

## Popular Jungle Salesman

U.S.A. Army Signal Corps Photo

SOMEWHERE IN NEW GUINEA—Sgt. Henry Yachel, of Los Angeles, "rang the cash register" for the first time when Col. Howard C. Brenizer, New York City, made the initial purchase at his Post Exchange unit here. Officers of the Special Services Division say that approximately 11,000 PX units are in operation at home and overseas. Most popular items are American-made "smokes", candies, soft drinks, beer, toothpaste and shaving soap. Much American-made beer goes overseas in a lightweight non-returnable bottle that will become available to civilians in post-war years. Many of the larger Post Exchange units resemble a well-stocked, small-town department store.

## Deputy Visits Eastern Star

Mrs. Ida Mae Brown of Christoval, District Deputy Grand Matron O. E. S., paid an official visit to the Sterling Chapter Tuesday night. She was entertained with a chicken dinner at the State Hotel.

Mrs. Anna Pearce, W. M., and Homer Pearce, W. P., presided. Two new members were taken into the local chapter, Rulene Allen and Sue Nelson.

Out of town visitors included Mrs. Eda Hale and Mrs. Henry of Christoval, Nettie McMasters of Sterling City and Dr. and Mrs. Barton of Sanatorium.

## Lt. Robert King Killed in Action

Lt. Robert C. King, 29, was killed in action at Manila February 26, his mother, Mrs. Lucy King, who resides northwest of San Angelo, was informed by telegram Wednesday.

King enlisted four years ago and after receiving training at Fort Bliss and Fort Clark shipped out in July 1943. He was in the thick of South Pacific action, and was commissioned a second lieutenant from the grade of master sergeant in the battle for the Philippines.

Before entering the service he worked on the family ranch six miles east of Sterling City. He was a graduate of Sterling high school and attended Abilene Christian College.

Survivors include the mother; two brothers, Riley of Sterling, and Walter of Bronte; and three sisters, Mrs. Roy Pearce of Talpa, Mrs. L. M. Walker of Coleman, and Bessie, who lives with her mother.

## Boys Get Good Prices for Lambs

In an official Lamb Sales List of the Fort Worth show sales brought back by J. M. Starr, the chart shows the following prices received by the Sterling boys who had entries:

1st prize fine wool lamb, Joe Snead, to Swift & Co. for 30c; Reserve Champion carload, Sterling FFA, to Worth Food Market for 24c; Fine Wool Fat Lamb, Sterling FFA, to Fort Worth Stockyards Co. for 23 1/4c.

## LOCALS

J. M. Starr returned home from the Fort Worth Stock Show Monday night. County Agent Starr stayed with the Sterling boys' entries until they were sold. Mrs. Starr and the children visited her parents in Marshall while Starr was in Fort Worth.

Pvt. Tommie Augustine, with the Infantry has landed in the Philippines.

The Palace Theatre will open at 8:15 p. m. after April 1, announced Horace Donalson, owner. The show has been opening at 7:45.

J. L. Glass, who has been ill—was out for the first time Wednesday, looking well.

Mrs. Elizabeth Lawrence of Georgia, half sister of Jeff Copeland, will be 97 years old next Tuesday.

Mrs. Ellis Lee and son, John, spent last week-end in Ballinger with her parents, Mr. and Mrs. L. F. Smith.

Mrs. Delbert Dearen underwent an operation in a San Angelo hospital last Friday morning. She is progressing nicely. Her husband, a shipyard worker in Beaumont, came up to stay with her for a week.

The Nick Reeds and Eugenia Watkins plan to go to College Station this week-end to visit Neal J., a freshman in A. & M.

Mrs. Tommie Johnson reports that \$3,824.00 has been collected for the Red Cross. Our quota was \$3,100.

## Visit to the School Lunch Room

Last Friday we accepted Supt. T. Jones's invitation to eat in the new school lunchroom. The project had just been opened on Tuesday and more than 100 lunch-a-day are being served to children and teachers.

We stood in line, as do the children, and as you go into the room, two girls check you in and take the 20c (Margaret Skeete and Geneva Mitchell). You are served cafeteria style—each portion of food is put on the plates. Friday we had macaroni and cheese, creamed salad, creamed onions, string beans, hot rolls and chocolate milk. Mrs. J. W. Griffin and Mrs. W. A. Reed are the cooks and also help serve the plates. Four or five high school girls help serve, too.

