

## HIGH-SPEED LIVING

"The term speed up repeatedly is heard these days in connection with defense production. Under the present international pressure the speed with which defense units can be manufactured in this country is almost phenomenal. However, an acceleration in mass production of war and allied material is one thing, and the persistent high-speed living indulged in by thousands is a different matter," states Dr. Geo. W. Cox, state health officer.

"Hard work in itself is seldom harmful. The physical and mental breakdowns, which in ever increasing numbers are being brought to the attention of physicians, usually occur in men and women who are far removed from the exactions of an assembly-line. The recruits for shattered nerves are generally from those who do not lead physically strenuous lives. Habits which tend to devitalize plus misdirected use of leisure time represent the background for the majority of physical and mental crack ups. In many cases, where the consequences are less pronounced, supreme vitality has surrendered to false conceptions of the value of high pressure practices upon which nature frowns.

"This speed-up which results in habitually robbing one's self of the required amount of sleep each night, which demands the stimulation of the excessive use of stimulants of any kind, which involves whipping up the nerves by constant excitement, and consequently refuses to recognize the reconstructive and health-building advantages of outdoor exercise and relaxation, can and frequently does end in serious and sometimes in permanent physical trouble. It is a scientific fact that over living man's capacity is a definite predicate for high blood pressure and other ills of advanced life. That these effects of ill advised living usually take time to assert themselves definitely, perhaps is one of the real reasons for many persons to continue half-blissfully on their merry way.

