Two Elections Here Saturday, August 25

Re-Allocation of Funds and State Amendments

Sterling County voters will have a chance to vote on state constitutional amendments and a re-allocating of rates on local taxes here on August 25. The same set of judges and clerks will handle both elections on that day.

On the re-allocating of taxes the general fund will be upped from 5c to 35c. The road and bridge fund will be upped from 15c to 7c. Then to compensate the jury fund will be lowered from 15c to 3c. Also the permanent improvement fund will be lowered from 25c to 15c.

In the past the jury fund and permanent improvement fund did not carry the full rate allowed by the constitution and the rate was 3c overall. Under the re-allocating such full rate would be used and the rate for Sterling County would be 95c per \$100 valuation. The county plans to use the increase in the road and bridge fund to purchase a right of way and fence the Robert Lee road. The

State Highway Department has agreed to build and maintain the road, said Judge G. C. Murrell.

The last session of the legislature made such an election possible by a new law. Some counties in the past had transferred money from one fund to another when needed-even though it was illegal. Now it may be done according to law, and such is not a tax raise or lowering on the whole-just setting or re-allocating the various funds.

The first part of the constitutional amendments is one to grant members of the U. S. Armed Forces to vote without paying a poll tax. In the past it was unconstitutional for a member of such forces to vote.

The second amendment would raise the pay of the legislators to \$10 a day all during any session. Now they get \$10 a day for 120 days and then \$5 a day if they run over the prescribed 120 days.

The third amendment would increase the Texas Supreme Court from three to nine members. The three judges now have six commissioners to help them, all drawing the same pay. Such passage would give the six commissioners the same status as the three judges.

The fourth amendment changes the old age, needy blind and de-

Looking Back—and Ahead By COMDR. JACK DEMPSEY

As I take over WW's chair, I find myself at a disadvantage. I have seen so little of Broadway in the last couple of years that I really don't know the score. My absence from the old street is only temporary. Like every sailor, I am looking forward to wearing a wide-brimmed Panama again, complete with a loud sports jacket and the brightest necktie I can find. That should be a matter of no more than eight months, for the Nips are hanging on the ropes and the bell isn't going to save them.

In the meantime I am in the Coast Guard for the duration, or as long as Uncle Sam has a job I can do. By the time this reaches you I expect to be somewhere in the Pacific. My assignment is that of military morale officer for the 11th, 12th, 13th and 14th Naval districts. Included in this group is Pearl Harbor and my duties may take me farther westward as our fleet hammers at the very doors of Hirohito's hovel.

Wants to Hold the White Horse

If I can only have the privilege of holding the Mikado's white horse when Admiral Halsey mounts him for his victorious ride through downtown Tokyo it will be a bigger thrill than I experienced when Jess Willard failed to answer the bell for the 4th round on that sunbaked day in Toledo, 25 years ago.

Speaking from experience I can assure you that a morale officer hasn't a tough assignment. Not with the Navy and the Coast Guard. I have trained thousands of seamen and I went ashore on Okinawa during that bloody campaign for the sole purpose of observing what benefits, if any, the men had received from our training program. There isn't a sailor out there who doesn't dream of coming home, but none of them want to return until the shooting stops. If you could talk with them at their battle stations you would be proud of just being with them.

As for myself, the war has been a wonderful, though hardly a pleas-

Hold Those Bonds!

Don't let down now, says Uncle Sam. Hold your bonds, buy only what you actually need of scarce items. Inflation can be deadly as a war to a country. The U. S. budget is still high-and will be for several years. If the treasury can't finance the budget with bond sales- some more and higher taxes will be the result.

There will still be another big war loan drive this year. It's still patriotic to buy and hold bonds. And it's still the best way to save money.

ant, experience. It has been amusing, too. I was in England the day Jack London won the British Empire heavyweight championship from Tommy Mills. A British reporter asked me what I thought of Jack London and I replied that I had enjoyed reading his books and that I thought he was one of the truly great American writers.

"I am so sorry," replied the startled and polite Englishman. "I was referring to Jack London, the British prize fighter, and not Jack London, the American author."

I had to confess that I had never seen London fight and had no opinion to offer on the subject. I have since met London, a bald-headed veteran of 32 years. His defeat by Bruce Woodcock recently came as no surprise to me, as I judged from London's appearance that he was well past his prime.

