Fighting Engineers

In Sicily, a Combat Engineer Battalion is divided its time evenly between fighting and the repair of roads. The main job of the "pick and shovel gang"—the combat engineers—is to keep the military roads open and free of dangerous enemy mines. Many and varied are the tasks of the Engineers. One engineer saved four American soldiers from drowning during the landing operations in Sicily and gave them first aid under fire. Another knocked out an Italian pillbox that had held up two companies of troops. A third led six half-tracks into action and rounded up 800 prisoners in two days. In the Sicilian campaign these combat engineers have been fighting one day with rifle and machine gun and the next day wielding shovels in exposed areas, picking up touchy German mines and building by-passes around extensive road demolitions. The list of their heroic deeds in battle as well as the speed with which the Army has been able to move as a result of their fast, skillful road repair work, shows they are performing well in double role.

Protracted Meeting at Moon Chapel

A protracted meeting is in progress at Moon Chapel on the Divide. The Reverend Carlos Knight is doing the preaching.

Next Sunday lunch will be served on the grounds and the Reverend Russ Welch will do the preaching. Everybody is invited to attend this service, as well as all the other services.

The two preachers conducting this meeting are Sterling County products, of whom we are all proud to claim. Reverend Welch is the son of Mr. and Mrs. R.J. Welch, and is pastor of a Methodist in San Antonio. Reverend Knight is the son of Mr. and Mrs. E. R. Knight, who resided for several years on the Divide. Both of these young ministers attended our public schools, Welch being a graduate of our high school. Afterward he graduated from the University of Texas and from the theological department of Southern Methodist University.