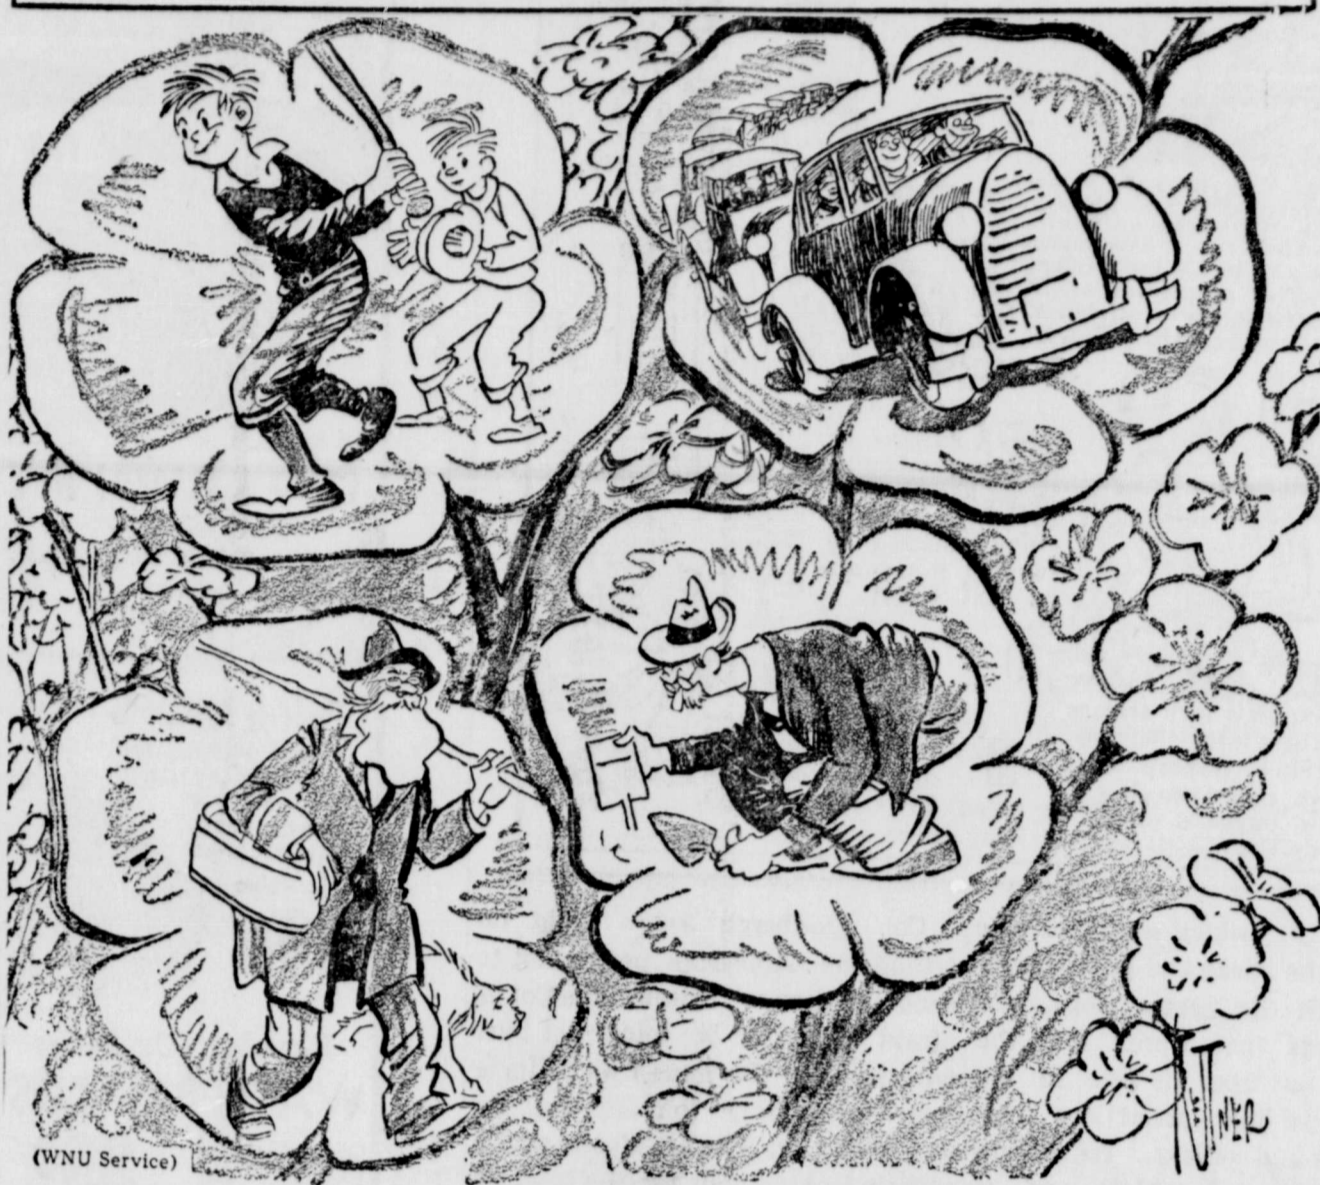

"Quite aside from the personal responsibility to one's self in the development and maintenance of maximum health, is the added obligation in these days to conserve physical resources for whatever may be ahead.

"It follows that, however proud the United States and Texas may be of its high speed productive capacity, there is a patriotic duty for everyone to review his or her daily life, and discover if any of the habitual speedy practices are affecting one's maximum health possibilities, and eliminate those which violate nature's basic laws."

## Farmers Urged to Sign 1941 Plan Sheet

We have a few Farm Operators that have not yet signed their 1941 Farm Plan Sheet and the Diverted Cotton Intention Sheet. This Diverted Cotton Intention Sheet must be signed by June 15, if the farmer is eligible to have these diverted areas classified. The rule this year on the voluntary reduction is that a farmer can plant three acres or 3% of his allotment, and still have the whole allotment for the farm classified as cotton acreage. All producers that sign this Intention Sheet before June 15, and plant less than their 1941 allotment or the 1940 planted acreage whichever is the smaller, is eligible for Cotton Stamps.

## Blossom Time

(WNU Service)

## Two Die in First Fatal Accident in Sterling City

The first fatal car crash ever to happen in the limits of Sterling City occurred last Saturday morning at about 8:30 on U. S. highway 87 a few blocks east of the Methodist Church when two cars met on a head-on collision.

L. S. Coone, 50 of Greenville, Texas was killed instantly. His body was brought to Lowes Funeral Directors home where it remained until it was removed to Greenville for entombment.

Joy B. Tongs, 22, of De Kalb, Texas was fatally injured and was carried to a hospital in San Angelo where he died shortly after midnight Saturday night. The body was sent to Dallas for burial.

R. V. Fuqua of Big Spring, one of the alleged drivers was arrested by deputy Sheriff Henton Emery and placed in the Sterling County jail on a charge of driving a car while drunk.

## Observing "National Hardware Week"

The latest and best in spring 1941 models of housewares, sporting goods, hardware and home appliances will go on display Thursday when the Lowe Hdwe Co. opens its doors to celebrate National Hdwe. Spring Open House, May 1 to 10.

