Around Muleshoe

A financial seminar for the farmers on management in the 80's is planned for April 23-24 in the Bailey County Civic Center. For further information contact Spencer Tanksley.

Grand Jury will be in session Wednesday, April 22.

District Court will also be in session all day with Judge M. C. Ledbetter of Morton presiding.

Cont. Page 6, Col. 5

Heavy Sky Dumps Rain In County

Late Tuesday evening heavy clouds dumped various amounts of rain in Bailey County. Theo Atkinson of Lariat reported one half inch over the past few days.

Eugene Shaw at West Camp reported approximately three tenths inch on Tuesday night.

To the north around Lazbuddie, reports of approximately one quarter inch fell.

South of Muleshoe reports were from four tenths to an inch around the Need more area. Further south, Bula reported from three tenths to eight tenths approximately.

From Stegall west toward the state line, one to one and a half inches were received. At Stegall approximately one half inch was reported by Buffalo Farms.

Maple reported approximately one half inch on Monday night and some on Tuesday. The exact amount Tuesday was unknown.

Muleshoe proper received four tenths.

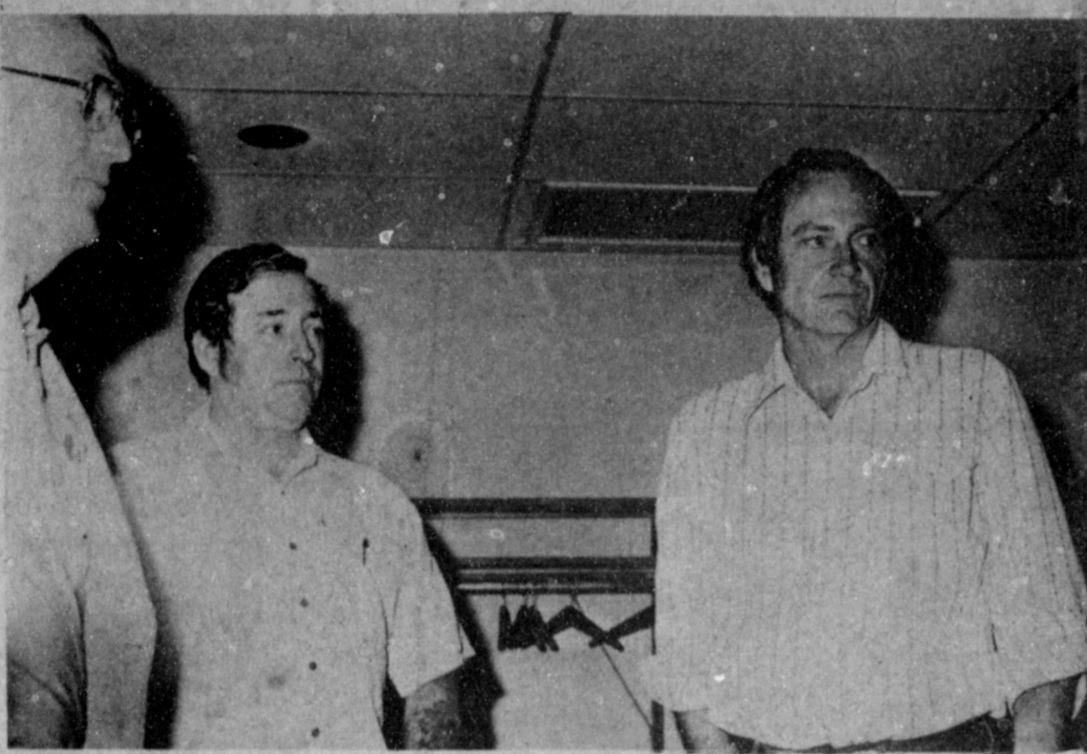

FFA Parent-Member Banquet Set April 28

The Muleshoe Future Farmers of America annual Parent-Member Banquet will be held at 7:30 p.m. in the High School cafeteria on April 28th. New members of the Honorary Chapter Farmers will be recognized and awarded their appointment to the FFA.

Chapter team members will be recognized, along with the awarding of the "Hustler" award, the Star Greenhand and the proficiency awards. The Hustler award is given to a first year ag student who has done the most with a project with the least help and expense. This award is sponsored by the FFA Boosters Club. The Star Greenhand award is given to a first year ag student who has been outstanding in all endeavors.

There will be an award of two \$250 scholarships to senior ag students, also sponsored by the FFA Boosters. These are selected on the basis of academic records, as well as active participation in FFA.

Proficiency awards are given to ag students who have displayed the excellence in their chosen projects. These are awarded

DISCUSSION OF MUNICIPAL AIRPORT.....Shown discussing pros and cons of the proposed new airport facility are L-R Earl Cook, Gary Foster, Program Specialist with FAA and Delbert Barry, chairman of the local airport advisory board.

