# 200 Students Enrolled

Approximately 200 students are now enrolled in the Sterling public this week. In the main school 175 are enrolled with 25 in the Latin-American school.

This figures 25 more students than last year when only 150 were enrolled in the main school and 25 in the Latin-American school.

# Scout Auction Postponed

The Boy and Girl Scout auction that was to have been held at the Palace Theatre last Saturday night, had to be postponed after the fire there Friday night. The auction Livestock Show in the spring, it has been announced.

S-Sgt. Woodrow W. Mills, son of Mr. and Mrs. H. M. Mills of Mrs. H. Bade and family this week.

# **Lions Told Of School**

H. M. Carter, vocational agriculture instructor of the Sterling schools, said Supt. O. T. Jones City school, gave a discussion on the school enrollment, lunch room, vocational agriculture interests, and sports at the Lions Club luncheon Wednesday at the Methodist Church basement. He reported that the V. A. boys had 110 lambs feeding them as projects.

> The club voted to sponsor the United War Fund Drive that opens October 1. Twenty-four out of 27 members were present. Richard Davis was a guest. President Ed. Lovelace presided, and H. M. Carter received the prize.

## SEEN IN STERLING

The blackened inside front of will be held at the Club Boys' the Palace Theatre after the fire of last Friday night. . . . The Donalsons having the desk removed from the building. . . . Anna Lee and Archie Marie going to the Alpine, has been released from the drug store each morning after a U.S. Army. He is here visiting cup of coffce.... Herman Carter, now accompanied by little Thomasine, as he stops for his morning coffee. . . . A humdinger of a sandstorm Wednesday afternoon. . .

> 5. He must be a religionist why realizes that religion is caught, no taught. As for example:

> An atheist is a man who has n invisible means of support.

The best reply to an atheist is t give him a good dinner and ask him if he believes there is a cook.

6. He must be an ironist who does not hesitate to master the art of insult. As for example:

She dresses like a bad photograph

# Off to College

Among the Sterling City students returning to colleges and universities this week are as follows:

Sue McEntire, daughter of Mrs. James McEntire, returns to Texas University for her junior year. A major in education, Sue attended Hockaday College in Dallas for her freshman year.

Marjorie Humble, daughter of the Tommie Humbles, returns to Texas Tech for her sophomore year.

Freda Hodges, daughter of Fred Hodges, enrolls as a senior in Texas Tech.

Clara Mae Augustine, daughter of the Will Augustines, begins her second year at Texas Tech.

Billie Sue Everitt, daughter of the Clyde Everitts, enrolls as a sophomore in Tech. She attended Howard Payne last year.

Mary Earl Welch and Bobby 4-H Club Edwards will enroll as freshmen in Texas Tech.

Margaret Skeete, daughter of

Mrs. Leah Wyckoff, enters San Angelo Junior College as a freshman-as will her classmate, Jesse Vern (Mutt) Martin.

## **Novelty Trio at** School Next Monday

The Novelty Trio will appear Marshall Blair, Bobby Blair, Darin Sterling City High School auditorium on Monday, September 17 at 11 a. m., according to announce- Harris and Melvin Ward. ment by Supt. O. T. Jones.

# Commissioners Let Audit **New Commissioner Takes Office**

Monday the Sterling Commissioners passed an order to employ the accounting firm of Sedgwick and Cherry of San Angelo to audit the records of Sterling County on a per diem basis. The court also set the county tax rate at 95c on the \$100 valuation.

The county judge, G. C. Murrell, appointed Herman Garlington as commissioner from precinct 3, replacing L. R. Knight, resigned. Garlington's bond was approved and he acted in his capacity as a member of the court Monday.

The setting of the rate at 95c makes the total tax rate now \$2.92 including state (72c) and school (\$1.25)

#### Nizer Ex-Rays a Columnist -By LOUIS NIZER-

Attorney, Author of "What to Do With Germany, "Thinking on Your Feet." Etc.

I am afraid to write this column because a columnist must have many talents.

1. He must be a humorist, whose column wears a pun-striped suit As for example:

Alimony is the high cost of leav.

Sex magazines are the filth column of America.