This gala display of "What's New" is made possible by the close co-operation of many of the nations leading manufacturers and more than 10,000 hardware stores. Working through the National Retail Hardware Association, they are planning for Spring Open House to be the biggest nation wide merchandising event the hardware industry has ever known.

"If you have the idea that 'hardware' means only nuts and bolts and metalware, a visit to National Hardware Spring Open House will change your mind," according to Mr. Lowe, manager of the store. "There's something here for every member of the family—gadgets that

## ENTER DON JUAN

The newest addition to Our Gang is five year old "Mickey" who plays the role of Don Juan in the Gang's latest short for Metro-Goldwyn-Mayer, "The Big Premiere." Director Edward Cahn gives him his cue as Darla watches the proceedings from the background.

peel potatoes to major household appliances, sporting goods and garden tools and gifts and novelties and toys. Many have been prepared by national manufacturers especially for National Hardware Spring open House".

The Japs predict that the U. S. will be in a war against Japan and Russia in the near future. The U. S. has made no prediction about the matter. From the way Uncle Sam is making guns, ammunition planes, tanks and ships and training men how to use them, is tantamount to saying: "Well, if we must fight, we are getting ready".

## May 1 Deadline

All Ranch operators that contemplate doing work under the Range Conservation Program are reminded that the last day to sign the papers for 1941 is May 1. Lee R. Reed Chairman of the Sterling County A. C. A. Committee, urges all ranch operators to make inquiry, so that no one will fail to be signed up that cares to participate in the 1941 program.

Last Sunday was Hitler's 52nd birthday. Deep down in the world's heart is the sincere wish that there will never be another.

## Son of Texas Hero Is Appointed to United States Senate

Last Monday afternoon, Governor O'Daniel appointed General Andrew Jackson Houston as U. S. Senator to fill the place of Morris Sheppard, deceased.

General Houston is 87 years old. He is the son of General Sam Houston, the hero of San Jacinto, which was fought 105 years ago.

The new Senator will hold the position until the special election to be held on June 28.

The appointment was a piece of fine sentiment in that it shows that Texas likes to honor its heroes even to the second generation. It is fitting.

Senator Houston's father, the great Sam Houston began his career as one of the first Senators of Texas in 1846.

## Believes 12th Grade Is Wrong

Dear Uncle Bill:

I believe this 12 grade proposition just now is all wrong. People have gone hog wild over the mind. Not very many care much about either a spiritual or physical needs of people. It is all the mind. What we need to do is to try to have more people owning their own farms and be self sustaining. Just between you and me, the men who do the big things in this life are not college graduates, as a rule. Let one young man start out trying to be somebody and another stick his nose in a book four years and it is likely the first one will succeed as while the other one will make a school teacher. I am 100% for public schools, but I am not so hot for everybody trying to go to college. Think it over and write your view in your paper.—W. A. Bynum.

Somehow I didn't weep to speak of when I heard a small boy squall and found him at a red aunt bed where he was trying to kill a horned lizard which was stuffing himself on the red ants. One big red ant which escaped the lizard stung the boy on his foot. The boy was told that the lizard was his best friend because he ate the ants.

## Approaching Marriage of Miss Margie Smith Is Announced

Mrs. Rufus Foster, Miss Rena Ball, and Mrs. Fred Allen were hostesses at a tea on Saturday afternoon April 12 which announced the approaching marriage of Miss Margie Smith to Mr. Frank Mulligan of Salt Lake City, Utah. June 4 is the date set for the wedding.

The rooms of the Foster home were beautifully decorated with spring flowers accenting the colors orchid and white, chosen colors of the bride to be.

Mrs. Lester Foster had charge of the program consisting chiefly of music, which was given throughout the occasion. Miss Mary Evelyn Curry of the department of music of Eden High School played several piano selections. Billye Sue Everitt, accompanied by her mother, Mrs. Clyde Everitt, sang "Ah, Sweet Mystery of Life;" Miss Ethel Foster sang "In the Garden of My Heart;" and "Because;" both were accompanied by Mrs. Herman Everitt. Miss Clara Hutchins of San Angelo read "Comin' Through the Rye."

Those in the receiving line were Mrs. Fred Allen, Mrs. Rufus Foster, Miss Smith, Mother of the honoree, Mrs. P. W. Smith of near Brownfield, Miss Rena Ball, Miss Iscah Mateer of Globe, Arizona and Mrs. Gettys Tucker of Lubbock.