Gulley Testifies For MCCA At MX Hearing

The Muleshoe Chamber of Commerce and Agriculture is not opposed to the MX Missile System, but has concluded that the system should not be located in our area.

This statement consensus was made by John Gulley, manager of the MCCA at the April 16 United States Air Force MX public hearing in Lubbock.

"It seems logical that one of the primary factors in selecting a location for the project is answering the question, 'Where will the least harm to the current environment be caused?'" said Gulley. "The answer to this question, at least on the surface of your (environmental impact) study, is West Texas/Eastern New Mexico."

In Gulley's testimony, he reported concern that serious consideration and on-

sight impact studies had not been given to "private land purchase and the possible relocation of people" as well as the impact of the quality of life.

"It appears that most of those involved in conducting this study are centered in California," continued Gulley, "with little first hand knowledge of this area."

One of the major objections the Chamber has to the study concerns the water resources. The Chamber concluded from the study that the area groundwater is being recharged. "The fact is," said Gulley, "that the groundwater of the area is a non-renewable resource."

Disruption of our basic economic activity, agriculture is also a concern of the Chamber. The Draft Environmental Impact Statement states the intent that the "MX should be restricted to the least productive land available."

The statement includes the reasons the Colorado/Kansas/Nebraska area was not studied: "...impacts on agriculturally productive land could not be avoided--even with extensive siting

actions to avoid acquisition of land with houses or facilities large enough to assemble or hide missiles."

Gulley testified that this same "logic can be applied equally well" to this area. He also suggested further investigation may show study data to be invalid and is not as complete as it should be.

New Committee Formed In BBB

The Board of Directors of the BBB of the South Plains authorized the creation of a new committee at their regular Board meeting April 15. The new committee, the Building Improvement Committee, will be chaired by Tim Hatch of the Overhead Door Co. The BBB authorized the committee for the following reasons:

- 1) An expected increase in home improvement activities in the South Plains area
- 2) The lack of knowledge by most consumers on how to obtain ethical contractors and good quality materials
- 3) The expected increase in the itinerant home improvement contractor who in many cases operates an unethical business preying on the poor and the elderly.

The committee will work on many areas including the following tentative projects:

- 1) Development of an education program for consumers
- 2) Development of a consumer arbitration program similar to the auto repair program
- 3) Possible creation of a local chapter of the National Home Improvement Council.

Airport Public Hearing Scheduled for June 3

Quality Soybean Seed Short In '81

Unfavorable weather conditions during the 1980 harvest period adversely affected the quality of soybean seed.

"The weather caused a shortage in high quality seed. However, producers should be able to increase stands in 1981 by using a seed protectant fungicide," says Dr. Walter Walla, plant pathologist with the Texas Agricultural Extension Service, Texas A&M University System. Walla recommends using a seed protectant fungicide with planting seed with a germination below 80 percent. Since such a fungicide is harmful to modulating bacteria, plant seed in fields where soybeans were grown previously. Soybean seed protectant fungicides include captan, captan plus PCNB,

chloroneb, thiazazole plus PCNB, and carboxin plus thiram.

Walla explains that several factors are involved in determining seed quality. These are seed size, percent germination and seedling vigor.

"The producer is primarily concerned with percent germination, which is reported on the seed bag tag," notes Walla. "Ger-

Basic Jail Certification School Held

The Bailey County Sheriff's Department held a 36 hour basic jail certification school on April 6-10 in the basement of the Law Enforcement Center. There were a total of 15 officers from the following counties; Bailey, Castro, Cochran, Dickens, Lubbock, Lynn, and Yoakum. The following officers from Bailey County received their basic jail certification: Hal Bynum, Tommie Williams, and Tony Wallace.

They were instructed on fingerprinting and mugging of prisoners, searching of prisoners and how to handle certain situations which may arise in the jail and all other jail booking procedures.

Pocket '60' 'til October

In order to save the embarrassment of arriving an hour late to an engagement, write a reminder today to set all clocks back an hour next Sunday.

Daylight Savings Time officially begins Sunday, April 26 when 2 a.m. instantly becomes 3 a.m. The "savings" or extra hour of daylight will continue until October 25.

According to a recent UPI release, Benjamin Franklin is generally given the credit for bringing the time change idea from Europe where it has been used for centuries.

Changing the time to grab an extra hour of daylight was observed here and there in the United States during the 1800's and was first formally observed to conserve resources during World War I and World War II.

Under the 1966 Uniform Time Act, the Transportation Department administers the law which requires all states to switch except those whose legislatures specifically exempt them.

States and territories not observing the switch: Arizona, Hawaii, Puerto Rico, the Virgin Islands, American Samoa and the Eastern Time Zone portion of Indiana.

