Watts president Adelyn Swafford presided over the meeting.

Minutes were read by Jewell Griffiths. Blanch Johnson gave the treasure report.

Different committees gave their report. Sammie Ethridge gave the program on "Mackenzies Supply Camp in Blanco Canyon in 1872".

The club was dismissed by Jewell Griffiths. Refreshments of cake, coffee and tea was served.

Members attending were Adelyn Swafford, Lois Witherspoon, Carrie Lee Bishop, Olene Watts, May Schuster, Rob Damron, Irma Ray, Blanch Johnson, Sammie Ethridge, Gladys Darsey and the hostess.

The next meeting will be April 10th in the home of Carrie Lee Bishop.

real gold--no matter how bright the glitter, so know what you are doing before buying or selling gold jewelry.

Understanding certain words and other points about gold is a must. **WHAT IS A KARAT??** --Karat refers to the percentage of gold in an item. Always look for the karat stamp. An item marked 24k (24 karats), or 999, is 100 karat pure gold. Each karat represents 1/24 part of pure gold. The finest gold jewelry is usually 18k (eighteen parts pure gold and six parts of another metal), since 24k generally is considered too soft to use for jewelry. Most domestically produced gold jewelry is 14k (14 parts gold and ten parts of another metal--or about 58.5 percent pure gold.)

No American-made gold jewelry may be stamped with percentages other than karats according to a Federal Trade Commission regulation. **WHAT IS MEANT BY '585' OR '750'?** --This appears on some European jewelry. This marking states gold karatage in percentages of 1,000.

So, 750 equals 18k (75 percent pure gold), and 585 equals 14K (58 percent pure gold.)

IS COLOR IMPORTANT? --Color of gold depends on the other metals alloyed with it. Gold alloyed with copper has a reddish cast. Gold alloyed with nickel or palladium produces the "white gold" used in setting diamonds.

HOW DO I KNOW WHAT'S WHAT? --Understand certain words, so you don't pay "Karat gold" prices for gold-plated jewelry.

Gold filled jewelry has a layer--or layers--of gold mechanically bonded to a base metal, such as copper. The gold layer must have a fineness of at least 10k and must be at least 1/20 the total weight. The jewelry should be marked "gold filled" or "G.F." and state the karatage of the gold layer--14 G.F., for example.

Roller gold plate. Rolled gold plate is often used in high-quality costume jewelry. This type is made like gold-filled, but the gold layer is less than 1/20 the total weight. Markings should indicate the ratio of gold to the metals used--"1/40 12K Rolled Gold Plate."

Heavy gold electroplate. At least 100 millionths of an inch of gold is electrolytically electroplated to a metal base.

Gold electroplate. At least 7 millionths of an inch of gold is electrolytically electroplated to a metal base.

Gold washed or gold flashed. Less than 7 millionths of an inch of gold is electrolytically electroplated to a metal base.

Puffy Chili Rellenos
Zesty and attractive -- for the Mexican food enthusiast!
2 (3-oz.) cans whole green chilies
8 oz. Kraft Natural Monterey Jack or Cheddar Cheese
10-oz. can Hungry Jack® Refrigerated Big Flaky Biscuits
3 eggs separated
1/4 teaspoon salt
8 1/4-oz. bottle chunky taco sauce
Heat oven to 375° F. Grease cookie sheet. Cut chilies lengthwise to make 10 pieces. Remove seeds and ribs. Rinse and drain. Cut cheese into ten 2 1/2 x 1-inch pieces. Wrap each piece of cheese with a chili.
Separate dough into 10 biscuits; press or roll each to a 5-inch circle. Place 1 chili-wrapped cheese piece in each biscuit. Fold dough over piece of cheese; pinch to seal. Form each into a finger-shaped roll; place seam side up on prepared sheet.
Bake at 375° F. for 10 to 12 minutes or until light golden brown. While rolls are baking, prepare topping. In small bowl, beat egg whites until stiff. Fold in slightly beaten egg yolks just until blended. Fold in salt. Spoon mixture of egg mixture over each partially baked roll, covering each completely. Continue baking 12 to 15 minutes or until golden brown. In small saucepan, heat taco sauce. Serve hot chili rellenos topped with sauce. 10 servings.

programs, including some of the more 'popular' programs in an attempt to balance the budget. He did comment that he believed the budget could and would be balanced by cutting programs across the board. The Congressman said the United States uses 45 percent of the oil used in the world and said drastic cuts will be necessary to cut the usage of oil. He strongly recommended the de-control of oil prices in the U.S. to help offset some of the eastern oil prices.