Mrs. Charles Flesher of Littlefield, assisted by her sister, Miss Elizabeth Little of San Angelo, presided at the guest book. Mrs. Foster Conger and Mrs. John Cole poured tea the first hour, and Mrs. Templeton Foster and Mrs. O. T. Jones, the second. Others assisting in the dining room were Mmes. Roy Foster, Bill Reed and Harvey Glass and Misses Dorothy Ferrell and Mary Roach.

One hundred friends and pupils called during the afternoon to give their best wishes to the guest of honor. Miss Smith has taught English in the local High school for the past six years. During all that time she has been sponsor and homeroom teacher of the Senior Class. Her interest in her students and their progress, her willingness to help in all school and community activities have made her well known and loved here. Expressions of regret at Miss Smith's leaving, are frequently heard from her fellow teachers, her students and her friends outside the school, but all of them are wishing for her happiness and success in her new life.

## Wimodausis Club Meets

The Wimodausis Club met in the W. L. Foster home Wednesday afternoon with Miss Ethel Foster hostess. Twenty three members were present. "Women in a Changing World" was the subject for study. The following program was given:

"This is My Story"—Eleanor Roosevelt by Mrs. H. M. Carter.

"Forty Years at the Hull House"—Jane Adams, by Miss Prebble Durham.

Information concerning Golden Jubilee—by Miss Ethel Foster.

Ray and Pleas of the county road crew were filling "Aunt" Mattie House's mudhole with calichi the first of this week. This is the mudhole that "Aunt" Mattie wrote about in the News-Record last week. These two good old scouts are getting to these jobs as fast as circumstances will admit.

**SENATORIAL TIMBER**

There are quite a number of candidates out to fill the vacancy made by the death of Senator Morris Sheppard.

Among these are Lyndon Johnson, Attorney General Gerald Mann, Martin Dies and Governor O'Daniel—all good men.

Johnson is an able man and would make a good senator.

Gerald Mann is a fine piece of Senatorial timber and they couldn't go wrong in making a senator out of him.

Rep. Martin Dies, an experienced man in statecraft who has done so much as chairman of the Dies Committee, to expose un-Americanism, is a fine prospect. The fact that the C. I. O. has condemned him is a sure sign that he is all right.

And too, the fact that Governor Lee O' has been asked to resign by the C. I. O. mob, is a great factor in his favor.—Uncle Bill.

If you wish to see the native growth of this country in its virginity, climb on top of Goat Mountain. So far as anyone knows, no goat, cow, sheep or horse has ever been on that mountain to graze on the native growth.

The mountain is flat on top and is covered with deep, rich soil, out of which grow most every kind of plant which is indigenous to this country, including cedar, shinoak, beargrass and cactus.

Owing to the steep bluffs on every side, it is difficult to climb and it is probable that no domestic animal has ever climbed it since an ancient wall across the only passage to the top was built before white men settled in this country.

Goat mountain is about 30 miles as the trail leads from Sterling northeast into Coke County.

This is no time for "cooling off" in labor union strikes in factories producing munitions of war. We need the planes, guns, ammunition and ships. If any worker is hot about something let him "cool off" while working to produce these things. No free born American can afford to hinder Uncle Sam now

From the looks of the wrecked cars last Saturday morning somebody was driving too fast. Coupled with the suspicion that somebody was driving a car while drunk, made speed the more fatal. If the party at fault could have spared a few seconds in his hurry to get there, two lives would have been spared a lot of serious trouble. Better be late in getting there than not getting there at all.

Clearing the cactus from the pasture lands is all right, but somebody had better be careful, or there will be no grass or weeds in the pastures. These cactus beds in a drouth were where weeds and grass went to seed when all around them was grazed bare. During such time, the cactus beds were the source of seed supply.

The coyote, which was once the terror of the sheep and goat ranch, is now with the prairie dogs and other things that were. But the fox came out from his hole in the Canyons and has spread out over these hills and valleys. He ate up the rats, mice and rabbits and is now feasting on new born kids and lambs as well as chickens, ducks and turkeys. The law is supposed to protect Reynard because of the fine fur coat he wears, but the rancher protects his kids and lambs by shooting Reynard on sight or lets his dog chew him up. While the coyote was here he ate up every fox he could catch. After he vanished, the fox took possession and is running things.