Industrial Revenue Bonds Explained

Muleshoe City Council met Tuesday, April 21 in regular session.

The highlight of the meeting proved to be the proposed airport construction south of Muleshoe. Earl Cook of Gorden Herkenhoff and Associates presented his recommendations to the Council on the progress and development of the airport master plan. Cook stated that the site that has been chosen for the airport is a "magnificent airport site, constituting a minimum of land work and convenient to the city proper." He also advised the city and airport board to draft a tall structure ordinance as soon as possible and to acquire the right to drill a small well on the proposed property for domestic purposes, with possible water storage in mind for fire and insurance rate purposes.

Notice of a Public Environmental Impact meeting to be held June 3, at 7 p.m. in Council chambers will be advertised and

copies of the notice will be posted in the City Hall and the Court House.

Gary Foster, Program Specialist for the FAA advised that they are ready to go and will be receptive to this application if all other specifications are cleared. Foster added, "FAA has airspaced the site, compiled archeological and biological surveys, however, there may be required a second appraisal to insure that public interests are not over-running the private interests involved."

The airport proposed site is located 4.3 miles south of Muleshoe on Texas Highway 214. The landowner involved is J.D. Cagle.

Cook did take effort to emphasize the "important" nature of the project. Cont. Page 6, Col. 3

Man Falls 30 ft. At Tolk Plant

A Missouri Valley iron worker fell 30 feet while working at the Tolk Plant and is in an Amarillo hospital in stable condition.

Rusty Jarnagan of Amarillo was working on the first elevation of a coal tower and according to a Missouri spokesman overreached for a piece of steel and fell.

Jarnagan was transferred to Amarillo in intensive care and is expected to recover.

Although every safety precaution is taken at the Plant, this is the second accident in two weeks.

MPD Investigates Knife Accident

Police investigated a knife accident Sunday, when a man was transported to the West Plains Medical Center for emergency treatment.

The leg wound was determined self-inflicted. The knife was accidentally dropped.

A failure to stop and leave identification was also reported by Kent Sacoshee. The vehicle which received moderate damage was parked in the 100 block of Ave. J and belongs to Steve Bello. There are no leads at this time.

A theft was cleared Sunday when one male was arrested and the property was recovered.

An attempted theft of a CB radio from an automobile parked at a residence was also reported.

Police are also looking for someone who left his mark, a large hole, on the front door of a residence.

An accident occurred at 11:04 a.m. Saturday on the 200 block of West American Blvd. involving a pickup driven by Enrique Cafas Vital and a car driven by Clifton Carlos Griffiths. Minor damage was reported and no injuries.

OFF TO REGIONALS.....Nine members of the Mulette Track Team won the right to compete at the Regional track meet, Friday and Saturday at Texas Tech. Team members pictured who will compete in the 16 team meet include (L-R) Sherry Ellis and Elloa Graves, 400 m. relay; Sandra Graves and Marylyn Lewis, 400 and 800 m. relay; and Sherri Bessire, 1600 m. relay. Marylyn Lewis will also compete in the 1600 m. relay, long jump and triple jump. Team members not pictured who will be competing are Lupe Pacheco, and Nettie Coleman 800 and 1600 m. relays; Kristi Henry, discus; and Deena Burris 1600 m. run. If competitors place first or second at this meet they will advance to the state meet in Austin.

'The Sky Is The Limit' Theme Of PTA Installation

The Muleshoe Elementary PTA held its final meeting for the year Monday, April 13, in the Mary DeShazo Elementary School.

An executive council meeting was held at 3:15 p.m. before the monthly meeting. The meeting was opened by acting president Doris Palmer. Plaques for

each school signifying PTA donations were discussed. The subject was decided to be presented at a later date after more research.

A thank you from Mrs. Elizabeth Watson was read thanking the PTA for the donation made in her name to the American Heart Association.

The PTA Spring Conference will be held in Lubbock this year on May 1. Three executive council members and nine life members are to attend. They are Mr. and Mrs. Harold Horne, Mrs. Joyline Costen, Mrs. Elaine Stout, Mrs. Robin Neptune, Mrs. Doris Palmer, Mrs. Catherine Sanders, Mrs. Georgia Pena, Mr. and Mrs. Bill Taylor, and Mrs. Elizabeth Watson.

It was reported to the

executive committee that the ceiling fans bought for the elementary school cafeterias would be in Friday.

Mrs. Robin Neptune closed the executive meeting with a discussion on a new rule to be presented at the PTA meeting following the executive council meeting.

The PTA meeting began at 4 p.m. with Mrs. Gayla Cowan, South Plains Area Council President of the Parents Teachers Association, giving the invocation.

Doris Palmer led the Pledge of Allegiance. Elaine Stout read the minutes from the March meeting which were then approved by the assembly. The treasurer's report was given by Betty Bush.