Excessive government regulations were also discussed by the government official.

Overall, Cong. Hance predicted the budget could, and would, be balanced, although it would mean many drastic cuts in 'frills' and unnecessary government agencies.

The Washington Congressman also advocates adding to the military strength of the nation, and said that as long as the United States is either just ahead, or even with the Soviets in military power, the probability of war is diminished.

In the award presentation, Gil Lamb was presented the first Citizen of the Decade Award by incoming C of C President Hal Anderson. Anderson told of Lamb's accomplishments during the many years he has been in radio broadcasting in Muleshoe.

Retiring Muleshoe High School Superintendent Neal B. Dillman was named Citizen of the Year. His plaque was presented by outgoing C of C Presi-

dent Merlyn Neel.

C of C Vice President Sandy Turner presented the Farm Family of the Year Award to the Jake Saylor family, citing their involvement in the community.

Presented the Conservation Farmer of the Year Award by Lewis Wayne Shafer was Jerry Damron of the Circleback community.

New officers were introduced, including President Hal Anderson; Vice President Sandy Turner; Secretary-Treasurer Corky Biggestaff; and directors Wayne Crittenden, Dave Cavitt, Tommy Gunstream and Carson Clayton.

Holdover directors include Curtis Smith, John Blackwell, Bruce Woods, Tom Merritt, Gary Shipman and Merlyn Neel. Retiring officers and directors were Gene McGuire, Royce Harris, Paul Poyner and Bill Wooley, who also acted as master of ceremonies.

Presenting dinner music and entertainment to acclaim was a group called Flatland Bluegrass, who performed (toe-tapping' music.

In keeping with the 'America's Food and Fiber Center' Llano Estacado Civic Club did the table decorations in vegetables and canned foods tied with denim and bandana bows. All the officers and special guests were presented corsages and boutonnieres of cotton bolls tied with denim ribbon.

Special recognition was given the vegetable processing plants in this area.

Outgoing C of C President Merlyn Neel reported that the Muleshoe Chamber of Commerce and Agriculture is now solvent and thanked persons for his having a good year in office.

One city council member also asked about businesses being forced to bear the brunt of the proposed GTE increase, in some cases, in excess of 120 percent. The concilman stated, "Business rates are already exorbitantly high. If this continues, it looks like GTE will force us to seek service elsewhere. A 100 percent increase is ridiculous."

Hearn explained that the service to Muleshoe covered a rather 'compact area, and would involve more expense to the communities to provide service in the event of population growth.

Producers shouldn't consider treatment unless the greenbugs have moved up onto the plant where they are easily killed, the agent added.

He said insecticides recommended for controlling greenbugs include: Gygom, De-Fend, Di-System, malathion, parathion and Thimet.

Additional information on greenbug control can be obtained at the county Extension office in the Bailey County courthouse at Muleshoe.

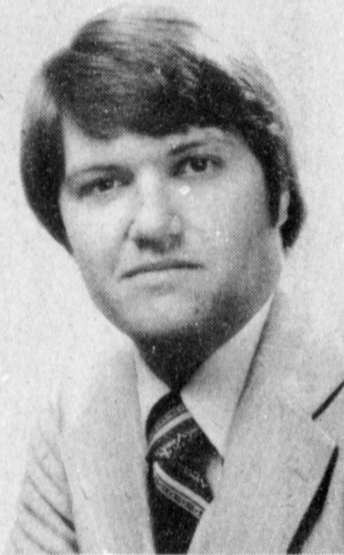

great difference proposed for the increase between business phones and residence phones.

According to the GTE proposal, business phones would increase from five percent for what is termed 'B-4 Rural' to 121.5 percent for trunk (pbx) systems.

Residential service would increase from 30.8 percent for R-2 to 50.2 percent for R-1 telephones.

The GTE representative said long distance calls would not be affected by this increase, but base rates would increase. For instance, a residential base rate for a residence in Muleshoe would change from \$5.40 to \$8.11 and the greatest increase for business would be the \$18.31 to \$40.55 for trunk systems.

Also discussed during the meeting were future weather problems facing the South Plains; a letter of appreciation from the Muscular Dystrophy Foundation; and the 701 Master Plan.

