

STERLING CITY NEWS-RECORD

VOL. 40

STERLING CITY, TEXAS, FRIDAY, JUNE 9, 1941

NO. 47

Stamps and Bonds

Postal receipts for May were \$326.47, a gain of \$71.03 over May of 1940, when the total was \$255.44.

Following are by month comparisons of 1941 to 1940

Month	1941	1940
January	\$306.16	\$276.20
February	314.74	250.32
March	286.17	319.19
April	271.87	237.64
May	326.47	255.44
Total	1505.40	1338.76

Since the Defense Bonds and Savings Stamps were placed on sale May 1, results for Sterling County equal \$12,255.00 face value from sale of Bonds alone. Total sale of stamps equals \$14.10.

With a view to building up public demand for the new series of United States savings bonds, the Treasury Department has given extensive publicity to the availability of postal savings stamps and the opportunity afforded through the purchase of these stamps to accumulate the price of a bond.

A new series of postal savings stamps in denominations of 10 cent, 25 cents, 50 cents, \$1, and \$5 were distributed to postmasters at all savings bond offices. Your local post office in this group was not a postal savings depository, but has been designated as a "Restricted Postal Savings Office", and its authorized to sell savings stamps but not postal savings certificates.

Our postmaster, Mrs. Anna Lee Johnson says, as previously stated, the Treasury Department has put on an extensive advertising campaign for the sale of bonds, stamps and bonds, and I desire to impress upon all concerned, the necessity for continuous observance of our National Defense Program. Each man, woman, and child in our County has a great part to play in this vast program and it is hoped that Sterling County is among the top ranking counties in the State.

Bowen-Tally Announce Engagement

Announcing the engagement and approaching marriage of her daughter Gloriadel and Robert Sheppard Tally of Kermit, Mrs. C. A. Bowen who lives near San Angelo on the Robert Lee road, entertained with a tea from 4 to 6 this afternoon in Sterling City. Party scene was the W. N. Reed home.

The wedding is to take place June 15 in the First Methodist Church at Sterling City. The Rev. B. B. Hestir, Presbyterian minister is to read the ceremony. Miss Phyllis Bowen, sister of the bride to be and a student in Texas Tech, is to be maid of honor and Parks Brumley of Kermit formerly of Pampa will be best man. Other attendants will be announced later.

Miss Bowen attended Sul Ross and received her degree in Physical Education from Texas Tech. She taught in the Lubbock schools for a year and a half and taught in the Wink school this year. Mr. Talley, son of Mrs. Roberta Talley of Kermit formerly of Pampa, attended the University of Texas. He is connected with the Cabbott Company in Kermit.

Bouquets of spring flowers decorated the party rooms. In the receiving line with the honoree and her mother were Mrs. Reed, Miss Phyllis Bowen, Mrs. Joe Emery, Mrs. Tommy Johnson and Mrs. Trennon Revell. Mrs. Clyde Everitt played piano selections during the afternoon and Mrs. Chesley McDonald

July 1 Is Second Registration Day

President Roosevelt Monday ordered a second registration under the Selective Service Act which is to be held on Tuesday, July 1, 1941. The second registration will be for men who have reached the age of 21 since the first registration on October 16 last year. It is believed that around a million young men will fall in this age group.

Some of those who have become 21 since the first group of 16,500,000 men was registered already have volunteered for a year's training. A provision in the draft law allows voluntary service of men between the ages of 18 and 21.

The action was required in the interests of national defense, stated President Roosevelt in his proclamation fixing the date for the registration. All unregistered male citizens and aliens in the United States, Hawaii, Puerto Rico, and Alaska who have attained their 21 birthday, were defined as those who must register.

The registration will be conducted by the Nation's 6,500 local draft boards who will also be charged with classifying the men. While many millions of the first registrants were deferred because of employment in work essential to the well-being of the country and as heads of families, it is considered that the vast majority of the men will soon register will be available for the call.

At least two plans of selecting draftees from the new list are being considered, but it is expected that the new men will be placed at the bottom of the present list.

President Roosevelt urged employers to allow time off for the registration.

presided at the brides book.

The lace covered tea table was centered with an arrangement of spring flowers. Mrs. Herbert Cope presided at the service the first hour and Miss Prebble Durham the second hour. Announcement was made on scrolls tied with ribbon and rolled into miniature wedding rings. The scrolls were printed with "Gloriadel and Robert—June 15."