Today we have many sulfa-conscious young doctors.

True pals stick together 'til debt do them part. He adored her and the feeling was

nuptial.

Time wounds all heels.

2. A columnist must be a movie and theatrical critic who can create atomic bomb devastation with a phrase. As for example:

It took the Curies 30 years to find radium; it took Sir William Ramsay 16 years to discover helium; it took this play only 2 hours to produce tedium.

3. A columnist must be a lexicographer who can invent new words which tickle the brain and surprise the eye. As for example:

Bilboorish, Rank-in-justice, Teutonic Plague, guesstimate, sindicated column, kilocyclopedia, Emperor Fearohito, infantuation, Petaint-

4. He must be a philosopher who disguises his wisdom in simplicity so that he does not appear pretentious. As for example:

It's better to give than to lend and it costs about the same.

Suggested sign for a museum: Touch as much as you like with your eyes, but don't see with your fingers."

I am afraid of Senators who have a difficulty for every solution.

Love at first sight often ends with divorce at first slight.

Funny thing about temper, you can't get rid of it by losing it.

Man argues that woman can't be trusted too far. Woman argues that man can't be trusted too near.

The President has the power to appoint and disappoint the members of his cabinet.

underdeveloped and overexposed. His mind is like his farm, naturally barren and made worse by mistaken cultivation.

He is addressing his speech to posterity, but his audience will be here before he finishes.

7. He must be an economist who knows that when a theory collides with a fact, there is a tragedy. As for example:

Those who complain about rationing ought to remember that there was no sugar until the 13th Century, no coal until the 15th Century, no coffee until the 17th Century, no matches until the 18th Century and no gasoline until the 19th Century.

8. He must be an internationalist who keeps the conscience of the people boiling. As for example:

A good motto for the war criminal trials is: "The prisoners, not the sentences, should be suspended." Don't relax. Germany has more

intelligence per square head than any other nation.

International moral: President Lincoln saw a small boy carrying a child up a hill on his shoulders. He asked him whether the burden was not too much for him. The boy answered: "It's not a burden, it's my brother!"

Under fascism, the only virtue is strength. Under democracy, the only strength is virtue.

9. He must be a historian with a human interest touch. As for example:

The spelling backward craze goes back a long way. In 1808 there was a political fight over Jefferson's embargo. His political opponents ridiwied him in cartoons as "O Grab

10. He must be a reporter who can reveal information kept secret even from any Government officials.

Our Army found in a German chemical laboratory a new secret gas so powerful that a drop no larger than a pinhead would kill a human being. The Nazi laboratory chief revealed that Hitler lost his nerve. He was afraid to use this weapon beause he had been informed that the nemical Warfare Division of the United States Army had even more fearful gases and in much larger quantities!

This is really a three-in-one program, featuring juggling and bal- P-TA Carnival ancing, trained dogs, and novelty music.

been a headliner in vaudeville, circuses, and on school assemby circuits with his balancing and juggrides a unicycle and juggles Indian homes. Mrs. Ray Turner and Mrs. clubs at the same time. He twirls

hoops around each arm and his neck and one leg at the same time, while balancing a plate, etc. on a stick held in his mouth!

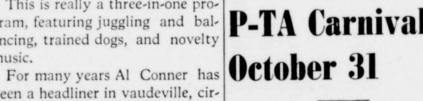

Miss Eddy's dog menagerie consists of four poodles and a Scotty. In one act they are dressed to imitate motion picture stars such as Mae West, Popeye, Dagwood, Stepin Fetchit, etc.

## Homer Pearce, Jr. Overseas

Capt. Homer Pearce, Jr. left Kearns, Utah for overseas duty last Friday. Homer has been recommended for major, and may be one by now. He and his brother Capt. Reggie B. Pearce, have been in the Air Forces since 1941. Both have been recommended to be majors.

Homer could have taken a medical discharge recently and been retired on \$150 a month, but he preferred to stay in the army.

#### Frozen Lemon Pie Is Toothsome Dish

FROZEN lemon pie is a toothsome dinner dessert for the family that's been working hard all day, says the Country Cooking editor of Capper's Farmer.