Tractor Maintenance Important To Farmer

To get the most fuel efficiency from a tractor, tune it up, don't run it too cool, and don't use a tractor that's too big for the job, says Spencer Tanksley, county agent with the Texas Agricultural Extension Service, Texas A&M University System.

A tractor engine that's operating poorly may be wasting up to 30 percent of its fuel. That means a 180-horsepower diesel tractor could be sending \$20 to \$30 up the exhaust stack in a 10-hour day.

Most fuel waste originates in ignition systems of gasoline tractors and in fuel systems of diesel tractors.

Dirty air filters, bad carburetion, incorrect timing worn spark plugs are other fuel guzzlers, says Tanksley. On diesel engine tractors, worn fuel injectors can cause unnoticed losses of fuel efficiency.

Check fuel filters and replace them regularly, at least as often as the operator's manual suggests, and

maybe more often under difficult conditions, advises Tanksley. If fuel filters are doing the job they are designed to do, they will eventually plug up or start passing sediment into the fuel. That could mean costly repair bills as well as lost fuel efficiency.

What about running a tractor too cool? Most tractor operators concern themselves with engine temperature only when the water temperature gauge is on the hot side. But a tractor engine will wear out faster, develop loss horsepower, and use more fuel when it runs too cold.

Today's tractor engines work most efficiently when the water temperature is somewhere between 165 and 180 degrees, says Tanksley. So, a faulty thermostat that allows the tractor to run too cool is almost as bad as one that causes the engine to overheat.

Another minor tuneup item to check regularly is the fuel tank cap. It should

be sealed tightly to keep out dirt, but at the same time be properly vented to allow fuel to flow freely.

Regarding spark plugs, Tanksley suggests checking them on regular basis, even if you don't think they need it.

You can't always tell by looking at a spark plug when it's going bad. The

time-proven test of firing a spark plug outside the cylinder doesn't tell the whole story.

How do you select the right tractor for the job? If you select one that's too big, you're simply burning excess fuel to produce unused power. You may be wasting nearly a third of the fuel you're buying.

Most engineers say the best way to drive a big tractor pulling a light load is to "shift up and throttle down." This maintains ground speed while keeping the engine working efficiently, explains the county agent.

Slippage also wastes fuel, but you have to have a certain amount. On most soils with most tractors, optimum slippage is about 15 percent. Less means you're pulling too light a load. More means horsepower is probably being wasted.

Too many political speakers appeal to the emotions rather than the intellect.

Step By Step For A Good Soil Sample

Taking a soil sample is not a difficult or complicated job if a few basic "do's and don'ts" are followed. Soil tests can be only as accurate as the samples on which they are made. Proper collection of soil samples is extremely important. Chemical tests of poorly taken samples may be actually misleading.

Here are three basic steps in the selection of site and actually taking the sample:

1. Take one soil sample from the lawn and one from the garden.
2. The sample should be taken from over all the area. This can be done by taking a small amount of soil from 5 to 10 different

places. Place these in a clean container (plastic bucket, paper sack, etc.). Mix thoroughly and take approximately one pint for the composit sample.

3. When taking the small samples, use a spade, soil auger or soil sampling tube. Scrape the litter from the surface. To use an auger or tube, make the boring six inches deep in the soil. To use a spade, dig a V-shaped hole and take a one-half inch slice of soil from the smooth side of the hole. Repeat in 5 to 10 different places.

When the sample has been placed in the sample box, the box should be numbered to correspond with the number on the soil sampling sheet. Be

sure to keep a record of sample numbers and where they were taken.

The sample, along with the information sheet should be mailed to the Soil Testing Lab, Texas Agricultural Extension Service, Route 3, Box 213 AA, Lubbock, Texas 79401.

A few precautions are important in taking the sample:

1. Avoid sampling spots such as small gullies, slight field depressions, and unusual spots.
2. Do not use old vegetable cans, match boxes, etc. to submit samples.
3. Do not use heat to dry samples.
4. Be sure to keep a record for yourself as to

the area represented by each sample.

5. Be sure sample numbers on the boxes correspond with sample numbers on the information sheet.

Opening a firm? Have enough cash

AUSTIN, Texas (Spl.) — If you're going to open a small business, you ought to have enough money on hand to run it for at least 18 months, a University of Texas lecturer says.