After your plate is served, you go to a table in one of the two rooms and eat with the others. The smaller children start at 11:45 and the high school students start at 12 noon. All are through and out by 12:30 or earlier.

The students pay 20c for each meal. The government, boosting such programs, pays 9c on each student meal. Such payment comes from W. F. A., of the Department of Agriculture.

The menus are varied daily and each person gets a real meal for only 20c. The P.-T.A., the school and all who helped make the lunchroom a reality are to be congratulated.

## Lions Told About Lunch Room

School Superintendent O. T. Jones told the Lions about the school lunchroom at the Wednesday luncheon. A. T. Bratton made a report on sponsoring the victory garden contest and J. M. Starr gave a report on the boys' lamb sales at the Fort Worth Stock Show.

Guests were Sgt. Willard Cole, Jean Durham, Lt. C. T. Du... and O. T. Jones. The prizes go to Sgt. Cole and Prickly Pear

## North Concho River Soil Conservation District News

Board of Supervisors:  
Zach Jones, Chairman  
L. R. Reed, Vice Chairman  
Foster S. Price, Secretary  
J. R. Mims, Supervisor  
J. W. Cox, Supervisor

H. G. Garlington ran 2 miles of terrace lines on a 40 acre field which he put into cultivation in 1944, reported T. A. Revell with the Soil Conservation Service. Garlington started construction of the terraces immediately with his whirlwind terracer.

Supervisors Zach Jones, Foster S. Price, J. R. Mims, and L. R. Reed met Monday, March 19 for the regular March session. Conservation plans which have been revised on D. D. Garrett's stock farm, A. H. Fulcher's stock farm, and H. G. Garlington's stock farm were reviewed and approved. The supervisors reviewed the postwar plan recently worked out by the Lions Club post war planning committee making careful study of that part which deals with soil and water conservation practices.

Robert Foster, the Bade Bros. and Jack Mims have planted one acre of grass seeds furnished by the Soil Conservation District for the purpose of adaption tests. W. D. Augustine has planted one half acre. The grasses planted separately in rows were weeping love grass, yellow blue stem, blue panicum, and perennial sudan.

## Gober Promoted To Captain

Lt. Harold Gober, who has been serving with the Air Forces in the Pacific, has been promoted to captain. He was commissioned from Lowry Field, Denver, Colo. in 1942, and now is in the 13th Air Force serving as aircraft maintenance engineering officer. He has been overseas twenty months, having been stationed in the New Hebrides Islands, Admiralties, New Guinea, Solomons, and now in the Dutch East Indies.

He is the son of Mr. and Mrs. L. T. Gober of Brownwood. His wife resides here with her mother, Mrs. James McEntire.

## School Census Underway

School census is now underway. A majority of the blanks are already in. Since each child rendered is worth \$29 to the district, it is important that no one be missed.

If you know of anyone of school age (at least six and not over 18) who has not been rendered, call the school and report the oversight.

O. T. Jones, Supt.

The business houses in Sterling will close between 3:00 and 4:00 p. m. on Good Friday, March 30, as union church services will be held at the Baptist Church during that time.

The Girl Scouts held open house at the Scout cabin last Friday night. Punch and cake was served. About 50 guests called during the evening.

A half inch rain, accompanied by high winds and some hail, fell in Sterling City Sunday night.

Mrs. Taylor Garrett, manager of Garrett and Bailey's Dry Goods, went to the Dallas market the first part of the week.

Sgt. Henry Latham, who was a Jap prisoner until rescued by American forces last month in the Philippines, wired last Friday that he had landed at San Francisco and would be stationed at a Texas hospital nearest Sterling City. Sgt. Latham is the son of Mrs. Laura Green, who is visiting in Renton, Washington.

## WAR BONDS in Action

Gen. Kreuger, Gen. Kenny and Gen. Sutherland discuss invasion plans on one of the Philippine Islands. They consider the vast quantity of munitions that War Bonds buy and which make possible the advance of our armed forces.