BROADWAY BECKONS

Pretty Mary Howard is considering an offer from producer Eddie Dowling to appear in a Broadway stage production he plans to produce this Fall. This M-G-M player is rapidly rising in public favor and is expected to win considerably more attention when she is next seen with Robert Taylor in "Billy The Kid" in which she is the romantic lead. She says that if studio duties permit she will forsake Hollywood to assume the Dowling role.

Lions Install Officers

The Sterling Lions Club installed the following officers last Wednesday at its weekly luncheon:

M. L. Hildebrand President, Rev. Lowell O. Ryan 1st Vice President, R. L. Lowe 2nd Vice President, Rogers Hefley Secretary Hal. M. Knight Treasurer John Walraver Tailtwister and Anna Lee Johnson as musician. The same board of Directors was retained.

R. L. Lowe served during the past year as president with H. L. Hildebrand as vice president. The Club enjoys a good attendance each week with increased interest in the work.

Without the Lion's Club and its splendid civic activities Sterling would be poor indeed.

Mr. and Mrs. W. M. Key of Rock-springs were last week end guests of their daughter and son-in-law, Mr. and Mrs. David Glass.

Mrs. W. F. Cushing Dead

Mrs. Daisy Mann Cushing, wife of W. F. Cushing, died at the family home in Big Spring last Monday.

Funeral services were held at the First Presbyterian Church of Big Spring at 4 p. m. last Wednesday. Burial was made in a Big Spring cemetery following the funeral services.

Mrs. Cushing had been ill for several weeks before her death.

Survivors include the husband, W. F. Cushing, a son, W. E. Cushing, of Glasscock county; three daughters, Mesdames H. C. Stipp and Constance Cushing McEntire of Big Spring, and Frank Holmes of Jacksonville, Texas; and three grandchildren.

Three brothers; Will T. Mann of Big Spring, W. J. Mann of Sterling City and B. C. Mann of San Angelo; two sisters, Mrs. Hoxsie Smith of Pasadena, California, and Mrs. T. R. Walter of Kalamazoo, Michigan. They are the sons and daughters of the late Mr. and Mrs. W. T. Mann who settled 54 years ago on the North Concho six miles east of where Sterling City now is. At that time, it was part of Tom Green County before Sterling was created.

Deceased was born in Union County, West Virginia, April 21, 1878, and was 63 years old at her death.

She spent most of her girlhood days in the vicinity of Sterling City where she was esteemed by all the old timers here for her many fine qualities of heart and mind.

Wheat Marketing Quota was voted by a 3/4 majority on May 31 1941, Sterling County voted a 100 percent for quotas.

Marketing Quota regulations approved by the Secretary, which allows 96 cent loan rate. A penalty of 49 cents is assessed on all marketing excess wheat.

All wheat producers are requested to call at the AAA Office and receive their wheat marketing Quota card in order that they might sell their wheat. There will be no penalty on the producer who has planted within his 1941 Wheat allotment.

Mosquitos

"A marked saving in human lives and improved health conditions may be obtained in large measure by an educational program for the control of the mosquito," suggests Dr. Geo. W. Cox, State Health Officer.

"Malaria is transmitted to humans," he said, "by the bite of the Anopheles mosquito. This mosquito acquires the malaria parasites by biting a person who has these parasites in his blood. She (it is the female who transmits this disease) then bites a well person. The parasites enter the blood grow, and multiply there. The person bitten by the carrier mosquito begins to shiver with chills, burn with fever, and to have a headache.

"Prevention of malaria should start with the protection of humans from the bite of the infected mosquito and continue through to the elimination of the mosquito.

The protection of humans may be accomplished by screening all houses to prevent the entrance of mosquitoes. A 16 mesh wire screen should be placed over all openings. Be sure that all chimneys, cracks, and other openings are covered.

"The malaria mosquito breeds in still water and the pools and grassy edges of running water, as well as in many places where water is allowed to collect or stand. The female mosquito then lays her eggs on the surface of the water, where they float, and in a few days hatch into 'wiggle tails'. These live in the water and in time turn into mosquitoes. These changes must take place in the water and require twelve to fourteen days in summer to complete the cycle.

In order to prevent the malaria mosquito from breeding, destroy their shelters by removing all brush and weeds, and drain or otherwise control their breeding places in water by spraying the surface with oil or putting top feeding minnows in waters where oil or drainage cannot be used. Such a campaign will be waged around all military areas in Texas.