Dr. George Eddy, who teaches a management course on small business, says persons are "asking for trouble" if they have less than that as start-up capital. He cautions that bankers don't like unpleasant surprises such as a client "running in at the end of the month saying he needs more money to meet the payroll."

From Small Town To 'Big-Time' Grocer

(Editor's Note: Lonnie Allsup purchased the former L & H Grocery in Muleshoe in 1971 and constructed a new store in Muleshoe which was opened for business in April, 1973. At this time, he said there is a possibility he will be constructing another store in Muleshoe in the near future. The following story outlines the

success story of the former Morton, Texas natives.)

By Jack Swickard, editor Roswell Daily Record People—the more than 1,300 employees and customers from Grants to west of Fort Worth, get the credit for helping write one of New Mexico's biggest retailing success stories.

The first chapter began in October 1956 in Roswell with the opening of Lonnie's Drive In Grocery at 1500 West Second St.

Now, Lonnie and Barbara Allsup have put together the 24th largest chain of convenience stores in the nation, with 168 Allsup's Convenience Stores helping form a \$50 million business.

Before the final chapter is written, Allsup's Convenience Stores Inc. will have some 400 stores selling items ranging from garden hoses to barbecued chicken throughout New Mexico, West Texas and parts of Oklahoma. In conversation, Mr. and Mrs. Allsup speak repeatedly of motivated employees, long-term workers, loyal customers and consumer convenience.

"Anybody can have buildings, fixtures and merchandise, but if they don't have good people to run those stores -- all the way up, and all the way down -- you won't be successful," explained Allsup, president of the corporation which he and his wife started building alone.

"I'd look pretty funny trying to run 168 stores," he added with a chuckle.

"Anyone who gets negative on people won't grow with the business. You really have to be optimistic and you have to think that people are good," Allsup said. "If we decided that people are no good, we'd have to get out of the business."

As chief executive officer of a major chain, Lonnie Allsup looks back nostalgically to the time not so long ago when he was waiting on customers.

"One of the parts I enjoy most about the grocery or convenience store busi-

ness is meeting the customers. I really enjoy that," he said. "I really enjoy that but now I don't get enough contact with the customers. It's all employee contact now."

"I always enjoyed the customers and the customer was Number One. That's your business, that's all you've got, is the customer," Allsup added.

Barbara Allsup, financial vice president of Allsup's echoed the same thoughts. She fondly recalls their Roswell customers when they were starting out.

"They were really receptive about what we were trying to do. A lot of people were very helpful," Mrs. Allsup added.

In addition to what she describes as Lonnie's Vision, she attributes the chain's success to Allsup employees through the years.

In fact, they opened their second store, also in Roswell, with money borrowed from an employee.

"We've been lucky to get good people and to keep them," Barbara Allsup said, pointing out that some of the current employees of Allsup's Convenience Stores Inc., started with the first stores in Roswell.

"They're very loyal, it's almost like a family relationship," she added.

The Allsup's began putting their present chain of 168 stores together shortly after selling their 12 initial stores to Southland Corporation in 1963.

At that time, the couple owned eight stores in Roswell, two in Ruidoso and two in Alamogordo.

These dozen convenience stores had been built up since 1956 when Lonnie Allsup opened Lonnie's Drive In Grocery after his discharge from the Air Force.

Allsup's infatuation with grocery retailing, however, began many years before that.

"I started out standing on a box, sacking groceries when I was 10 or 11," he recalled. "It's a fast business, and I liked the fast part of the grocery store business."

Working in the grocery business, he said, was much faster than working for his father's Chevrolet dealership in his hometown of Morton.

"That was more work—really hard and trade cars, and maybe make a sale of one, or maybe two a day," he added.

Allsup also recalls working in the maintenance area of his father's automobile dealership around the oil and grease.

To this day, he insists that all stores in the Allsup's chain be virtually spotless.

At the age of 16, Allsup graduated from Morton High School, married Barbara, his childhood sweetheart, who was also 16 years of age, and moved to Abilene to attend Hardin Simmons University.

While Lonnie was studying business and medicine at the university, Barbara was finishing high school in Abilene.

She said that when they left Morton, she only "lacked one credit for graduation."

But the new school raised requirements and eliminated some credits.

"I ended up going to school all day long," she said. "I was taking more hours than he was. Unbelievable."

