Good Rains This Week

Rains finally came to Sterling County. Yes sir, it ranged all the way from a light shower in spots to two or more inches.

J. S. Cole, Sr., who ranches 18 miles up the Big Spring road, said it rained "one or two" feet on his place.

Water filled draws and ditches over the county and the river filled up a few dry holes. The rain fell Monday, both morning and afternoon and Tuesday.

Rainfall gauged at the J. T. Davis gauge here Tuesday totaled 1.75 inches. Other parts of the county reported up to three inches with some sections reporting no rain.

Mrs. C. N. Crawford visited her daughter, Mrs. D. K. Durham, and family in San Angelo last week-end.

Mrs. J. M. Starr's parents, Mr. and Mrs. Fred Heineman of Marshall, visited the Starrs here last week-end. Mrs. Heineman remained for a longer visit, and Mr. Heineman returned home.

While Walter Winchell is on vacation, Jack Lait, writer of the "Broadway and Elsewhere" column, will appear in this space as guest columnist. Winchell's column will be resumed on his return in September.

Follies of 1946—
The dogdays are here. . . . It shouldn't happen to a dachshund. . . . Winchell is on vacation, meaning he can get up at 7 p. m., instead of 6. . . . But the show must go on. . . . So Lait will jiggle the dots and juggle the dashes. . . . It's fun. . . . Let's get started!

Unreported incidents in Hollywood, eye-witnessed by my bureau of information, which never sleeps, never drinks, seldom eats: Betty Grable said she would not accompany Harry James east on his six-week tour. Almost as soon as he got off the train, she got on a plane—for New York. . . . Before John Perona flew to Paris, Mary Pickford gave him a solid gold St. Anthony's medal. . . . Bill Cagney begged Howard Hughes to take him up on that test flight and was turned down. . . . A movie company is paying \$2,000 to advertise its picture-to-be, "The Egg and I," on an ostrich egg which is being hatched at a farm which raises the big birds in Pasadena. Thousands visit there daily. The deal is that as each party goes through, the mother ostrich is to be shooed off her future offspring, so that gawkers can read the copy. There are seven words painted on the egg, which figures out at a rate of \$275.75 per word.

The following acknowledgment is being received by those who order from a large Manhattan auto agency: "We are enclosing herewith accepted copy of your order, subject to further delays due to conditions beyond our control. Delivery should be expected from 18 to 25 months."

Department of internal revenue has had an agent in Hollywood checking into the extraordinary number of refunds claimed and gotten by high-salaried movie people. By virtue of an ancient law, the government pays 6 per cent interest on sums paid and held, until refunded. There is virtually no such thing these days as a 6 per cent

Thanks The Voters

Since it is utterly impossible for me to see each and everyone of you personally, may I take this means of thanking you for the splendid cooperation and vote of confidence you gave me in my campaign for Representative of the 91st. Legislative District on August 24th.

It is and forever will be, my conviction that the representative of our district should be a representative of the people and not the representative of a few special groups or interests. As your representative I will always seek the answer to our problems through you, the people.

It shall be my purpose to represent the best interests of the State and District at all times. I sincerely trust that you will continue to give me the benefit of your council and advice as to how this may best be done as I serve you, the greatest people, in the greatest District, in the greatest State. I remain,

Sincerely Yours,
R. E. (Peppy) Blount Jr.

Air Mail Rates Down to 5c

The reduced air mail rate of 5c an ounce becomes effective Oct. 1 and the Postal Service will attempt to bring use of the air mail to unprecedented heights.

Big volume air mail use won't come automatically, but it must be publicized so that its benefits can be brought before the attention of the public—just as a store keeper would advertise a reduction in the price of one of his best sellers.

The department will do its part. We are preparing a campaign to make every mail user aware of the new 5c air mail rate—and its advantages to him.

The initial campaign will precede NATIONAL AIR MAIL WEEK—October 27-November 2, 1946—to be proclaimed by Postmaster General Robert E. Hannegan. The Department wishes to make this event an outstanding one in postal history.