A thank you note from Mrs. Pat Brewer and her kindergarten class was read to the assembly. The PTA sponsored a coke and chip party for the class for having the most parents present at the monthly PTA meeting throughout the year.

Mrs. Wilma Smith's fifth grade class will also be given a party for their representation.

Mrs. Tom Jinks was presented with a record player, speaker and cassette player by the PTA for her new music class. It is to be set up in Neal B. Dillman School. Mrs. Jinks said she appreciated the needed equipment and knew all grades would benefit from the class.

Summer Camp Health, Safety Meeting Held

A training course for summer camp owners and directors has concluded in Austin to set the stage for summer activities. Sanitarians from several Public Health Region (PHR) offices of the Texas Department of Health also attended.

Topics discussed included food service, insect and rodent control, drinking water, wastewater, water safety, recreational safety, rabies, record keeping, and epidemiological investigations of diseases in youth camps.

Those attending included: Ken Adams, Livingston; Pat Adams, Timpson; Robert S. Allman (PHR 6), John W. Buchanan, Len Klandrud (PHR 6) and Frances Langford, Temple; Jim Angel, Denton; Fred Babb, Aregle; Paul Bailey, Nanda Dozier, Tammy and Marc Gibbs, Hawkins; Joe and Clona Blakeney and Marvin A. Neese, Whitney; Mark Burns, Grapeland; Ben Campbell and Neil Carr, Belton; Jan Coats, Detroit; Gary Cotter, Marble Falls; Barb Dampman and Tom Kloss, San Antonio.

Also John D. Davidhizar, Norma Jamail and Sally Underhill, Houston; Robert L. Finney and Thomas D. Warren; Gilmer; Carol Ruth and Phillip G. Geissal, Merkel; Fred and Cookie Hagemeier, Livingston; Lawrence M. Hammond, Glen Rose; Marian Hardy, Fort Worth; Frank T. Hilton, San Angelo; B. M. Humphries (PHR 3) and Steve McAndrew (PHR 3), El Paso; Louis C. Jander and Gerald Midgett, La Grange; Warren Johnson, Louanne LeBourveau, Victor Mendoza and Eve Williams, Austin; Robert B. Kennedy (PHR 1), Canyon; Robert Lobaugh (PHR 7), Tyler; Pat McKee, Waco; Mr. and Mrs. Paul Nation, Lydia Rodgers and John W. Rodgers, Washington.

Also, Dave Rainey, Beaumont; Jose A. Rodriguez (PHR 8), Harlingen; Peggy Rungeville and Carl E. Seifert, Dallas; John M. Shaffer (PHR 5)

Doris Palmer closed the last meeting with a speech as outgoing president. She thanked all those who had helped and supported her throughout the last two years of her reign as president. "I have thoroughly enjoyed it," she said. Mrs. Palmer also asked for the support of Parents and Teachers for the new incoming president, Robin Neptune, and her staff. "It is for the benefit of the schools and especially for the kids who attend them."

Mrs. Gayla Cowan was then asked to take over the new business of installing the officers for the 1981-82 year. The "The Sky Is The Limit" was the theme for the installation.

Mrs. Cowan compared the PTA as a rocket ship. The officers were the crew, present and accounted for, to guide the ship safely and smoothly toward its goals. The chairmen were the ground crew, a vital part in keeping the rocket ship going. "There is no limit," said Mrs. Cowan. "I challenge you to aim high." As each officer was installed they were given a flight badge and presented with a pink silk flower.

The new officers are president, Mrs. Robin Neptune; 1st vice president, Mrs. Doris Palmer; 2nd vice president, Mrs. Cheryl Morris; 3rd vice president, Mrs. Debra Noble; secretary, Mrs.

Elaine Stout; treasurer, Mrs. Kerma McGuire; historian, Mrs. Barbara Bush; and parliamentarian, Mrs. Maggie Ann Rennels.

Chairpersons for the PTA were called and presented with a white silk flower. They are Mrs. Betty Bush, publicity; Mrs. Linda Tanksley, grade representative; Mrs. Karen Kidd, scrapbook; Mrs. Debra Wolfe, hospitality; Mrs. Shirley Reynolds, membership; Mrs. Joyline Costen, legislative; and Mrs. Obenhaus, life membership.

Mrs. Cowan closed by challenging the PTA with questions of their goals toward their schools and their children.

Outgoing president, Doris Palmer, presented the new president, Robin Neptune, with a presidential pin. Mrs. Palmer was then presented with an outgoing presidential pin by Mrs. Neptune and the 1980-81 scrapbook by Mrs. Karen Kidd.

The excitement showed in Mrs. Neptune as she spoke before the assembly.

She spoke of new changes and the "great" staff she would be working with. "It's going to be a great year," she said.