U. S. Treasury Department

## OUR MEN IN SERVICE

Sgt. Barney Echols, with the 1st Cavalry in the Philippines, wrote George McEntire that he'd been quite busy—hadn't had much time to write. Barney said if they'd kill all the Japs, maybe they would have a little time for letter writing.

Sgt. Echols said he'd seen a few cows which made him homesick. The towns, still not burned to the ground, look nice. Plenty of whiskey was available—but he didn't use it so it did him no good.

The only thing Barney liked was the hugging and kissing he got when they liberated some Filipinos.

AN EIGHTH AIR FORCE LIBERATOR STATION, England—Corporal Dale M. Hall of Sterling City, Texas, tail gunner on a B-24 Liberator, has recently been assigned to an Eighth Air Force Liberator group and is now flying in bombing attacks on targets in Germany.

Cpl. Hall attended Sterling High School, San Angelo Junior College, and the Luscombe School of Aeronautics. He entered the service in January, 1942, and graduated from gunnery school in August, 1944.

## But It's True

THE MOTHER AND DAUGHTER WHO WON THE BEAUTY TITLE "MISS FLORIDA" ONLY FOUR YEARS APART... MRS. FAITH BODINE (AGE 28 WHEN SHE WON IN 1931) AND HER DAUGHTER, CHRISTINE (AGE 16 WHEN SHE WON IN 1935)... BOTH CONTESTS WERE HELD AT JACKSONVILLE...

### Report of Post War Planning Committee

STERLING CITY LIONS CLUB

We, your committee appointed to investigate the problems pertaining to our community that will arise at the close of the war and to make suggestions for the solution of those problems, submit the following report:

It is the unanimous opinion of this committee that every county in the state and nation should have well laid plans and the machinery ready to put those plans

into operation for the quick and intelligent absorption of both dislocated labor and the demobilized personnel of our fighting forces. It is further our belief that this end can be reached only by providing useful employment, at living wages, to all who will care to work rather than through gifts and bonuses and high sounding schemes and panaceas.

Since our own county is essentially engaged in the production of livestock, the burden of providing jobs for all who come back will necessarily fall upon the ranchmen. Therefore, we suggest that each ranchman begin to make plans for repairs and improvements that will not only provide jobs for the men in the service of

the country when they return but will add to the efficiency and economy in the operation of those ranches and in increased production as well.

The following are specific suggestions of projects which will afford job opportunities for all those in the armed services from Sterling County who do not already have a job waiting for their return:

A. Conservation practices which can be carried out by individual operators on ranches and farms:

1. Mesquite control.
2. Cedar eradication.
3. Prickly pear and cactus eradication.
4. Ranch road construction

and improvement.

5. Fireguards.
6. Cross fencing.
7. Water spreading systems.
8. Diversion, retention and detention dams.
9. Diversion terraces.
10. Bank sloping and channel improvement.

B. Other ranch improvements:

1. Housing facilities.
2. Pens, corrals, feed and wool storage barns.

C. Business opportunities:

1. Shoe, boot and saddle shop.
2. Automobile agency.
3. Frozen food locker.
4. One service station.
5. Radio and electric shop.
6. Modern hotel and eating place or motel.

D. Remodeling and improvement of present business concerns.

E. Improvement for the general welfare of the community:

1. Extension of highways from Sterling City to Robert Lee.
2. Getting roads from Sterling City to Colorado and from Sterling City to Big Lake designated as highways and secure similar construction as on road to Garden

City.

3. It is our belief the county commissioners, beginning now, should set aside a portion of tax funds and, if necessary, levy additional tax to add to this reserve so that will be available for substantial and businesslike improvement all our public roads.

4. Securing land for and

*Your*  
**BABY**  
By Lillian B. Storms

Recently a physician remarked that "When one of my baby patients comes down with a cold, I suspect someone has been careless." If you have a cold, it is a nuisance but well worth while during the times when you are caring for the baby to wear a cloth mask over your mouth and nose, so that you do not breathe directly into the baby's face. No one with any suggestion of having a cold or who is afraid of coming down with a cold should get close to a baby and certainly has no right to kiss even the most adorable baby in the world. The first stages of a cold are very contagious. Your baby has the right to expect you to protect him from admiring relatives and friends.