We have a real product. The price is right. The service is good. It is up to us to sell it.

He is now a Baptist missionary.

Miss Betty Woodrum, home-making teacher, will undergo an operation and will not be here for the opening of school, but Mrs. A. T. Bratton will substitute for her until she arrives.

Regarding 'Unders' Entering School

On Monday night, September 2, the school board, following the custom of most previous years, decided to limit the admission of beginners to those who would be 6 years old not later than September 30, 1946 provided that not too many applications are received that would make a crowded condition in the first grade.

A tuition fee of \$2.00 per month for each of the nine months will be charged.

investment, but anyone who wants to miscount or forget to enter a just and provable claim for allowance can draw 6 per cent on such a sum, plus retrieving it in full. During 1945, the United States paid out \$17,000,000 of such interest. In 1944, the amount was \$23,000,000. This year, the interest will be only about \$4,000,000, as the government is "hep" and rushing the kickbacks. Most of this, of course, is legitimate. But some big moneymakers have deliberately used it as a racket.

Howard Hughes, the incredibly rugged individualist, despite his excruciating physical agony and his multifarious mental misgivings, has refused to take one sedative. . . . Even the mildest sleeping-aids and pain-relievers, given patients who stub a toe, he has stubbornly turned down. . . . In fact, he refused to eat or drink, fearing some palliative may have been slipped in. . . . He has lived entirely on orange juice since his injuries, and demands that it be squeezed in his presence, from the fruit, uncut until he sees it halved. . . . Physicians say they never heard of such a case. . . . But who ever heard of a Howard Hughes before?

Father Andrew Cervini, Jesuit missionary, who lost his left foot while a prisoner in a Jap camp, has just finished a book of his experiences. . . . The publishers weighed several titles. . . . Then Jim Harkins came up with, "How about 'One Foot in Heaven?'"

Jane Churchill, the girl-in-the-middle of the Tommy Dorsey-Jon Hall imbroglio, dyed her hair red and is in New York, trying to get a show job. . . . John Gart, the musical director, tells of a young male bit-player in Hollywood, assigned to escort a famous film beauty to a premiere. Next day he grumbled because it was such a terrible picture, he could hardly concentrate on it. . . . "This Is Your FBI," official air program, reveals: "America's annual crime bill is 17 billion dollars; its total education bill—from kindergartens through colleges—is less than four billion dollars."

Lt. Col. Gregory ("Pappy") Boyington has written his own story of his life and adventures, military, matrimonial and miscellaneous, and the script probably will be sold to a wealthy Californian who likes to dabble and gamble. . . . The deal calls for book publication, to be followed by a film based thereon. . . . Bill Cagney is interested in that, and his brother, Jimmy, may play the happy-go-lucky hero. . . . Pappy isn't temperamental, tells all, ducks nothing, personal or professional.

Here's How to Banish Washday Stooping

IT IS the stooping, bending and totting that make washday tiring, Dorothy Holladay points out in nationally circulated Capper's Farmer.

Among many homemakers who have changed their washday habits to eliminate fatiguing motions, she cites Mrs. Carl Frey of Iroquois county, Ill., in the magazine read by

1,250,000 farm families. Mrs. Frey says that time and energy saving methods make washing easier, beside saving an hour each washday. Here are some of the tips she gives other housewives:

The washing machine should be high enough for ease in working. Mrs. Frey has elevated hers by putting bricks under the legs. A wooden platform built to fit would serve the additional purpose of insulating the washing machine.

Sorting clothes on the floor requires constant stooping. Mrs. Frey separates clothing into several baskets set on wooden crates. Laundry

can also be sorted on a table or counter or from the table to several baskets placed on chairs.

Mrs. Frey's sliding clothes-basket saves time and bending. Holes were bored in each end of a sturdy wooden clothes hanger. From these holes wires are fastened. At the end of the wires are hooks to hold the handles of an ordinary basket. The top of the basket is then waist-high.

A clothespin apron snaps over the hanger. The hanger hook slides along the clothesline as she pushes the contrivance ahead of her.
