Jeff Davis, local commission livestock buyer, says he hasn't

The large steer, belonging to Virgil Brownfield and Foster Conger, was carried to the San Angelo auction ring Monday and sold. Spirited bidding would have gone to 20c but the bidding was stopped at 17.25c-ceiling price. The steer weighed 2160 pounds when sold, having shrunk 70 pounds going to Angelo. Once the steer weighed 2420 pounds. Cledis Smith's truck hauled the animal to Angelo.

We want items of interest to the ranchman for this column. Livestock sales, ranch sales, shipping items, and such news.

George McEntire suggested the name for this column.

We don't suppose that there is a rancher in Sterling County that hasn't had to repair water gaps and fences since the big rains.

SOME RAIN AVERAGES

The rainfall gauge at J. T. Davis's home here in Sterling City showed 9.10 inches rain already in July.

DR. GEORGE BAKER, JR. Baker Preaches for Revival

STERLING CITY NEWS-RECORD, July 20, 1945

Nash Unveils 1946 Car

DETROIT, MICH .- Above you get a first look at the new 1946 low-priced Nash passenger automobile which will feature light weight, more room and more economy according to George W. Mason, president of Nash-Kelvinator Corporation. The car will give 25 to 30 miles per gallon of gas at moderate speed and embodies many improve-ments in styling. These will be the first new cars turned out by the company since 1942. Its wartime experience in mass producing air-craft engines, Mason said, will result in many improvements.

In these days of shortages of help, the baby's clothing is getting more and more plain and easier to wash and iron (if it needs iron-ing). Furthermore, the plainer clothes are more comfortable for baby. Plain nighties and the shirts which tie instead of going on over the head are easier to put on a the head are easier to put on a squirming little body, besides tak-ing much less time to wash and iron

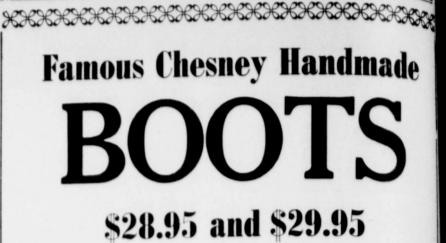

Have everything large enough, too large at first because babies grow at an astonishing rate, and large clothes and large blankets are so much easier on both you and baby than are those which are a bit too small. You can be thankful for the

change in fashions from the much beruffled dresses babies used to wear. Ruffles take time to iron, get into baby's mouth, lace tears or catches in the iron or in baby's fingers and fringe or tassels are not worth their bother.

Right along with the change toward plainer clothing there has been a decided trend toward put-ting less clothing on babies, espe-cially in hot weather. On really hot days a diaper is all that is really necessary. You can tell by feeling of his hands and feet if he is warm enough

is warm enough. In hot weather at least some of his food doesn't need to be warmed for feeding. The pre-cooked baby

"Pedal Pushers"

MAYTAG, ELECTRIC and

IN between the good news about the war these days, careful readers of the paper will see grave words about a serious national shortage that has a direct bearing on military and civilian production schedules.

Our domestic supplies of fats and oils will be approximately one and one-half billion pounds less than last year. Yet thousands of tons of fats are still needed to help make countless essentials for the battle- and home-fronts.

While country people have been doing an even better job of saving fats than the city folks, we must remember that, because of the meat situation, we are in a better position to save. That's why we can't afford to miss a trick.

So, let's save not only the big amounts from frying and roasting, but also meat trimmings, plate scraws, and scrapings. Melt them down once a week and add the liquid fat to the salvage can. Skim soups and gravies. Scrape every pan. Every drop is important.

When your salvage can is full, take it to your butcher, and get 2 red points and up to 4¢ for each pound. If you have any difficulty, call your County Agent or Home Demonstration Agent.

100,000,000 More Pounds of Used Fats Are Needed This Year!

Approved by WFA and OPA. Paid for by Industry.