A cold is serious enough and especially so for a baby or young child, to justify every precaution. The cold may or may not develop into an honest-to-goodness old fashioned cold, but it may. In that case it interferes with appetite and with growth and development and with sleep and your child can be most uncomfortable. The common cold may be a forerunner of a number of other illnesses, none of which would you willingly give him. Neither can you afford to be careless about exposing him either to a cold you may be developing or one that some other person has. In other words, you might far better run the risk of hurting the feelings of others than submitting your baby to the possibility of unnecessary illness.

Often one of the first signs of a cold is a lessened appetite. So, baby may not take as much food as usual. Don't force more than he will take willingly. He knows better than you that less food, and more water and fruit juices, are the best things for him. Feed him the more simple foods which have been appearing on his menu two different cereals with plenty of milk might be given more than once a day.

**Used Clothing Needed for War Victims**

**Take Clothing to Pearce's Electric Shop**

It has been reported that in the liberated countries of Europe alone, more than 30,000,000 are "statistically naked" and that 125,000,000 are in desperate need of clothing, shoes and bedding.

"Five years ago, when the Nazis or Japs invaded the homes of the countries they overran, millions were robbed of everything except the clothing they happened to be wearing—some even stripped of what they were wearing if it was in unusually good condition. Any chance of securing new supplies

was cut off when the invaders commandeered the production of looms and textile mills.

"In the five harsh, horror-filled years we have passed since then, the garments of the oppressed have worn thinner and thinner. They were patched and re-patched, and often reinforced with straw. Often a death notice will bring mobs of shivering people offering fabulous sums for the clothing of the deceased"

A United National Clothing Collection drive is on to collect 150,000,000 pounds of clothing for the war ravaged areas. Clothing asked for is as follows:

INFANTS' GARMENTS, All types, particularly knit garments.

MEN'S and BOY'S GARMENTS, Overcoats, topcoats, suits, jackets, shirts, all types of

work clothes—overalls, coveralls, sweaters, underwear, pajamas, knitted gloves.

WOMEN'S and GIRL'S GARMENTS, Most anything that can be worn by people who have nothing.

BEDDING, blankets, afghan quilts, pillow cases etc.

SHOES, Either oxfords or loafers, of durable type with or medium heels—shoes with open toes, open back evening shoes and novelty shoes cannot be used. Shoes should be tied together securely in pairs.

All the above clothing must be clean. Bring them to Pearce's Electric Shop during regular hours and Rev. O. M. Cole will receive them and store them in the adjoining room.

**Fewer "Hands" Make Heavier Work!**

SPRING brings a new lamb crop to the western ranges—and a new crop of wartime problems. For instance, experienced lambing crews are increasingly hard to find. But in spite of fewer hands and other difficulties, millions of lambs are being dropped and raised to provide the nation's wool and meat.

Beyond the "romance" of sheep ranching lies a great deal of hard work. When early lambs arrive in wintry weather, there's no time to be lost in moving them from the "drop corrals" to the lambing shed. Chilled lambs often must be revived in heated incubators. It's not unusual for a good "night man" to "lamb out" 125 ewes in a night—and that is work. There's the feeding and, later on, trimming, docking, bunch herding, shearing, and finally the trailing of the bands to the summer ranges in the high mountain country. And always herders must be on the alert to

BUY WAR BONDS

protect their bands from coyotes and other predatory animals.

Yanks are the best-fed, best-clothed fighting force in the world. They know the comfort of warm wool uniforms. And nutritious lamb has helped prevent meat shortages at home. Sheep ranchers, like other livestock producers of the nation, deserve the thanks of a grateful America.

**\$5 FOR YOUR GOOD IDEAS!**

Ideas, special tools or gadgets which have helped you in your farm or ranch work can help others. We will pay you \$5 for each one you send us which we publish on this page. Address Agricultural Good Idea Editor, Swift & Company, Chicago 9, Illinois. We cannot return unused items—sorry.