More new business was presented by Elaine Stout with a suggestion that meeting be changed to the third Monday of the month and held every other month at 7 p.m. This would be to the benefit of working parents. The motion was made by Doris Palmer to accept the changes and seconded by Debra Noble. The motion carried.

The PTA urges parents and teachers to come to the meetings next year for programs concerning the children of our community and the activities of which they participate. They want your opinions and ideas to be heard because that is what the Parents Teachers Association is for, but your representation is necessary.

Nice Fellow
Sunday School Teacher-- "Can you tell something about Good Friday, James?"
James-- "Yes'm; he was the fellow that did the housework for Robinson Crusoe."

TOPS Weekly Meeting

The TOPS (Take Off Pounds Sensibly) met at 6 p.m. Thursday, April 16 in the meeting room of Bailey County Electric. The TOPS pledge was recited and the fellowship song sung.

Roll call was by Evelene Harris, weight recorder, with 33 members present. Linda Vinson, secretary, read the minutes of the previous meeting. A treasurer's report was given by Vickie Garner.

Best loser for the week was Belinda Lopez, Elouise Norman was first runner up and second runner up was Polly Clark.

Four members of the Muleshoe chapter will leave Thursday, April 23, to attend SRD (State Recognition Day) in Brownsville. They plan to return Sunday, April 26. Those attending are Carlene Stroud, Rose Sain, Linda Vinson, and Vickie Garner.

NEWLY ELECTED.....PTA officers for the 1981-82 school year were installed recently at their regular monthly meeting. Pictured back row from left, Barbara Bush, Magann Rennels, Elaine Stout and Kerma McGuire; front row from left, Debra Noble, Cheryl Morris, Doris Palmer and Robin Neptune.

1956 Bula Senior Class Reunion Held

Bula 1956 senior class and sponsors, Claude and Gladys Morrison of Richardson met 10 a.m. till 8 p.m. Saturday, April 18 at the Hodge Community Center in Lubbock.

Senior present were Jackie and Joy (Dane) Shan from Campbell, California; Curtis and Hazel Green and children, Scott and Nancy from Locksburg, Arkansas; Ray and Barbara (Bogard) Kinnison of Olton, Beth (Swinney) Wakaw of Austin; J.D. and Jane (Arnold) Collins of Clovis, N.M.; Don and Juanita (Pearson) Hall of Levelland; Carolyn (Young) Hook of Levelland; Joe Don and Zelma (Harris) Phillips of Levelland; Carl and Romona (Motes) Halford of Lubbock; Robert and Brenda (McCall) George of Lubbock; Mary (Mansell) Harvey of Lubbock; Kenneth and Gracie (Altman) Millsap and children, Kena Louise and Valerie Lynn of Tulia.

The class mates unable to attend were Richard (Don) Blanton of Carrollton, Texas and Gerald Neel of Lakewood, Colorado. The class is making plans to meet every five years.

They enjoyed the noon meal at Furr's Cafeteria in Lubbock. In the afternoon they played games, visited and had sandwiches, chips, desserts, soft drinks, coffee and tea.

PTA CHAIRPERSONS.....1981-82 chairpersons recently are from left; Betty Bush, Karen Kidd, Shirley Reynolds, Linda Tanksley. Not pictured Debra Wolfe, Joyline Costen, and Mrs. Obenhouse.

Win a fabulous shopping spree for your new face.

Senior present were Jackie and Joy (Dane) Shan from Campbell, California; Curtis and Hazel Green and children, Scott and Nancy from Locksburg, Arkansas; Ray and Barbara (Bogard) Kinnison of Olton, Beth (Swinney) Wakaw of Austin; J.D. and Jane (Arnold) Collins of Clovis, N.M.; Don and Juanita (Pearson) Hall of Levelland; Carolyn (Young) Hook of Levelland; Joe Don and Zelma (Harris) Phillips of Levelland; Carl and Romona (Motes) Halford of Lubbock; Robert and Brenda (McCall) George of Lubbock; Mary (Mansell) Harvey of Lubbock; Kenneth and Gracie (Altman) Millsap and children, Kena Louise and Valerie Lynn of Tulia.

The class mates unable to attend were Richard (Don) Blanton of Carrollton, Texas and Gerald Neel of Lakewood, Colorado. The class is making plans to meet every five years.

They enjoyed the noon meal at Furr's Cafeteria in Lubbock. In the afternoon they played games, visited and had sandwiches, chips, desserts, soft drinks, coffee and tea.

**Kathy Embry
Art Association
Guest Artist**

The Muleshoe Art Association met Tuesday, April 14 in the community room of the Muleshoe State Bank for their regular monthly meeting. Juaree Smallwood, president, called the meeting to order. The minutes of the last meeting were read and approved.

Officers for the 1981-82 year were president, Lou Dell Adkinson; first vice president, Sherry Stevenson; second vice president, Kathy Embry; and treasurer, Betty Embry.