Col. Lindbergh keeps right on telling the American people not to send supplies to Britain. The Col. is afraid that Hitler might get hurt with some of the guns which Uncle Sam is sending to John Bull. He wears a swastika medal and is strictly looking out for the interest of its donor—Hitler. If Lindy wasn't a damphool, he would keep his head closed just now.

Let us use our judgment and not our prejudice in choosing the best qualified man for U. S. Senator to fill the place of Senator Morris Sheppard.

For furnished apartments, see Mrs. Helen Lyles. tf

The original surveyors of the Texas and Pacific railroad lands in this part of West Texas, made some serious errors in their measurements. For instance: Block 32, Tsp. 5S, is a quarter of a mile short east and west, but nearly 300 varas excessive north and south. Block 32, Tsp. 4S, is short nearly 60 varas east and west. Block 33, Tsp. 4S, is 366 varas short east and west. Block 34, Tsp. 4S, is 47 varas short at its north end. Many ranchers have bought these lands without having them resurveyed and are taking a loss.

The policy of laying down caliche on the streets of Sterling City is a wise one. When our Commissioners' Court has finished this job, it is logical to conclude that oil will be sprinkled on the caliche to lay the dust and make the streets waterproof. Oil is cheap and plentiful and less than an hour's run to the oil fields. Sure, it will be messy for a few days, but it would be worth enduring the mess in order to make good streets.

Most every man who furrowed or terraced his lands around here will tell you it is worth the money. Little, or no water which fell on these lands this season ever reached the streams. It all went straight into the ground, and water in the ground here means more grass, and more grass means more fat cattle and sheep, and more fat cattle and sheep means more money in the rancher's pockets.

If the 12th grade is added to the requirements in our public schools before the pupil can graduate, it will mean that he can do this work at home without going to college for it. It will save a year in college.

**ONE SOUR NOTE . . .**  
*but it's a great orchestra nevertheless*

Even a great orchestra will make a musical mistake *once in a while*. And *once in a while* . . . out of the thousands of decent, law-abiding beer retailers in Texas . . . you'll come across one or two who operate disreputable establishments.

These "black sheep" retailers constitute a tiny minority. Yet they tend to drag down the good name of beer.

By arousing public indignation, such undesirable retailers endanger your right to enjoy good beer. They also en-

danger the benefits to the public that beer has made possible.

For example, in Texas beer has created 31,165 new jobs with an annual payroll of \$22,076,182 and paid \$2,273,968.64 in taxes last year.

The brewing industry wants "black sheep" retailers eliminated entirely. You can help us by patronizing only the reputable, legal places where beer is sold. And by reporting irregularities to the duly constituted law enforcement authorities.

**Seed Germination**

Amateur farmers and gardeners often wonder how long it takes for certain seeds they have planted to come up from the time of planting.

Here are a few rules for the time of germination of the seeds of certain plants which are planted under favorable conditions:

Turnips will come up in four days in warm weather with plenty of moisture. Radishes require about the same time.

Tomato seed, six to seven days. Tobacco, which is the smallest of all seeds, will come up within eight to nine days.

Cabbage, cauliflower and kale germinate at seven to eight days.

Lettuce will come up within seven days.

Chard and beets in nine days. English peas in seven days.

Beans come up within seven to eight days.

Corn, nine to fourteen days. Carrots, about twelve days.

Okra will come up when it gets ready. Sometimes okra seed will come up within ten days after planting and then keeps coming up for three months after, even a year after.

It all depends on the constant moisture it gets to make a seed germinate.

The seeds of hog pursley will lie on the ground for ten years and when the right conditions prevail, it pops up and grows in great profusion.

When a mesquite bean is eaten by a cow in summer, the cow's stomach prepares the seed for immediate germination. When cow manure is spread on the garden, the beans will germinate within two days after it receives moisture, whereas beans taken from the pod will remain in the ground for weeks before coming up.

If you wish to plant pecan nuts, plant them in a box of sand. Keep the sand moist for two weeks or more and when they begin to swell and sprout, plant them where you wish them to stand.—Uncle Bill

## EAGLE OUTLOOK

By Kuo Nothing, Jr

Due to the rainy weather there has been no softball playing for several days. All the boys are waiting patiently until the weather clears up.

The fourth year V. A. boys are making a study of grasses and weeds. These boys have been making range surveys in which they find how many cows and sheep the different ranches will run per section. Mr. Douglas is in charge of the range survey.

Mr. Carter gave a grass and weed identification test. There were twenty seven different grasses and weeds. The boys did fairly well. All of them like the class and Mr. Carter finds it very interesting.