Shower for Recent Bride

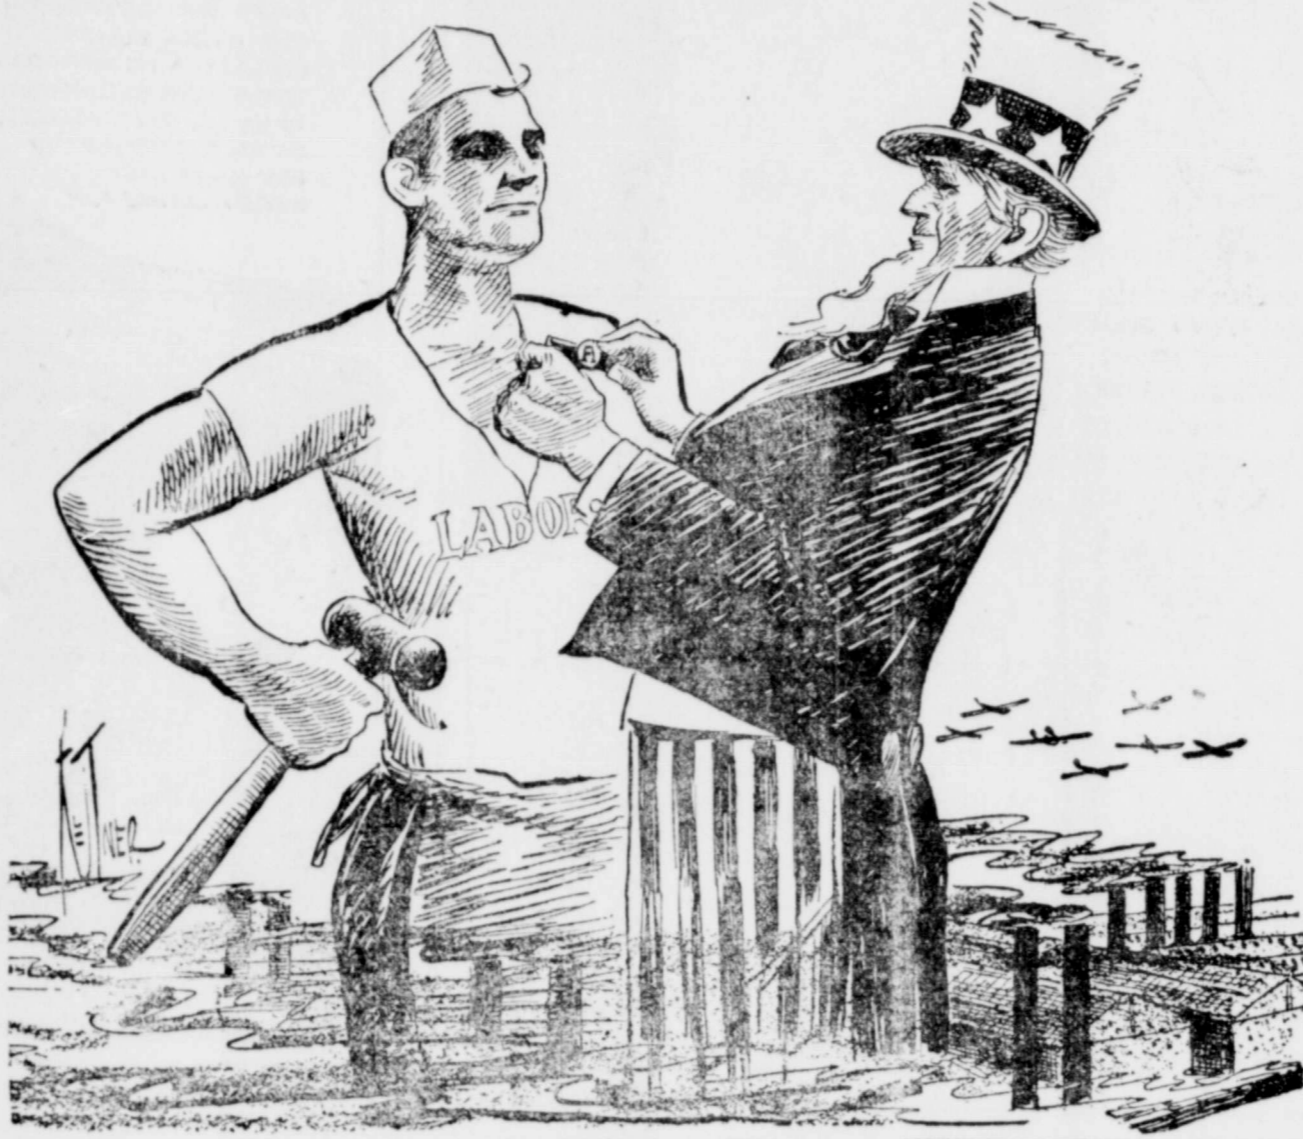

A miscellaneous shower was given last Friday afternoon at the home of Mrs. Rufus Foster, honoring Mrs. W. C. Albert, who was Miss Maxine Tweedle before her recent marriage. Hostesses with Mrs. Foster were Mesdames Martin Reed, Hubert Williams, J. S. Cole, Jr., Fred Allen and Buster Gober.

The lace-covered table was centered with a crystal punch bowl surrounded by flowers on which was a miniature bridal couple. Mrs. Gober, Mrs. Cole and Mrs. Reed presided at the punch bowl and bride's book. Mrs. Reynolds Foster and Mrs. Tommy Johnson played piano numbers throughout the afternoon.

Gifts were received from many friends.

Where is Mussolini? I don't know, since Mussy got Italy in trouble and the Allies are tearing up that country like a sow's nest, it is to be hoped that he will never be heard from again. Mussy has brought the Roman Empire very low. — Uncle Bill

Girl Scouts Hut Is Completed

Sterling City Girl Scouts now have a building of their own in which to meet and carry on their work. The Little House, situated in the City Park, is an old building which has been remodeled and enlarged.

The building project was advanced by donations from interested persons of the county and proceeds from a July Fourth celebrations and auction sale sponsored by the Girl Scouts which netted over \$750.

The original structure was 34 by 16 feet and is now the main room. It has a fireplace, hardwood floors, finished sheetrock walls and stained and finished wood work. A floor and varnished car siding extends 27 by nine feet across the south, with a seven foot kitchen completing the length of the house. Finished on exterior is rock veneer with a painted shingle roof.

J. T. Davis drafted the plans for the building and superintended its construction free of all cost. The rock came from the Harry Tweedle Ranch and was donated by Mr. Tweedle. The county road crew, headed by Ray Mathis, donated their time and work to haul the rock. The cement finishing work was donated by Warren and Kenneth Garms, local cement contractors. Homer Pearce wired the house for electricity.

Scout troop leaders who will meet with their troops in the new house for the first time this week are Miss Geraldine Lee, Brownie leader; Mrs. Claud Collins and Mrs. Dan Ritter, Intermediate leaders; and Mrs. H. L. Donaldson, senior service leader.

Girl Scout committee members who accepted the building in behalf of the scouts include Mesdames H. L. Hildebrand, J. L. Snead, John Skeet, Taylor Garrett, and W. Y. Benge, Jr.

Expects Join Army Nurses

Miss Alice Simpson, R. N., who has been visiting her parents. Mr. and Mrs. H. S. Simpson, returned to San Antonio yesterday. Miss Simpson plans to enter the nurses' corps of the Army in the near future.

To the People of this Community:

ARE YOU REALLY AT WAR?