*Martha Logan's Recipe for*  
**BARBECUED SPARERIBS**

(Yield: about 6 servings)

- |                    |                       |
|--------------------|-----------------------|
| 3 lbs. spareribs   | ¼ cup homemade catsup |
| 1 onion            | 1 tsp. dry mustard    |
| ¼ cup vinegar      | ½ cup water           |
| 1 cup tomato juice | 1 tbs. paprika        |
| 2 tbs. brown sugar | ¼ tsp. chili powder   |
| 1 tsp. salt        | ¼ tsp. cayenne pepper |

Cut spareribs in pieces. Brown lightly about 10 minutes. Dice onion and combine with all other ingredients and simmer 15 minutes. Pour over browned spareribs. Cover. Simmer or bake in a moderate oven (350°F.) 1½ hours. Remove cover. Baste ribs. Cook about 15 minutes uncovered.

**WHAT'S HAPPENING TO THE MEAT SUPPLY**

WE are faced with a serious shortage of meat for the civilian population. The current meat situation is not peculiar to any local area. The problem is national in scope.

**LARGE DECREASE COMPARED WITH LAST YEAR**  
Government figures indicate a decrease of 38% of civilian meat supplies is expected during this quarter (January to March, inclusive), as compared with a year ago. The decrease will vary on the different types of meats.  
It is also estimated that during the second quarter of this year (April to June, inclusive) a decrease of 35% is expected.

**GOVERNMENT REQUIREMENTS**  
Few people realize how much beef, pork, lamb and veal must be set aside by meat packers operating under federal inspection to be purchased by the Government for the Armed Forces and for Lend-Lease. As of February 20, 1945, we are required to set aside:

**BEEF:** 60% of choice, good, and commercial steers and heifers, except extremely light weights.  
70% of all utility steers, heifers and cows.  
80% of all cutters and canners.

**PORK:** 50%, approximately, of dressed weight.  
**LARD:** 75%, approximately, of production in accordance with recent order.

The Government is also taking a large proportion of Swift & Company's lamb and veal production:

**LAMB:** 40 to 50% of choice and good lambs.  
**VEAL:** 50%, approximately, of choice, good and commercial veal produced within specifications.

Whether these percentages will continue at the same level throughout the year cannot be foretold. The above percentages are as of February 20, 1945.

Consumer misunderstanding and dissatisfaction also arises from

**HOW THE DOLLAR IS DIVIDED**

There's an old proverb, "One picture is worth a thousand words." So I decided to draw this month's column instead of writing it. The picture is below, and it tells this story... 75 cents (on the average) out of every Swift sales dollar goes to agricultural producers for their cattle, lambs, hogs, etc. And 11c out of every dollar goes to the people who work in Swift plants, preparing those farm and ranch products for market. Transporting meat, etc., an average of 1,100 miles from producer to consumer takes another 2c. But, after all, the picture tells the story better than words of mine. Few businesses operate on such a narrow margin—few return such a large slice of their sales dollar to the suppliers of raw materials.

F.M. Simpson,  
Agricultural Research Dept.

**HERE'S WHERE THE DOLLAR WENT**

- Livestock & Raw Materials... 75.1c
- Employees... 11.0c
- Supplies... 4.5c
- Taxes... 3.5c
- Transportation... 2.0c
- Other Expenses... 2.9c
- Remaining as Earnings... 1.0c

another important factor that does not show up in these figures. The civilian population has more money now than in 1939 and fewer goods on which to spend it. Also, more people are working longer hours and need more food... particularly meat. The demand for meat has, therefore, increased tremendously. The Government in a recent statement said that the average American, at present income levels, would consume 170 pounds of meat this year, if it were available. In contrast, the Government estimates that there will be available during 1945 only about 127 pounds per capita.

**NON-FEDERALLY INSPECTED SUPPLIES**

The Government takes only federally-inspected meats. Therefore, the shortage of meat available for civilians is not so acute in the case of local packers who do not operate under federal inspection. Non-federally inspected processing plants have been able to supply a larger percentage of the product they produce during normal times as compared with federally inspected plants.

# Your BABY

By Lillian B. Storms

There is no rule about the amount of food a baby should eat at any certain age. An active baby or one growing faster than average will probably eat more than a baby who is inactive and sleeps a good deal.