Blanche Lenderson reported on the workshops that will be available for the summer. She also announced that the Pitones Art League of Clovis are having a workshop this week and that their art show will be May 16-21 at the Triangle.

She also reported that the Plains National Bank in Lubbock, located at 50th and University Avenue will

have a display of 26 noted artists on windmills, April 20-24 from 9 a.m. to 3 p.m. each day.

The president announced that Cara Juan Schuster was selected as their "Outstanding Woman" to be presented at West Texas State University April 25.

Cara Juan Schuster gave a report on the art show which will be held April 23 at the Tradewinds Plaza. She stated that the Muleshoe Art Association will be receiving paintings for the show April 23. Over \$2100 will be awarded in awards and prizes.

Blanche Lenderson introduced the guest artist, Kathy Embry, who has been painting since 1975. She has studied under Danny Gambel, Paul Wylie, Elizabeth Black and Mary Siefredge. Much of her work is displayed at the First National Bank in Muleshoe.

Visitors present were June Buhman, Sharon Dale, Virginia Barrett and Lona Embry.

Members attending were Betty Embry, Velma Davis, Lou Dell Adkinson, June Gore, Cara Juan Schuster, Betty Barker, Carrie Lee Bishop, Shirley Wall, Ida Ruth Hold, Mildred Williams, Blanche Lenderson, Louva Kersey, Juaree Smallwood, Barbara Carpenter and Kathy Embry.

Hostesses for the day were Dana Arnold, Barbara Carpenter, Ida Ruth Holt and Vere Fox.

**Muleshoe
Singing Group
Meets**

The Muleshoe Singing Group met Saturday, April 18 in the fellowship hall of the Trinity Baptist Church. J.C. Shanks presided over the meeting. Invocation was given by Zeb Robinson.

There were 31 present including visitors, Barbara Warren of Needmore, Mrs. Lavern Blackman of Portales, four from Clovis and one from Farwell.

There were several arrangements of women's quartets, solos, trios, duets and congregational singing.

Mrs. Mae Wilterding gave the benediction.

Golden Gleams

Life is like a school of gladiators, where men live and fight one another.

-Seneca.

Youth is a blunder; manhood a struggle; old age a regret.

-Benjamin Disraeli.

Man's real life is happy, chiefly because he is ever expecting that it soon will be so.

-E.A. Poe.

A Lesson Learned
One small boy defines conscience as "something that makes you tell mother before your sister does."

-Journal, Independence.

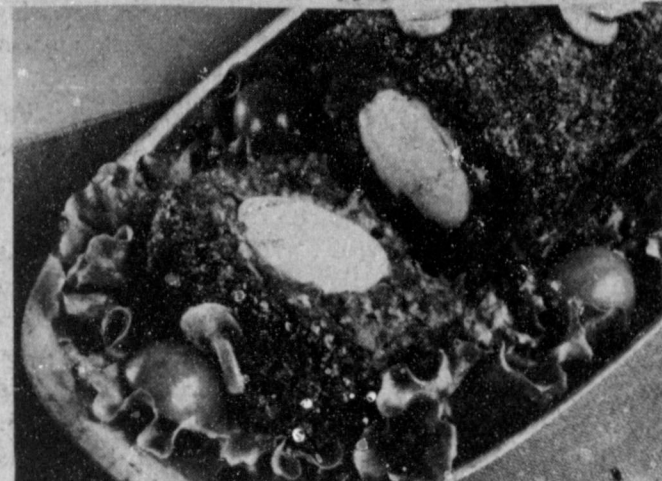

GOING AWAY..... Don and Wanda Harmon were honored with a going away reception recently, hosted by the employees at Tri County. The Harmon's moved to Muleshoe 16 1/2 years ago and started Tri County Savings and Loan. Even though they have moved to Plainview and will be associated with Plainview Savings and Loan, they will retain their association with Tri County as officers and board members. They have three children, Donann Smith and Connie Templeton, both of Lubbock and Mark Harmon, who is attending LCC at Lubbock.

80 YEARS YOUNG..... Mrs. Lela Gulley will be celebrating her 80th birthday, May 1. Her children, Mrs. Joe (Mary) Smith of Pierce, Az.; Mrs. Marvin (Lynette) Taylor of Grayson; Mrs. Bill (Jimmie) Philpott of Anchorage; Mrs. Alice Jefferson of Bentonville, Ark.; Mrs. R.J. (Betty) Renner of Lazbuddie and Bobby Gulley of Houston, will host an open house in her honor May 3 in the Baptist Church in Cave Springs, Arkansas. A card shower in this area is also planned. Anyone wishing to mail her a card may send it to Mrs. Lela Gulley, Route 2, Box 111, Bentonville, Arkansas 72712. She lived in this area 25 years prior to moving to Arkansas.