Palace Theatre Opens June 6

Tom Montgomery, popular new picture show manager announces that the Palace Theatre will open its doors to the public on Friday, June 6.

He wants to see all his old time patrons as well as new ones there in full force at 7:45 p. m. when the show starts.

Mr. Montgomery expects to put only good, clean pictures on the screen. Courteous and neighborly treatment will be accorded to everyone.

There is nothing a fellow enjoys more after a day's hard work, to get a nice seat in a cool room filled with his neighbors and watch and listen to a good movie picture. It's good for you.

Lets go.

Carl Brumelow, head of the music department of the San Angelo Junior College presented Miss Clydean Everitt, elder daughter of Mr. and Mrs. C. M. Everitt in a graduation recital at 2 o'clock in the afternoon of last Sunday in the College Auditorium.

She was assisted in the recital by her sister, Miss Billy Sue Everitt.

The Conscientious Objector

I have respect for every man's religion, that of a Chinaman. But a religion that militates against the performance of a natural, public duty toward the safety of one's country, is only a religious cloak, behind which to shirk a duty which every man owes to himself, his family and his country as well as his God.

The laws of nature are the laws of God. We are taught that the first law of nature is self preservation. Without this law, which is inherent in every normal human being, the human race could not exist. Even a pissant is endowed with this attribute.

If you recall every time there is war or a rumor of war, the conscientious objector is heard from. He tells the world that his conscience forbids him to fight or otherwise engage in military duties. Yet, this human parasite is willing to accept the fruits gained by his forefathers in war.

When his country is in danger, he is willing to let his countrymen go to the front and lay down their lives if necessary, to protect him and his spawn from destruction because of his so called conscience and at the same time accept and enjoy the rights and protection that has been preserved to him through the sacrifice of his fellows.

In the frontier days of Texas, I have seen the conscientious objector in action, or rather inaction. He moved to a new settlement where the lands were rich and the opportunities were great. When the Indians raided the settlement and murdered and plundered the settlers he hid in the hiweeds and refused to help his neighbors beat the Indians and recover his stolen horses. Yet he gladly accepted his horses which his neighbors had recovered for him at the risk of their lives.

This fellow whose conscience told him it was a sin to fight was found one day dead and scalped. There were no flowers at his funeral.

A man with such a conscience is not a good citizen. He is a damocoward and hypocrite say I.—Uncle Bill

An invasion of this part of Uncle Sam's dominions by parachute would be a risky business where most every boy has his target rifle and knows how to use it. As the parachutist slowly descends, he would be at the mercy of the target rifle at a range of 200 yards. Where parachutists have succeeded is in countries where the people were not allowed to have guns.

The young hijacker who held up and robbed the bank at Levelland of more than \$20,000 didn't get to enjoy the fruits of his crime but a day or two. They reached out and got him in short order. It is reasonable to conclude that by this time he thinks he is a champion sucker.

Trying To Be Neutral

In their efforts to remain neutral and free to follow their ways of life, thirteen or more European nations have placed their necks under Hitler's iron heel since the present war began.

Each nation stood aloof and watched Hitler take them in one by one until all Europe, except England, is under the heel of Hitler.

It would seem that other nations would have profited by this terrible lesson, but they haven't. Like Wheeler, Lindbergh and the other isolationists, they have preached that "if you let the other fellow alone, he will let you alone" until it was too late to do anything about it.

The doctrine being preached by this bunch of isolationists is the same doctrine that caused the downfall of all these nations of Europe, and is now threatening the whole world.

Like the fabled ostrich, Wheeler et al proposes that the United States should stick its head into the sand with nothing but its posterior to disclose its hideout as Hitler approaches to take us over.

This bunch would only be too glad to hand Uncle Sam over to Hitler. This is a hard charge, but it is nevertheless true. They hate this country, and would not raise a finger to prevent its destruction.

On the other hand, under the cloak of neutrality, they would do their part in consummating a cheap bargain with hell. They are traitors. —Uncle Bill

The new law limits drug stores in dry counties to 100 prescriptions for whiskey. This will provide a hard deal for the drug store, but will be a great help for the bootlegger. The man has yet to be born who is smart enough to head off the bootlegger.

Mr. and Mrs. James Kenney, of Del Rio announce the arrival of a son June 3, weight 7 pounds and he will be named James Fred. Grand parents are Mr. and Mrs. J. Fred Barrett of Del Rio, and Mrs. Kenney of Midland. Mrs. C. N. Crawford is the great grandmother.