Your doctor will decide about the time schedule, whether three hour or four hour feedings, and the composition of the formula depending upon the regularity of gains in weight. If you are breast feeding your baby, he will decide when supplementary formula will need to be started. He will know whether the baby is getting enough to eat and when to increase the amounts.

The question of when to drop the 2 a. m. feeding will be decided by the baby. There is no use in trying to argue him out of the idea that he is hungry. You will just waste valuable sleeping hours for both of you. When he is ready to stop, he will sleep through the night.

When you start baby on one of the special baby cereals, dilute it with considerable milk and feed only a taste at first. Gradually feed larger amounts, diluting it with less milk until it is a thick creamy consistency. Feed the same cereal for some time, until he is thoroughly familiar with it, then start a second cereal. He doesn't need much variety but use a cereal food of wheat and then one of oatmeal so he will learn to like both of them.

When ready to start a strained vegetable, dilute it with some milk for the first few feedings. Give him only small amounts at first, gradually increasing the size serving as he seems to want it. Feed the same vegetable for ten days or so, until he learns to know that particular one. It doesn't matter which one you begin with.

Introducing any new food should be slowly done so as not to be confusing. He will like new foods if he is allowed to take only as much as he wants and no more is forced on him.

IF YOU DON'T FIND WHAT YOU NEED IN YOUR DRUG STORE IN STERLING CITY—

NOTICE—Meyer Grocery will open at 10 a.m. and close at 2 p.m. on Sundays from now on.

## Roland Lowe, The Hardware Man

Roland Lowe, manager of Lowe's Hdwe. and Lowe Funeral Directors, was born in Sterling and has lived here with the exception of 7 years (1926 to 1933) when he operated Lowe Hdwe. in Big Lake and Rankin. Roland has run the store here since 1933.

The store used to be Lowe and Durham (D. C. Durham was a partner) but the late Mr. Lowe bought Durham out. The store was founded in the early 1900's.

Roland married Dorothy Fay Hayes in 1933. They have a daughter, Dorothy Sue, aged 10. Roland serves on the ration board, the AAA committee, is treasurer of the local Masonic Lodge, treasurer of the school board, and a steward in the Methodist Church.

### Card of Thanks

Dear Friends in Sterling:  
 How deeply grateful we are to all the very dear friends who were so generous in your showers of cards and letters while we were in Baylor Hospital. To all who remembered us in any way, we want to thank you. You will never know what it meant to us during our illness.

We love all of you and thank God that it was our good fortune to live among you, and serve with you in the Master's work. May His richest blessings abide upon all of you, and may the Spirit lead you in building a better Sterling City.

Sincerely,  
 Rev. and Mrs. C. B. Stovall and family.

## New Santa Fe Bridge Speeds War Traffic

Santa Fe trains are now rolling across a new double-track steel bridge over the Colorado River near Topock, Arizona, speeding up vital war traffic along the route to Tokyo through California's ports of war.

This new Santa Fe bridge removes the

"bottle-neck" created by the old single-track bridge it replaces and has ample strength to take care of future requirements as to weights to be imposed on it.

• The new Topock bridge is an impressive engineering feat, but it is only one step in Santa Fe's program of plant improvement—started long before Pearl Harbor. These improvements have speeded up war traffic today, and they will enable a higher standard of Santa Fe service in the days of peace to come.

**Just Patter**

Hi, folks, back with more gab and gossip.

Say, Mutt, how did you like San Angelo Saturday-especially Ben Ficklin? Do you kids like showers? Beth, why didn't you want to go boat riding?—It wasn't the company, was it? Norvin, how about some of those "cookies"? Do you have any left?

Students and teachers, we would like to know what happened to the "Keep off the Grass" signs at school. Everyone looks innocent.

Eugenia, where were you Friday night? I'll bet we know whom to ask to find out. Say, Sue, where were you?

Peggy, do you like to have company, especially late on Friday night? Did James beat your time Saturday night, Billy? James, where did you go after you took Peg home?

La Vone can answer Peggy's question, (we quote), "What has she got that I could use?"

Jackie, how do you like your birthday present? Margaret, you made a good choice.

We noticed Venera didn't come to church Sunday with Harold, Jackie and Margaret. Why?