A NEW FIGHTER

You may have gathered by now that I am still interested in the fight game. I am, and I expect to be active in it during the years that will be left to me after the war. Recently there arrived from the Argentine Abel Cestac, a young South American giant, sent to me by my old friend and foe, Luis Angel Firpo. If you know Firpo you will realize that he didn't lay out the money for his passage unless he was convinced Abel can fight.

Cestac hasn't been thoroughly tested yet, but I'm willing to take a chance. He's big, strong and rough.

Of course I can't be active in handling the South American. While I am in uniform, Max Waxman is looking after him. Waxman has managed several champions and he has been my personal manager for a great many years. I am fortunate to be associated in a business way with Max and also with Job Amron and Louis Brooks.

Because of them I have not had to make the financial sacrifice so many others had to make when they entered the armed forces. I couldn't have conducted my Broadway restaurant nor the Great Northern hotel any better than they have. We're a going concern and we are looking forward to the postwar years together.

BOXING WAS GOOD TO ME

Looking back from the exalted age of 50 years, I can truthfully say that boxing has been good to me. In the years just ahead I believe it will offer even greater opportunities to some Jack Dempsey of the future. Naturally I am convinced that the next heavyweight champion will come from the ranks of our fighting men. It was so after World War I and if I am not mistaken his name was Gene Tunney, a marine. I seem to recall meeting him on a rainy night in Philadelphia.

COAL IN IOWA

Ranking second to agriculture in Iowa's resources, coal has been mined for 95 years. Twenty-two counties produce it. From 3½ million tons in 1880, it increased to 9 million in the peak year of 1917. In 1910, 297 mines employed 18,000 men. Recently the output has dropped to 3 million tons but with peace there is a good indication that this quantity will increase. The state's industries need this fuel and its mining operations will contribute to the Nation's wealth behind War Bonds.

TO THE VOTERS OF STERLING COUNTY:

As appears from interview with Judge B. W. Smith, President of the Tom Green County Bar Association appearing in a recent Sunday's Standard-Times, the Association has unanimously endorsed the proposed constitutional amendment setting up a nine judge Supreme Court for Texas.

As a committee named for the purpose of presenting the matter to the voters of our two judicial districts through the local papers we earnestly request their support for what we and nearly, if not all, the lawyers in West Texas con-

sider not only a decidedly forward step in Texas jurisprudence but a necessary one, in order to secure a satisfactory tribunal for the final decision of Texas cases. The amendment does not increase the cost of the Supreme Court nor the number of judges constituting it. It simply enlarges the powers of the present Commissioners and gives them a vote in the decision of every case. Under the present set-up any two judges of the Supreme Court can set aside the action of any three judges of our several Courts of Civil Appeals as well as decide a case adversely to the opinion not only of the other Supreme Court judge but the six Commissioners named to aid the court in disposing of its large docket by the Legislature. Under the nine judge court litigants will have the benefit of the combined opinion of nine competent judges, five of whom must concur before any decision is rendered.

There are only three states, Arizona, Nevada and Wyoming, which still have the three judge Supreme Court, and all three have much less population than Texas. Under the amendment the present Supreme Court and the six judges of the judicial commission will constitute the new nine judge court, all of whom will be subject to election by the people at future times and all of whom are men of wide judicial experience and residents of widely different sections of the state as a whole. Vote at Election August 25, 1945.

5 Good Country Tricks for Saving More Used Fats

THIS year our domestic supply of fats and oils will be approximately one and one-half billion pounds less than last year. Right now, we are facing our worst fat shortage since the war began. To make up for this staggering loss, the government is depending on the women of America—and particularly women on farms and in smaller cities.

Every spoonful, every drop of fat is needed to help make battlefield and homefront essentials. So roll up your sleeves and do an all-out job, won't you? Clip this checklist and pin it up in your kitchen as a reminder.

- 1. FRIED SALT PORK**—with milk gravy. Salt pork yields so much grease, you won't need it all for gravy. Pour the rest into the salvage can.
- 2. DEEP FAT FRYING**—use the fat over and over, but when it's too dark and smelly to use any more, don't forget Uncle Sam wants it!
- 3. ROASTS AND CHOPS**—save all trimmings (scraps from plates, too.) Keep them in a small bowl; once a week melt them down.
- 4. SAUSAGES**—they're better if you parboil them first. Skim the fat off the cooking water—scrape the fat from the frying pan.
- 5. CHICKEN SOUP**—chill it before you use it. Scoop off the hardened grease (soup tastes better, too!)

When the salvage can is full, take it to your butcher promptly. He will give you 2 red points and up to 4c for every pound of used fat you turn in.