Wheat Marketing Quota Voted

Sterling County wheat producers are among the first in West Texas to get 1941 parity payments.

More than \$300 of \$445 due the county already has been received, Mrs. Ina Sproul, AAA administration officer, said here Sunday.

Measuring for performance is to start in Sterling by June 15, Mrs. Sproul said. A. W. Dearen is performance supervisor.

Does Routed Coyote

Imagine the surprise of a Texas game warden when he topped a rise on a ranch west of Webb, in southwest Texas, the other evening when he saw two does and a yearling deer chasing a coyote across the country. And that coyote was really leaving there, the warden reported to the Austin office of the Game Department. I have often seen coyotes chasing deer but this is the first time I have ever seen the tables reversed and I have been in the out of doors practically all my life.

Last year a similar report reached the Game Department office, but in that case it was a doe with a fawn giving chase to a coyote. Her fawn was extremely young and the maternal instinct undoubtedly produced that phenomenon. There is no such explanation for the latest deer chasing coyote incident

Billy Clyde Davis a student in the Military School at Arlington, Texas, a son of Mr. Clyde H. Davis and wife, Juanita Davis, of Kilgore, Texas, happened to a very serious accident a few days ago, when a ball of a Sycamore tree, thrown by a boy friend, struck him in the eye. It is feared that he may lose his sight in that eye. He is now under treatment in the dormitory there.

Mr. and Mrs. D. C. Durham have returned from a visit to their daughter Mrs. Clyde H. Davis, at Kilgore, Texas. They also visited their daughter, Annie Lee Harris and husband Charles J. Harris, at Waco, Texas. Mr. and Mrs. Durham K. Durham of San Angelo, accompanied his parents on their trip.

We marvel at the giant 16 inch guns with which some of our battle ships are armed but these are mere pop guns in size compared to the 28 inch guns with which some of famous Spanish Armada were armed. But when these huge pieces were fired, the recoil kicked the ship to pieces.

There are two elements that are seeking the election of Governor O'Daniel for senator. The first are those with whom he is so popular because of his fiddleistic proclivities. The second are those who would like to rid Texas of his presence. Neither of these elements care a whoop about his qualifications for senator.

Sewing of all kinds at reasonable prices. See or call Mrs. W. L. Emery Phone 173. Sterling City.

WHAT'S YOUR SCORE ON THIS QUIZ?

Like to know more about Your Electric Servant? Run through this quiz... it's full of facts and explains why Electric Service is GOOD... and CHEAP... in West Texas.

- Q. How much more light do you get for your money now than you got 10 years ago?
 - A. You get, for about the same money, two or three times as much Electric Service as you did then. And bulbs today give about twice as much light with the same amount of electricity. Twice as much service for twice-as-good bulbs means four times as much light for your money!
- Q. How much per day do most families spend for electric service?
 - A. The majority of our customers pay us less than 10 cents a day (the cost of a shoe shine or a good cigar), using, say, lights, vacuum cleaner, radio, toaster, and refrigerator.
- Q. What do you say to a husband (or wife) who fusses at you for letting a 100-watt light burn all night?
 - A. "Don't get excited, dear. Believe it or not, it costs only about a nickel—and maybe it scared a burglar away!"
- Q. Who owns Your Electric Servant?
 - A. You do. Every family who has a bank account or a life insurance policy is part owner. The money you put in the bank, or pay to an insurance company, is invested in various businesses, including electric utilities. This makes you one of the millions who have a stake in the American system of private initiative and enterprise.
- Q. Just how dependable is electric service in West Texas?
 - A. Equally as good as any in the nation! And better than in any foreign country!

Yes, electric service has constantly improved and rates have steadily gone down. Remember that this BETTER SERVICE at LOWER COST to you has been brought about by our trained and experienced organization of over 1,000 men and women, working under a system of private initiative and enterprise... the only kind of system ever to bring better living conditions to ALL the people.

West Texas Utilities Company

HERE'S THE OFFER

Send your old electric bill to our nearest local office. If yours is the oldest we receive by June 15, it is worth \$50 to you—if one of the 10 next oldest, we will pay \$5 for it. It must be for service in the home, dated 15 or more years ago, and must be accompanied by a letter, 100 words or less, telling something about the kind of service and the cost at the time the bill was paid. All present customers of the West Texas Utilities, or its predecessors in this community, (excepting employees) are eligible.