What does being at war mean to you? Less gasoline for your auto? Less sugar in your coffee? Higher prices for your food and clothes? Separation from your husband?

Buy More Bonds Sure, it has meant all those things, some serious and some really trivial for a period when your actual safety is at stake.

But has the war meant BLOOD, SWEAT AND TEARS to you? In many instances YES. The first stage of invasion has already pushed our casualties over the 100,000 mark.

The gold stars which decorate thousands of our homes today are a challenge to the vast majority of us to do our best in the Third War Loan. No good American wants to see one more gold star added to the firmament of glory. We educate our youth for life, not for death. If they die, they die so that we might live. Every extra War Bond you buy today will back the invasion so that the war will be shortened and so that there will be less blood, sweat and tears for you and your friends.

Schools Opened Monday

When Supt. James R. Hale rang the school bell last Monday morning a big crowd of interested folks was there to greet him and see the kiddies start off on their next year's work.

Supt. Hale announced the program for the year's school work. He expressed hope that this will be a most successful year in spite of war conditions.

Rev. M. Black gave the invocation. Several short talks were made by the old timers.

Supt. Hale introduced the following teachers for the coming year: H. M. Carter, Miss Mildred Atkinson, Miss Evelyn Vernon, Mrs. Iona Wade, Miss Pearl Faries, Mrs. Bena Davis, Miss Flo Allen, Miss Rena Ball, Mrs. Mary Cuosno, Miss Alma Richardson, Mrs. Capitola Bratton, Miss Fay Little and Mrs. Linna Mae Hall.

Each teacher, followed by his pupils retired to his room to begin preliminary work.

Tweedle-Albert Nuptials

In a candlelight ceremony read at 8 o'clock last Saturday evening in the home of her parents, Miss Maxine Tweedle, daughter of Mr. and Mrs. Harry Tweedle, became the bride of Lt. Warren Charles Albert of Majors Field Greenville.

The Rev. Lowell Ryan, Methodist minister, read the single ring ceremony in the presence of a few close friends and relatives of the couple. Mrs. Harry Tweedle, Jr., of Garden City, sister-in-law of the bride played the traditional wedding music and as prenuptial selections played "Because" and "I Love You Truly." "Indian Love Call" was played softly during the ceremony.

Mrs. Fred Nibling of Houston attended her sister as matron of honor and Sandra Wilkerson, daughter of Mr. and Mrs. Joy Wilkinson of Garden City, was flower girl. James Edwin Tweedle, son of the Harry Tweedles, Jr., was ring bearer.

Lt. Guy S. Bryan of Majors Field was best man.

A reception was held following the ceremony and the bride cut the first piece of the three-tiered wedding cake which was topped with a miniature bridal couple. The cake was at one end of the dining table on a reflector surrounded with white roses, the crystal punch bowl was at the other end, and white tapers in crystal candleabra centered the table.

Miss Charlyne Good served the cake, Miss Margaret Barry presided at the punch bowl, and Miss Camile Cotten was at the bride's book. The couple left Sunday for Greenville where they will make their home.

Mrs. Albert, a graduate of the Sterling City High School, attended John Tarleton and is a graduate of the San Angelo Business College. She has been employed at the State Highway Department in San Angelo for the last year.

Lt. Albert, son of Mrs. D. F. Kramer of Milwaukee, Wis., attended Marquette University before entering the armed forces. He received his pilot training at Ballinger and Brady and his wings at Altus, Okla. on March 20 of this year. He is now an instructor at Majors Field.

Gifts to Overseas Men Should Be Mailed Now

Mailing of gifts for Army and Navy personnel overseas must begin by September 15.

Christmas gifts may be mailed by parcel post to Army men and women overseas only between September 15 and October 15.

Reasons for the early mailing dates are: The vast distances that the parcels must travel to reach our men at war fronts and stations the world over.

Those who have relatives or friends in the service should remember that we have fighting men in Alaska, Greenland, Iceland, England, Sicily, the far-separated regions of Africa, the Near Eastern countries, Australia, many of the South Pacific islands, India, China, South America and other areas.

Weeks are required for a ship to reach many of these stations. There can be no assurance, of course, that the first ship sailing for any of these locations will have space available to carry Christmas parcels.

Mail of all kinds is vital to the spirit of fighting men. A disconsolate soldier or sailor who thinks he has been forgotten at Christmas obviously is not at his best. So the gift must be mailed on time so that they can arrive on time.

The parcel must not exceed five pounds, and must not be more than 15 inches in length or 36 inches in length and girth combined. It should be marked "Christmas parcel" so that it may be given special attention to assure its arrival before December 25.