Successful family life depends upon team work rather than individual joyrides.

There is a vast and fundamental difference between promise and performance.

PORK 'N EGG BRUNCH

- 1 lb. ground pork
- 1/3 C. chopped onions
- 1 beaten egg
- 3/4 tsp. salt
- 1/4 tsp. paprika
- 1/2 tsp. pepper
- 1/2 C. bread crumbs
- 3 or 4 hard cooked eggs, peeled
- 1/2 C. sliced mushrooms
- Cherry tomatoes for garnish

Place pork, onions, beaten egg, salt, paprika, pepper and bread crumbs in a bowl and blend together until well mixed. In a small loaf pan place half the pork loaf mixture. On top of the meat, place the peeled hard cooked eggs, end to end. Cover with the remainder of the meat. Arrange meat so that it completely encloses eggs. Top the meat with crushed cornflake crumbs. Bake at 350 degrees F. for 20-30 minutes. Garnish with mushrooms and cherry tomatoes. Slice through loaf for serving. Serves 4-5.

Soybean...

Cont. From Page 1

mination is affected by mechanical injury, physiological factors and disease-causing organisms."

Mechanical injury, Walla says, will either cause seed not to germinate or will result in weakened or deformed seedlings. Such injury can occur when soybeans are harvested with less than 10 percent moisture or when unloading the crop from a height that can cause seed to crack.

Physiological factors such as rapid drying or high heat will injure the seed embryo and have the same effect as mechanical injury.

Disease-causing organisms, mainly fungi, are carried inside and outside planting seed and cause seedling problems, notes Walla. Diseases can reduce both yield and quality during the growing season, so seed from infected fields should not be planted, he cautions.

Bush Promises Cattle Raisers Federal Over-Regulation Cuts

Ranchers and celebrities more than 1,800 strong, crowded under the domed roof of Tarrant County Convention Center March 29 to bid on a unique offering of Quarter horses, bulls of all breeds and Western art. When the gavel came down for the last time, the Cattle Raisers Heritage Sale had gathered up \$195,550. The sale set the pace for the 104th annual Texas and Southwestern Cattle Raisers Association convention, which attracted 2,500 cattlemen from across the Southwest for four days of activities ending April 1.

High-selling lot was a Quarter horse consigned by Cullen Robinson of Fort Worth. Spencer Taylor, also of Fort Worth, bought the gelding for \$15,000.

High-selling bull was a Longhorn consigned by Larry Smith of Crowley. H.C. Carter, representing

Longhorn Marketing Council of Texas, bought him of \$7,000.

Two Western art pieces tied for top-selling honors at \$4,000 each. A bronze from Rick Johnson of Jacksboro went to R.E. Kelsay of Jacksboro. A painting by Ragar Gennusa of Austin ended up with J.A. Whittenburg III of Amarillo.

Overall, 15 bulls grossed \$46,960 to average \$3,130. Fifteen Quarter horses grossed \$113,700 to average \$2,700. Twelve pieces of art grossed \$29,500 to average \$2,458.

Ruben Reyes of San Antonio was auctioneer.

John S. Cargile, TSCRA president from San Angelo and Don C. King, TSCRA secretary-general manager from Fort Worth, opened the sale with the formal unveiling of "The Brand Inspector," the clay model of a bronze to be created by Wester artist Jim Reno of Simonton. The series of 100 will sell for \$7,500 each with the funds going to degray the expense of the lifesize bronze to be erected at the front of offices TSCRA has on the near west side of downtown Fort Worth.

Council...

Cont. From Page 1

tance of making sure that Cage's farming and cattle operations will not suffer by the choosing of this site."

Members of the Airport Advisory Board were present at the council meeting. Chairman of the board is Delbert Barry. Other Board members include Sam Damron, Tommy Gunstream, Howard Watson and Edwin Cox. Further information will be made available to the public at a later date.

In further business for

the Council, seal coat bids were opened from K. Barnett of Clovis and Jake Diel. Barnett's bid was made at \$1.18 per square yard in the total amount of \$99,120; Diel's bid was \$53.4 per square yard. The council voted to accept the Diel bid. When asked about the difference of amounts, Don Herman commented, "that he would assume that the source of the supply would be the largest factor."

The council also read and discussed correspondence on Senate Bill 951, in which the consideration of change of distribution of vehicle registration tax money will allow cities to receive some portion of funds to be used for the repair of city streets. This will amount to approximately \$31,000 for Muleshoe with the first year, based on miles of paved streets.

City consultants have recommended a rate of reduction to the Public Utilities Commission and advised the council that the March, 81 testimonies which were filed with the PUC may possibly lead to a rate reduction with General Telephone.

Another item of business was a preliminary written report from Philip Tyler with McCreary and Huie on the delinquent tax collection efforts among the governing bodies of Bailey County.