Graham cracker crumbs are crust and topping for the chilled yellow filling, she writes in the nationally circulated farm magazine. Pieshaped pieces are made by cutting diagonally across the refrigerator tray in which pie is frozen.

The dessert which will be an everpopular family favorite, serves 8, the Capper's Farmer expert advises.

FROZEN LEMON PIE 2 eggs, separated 15 c. lemon juice Rind of 14 lemon 12 c. sugar 1 c. evaporated milk, whipped ½ c. graham cracker, cooky or cake crumbs

Beat egg yolks; add lemon juice and piece of rind sliced from lemon and all but 2 tablespoons of the sugar. Cook over low heat 15 minutes, stirring constantly. Remove rind and cool. Beat egg whites until stiff; add remaining sugar and fold into cooked mixture. Add whipped evaporated milk. Line refrigerator tray with waxed paper. Sprinkle with 1/4 cup of the crumbs. Pour in lemon mixture; sprinkle with remaining crumbs. Freeze with temperature set at coldest. Serves 8.

#### WHAT WOULD HAPPEN?

Darkness would lay its inky finger on your home. Food would spoil. A flick of a switch wouldn't toast your bread, or cool your living room, or perk your coffee. You'd have to sweep by broom, wash by hand, wear unironed clothes.

Your house would be a little isolated world of its own, with no telephone, no radio, no newspapers to link you with humanity. Time would stop with the frozen hands of your electric clock.

You'd have no job, since almost all industry-from the cash register to the welder's arc-draws its vitality from the little blue spark of electricity. War production would stop in its tracks.

But electricity never takes a vacation. 60 seconds to the minute, 60 minutes to the hour, day and night, summer and winter, electric service stands eagerly awaiting the flick of a switch.

And this dependability is no accident. It is the result of hard work and careful planning by folks who know their business-your friends and neighbors in this company.

· Listen to "THE SUMMER ELECTRIC HOUR" with Robert Armbruster's Orchestra and guest stars. Every Sunday afternoon, 3:30 CWT. CBS Network.

# GASOLINES!

Your Good Guif Dealer now has an ample supply of the NEW GULF GASOLINES.

They're still known by the same names that Gulf gave its fine motor fuels of an earlier day...

> THAT GOOD GULF and GULF NO-NOX

These NEW GULF GASOLINES assure you quicker starting . . . surging power in pick-up . . .

# Now that you can go,

"get-up-and-go" on hills without ping or knock ... swift, smooth, gliding ease on the straightaway ... and record mileage per gallon.

Pull up at the sign of the Gulf Orange Disc and treat your car to a tankful of "postwar power."

A new motoring thrill awaits you at your Good Gulf Station.

Today, Grandma's "pin-money" has become BIG money. Last year it added more than five billion dollars to the income of U.S. farmers. That's more than hogs brought in-or cattleor sheep. Just look!

Here We Are Again! This series of advertisements is renewed in this issue and will appear monthly. We again invite you to send in good ideas which will help others in the business of farming and ranching. We will pay you \$5 for each good idea accepted by the judges whose decisions are final. And, don't forget to come in and see us whenever you are in Chicago-or if you haven't time to visit, phone us at Yards 4200, Extension 710, or write us at any time about any matter which pertains to agriculture. Remember our address: F. M. Simpson, Agricultural Research Department 128, Swift & Company, Chicago 9, Illinois.

Martha Logan's Recipe for SKILLET DINNER

#### 1944 Gross Farm Income

Dairy Products \$2,969,000,000 (	tE 264 000 000
Dairy Products\$2,969,000,000 ( Poultry Products 2,295,000,000)	\$5,204,000,000
Hogs	2,796,000,000
Cattle and Calves	
Sheep, Lambs and Wool	

And believe it or not, dairy products alone returned more money to farm families than the entire corn and wheat crops combined!

Any way you look at it, cows and chickens is a great industry. It is nation-wide, too. California and Texas are crowding close on the leaders -Wisconsin, New York, Minnesota, Iowa, and Pennsylvania. From millions of small dairy herds and chicken flocks in every state, as well as from large-scale operations, comes the enormous volume of dairy and poultry products that are such a vital source of our nation's food.

