VA Boys Judging Red Cross Work Team to State To Be Resumed Next Week

The Sterling high school vocational agriculture class will enter a three-man team in the Texas Tech invitational livestock judging contest at Lubbock April 22, H. M. Carter, vocational agriculture teacher, said this week.

Carter will select a three man team from the following candidates: Tommy Augustine, Bill J. Littlefield, Neal J. Reed, Jack Mitchell and Frank McCabe. Two of the five will be alternates, but all will go to Lubbock.

The Sterling boys' team won the recent Midland district contest, and are expected to go far in the state finals in Lubbock this week end.

Take Good Care Of Those Ration Books

No More to be Printed

Housewives were advised today by H. L. Hildebrand, chairman of the Sterling County War Price and Rationing Board, to take good care of War Ration Book IV and to keep book III in a safe place.

All buying of rationed foods is now done from Book IV and that book will be in use about three times as long as earlier food books, he stated.

Applications are frequently received from people who want replacements for ration books that have been lost or damaged. Since no more ration books are to be printed soon, replacement may become increasingly difficult, said Mr. Hildebrand.

Book III must be kept, even though it is not used for food buying, since it contains airplane stamp one now good for shoes and will probably continue to be used for shoe rationing. After stamp No. 18 in Book I expires April 30, that book will be withdrawn from use, the chairman explained.

GIRL SCOUTS Negro Minstrel Thursday night April 27 in school auditorium. 15c, 25c, and 35c.

The Sterling women will again have materials with which to make Red Cross bandages, dressings, etc. starting next Monday evening it was announced this week. The workers will meet at the courthouse next Monday evening at 7 o'clock and Tuesday afternoon at 2 o'clock. Lack of materials has kept the work room closed for three weeks.

H. W. Hart plans to plant an old 70 acre field to sudan grass and use for temporary grazing this summer.

By removing the livestock from one section of range land for a short period during the growing season he will give the more palatable grasses such as buffalo and side oats grama opportunity to increase in vigor and density and thus increase the feed producing ability of the range. He also plans to put some of the deeper soil on his ranch into cultivation to produce feed for use when needed to supplement feed produced by range grasses.

R. A. McCleery used the subsurface tillage method of cultivation in preparing all of his cropland this year. He prepared his garden in the same manner.

Bitterweed has caused much additional labor and feed expense this year. H. G. Garlington Fred Hodges and a number of other operators have found that a good cover of the better grasses is the most practical method of keeping the bitterweed down.

R. C. Bynum plans to plant 50 acres to sudan grass for temporary grazing this summer. He will defer his range land while the livestock are on the sudan.

Gardening for Victory

along the **Santa Fe**

Soon travelers will be seeing plots of beets, beans, tomatoes, corn and other needed vegetables "coming along" on both sides of our tracks.

For once again Santa Fe has made its right-of-way available to its employees for Victory Garden space.

This railroad is heart and soul behind America's Victory Garden project. Not only has land been made available, but we are offering \$2000 in War Bonds to our best Victory Gardeners as an added incentive toward helping "Food Fight for Freedom."

Located as we are "Along the Route to Tokyo," Santa Fe people throughout our 13,148 miles of track can "feel" this war. They are working full hours to move along the never-ending loads of guns, tanks, men and munitions.

Perhaps that's another reason why they're not only working harder on their railroad jobs, but are pretty fine War Bond buyers and Victory Gardeners as well.

It's Santa Fe all the way for the U. S. A!

Your Victory Garden

By J.E. TATUM, County Agent

Ordinarily 25 per cent of all vegetables produced are grown in the small home garden. This year 50 per cent of all vegetable must be produced in the small gardens if we are to be fed a satisfactory diet. This means an increase of 39 per cent over what was produced in 1943. The goal for Texas is one billion victory gardens for 1944.

Many have had their gardens destroyed by recent freezes and high winds, but there are many vegetables that may still be planted.

Soldiers' Wives and Post-War Married Life

A psychologist offers some mighty sensible advice to husbands and wives separated by war. He believes "lack of tolerance" rather than loss of affection is most likely to cause post-war marriage difficulties.

The wife has built wonderful pictures of how perfect life will be when her husband gets back. And he dreams of evenings with her by the fire with a glass of beer, friendly conversation, and no problems or worries.

Of course, it isn't true that just getting back together will make

life perfect. There'll be the same domestic problems, the same complications and adjustments, as always.

That's where tolerance is going to be mighty important. Tolerance for a husband who spills ashes on the carpet sometimes. Tolerance for a wife who spends a little too much money for a funny-looking hat. Yes, tolerance is a mighty good foundation for any marriage.

Slumber Party Is 'We Wonder' Climax of Contest

The high school girls enjoyed a slumber party in the gym last Thursday night, April 13, as a fitting climax to a series of volley ball games played recently. Some three weeks ago, two girls' volley ball teams were formed—the Reds, made up of seniors and fish, and the Blues, composed of juniors and sophs. At the end of a designated time, the losing team was to provide entertainment for the winning side.

All high school girls were invited to attend the slumber party, beginning at 7:00 p. m. The party began with a delicious supper of meat loaf, potato salad, beans, pickles, iced tea and ice cream.

Various sports were engaged in during the evening. Some students participated in volley ball, tennis, ring games and folk dances, while others enjoyed dancing and fortune telling.

A midnight snack of fried chicken, soda pop, left overs and ice cream was served, after which lights were turned out. Off and on during the night the gym was the scene of furious pillow fights.

The next morning about 7:30, the girls were served a breakfast of bacon and eggs, jelly, toast and hot chocolate. Later everyone got ready for school.

Chaperones for the night were six teachers—Misses A. T. Bratton, Homes Brown, Harvey Hennigan, and Misses Mildred Atkinson, Lucille Hodges, and Evelyn Vernon. In the home economics room, Mrs. Bratton, Mrs. Clyde Everitt, Mrs. Lee Augustine and some of the teachers participated in a bridge game.

All girls attending the slumber party reported enjoying a good time. The winners are grateful to the losers for the entertainment.

Last Thursday night the "Reds" entertained the "Blues" with a slumber party in the gym. Almost all of the high school girls were present in addition to six teachers. Everyone seemed to enjoy the party, especially Paula Sue and Peggy.

Sue has just received a letter. It couldn't be from a certain Private, could it Sue?

We are proud of you girls. I sincerely believe "that" is all my news.