Not more than one parcel may be mailed in one week to the same member of the armed forces by or in behalf of the same mailer.

The parcel must be well and strongly packed, in a container of metal, wood, strong fiber board, or similar material, then wrapped in strong paper and tied with twine. The cover should be such that it can be readily opened for censorship and the contents should be packed tightly.

Perishable goods, such as fruits that may spoil, are prohibited.

Intoxicants, inflammable materials such as matches or lighter fluids,

What You Buy With WAR BONDS

Holy Stone

Cleanliness is the first order of every American soldier and sailor and the United States Government spends millions upon millions of dollars to keep our fighting men as clean and as healthy as circumstances will permit.

"Swab the deck!" cries out a petty officer and the men fall to with their "holy stone" equipment and in a short time everything is spick and span.

Buy War Bonds and more War Bonds and you know that you are sharing in the effort that will free the world from war lord domination.

Now is the time for every rancher to lay in every ounce of feed that he can to carry him through the winter.

Look out for grass fires. Don't let a grass fire catch you without a supply of water and sacks to follow the fire trucks.

Over in Russia, Hitler and his cutthroats are advancing backwards—"according to plan."

Mrs. Bynum, that California gal who belittled Texas and its people is receiving a lot of adverse criticism from all over Texas. This woman is ignorant and uncultured. She was shortpotted in her raising in the matter of culture. She accepted the hospitality of Texas people and then went home and talked about them. We must overlook her lack of culture and ignorance, she can't help being that way.

We have been told that the Japs wouldn't run or surrender in a battle, but at the battle of Kiska and other late battles, they have proven themselves to be good sprinters. Like every other creature of flesh, the Jap knows the value of space between them and their enemies. These beaighted devils have been taught to die rather than to surrender, but they are learning that "he who fights and runs away, may live to fight another day." Yes, the Japs love their bones as well as anyone else.

A Substantial Appreciation

The following letter to Fire Chief R. P. Brown explains itself:

Dear Mr. Brown,
Enclosed find \$50.00 check, made payable to the Sterling County Fire Department. I did not know who to send it to and if you will give this check to the proper person, I will certainly appreciate it.

This check is a contribution to their fire department, in appreciation for the fine work of the men who have helped us so much in our recent grass fires in Sterling County.

These men are getting praise thru out West Texas, as the finest and most efficient fire fighters of them all. They are greatly appreciated for their fine work by every one who has seen their work.

Thanking you again for attending to this matter for me, I remain,

Yours truly

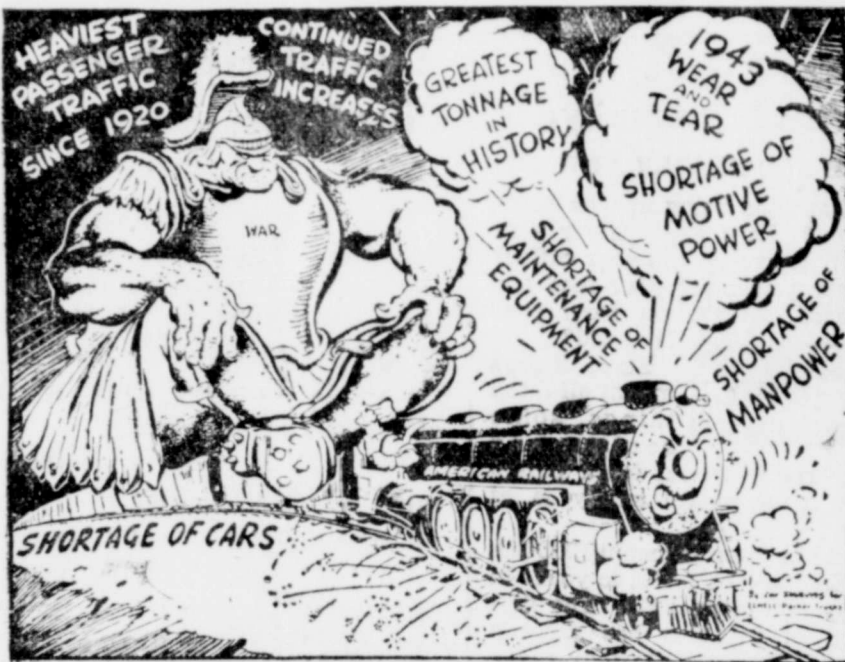

Leasel A. Harris

Our fire boys are noted over all West Texas as the best grass fire-fighters to be found anywhere. They have had so much practice that they are becoming experts. Armed with three good fire trucks, they can cope with any fire, whether grass or building. That is the reason most people dig down and help keep the outfit in good shape. We have the best men to man these trucks that can be found anywhere.