On a field trip Friday afternoon the boys ran a 100 yard dash to see who bought the ice cream when they got to town. Mr. Douglas did not get a fair start and had to set them up. Beware, boys, I'll bet he don't let you gyp him again.

## Senior Class Makes Gift to School

The Senior Class of '41 has left as their gift to the school a fluorescent light for the eleventh grade room. It is a very attractive fixture and helps the lighting system very much. The Senior Class had enough money in their treasury to pay for the light.

We wish to thank Mr. Homer Pearce very much for installing this light free of charge and giving us a ten per cent discount on it. We appreciate his kindness very much in helping the seniors in order that they might have such a nice gift.

The members of the Senior Class of '41 are: Richard Abertathy, Claude Broome, Garland Cannon, Jim Bob Clark, Charlene Chesney, C. J. Cope land, Fred Currie, Peggy Edwards, Mary Lou Foster, Louise Littlefield, Joe Allen Mathis, George Mills, Dur wood Rhoden, Marie Rhoden, and Junior Thiers.

## Mayday Pageant

Come to the gymnasium May 1st at 8 o'clock and see the May Day Pageant. Jack Frost will be scared away by Beffo, the owner of the Golden Whistle, which calls all the flowers, frogs, toadstools, rabbits, elves and fairies to the festival.

The May Day Queen comes with her court and reveals to Beffo who stole his whistle. Then Uncle Sam calls for the Maypole fairies to come and give a dance to celebrate the finding of the whistle.

At the last is the Grand Finale of the one hundred and fifty boys and girls taking part in the pageant.

There will be solos, songs and dances displaying the talent of the pupils of the Elementary School. There will be a small charge of 10c and 20c to help defray the expenses.

The boys and girls have worked for a month on this pageant that they might give you a nice entertainment so come and see them perform.

## THRILLS AFTER THREE

By Gadabout

The sophomores had a class party Thursday night. They roasted marshmallows and weiners. Sponsors were Mr and Mrs. H. M. Carter. Sophomores attending were: Ewing Fowler, Fred, Scooter, Billy, Dan, Johnny, Tom Dee, Joe, Weldon, Imogene, Marylene, Arlene, Mozelle, Nell, Frances, Maudine and Billie. The party was held at Sherwood Crossing. The girls went bicycling after returning to town.

Attending the dance, given by Garland and L. B., Friday night were: R. D. and Lucille, Fred Curry and Maudine, Wiaston and Peggy, John and Nannie Mae, Jim Bob and Elsie, Claude and Arlene, "Dixie" and Mary Lou, Ross and Mitzi, Sam and Rosemary, Jack and Wilma, Ira Lee, Charles, Colbert, Jean, William, Finis, Garland and Nell, and Sue and L. B. Chaperons were: Mrs. Wyckoff and Mrs. Cannon.

Some of the high school girls attending the tea Saturday afternoon April 12 honoring Miss Smith were: Sammie Lee, Nan, Juandell, Ruth, Lucille, Jerrie, Freda Mae, June, Frances, Arlene, Sue, Mitzi, Mary Lou, and Nannie Mae. Since Miss Smith isn't going to be with us next year, we want to wish her the best of happiness.

## WE WONDER

Why Miss Smith likes the song "There Will Be Some Changes Made."

Where Louis was Sun. afternoon.

If everyone isn't complimenting L. B.'s haircut.

If Claude has an interest in Carlsbad, Texas.

What blonde girl in Carlsbad has a Junior boy visitor every week end.

If Lloyd was in the garbage can last Tuesday night. Know anything about it Lloyd?

Why Peggy has those "Brown Ferry Blues."

What Arlene was so happy about after the Style Show.

Whom Dunker was with at the dance.

What Senior girl's heart belongs to Danny.

Why Charlene sings "Mr. and Mrs. Is The Name."

If Imogene likes Hamburgers.

Claude wonders if Dixie doesn't also have an interest in Carlsbad.

What Junior girl was disappointed Sat. night.

If Louise is in love. She goes around dreamy eyed.

Where Imogene's favorite parking place is. If they watch the trains go by.

If some high school boys are interested in Johnny's aunt.

## Supt. Jones Inspects Eldorado Schools

Superintendent O. T. Jones was one of a committee of three who inspected the Eldorado schools during the past week. Eldorado is a member of the Southern Association of Secondary Schools, and as such must be examined once every five years by a committee outside of the town. Mr. Jones was asked by Deputy State Superintendent Mullin to represent the school administration this on committee.