Billy H., why was your face so red Saturday night? Were you embarrassed or just plain sunburned?

Norman and a few others were at school Saturday. Surely you don't like school that well, do you?

That's all for this week, but we'll be around again with more gossip and "stuff".

**We Wonder**

What Betty was telling Norvin after recreation that was so funny?

Who called Joe out of "Village" Monday afternoon and why?

Where Peg and Beth went Saturday, and who they saw.

If Norvin and Betty ever bowled Saturday. Say, Norvin, you had better not be late again she might not like it.

Who got wet Saturday going to Ben Ficklin. Wilburn, next time put your window up.

If Peggy, Wilburn, Norvin, and Jo and a certain senior like to go kodaking.

If La Vone likes "pick-up" when she can't be chauffeur.

What junior girl has a beautiful all weather diamond and and you are missing a lot if you haven't seen it.

Who asked Peggy to go to the dance Sunday night. Say, Billy H., did you get?

Who has La Vone's bracelet and why he doesn't wear it.

**Your Home**  
By Frances Ainsworth

When you're a week-end hostess you notice a lot of little things that make your visit a memorable pleasant one. It's those little "tra touches" that make you remember your hostess as charming and gracious.

I'm sure you'll find, as I did, that for providing that "extra touch" of perfumed sachets in the new away packages are wonderful for their appealing fragrance. By use of one of the lovely floral fragrances, in the drawers of the dining table, among the linens, guest towels, the guest room, present a delightful "perfumed ensemble."

Among your own personal things, too, tuck away, delicately perfumed to suit your taste and personality, add a distinctive touch of femininity so essential to gracious living.

My hostess showed me the most fully decorated little packets of gay flowers matching the fragrances of the sachet—rose, carnation, gardenia, and lilac. They are so attractive that she used them always as place cards at luncheon, choosing fragrances blended perfectly with the color of the piece of flowers. It was such a lovely effect that the guests were still talking about it.

When tuck aways are slipped to gifts, even an inexpensive one carries an expensive air. I imagine my very pleasant surprise when I discovered my hostess tucked away several of these gay sachets in my luggage!

I am told they are available at drug, department and syndicate stores and gift shops. I know I am going to look for some at my first opportunity.

**Grade School News**

The third grade regrets to report that Dolores Hagerty is ill this week.

The sixth grade had a new pupil for one day, Jimmy Lindsey. He has now moved to Big Lake. The sixth grade was defeated 11 to 2 in a baseball game with the eighth grade last Friday. All members of the sixth grade are really enjoying the lunchroom now.

The eighth grade club met last Friday morning. A program was presented by Clifton Cole, Margaret Ritter and Ann Williamson. Plans were made for an Easter program next week.

**University of Life**

Last Sunday Mrs. Aaron Clark led the study. Rev. B. B. Hestir brought the message at the chapel service and Mrs. Rufus Foster and Mrs. John Skeete were hostesses for refreshments at the recreation period.

Next Sunday, March 25 there will be something extra special. There will be no meeting of any kind here. Instead members of the U of L will meet at the church and

## LIONS POST WAR COMMITTEE . .

(Continued from Page 1)

struction of a landing field near Sterling.

5. Extension of rural electrification to Sterling County.

6. Pavement of the street from the Drug Store to the high school.

7. Construction of sidewalks to school and to churches.

8. Construction of a place to keep firefighting equipment.

9. Investigation for securing a less mineral water supply in Sterling City.

10. Construction of a local health unit.

11. General community health improvement program, specifically, improved sewage disposal and a systematic campaign for the destruction of flies.

12. We recommend that a systematic method of physical examination of the school children be established.

### F. Housing facilities:

1. Remodeling and repairing of old houses.

2. Construction of 20 new houses.

### G. Churches:

1. Remodeling or rebuilding pastors' homes.

2. Employment of full time pastors at the four churches in Sterling City.

3. A central recreation center for the young people sponsored by the churches.

### H. Education:

1. Public library open full time.

2. Completion of Boy Scout house.

3. A block of land for experimental use by the vocational agricultural department in the high school would afford wonderful opportunity to bridge the gap between experimental results and actual field application and would give the boys the type of project training which they will have opportunity to put into effect when they are ready to enter the ranching business. This project will give opportunity also for teaching elementary veterinary medicine.

