Billie Edwin McEntire, 13, son of Mr. and Mrs. Fowler McEntire, was killed instantly about 4 p. m. Saturday when he was knocked from his horse by a tree limb. ## Davis Stays with Regular Demos At Convention

Verne Davis, Sterling delegate to the State Democratic Convention in Austin last week, stayed with and cast the Sterling vote with the regular Demo Convention. He said he voted for Roosevelt as the party nominee, but at the regular and duly authorized Demo bunch, and did not bolt to help form the "rump" convention.

Davis was the delegate from this county to cast the vote at the convention, and he said he would not bolt a convention to which he had been sent as a delegate. The anti-Roosevelt bunch wanted the FDR supporters to bolt just as they did, said Verne.

During a lull in the regular convention, he and Homer Pearce went across to the "rump" convention just to see what was going on. Davis said both groups lacked leadership, unity, and were somewhat undemocratic meetings.

## Question Box

This week's question: "Who do you WANT TO BE ELECTED THE NEXT PRESIDENT OF THE UNITED STATES?"

VERNE DAVIS: "Roosevelt. I'm for him because I think he's done more for the country than any other president we've had. When he took office millions were unemployed and hungry, and the banks were falling like flies. The larger cities of the country were ruled by gangsters. He reorganized the FBI, stopped bank robberies, kidnappings, etc. He begged us to prepare for war. I think he'd be the logical man to have the say in the peace conference when the war is over."

JOE EMERY: "I'm going to vote like I always have—Democrat. I have always been a Democrat. Roosevelt."

WILL DURHAM: "Mr. Roosevelt by all means. He's made lots of mistakes we don't all approve of, but he's done lots of big things. Under the present set-up, no other man can qualify as he can."

Temp Foster: "I believe we ought to have Mr. Roosevelt in there. I don't believe it's time to change horses, but I don't believe in riding a good horse to death."

RILEY J. WELCH: "Oh, I think we'd be very foolish to change under the circumstances."

MARVIN FRANCES FOSTER: "A good man that will win the war. I'm ready for the boys to come home."

Mrs. Taylor Garrett's mother, Mrs. J. B. Randolph of Moran, and her brother, Cpl. Andrew Randolph, are here visiting the Garretts. Cpl. Randolph is stationed at the Army Air Field at Portland, Oregon.

# America's Fifth Freedom

## FREE ENTERPRISE

This great bronze goddess is a symbol of the shining ideal of Freedom. Much is said about Four Freedoms . . . but they mean nothing without the Fifth—our keystone Freedom of Enterprise—the chance for a man to be really free and to advance as far and as fast as his ability will carry him. It was this kind of freedom which built the electric industry, made it possible for privately owned Electric Companies to be business-managed and business-operated, free to grow, to plan ahead . . . and the workers and management who built the companies had a chance to use foresight in planning a better electrical tomorrow for each new generation. *Let this be our guiding light: Keep America the land of freedom—freedom of worship, freedom of speech, freedom from want and fear.* This can only be accomplished by keeping freedom to strive for individual success, instead of just leaf raking.

**New Plastic Paints Make Decorating Easy**

Amateur with brush or applicator can do professional job.

THE new war-born plastic wall finishes make redecorating these days a far cry from old-style painting, when rooms were unusable for days while 2 or 3 coats of slow-drying paint were applied. Dora May Talcott writes in the Rural Home section of Capper's Farmer, a magazine read by 1,250,000 farm families.

With these new paints that can be applied by an amateur and that dry in an hour, rooms can be lived in the same day. There's no paint odor.

"You can paint right over the

wallpaper with these new flat paints," Miss Talcott writes. "One coat covers most any wall and ceiling surface, including painted walls, plywood, wallboard, brick and basement walls.

"Employing a plastic base that makes it extremely durable and washable, this paint comes in paste form and is thinned with water—1 gallon of paste makes 1½ gallons of paint. It dries to a perfectly flat finish without lap marks or streaks, yet it can be washed with soap and water to remove finger marks and smudges."