AMERICAN RAILWAYS FACE CRITICAL TEST

With Prime Minister Churchill's announcement that the United Nations are beginning to sink submarines faster than the Axis can build and man them, American railroads come to the most critical period in their history. Removal of the sub menace means safe travel for convoys. It means that ships will soon be able to take all the war materials, food and supplies that the factories can produce, if the railroads can move it fast enough to the ports. But much of the roads' equipment was obsolete in 1940 and too little of it has been replaced since then.

"America's transportation is approaching a dangerous peak" says C. B. Cook, Vice President of the Elwell-Parker Electric Co., Cleveland, O. "Unless the roads can obtain new rolling stock and replenish their shop and maintenance equipment as a partial offset to their acute shortage of manpower the threat may become a critical reality. Victory could even be delayed by the slowing-

down of our transport system at home." Power trucks and other mechanical methods of multiplying manpower will help to keep troops and great quantities of stored war freight moving, according to Cook, providing the roads are given the necessary priorities and directives to replace equipment which is rapidly giving out under present abnormal traffic demands.

No Time to Explain

After the battle of Tunisia in North Africa, they had rounded up a group of sick and wounded and were putting them in ambulance planes and flying them to a hospital 600 miles away.

Nearby was a delousing plant where soldiers were stripped of their clothes and the clothes fumigated to kill the cooties.

A colored trooper had passed in his clothes and was given a blanket in which to wrap himself. He stood by to watch them load the sick and wounded soldiers in the plane. He stood by a stretcher and two stretcher bearers idly looked on.

A sergeant came up and asked: "Who told you to stand there?"

"Sarg, I jess waitin'—"

"Close up your big mouth and lie down on that stretcher, or I'll have you court marshaled."

The trooper did as he was told and he was loaded aboard the plane and in two hours he was abed in a hospital.

When the doctor came around he asked the colored man what his ailments were. "Dey aint nufin' de mattah wid me, doctor, cept dey wouldn't let me 'splain."

WARS ARE WON BY MEN AND MATERIAL. FIGHTING MEN MUST HAVE FOOD, GUNS, CLOTHING, MACHINES THAT COST MONEY.

THE REVOLUTION—OUR FIRST WAR FOR FREEDOM—COST HALF A BILLION DOLLARS—A TREMENDOUS SUM FOR OUR FOREFATHERS TO RAISE. THEY WORKED, SAVED, SACRIFICED—TO WIN WHAT THEY WERE FIGHTING FOR.

NOW WE ARE FIGHTING A WAR TO PRESERVE THE FREEDOM OUR FATHERS WON. IT IS COSTING THE UNITED STATES NEARLY HALF A BILLION DOLLARS EVERY TWO AND ONE-HALF DAYS. WE CAN PROVIDE THIS MONEY ONLY BY WORKING, SAVING, SACRIFICING AS THEY DID—BY PAYING OUR TAXES, BUYING WAR BONDS, MAINTAINING OUR LIFE INSURANCE AND SAVINGS ACCOUNTS.

AAA Notes

Farmers and ranchers can use their range building allowance to construct fireguards around their pastures to prevent the burning of badly needed range grasses for livestock feed, according to Lee Reed, chairman of the County AAA Committee.

Fire guards construction will be paid for at the rate of \$2.64 per mile, provided application is made to the AAA office and AAA specifications are met. These specifications set a minimum width of 10 feet and provisions made to control erosion and gullying in the fireguards.

M. Clayton Puckett, of Fort Stockton, State AAA Committeeman from this District, and A. H. Jefferies of College Station, District Field Officer, visited with the Sterling County AAA Committee and Secretary Saturday, August 28. The 1943 applications for payment were discussed, and various other detail matters were brought up. Mr. Puckett and Mr. Jefferies are making a survey of the District which consist of 20 counties. The Sterling committee members are Lee Reed, chairman, Riley J. Welch, and L. F. Hodges. The County Agriculture Agent, J. E. Tatum who serves in the capacity of an ex-officio member of the AAA Committee was present for the meeting.

AMERICAN HEROES
BY LEFF

When our mortars were pounding Maknassy Hill near Sidi Bu-Sid in Africa, Private James Rugolo of Brooklyn, New York, was one of the men bringing up the ammunition. Struck by shrapnel, he kept going until he dropped, was awarded the Purple Heart. On every battlefield men like Rugolo press the attack relentlessly, regardless of personal cost. Are you doing enough to keep our attack rolling through Payroll Savings?