4. Employment of an additional teacher in high school to teach aeronatics.

5. Include first aid and safety in school curriculum.

6. Include automotive mechanics in the school curriculum.

### I. Recreation:

1. Improvement of the city park.

2. Any worth while and practical recreational facilities.

### J. Other projects:

1. The North Concho River has always been a source of pride to the people of this county. It has not only afforded a place for recreation but has supported thousands of valuable pecan trees that have been a source of considerable income to their owners. For a number of years the stream has been failing and at the present rate of deterioration in another ten or fifteen years, unless something is done to improve it, it will become a dry draw. It is believed that the decreased flow of water is due primarily to the fact that the stream bed has become literally clogged with all kinds of timber that not only takes up the water faster than the springs feed it in, but have choked off many springs and have been responsible for the stream channel filling with silt. It is our belief that this condition can be materially improved through the careful destruction of this nuisance timber and underbrush, and through the construction of a system of inexpensive spreader dams across all lateral

draws emptying into the Concho. These dams, properly constructed, would serve a fourfold purpose. They would irrigate many acres of grass land, store up millions of gallons of water, act as a flood deterrent, and hold back countless yards of the best top soil that annually goes downstream. Therefore, we suggest that all land owners, holding portions of the river, as well as all who are interested in saving it, seriously consider this proposition and, if found sound and feasible, begin to make plans to remedy the situation.

2. In addition to the above recommendations we endorse any sane improvements, both public and private, that will add to the productivity of our county and to the benefit of our soldiers. We further believe that all funds necessary for these improvements, excepting those relative to the two highways mentioned above, should be furnished by our people with no thought of receiving government aid.

3. It is our belief that we, both collectively and individually, owe a debt of gratitude to our fighting forces that can be met only by granting them full support during the war and by being prepared to give them a fair opportunity when they return. This can be done only through the careful and conscientious co-operation of all concerned.

The Post War Planning Committee invites and urges the churches, the schools, the local clubs, the Soil Conservation District Supervisors, the commissioners court, and any other organization or individuals to carefully study the plan, to constructively criticize the plan. To give these organizations and every individual in Sterling County the full opportunity to study this plan and to criticize same, I move that this be published for three consecutive

weeks in the Sterling City News-Record before it is presented to the Club for approval.

—Photo Courtesy Perry-Morse Seed Co.

The war is not yet won on the food front! There is real need that men women and children all over the country again take up the rake and hoe to help produce the nation's vegetable supply. Uncle Sam is asking for 20,000,000 better gardens this coming season.

How to improve on last year's results? Careful preparation of the soil comes first. Every time a garden plot is properly spaded or plowed to the right depth, and the top soil raked fine and loose, the general condition is made more favorable for plant growth. A too-stiff soil can be made more workable by the addition of sand or peat moss. A complete fertilizer in the proper quantity, no matter what the kind of soil, will replace in your garden the plant food used by last year's crops.

You can plan a better balanced garden than ever before. If the family is tired of "beans, beans, beans!" cut down the number of rows; plant more of some vegetable they can't get enough of. If, last year, all the radishes were ready for the table at the same time so that many of them grew old and pithy before they could be eaten, try sowing a short row at a time, with a week between plantings. Do the same with beets and carrots, greens and sweet corn. By a little preliminary planning, you can become a master hand at progressive gardening.

If you planted an unsatisfactory

variety of a certain vegetable, look for one better suited to your garden conditions. Ask your seed dealer to suggest varieties best for home gardens in your locality.

Plan to cultivate more often than last year, not only to keep down weeds but to conserve soil moisture, especially in hot dry weather. It's a smart idea to have insect spray or dust on hand early in the season to smash the pests before they take over and destroy precious plants. Be sure to thin all seedlings so that they have plenty of room to grow; root crops are especially important. If artificial watering is needed during a dry spell, soak the soil for at least a foot down about once a week instead of sprinkling every day.

A Victory Garden is only as good as its vegetables when used in their prime. Gather them for the table, for canning, for quick freezing, or for storing when they have reached the stage of proper size, greatest tenderness, and most delicious flavor.