Barbara recalls, with a laugh, that "we never saw each other. It was just a mass of books. It was a hectic year, but we made it."

While in Abilene, Lonnie Allsup's interest in grocery retailing resurfaced.

"There was a little grocery store nearby and he'd go down and buy a loaf of bread and he'd come back and say, 'I'd really like to buy that grocery store,'" Barbara recalled.

But, he didn't. Instead, the couple moved to Lubbock, where Lonnie enrolled in Texas Tech. Then the Korean War started and he enlisted in the Air Force.

When discharged in Las Cruces in 1956, at the age of 23, Allsup held the rank

of staff sergeant.

Barbara Allsup recalled that her husband looked into purchasing land in Las Cruces for a store, but "it was extremely expensive, like it was \$200 a front foot, even back then."

"We Couldn't afford to buy it new and then start building a store, so he found a store for sale in Roswell," she said.

"His father co-signed the note or we wouldn't have been able to borrow the \$6,500," Barbara said.

Lonnie Allsup, looking back to that time, recalled that "My ambition was five stores. If I just had five, I think I could run five."

Today, with a goal of adding 25 stores to the chain this year, Lonnie regards building up to 12 stores in eight years as "pretty slow."

But, he adds, "it was pretty fast for me" at the time.

After selling the 12 stores to the Southland Corp., which operates 7-Eleven Stores, Allsup "took the week off and went fishing," his wife recalls.

"I was still buried in paperwork, trying to close out with Southland, and he called me from Clovis and told me he'd bought three stores," Barbara said. "I could have killed him. I never had had a day off."

Rebuilding the chain went rapidly.

"Then he bought one in Portales, and then we built the one here," she said, motioning toward and Allsup's Convenience Store near the company's Clovis headquarters.

BARBARA ALLSUP

started construction right away."

"That gave us seven stores pretty quickly, within three months of when we sold," Barbara said.

However, because of a five-year non-competitive agreement with Southland, not to operate stores in Chaves, Lincoln and Otero Counties, Allsup stayed out of the Roswell Market for awhile.

"Lonnie was afraid that people in Roswell had forgotten who he was," his wife said.

Once Allsup entered the Roswell market again, he moved fast and now has six stores in the city.

In the convenience store field, Allsup is an innovator, willing to try new ideas in retailing.

And he usually is followed by the larger national chains.

It was Allsup who started selling cooked foods through convenience stores and he was one of the first operators to sell gasoline—a concept he and other convenience stores initially had pooh-poohed.

"The first time that a fellow came in here and asked me why didn't I put a set of pumps out front of my store, I said, 'That won't work, you can't sell gasoline with groceries.'"

"And, now I won't build a store without it," he volunteered.

It's easy to understand why, too.

Allsup's Convenience Stores Inc. sells more than two million gallons of gasoline a month, he continued.

Long hours and hard work are a reality to Lonnie and Barbara Allsup. Lonnie's ultimate goal is to "cover every town in New Mexico and every town between Clovis and Fort Worth, Texas!! His short

term goal is 25 more store locations within the next 12 months.

An estimated 500 High Plains cotton producers, allied businessmen and industry leaders from across the U.S. Cotton Belt are expected in Lubbock April 2 for the Twenty-Third Annual Meeting of Plains Cotton Growers, Inc.

The meeting will begin at 1:30 p.m. in the Banquet Room of the Lubbock Memorial Civic Center and will adjourn at 5:00 p.m.

The 1980 meeting is being dedicated to "Producer Power." The three principal speakers reflect the desire and need for ever-increasing producer influence in the marketplace through the research, promotion and market development activities of Cotton Incorporated (CI), the producer-financed fiber company that conducts national and international research, promotion and market development activities.

First on the program will be Murray Williams, an Altus Okla. cotton farmer recently elected Chairman of the Cotton Board which shares with the U.S. Department of Agriculture the responsibility for CI's financial affairs and operations. Prior to being named to the Cotton Board in 1977, Williams served three years on the CI Board of Directors. The CI Board, with Cotton Board and USDA approval develops and carries out all CI projects.

The second speaker also plays a strong role in the oversight of CI budgets and operations. He is P.R. "Bobby" Smith, Assistant USDA Secretary for Marketing and Transportation Services, a position he has held since March of 1978.

Both Williams and Smith are expected to discuss measures being taken in their respective areas to answer recent criticisms and assure that CI operations are being conducted in accord with the Cotton Research and Promotion Act and in the best interests of cotton producers.

