SENATOR METCALFE

## Penrose Metcalfe For Reelection

Penrose B. Metcalfe, of San Angelo, ranchman, war veteran, attorney, businessman, has announced for re-election to the State Senate from the 16-county 25th District.

Senator Metcalfe, born in Tom Green County, and a ranchman and farmer all his life, was educated in the schools of San Angelo and Texas A&M College.

One of the spokesmen for the ranch and livestock industry throughout his legislative career, he is the author of the present state-wide tick eradication law, the State livestock sanitary code, the livestock medicine act and other measures of benefit to ranching and farming.

Enlisting as a private in World War I, and serving for the duration, he became a pilot in the Army Air Corps. In the last session he was joint author of the constitutional amendment, subsequently adopted by a vote of the people, which gave Texas servicemen the right to vote without the payment of a polltax; he also supported legislation providing for county service officers, measures giving job preference on State payrolls to veterans, and other measures beneficial to veterans of both world wars.

He believes that adequate finances should be provided to carry out properly the constitutional provisions for caring for the old folks, the blind and dependent children, and has consistently voted for revenue to bring this about.

An advocate of "providing for Texas and Texans an up-to-date system of schools with teachers salaries second to none", during the time he has been a member of the senate teachers salaries have been materially increased, the per capita scholastic apportionment has risen more than 40%, and State allocations for rural schools have been increased more than 200%.

of such committees as Stock and Stock Raising, Agriculture, Finance, Education, Veterans Affairs, and others, Metcalfe at the present time, is chairman of the important Committee on Highways and Motor Traffic, and is a member of thirteen standing committees and the joint Senate-House Committee on Rural Schools.

In seeking re-election Senator Metcalfe points to a record of successful accomplishment in legislation of value to this district and the State as a whole.

He says "I propose to continue active sponsorship of constructive and beneficial measures. During the past several years we have been able, by using good business methods and practicing careful economy, to get the State on a cash basis and at the same time operate the the necessary functions of government. Such a condition should be maintained." In the coming weeks," he says, "I plan to visit all the counties of this district and confer with as many of the people as possible on matters of needed legislation for the next session.

Erskine plans a book comparing ancient Greece with today's version... 20th Century-Fox bought "Foxes of Harrow," the best seller, for 150 Gs, outbidding Paramount and several Independents... The Rockefeller and the broadcasting firms have been having a quiet feud for years as to whether that part of the city should be called Rockefeller Center or Radio City.

**Hotel rooms** are so scarce for any purpose that the hotelmen find themselves the worst victims... Needing a hotel for their annual convention they were unable to find a single leading hotel in the U. S. to accommodate them on the convention date—except one... That hotel is in Biloxi, Mississippi, and they can have it, because the season will have been over and it's the hottest time of the year down there. They took it!

At Ciro's: "She's so broke she doesn't know where her next heel is coming from"... In the Stork: "Get a look at that beautiful fiddle of a figure"... At the Village Corners: "She's decided not to be 25 until she's married"... At Gilmore's: "Aw, stop talkin' through your halo!"... At the Mer-

Born on the divide and reared in Sterling City, two of them had tough luck just after joining the armed forces.

Ray first joined the infantry and then transferred to the paratroopers. He broke an ankle on his last jump and transferred back to the infantry. He is now in China.

Roy is in the cavalry. A horse rolled down a mountain with him and broke several bones. On his last furlough he was detained for several weeks at Love Field with the mumps. At present he is in Germany.

Rob is with the combat engineers in Germany now. He hasn't had quite the hard luck of his two brothers.

*It Seems Like Yesterday*

It seems like yesterday that Nancy was playing with dolls. Now she's pushing her own baby carriage. Yes, there've been a lot of changes in the last fifteen years—most of them so gradual we hardly noticed them at all.

Nancy didn't grow up all at once. A tooth at a time—a curl at a time—an inch at a time—and suddenly a little kid sister was Mrs. Joe Jones, mother of Joe, Junior.

Like Nancy, the use of electricity has grown a lot in the last fifteen years. But the price of electricity has been going down steadily. You may not have noticed it because your bill may be about the same—but how many appliances have you added to your home since 1931? Actually, you're getting twice as much electricity for your money now as then.

Keeping electric service plentiful and cheap through years of rising costs was not easy. That today's electricity is at its very lowest price in history is a tribute to the hard work and experience of the men and women in the industry, and to its sound business management.
