Lions Club

Orrie Deal was a guest at the Lions Club luncheon Wednesday at the Methodist church basement.

The War Fund Committee decided not to add any local projects to the fund, so the War Fund quota will remain at \$1353. Lion Clyde Davis suggested backing a legion hall for retiring service men.

President Ed. Lovelace tried to explain why he quit trying to look up his family tree in England, and Dr. W.B. Everitt suggested the club sponsor an auction.

Daughter to the James A. Smiths

Angela Dianne is the name of the baby daughter born to Mr. and Mrs. James Aaron Smith Thursday of last week in a San Angelo hospital. The baby weighed six pounds and two ounces.

Papa James is in the U.S. Navy Seabees in the Pacific.

By BABE RUTH
(As Told to Ben Epstein,
Sports Writer.)

I'm for the Kids!

The government, national and municipal, is throwing the kids of America a curve!

Don't get me wrong. The old Babe hasn't fallen for one of those phonyisms. I like my United States the way they started it. The guys who wrote the Constitution were no bushers. They won a pennant their first time out and this country has been in first place ever since. That's class, no morning glory record. The kind that knocked off the Nazis with their hidden ball tricks and likewise sky-hiked the Japs to their ancestors.

With Eisenhower, Halsey and MacArthur hitting in the clean-up spots, the World Series is a cinch. That's why you and I are proud of our 48 States setup. Three hundred plus hitters from top to bottom supported by a double play combo, sound catching and fast outfield that knows how to handle sneak attacks. I'm no military expert but in war, as in baseball, you must be strong down the middle.

What has all this got to do with the Government taking a potshot, perhaps innocently, at the kids? Simply this: It has completely forgotten them.

Yep, I know the diamonds are still there and nobody is bothering the kids. That's the trouble. No one is bothered over the fact that they are playing with broom sticks and balls made out of a synthetic something. This is the situation in New York and, no doubt, the same in other cities. It's both depressing and alarming. Not only to the future of baseball and other sports, but more important the moral and physical welfare of our future citizens.

SAWDUST FILLED BASEBALLS
I know materials that ordinarily go into the making of sports athletic equipment were necessary for guns, ships, planes, etc. I say they could be made without let up and take heat off the kids. It's up to the law makers. How? Simply by freezing the many so-called "essentials." It seems to me that some of the manufacturers continue to make useless gadgets for the grown-ups who

Presbyterian Revival

Dr. John Knox Bowling of Dallas will do the preaching in a revival meeting here at the Presbyterian Church October 7-14. Rev. B.B. Hestir will preach on the first Sunday (Oct.7) then Dr. Bowling will preach the rest of the time.

Services will be held at 3:00 p.m. and 7:30 p.m. said Hestir.

Rev. Ed. Lovelace, Methodist pastor, will lead the singing. Dr. Bowling has preached here before, and is known by the people here.

John Brock C. M. 2-c Seabees, wired his mother last week that he had just landed in the states and for her to send him a suit of blues so he could get out of the camp.

S-Sgt.D.L. Hunt son of the Lee Hunts will leave Saturday for Fort Bliss near El Paso, then he will go to Jacksonville, South Carolina, home of the 30th division. D.L. served with Patton's army in the European theater and was wounded twice.

S-Sgt. Barney Echols, in the cavalry in the Philippines is either on his death bed or on his way home. He wrote George McEntire to quit sending him chewing tobacco.

"understand." Personally, I would sacrifice my shoes if I thought it meant the elimination of sawdust now stuffing what is now called a baseball.

If it's one thing I know, it's the make-up of the average kid. I've buddied with thousands of 'em from coast to coast, but let's keep home runs out of the column. Their language is playing games with equipment made out of durable stuff. With such baseballs, gloves and bladders unavailable, he gradually drifts to the corners where he figures it's more interesting. Have you noticed the rise in juvenile delinquency lately?

Right now, the only playable baseballs, good for an inning or more, are being manufactured for the professionals. I suppose that Organized Baseball is doing the best it can. All balls fouled into the stands are donated to members of the armed forces. I endorse that idea. Certainly the soldiers and sailors need recreation. But that brings me right back to where I started: What about the kids?

What about the kids and future of baseball? The kids, mind you, are the life blood of the game. And if the game doesn't come to the aid of the kids, baseball will strangle itself with its own hands. Today, major league competition is a Class D standard. The majority of players who return from the service will be passe.

Comebacks for them is a rough assignment. The gap is big. Hank Greenberg is gamely trying to beat the rap and you can see from his batting average the going is tough—almost too tough. But gritty service guys like Hank should make it.

Night play, which I tagged as an out-and-out mockery of baseball in this same space last year, just about rubs out the kid for keeps. Sensible parents will put him to bed where he belongs but won't improve his baseball education. Meanwhile the owners are favoring fatter schedules under the arcs, which also makes CENTS. Occasional games under the lights, say, between 7 and 14 per season, is okay for the sake of novelty. If the owners play every night except Sunday — how are they going to replenish when the present crop of Class Ds run out?