MANAGER

fe

rs

op.

## LET'S KEEP THE MACHINE IN GEAR

In these days of mechanized farming practically everyone is familiar with the gears that make

the wheels of tractors, combines, and other equipment go 'round. We know that should one gear be removed or get out of line-or even if a single gear-tooth is broken-the machine won't run smoothly, if at all.

It is much the same with the livestock and meat industry. The three main gears are the producer, the processor, and the retailer. When any one of these "driving gears" gets out of order then the entire industry suffers. Coordination of their interests can contribute greatly to the smooth functioning of the industry as a whole. None of us gains by insisting too vigorously that our part of the industry is the only one which has problems that matter. We gain more by trying to look at our particular problems as they affect all of us. In other words, whatever hurts or helps the producer hurts or helps the processor and the retailer also.

The livestock and meat industry is an important part of the national economic structure: We at Swift & Company believe that we can contribute most to the welfare of America-and ourselves-by promoting harmonious practical working relations between producers, processors and retailers.

F.M. Simpson.

## **Reclaim Croplands** with Wheatgrass

Ranchers who have need of extra grass can often bring abandoned croplands back into production with crested wheatgrass. In tests conducted by the Colorado Agricultural Experiment Station, in cooperation with ranchers, and reported by Clinton H. Wasser, good stands of crested wheatgrass established on abandoned croplands in northeastern Colorado have supported as much stock per acre as two to four acres of good native sod will in the spring and early summer. And it makes pasture two or three weeks earlier in the spring, and later in the fall when the moisture is good.

Time to Reseed: September is a good time to reseed lands to either crested or western wheatgrass. The job may also be done in the late fall or early spring. For best results, try six to eight pounds of seed per acre drilled into grain, sudan, sorghum, millet or weed stubble. Land badly grown up to perennial weeds may first require heavy discing or even plowing before seeding.

LIVESTOCK MOVIES FOR YOU We will lend you films for school, church, or other farm meetings: "Livestock and Meat," "A Nation's Meat," "Cows and Chickens . . . U.S.A.," and two

brand new animated movies-"By-Products" and "Meat Buying Habits." All for 16-mm. sound projectors. You pay transportation one way only. Write Swift & Company, Dept. 128, Chicago 9, Illinois.

Pan fry 1 lb. bulk sausage meat with 2 tablespoons onions until brown. Pour off the drippings. Add 2 cups cooked rice, 11/2 cups canned tomatoes and 1/2 cup chili sauce. Blend well. Cover and cook over very low heat for 30 minutes. Do not raise the cover. Serve with lettuce salad and crusty bread. Serves 6 to 8.

#### CULL THE NON-LAYERS Now!

Hens in your flocks that are still producing eggs regularly in the early fall months are superior layers. They are the ones to save ca. for breeding stock, writes H. L. Kempster, chairman of the department of poul-try husbandry of the University of Missouri.

Mr. Kempster says it's easy to select the good layers. They are the hens with white bleached shanks and with old, frayed and brittle plumage. The slick hens with yellow legs and smooth feathers are the ones that should be used for poultry meat. They should be culled out of your flock to make room for mature, ready-to-lay pullets now on the range. As it doesn't pay to sell laying hens, try to examine all individuals in your flock carefully. A red comb and moist, expanded vent are sure signs of a layer. If the vent is dry, puckered and yellow, you may be certain that hen has stopped laying for some time.

#### **ROY GUY REALLY KNOWS SHEEP**

When Roy F. Guy, head lamb buyer for Swift & Company at Chicago since 1931, was a lad of 17, he answered an ad in a Kansas City newspaper. That led to his first job with Swift as a \$4-a-week messenger boy. Before his

first year ended, he had doubled his salary and was getting a start in calf buying. At the ripe age of 22, Roy Guy was head calf buyer at Chicago. He held this post for 10 years and then went back to the starting line to learn lamb buying. In his 46 years with Swift, Roy Guy has bought many million lambs and judged in many a show ring. But his greatest pride is in the boys he hired and trained who have made good with the Company. "I always told a new boy to be careful in choosing his Company . . . and to stay with it," he says.