The "clean-up hitter" on the program, a CI staff member who is in the thick of CI's multi-phase marketing program, is Nick Hahn, Vice President for Sales and Marketing. In addition to fabric development, apparel merchandising and mill marketing, home fabric and industrial marketing, Hahn's department oversees the Cottonworks—unique "libraries" of cotton fabrics and designs located in New York, Dallas and Los Angeles.

Hahn will be introduced by L.C. Unfred of Tahoka, President of the CI Board.

Giving annual reports to the membership for PCG will be Joe D. Unfred of New Home, current PCG President, and PCG Executive Vice President Donald Johnson. Door prizes will be given periodically throughout the meeting and the period from 4:30 to 5:00 p.m. has been reserved for questions and comment from the audience.

The membership will be called on to confirm newly-elected and re-elected directors, two from each of the organization's 25 High Plains counties. The new Board of Directors will convene at 5:30 p.m. to elect 1980-81 officers.

Letters To The Editor

To the editor of the Muleshoe Journal and the people interested in the East-West Road controversy:

A recent contributor to the letters to the editor column made an issue of the fact that some of the East Road supporters live in Lamb County. As far as I know MOST live very near the County Line and all have farming interests in Bailey county very near the two roads. Most are taxpayers in Bailey County. Because the State of Texas will pay the major part of the costs, I feel that anyone who has business interests near either of the two roads or has reason to travel regularly on either of these roads should have a voice in choosing which road to pave. If there hadn't been several residents of Sudan and Littlefield on the Circle Back side at the February 6, 1980 meeting, I would swear Mr. Harlan had it in for Lamb County Residents.

This contributor a Mr. Harlan made some rather lengthy comments. I would like to make a few brief additional comments.

1. Mr. Harlan states that anyone who was denied admission to the Meeting of the Bailey County Commissioners Court March 18, 1975 should come forward. Some one already has come forward, the County Clerk, Mrs. Hazel Gilbreath.

2. I think Mr. Harlan is trying to say that maybe the State did move the paved road designation. There won't be any reason to pursue this one any further, recently some of the Commissioners have admitted they did indeed move the paved road designation at the March 18, 1975 meeting.

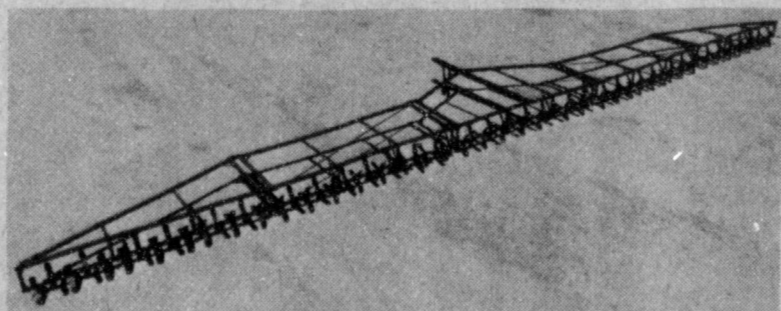

3. Next he mentioned telling the truth. I feel that anyone who contributes to a newspaper should always check carefully for truth, particularly when they are repeating other peoples excuses.

Thank You,
H.M. Black

Toll Free Telephone Installed

Recently installed is a new toll-free telephone number for Bailey County residents to call when they have social security questions, according to Laura Peacock, Social Security Manager, Lubbock.

Residents of Bailey County may simply dial direct 1-800-392-1603 and reach personnel who are specially trained to accept reports and answer social security questions by telephone.

Jim Latimer, social security representative from the Lubbock Office, will continue to visit Muleshoe weekly, explained Ms. Peacock. Area residents may contact him at the Bailey County Courthouse in Muleshoe on Thursdays between the hours of 10

a.m. and 12 noon. In the meantime, however, "many social security questions and reports can be handled by telephone, any weekday, at the caller's convenience," Mrs. Peacock said.

"A few examples are questions about Medicare, requests for retirement benefits estimates, address changes from social security beneficiaries to

insure prompt delivery of their monthly checks, beneficiaries' reports of earnings, questions about the disability provisions of the law, and inquiries about supplemental security income." The agency refers to this type of service as "Teleservice." Bailey County area Teleservice is available from 9 a.m. to 4:30 p.m. Monday through Friday.