The reason I grabbed a chance to manage the Eastern teams in the Esquire all-American boys game is because I will be able to be with them for a week—seven days with a gang of kids. I plan to cram in as much teaching as I can. You'd be surprised how little some of them know about inside baseball. For example. At a baseball school in Florida some Springs ago I thought I had discovered another second baseman on the order of Charley Gehringer. That is, I did until I realized he didn't know he was supposed to cover second base.

The Sterling High School Eagles will play Water Valley at 3:30 at Water Valley today.

Line up for Water Valley game: Melvin Noack-R.E.; Billy Hudson-L.E.; Joe Snead-C.; Jackie Tweedle Q.B.- (captain); Billy Vern Davis-H.B.; Norman Butler-F.B.

The boys have two weeks practice and are in fine shape except a few bruises. Bob Ivy will be out for two weeks having received a bad foot injury in practice. Each boy is required to make three subjects every six weeks in order to play athletics. Sterling School can not organize a football team when parents let their boy stay out of school and work, since the school has very few boys to play.

Diamond Franchise Secured by Iva's Jewelers

A franchise for the King-Cut diamond, said to represent the first major development in diamond cutting in 300 years, has been obtained by Iva Huneycutt of Iva's Jewelers.

The King-Cut is achieved by a new method which gives the diamond 86 active, light-reflecting facets instead of a maximum of 58, which jewelers, until recently believed was the ultimate in diamond faceting. Because each facet receives and reflects light, the result is considered by authorities as the most brilliant cut to date.

The 28 additional facets added by the patented process have been worked into the top and bottom of the diamond, or as jewelers put it, above and below the girdle of the stone. There are 49 facets on the top, or crown, of the new cut stone, and 37 on the bottom, or base, of the jewel.

Not since Vincent Peruzzi, a Venetian craftsman, first created the 58 facet cut in the 17th century, has this development been improved upon. But the new process multiplies the brilliance possible. Thus it was that Huneycutt was anxious to add to his firm's featured services.

The King-Cut
THE WORLD'S MOST BRILLIANT DIAMOND

from \$125 to \$750

For the first time since the 17th Century there is a momentous event in the diamond world—the perfection of the King-Cut, the world's most brilliant diamond.

This great modern achievement in diamond cutting increases the number of active facets from 58 to 86—and every added active facet means added brilliance. Because no other diamond has as many active facets as the King Cut, no other diamond can compare to its magnificent brilliance and depth of color.

We are justly proud to be local distributor for the King Cut. We invite you to come in soon to see the most brilliant of all diamonds—the King Cut.

HAPPY HAL— If Hal Peary's satisfied smirk means anything, his summer vacation problems were non-existent. Heard as the befuddled buffoon in NBC's "The Great Gildersleeve," Hal returns to his radio chores, Sunday, Sept. 2.

TED REED, CM 3-c

Ted Reed in Guam Hospital

Ted C. Reed, CM 3-c, of the U. S. Naval Seabees, is now hospitalized in Guam with a case of acne. He was flown to the Guam hospital from Iwo Jima in a Naval transport.

Son of the W. A. Reeds, Ted doesn't know when he will be returned home, but he's ready-as soon as the Navy is. He says Guam is like paradise compared to Iwo Jima. In fact the climate at Iwo caused his skin infection.

Lt. Don Bowen In Philippines

1st Lt. Donald B. Bowen, son of Mrs. C.A. Bowen of San Angelo, was one of the few infantrymen in the Pacific who fought the Japs right up until the moment peace was officially announced. Bowen, whose regiment helped clear Mindanao's Syre Highway of Japs last May, was in the mosquito-infected Agusan Valley in north central Mindanao when word of the Jap surrender was broadcast. The night before his outfit had received an attack by 100 Japs had killed 17 of them and repulsed the rest.

Lt. Bowen lived in Sterling 20 years.

Capt. Worth B. Durham, son of the D. C. Durhams, cabled his parents congratulations on their golden wedding anniversary which will be today Sept. 28. Capt. Durham wrote his parents recently from the Philippines that he expected to return to the U. S. in November.

AMERICAN HEROES

by WOODY COWAN

SEEING his two squads of infantry pinned down by enemy machine-gun fire, Lt. Beryl R. Newman, Fargo, N. D., boldly advanced, wounding two with his Tommy gun and chasing two others into a house. When the latter two attempted to retake a gun, he killed them. Then he kicked in the door of the house and forced eleven armed enemy gunners to surrender. He was awarded the Medal of Honor. Victory Bond investments support men in all services who made this drive for final victory.

Candy and Red Cross Girls Greet Blackhawks

CHICAGO, ILL.—When the train bearing the 86th Infantry's famous Blackhawk Division stopped for an hour in railroad yards here, the battle-weary heroes of the European war swarmed off the cars like schoolboys to receive candy bars, cold drinks and doughnuts from Red Cross Canteen volunteers, and it was smiles all around as these women passed out candy donated by Curtiss Candy Company for the occasion.

The men were on their way through Chicago to Camp Grant, Ill., for processing and inspection before being granted their 30-day furloughs, but for the 700 Chicagoans among them it was a real homecoming as some of them recognized relatives and friends among the Red Cross girls who came to greet them.