## VITAMIN NEEDS OF CHICKS ARE HIGH, RESEARCH SHOWS

Ingredients Discovered for Adding Vitamins.

"Because of the rapidity with which the size of a baby chick's body increases, chick rations must have a high vitamin content," reports Dr. H. J. Smith, director of research for Purina Mills.

Dr. Smith states that research at the Purina Laboratories has shown that the vitamins most apt to be lacking in baby chick rations are A, D, and G. Proven ingredients have been discovered for adding these vitamins to a ration to meet the needs of baby chicks.

Dr. H. J. Smith

"Pur-a-tene," Dr. Smith explains, "is a concentrated source of pro-vitamin A. Fish oils supply vitamin D. Puriflavin supplies not only vitamin G, the filtrate factor (pantothenic acid), but also Vitamin B, which is necessary for the normal development of chicks, and B, which has a great deal to do with metabolism.

"At the Purina Research Laboratories we're constantly studying the vitamin requirements of baby chicks and searching out new methods for meeting these requirements," Dr. Smith reports. "Last year more than 40,000 chicks were used to carry out these tests. After our Laboratories have discovered something that produces better chicks, we take it out to our Experimental Farm for extensive trials to see if it is practical. Then it's not hard for us to decide if this new discovery should be included in our chick starting ration."

In commenting on chick starting rations, Dr. Smith emphasized strongly the importance of giving baby chicks a ration into which the vitamin carriers are so carefully mixed that every thimble-full carries its full share, as that is the amount a baby chick eats daily the first few days of its life.

## IT COSTS 18c TO FEED EACH HEN PER MONTH, GEORGIA FIGURES SHOW

Only Laying Hens are Able to Pay Their Share of the Feed Bill.

Poultry raisers who have never figured their costs will be amazed at the "Progress Report for July of the 14th Georgia National Egg Laying Test"

which shows that it costs approximately 18c to feed a hen during a single month.

Because of this comparatively high cost of keeping a hen, it is extremely important to get as many eggs as possible during the months of September, October, November and December when egg prices are at their peak, reminds C. S. Johnson, head of the poultry department, Purina Mills.

Unless special attention is given the flock during the fall and early winter months, not enough eggs will be produced to pay expenses, let alone a profit, he says. Left to herself, a hen won't start to lay until she gets the "spring urge." Often that isn't until February and March, when eggs are plentiful and prices drop.

"It's pretty expensive putting 18c worth of feed into a hen each month during the fall and winter just to have her around for a few eggs in the spring and summer," Johnson maintains. "It's the hens that lay in the fall and winter that make the largest profits. When a hen isn't laying eggs, she isn't paying for her keep, let alone making a profit."

Editor's note: How to get winter eggs is explained in Purina Mills' latest poultry bulletin, obtainable without charge from our local Checkerboard feed dealer.

## Fourth Grade

The Fourth Grade wish to thank Mmes. Glass, Ballou, McEntire, and Everitt for the nice picnic they gave us April 9. Three o'clock was a nice time for sandwiches, pickles, cookies and lemonade.

We were glad to have the sound picture on "Safety" Monday morning.

A Kitchen Extension

SAVES STEPS IN SUMMER

On warm days, when there's kitchen work to be done, an extension telephone close at hand will save the steps you ordinarily take hurrying to another part of your home to answer or make telephone calls. This convenient extension saves time, too. It is a messenger always ready to run your errands and order household supplies the moment you discover they are needed! Let a telephone in your kitchen help you keep cool this summer—the cost is moderate. Call our Business Office or any telephone employee will gladly help you place your order.

## Mead's NEW Ranger CHAMPION!

Just Out!

The greatest bicycle we've ever offered—one of 44 styles, colors and sizes, from \$19.95 to \$45.00.

Built-in illuminated speedometer, twin lights, built-in electric horn, floating-ride saddle, double streamlined frame, etc.

Pay Only \$1.00 a Week

Here it is—the swiftest bicycle Mead has ever offered during nearly 50 years of leadership—the new SUPER-STREAMLINED Ranger CHAMPION! A real thoroughbred! A Champion in speed, looks, and QUALITY construction. And best of all, the Ranger Champion is

### YOURS TO TRY FOR 30 DAYS!

Parts and equipment for all bicycles—much below the usual price!