With regard to the letter received from Lubbock Mayor Bill McAllister, wherein he invited Muleshoe officials to an informal meeting to discuss water situations; Dave Marr, city manager, was requested by the council to arrange this meeting.

Councilman Bob Finney reported on the April 20 meeting of the newly appointed Bailey County Water Advisory Board. Dr. Jerry Gleason was elected to serve as chairman of that board and to act as liaison for all parties concerned, such as the city council and commissioner's court.

Sylvia Clark, who is Director of Economic Development with SPAG, presented a report on the development corporation act of 1979.

This act basically will provide funds through Industrial revenue bonds for rural areas and industrial projects. Also, the bonds may be used for adding to or building of equipment of facilities of industrial facilities.

"The basic purpose of these funds is to create jobs," Clark said. "This can be done by attracting new or expanding existing industrial facilities. The main reason that the South Plains has not received attention from the Texas Industrial Commission is that they have not demanded it," Clark commented.

Dave Marr, Muleshoe City Manager, is a member of the Economic Development Committee to the South Plains Association of Governments, and further information regarding this item may be obtained from him.

Guests at the council meeting were Don Herman, Glynn Sparkman, Earl Cook, Gary Foster, Sam Wyse, Sylvia Clark and Shirley Farmer. Members of the Airport Advisory Board present were Delbert Barry, Sam Damron, Tommy Gunstream, and Howard Watson. Regular members of the council were present with the exception of A.V. Wood.

A happy spirit is the greatest possession that comes to man, regardless of his wealth or lack of it.

Committee members will be selected from industry representatives, consumer representatives and special representatives from Texas Tech, City Building Inspection Department, and the Senior Citizens Center. Public input is requested both as to committee composition and committee program.

Muleshoe...

Cont. From Page 1

The Muleshoe Rotary has planned to sponsor a Truckload Seafood Sale May 18 and is now taking orders. Visitors at the Tuesday meeting were Hugh Mosley, John Guley, Paul Wilbanks and John Christy.

Frank Ellis of Muleshoe was elected as a director of District II of the West Texas Chamber of Commerce convention at the 63rd annual convention held in El Paso on April 17.

Earth Junior Rodeo will be held Friday and Saturday, April 24 and 25. For entries call T-Bar Western Wear in Earth.

All mothers of juniors and seniors at Muleshoe High School are urged to attend a worknight Thursday, April 27 in the Bailey County Civic Center.

Decorations for the junior and senior prom are to be worked on.

The West Plains Dairy Goat Association will meet at 7:30 p.m. April 24 in the meeting room of Bailey County Electric.

A sandwich, chip and dip supper is planned and everyone is asked to bring enough for their family.

Genetic Improvement Of Horse Breeding

Inbreeding of horses in its broadest sense is the mating of relatives and is without doubt the most controversial of breeding systems.

"It's been said that inbreeding is like sin—you have to get involved with it in order to find out how bad (or good) it is," says Dr. Nat Kieffer, professor and researcher with the Texas Agricultural Experiment Station and the Animal Science Department at Texas A & M University.

Generally, he says, the genetic consequences of inbreeding have been learned from experiments with rats and mice, guinea pigs and plants such as corn.

These experiments have shown that intense inbreeding leads to lessened constitutional vigor, reduced size, decreased fertility and an increase in physical abnormalities, Kieffer notes.

But, he adds, inbreeding accompanied by rigid selection is the most effective of all horse mating systems for producing prepotency, uniformity of type and performance. It also purifies future breeding stock of undesirable genes.

The simplest genetic relationship is that of parent-offspring, Kieffer says. If the parents are not related, then the relationship between a parent and its offspring is always a minimum of 50 percent.

Early in breed development some inbreeding is unavoidable, primarily because the number of animals having the qualities desired by breeders is small. And these animals are likely to be closely related, Kieffer points out.

Linebreeding is a kind of inbreeding that is directed toward an outstanding an-

cestor. The purpose of linebreeding is to produce offspring that will be closely

related to the admired ancestor but will only be mildly inbred, Kieffer explains.

SPAG REPRESENTATIVE GIVES PRESENTATION.... Sylvia Clark, Director of Economic Development at SPAG, explained industrial revenue boards at the April 21 City Council meeting.

Test results prove the complete performance of Asgrow corn hybrids.

Sarpalius Fights

For MX Site Change

"We don't want the federal government to take away half the land between Hockley and Sherman Counties."

That was one of the reasons Senator Bill Sarpalius gave for introducing Senate Concurrent Resolution 53, which asks Congress not to put MX missiles in Texas. The Senate agreed with the Hereford Democrat, passing the resolution 23-4.

"This MX program is supposed to use land that is not good for anything else, but that's not the way it would work," Sarpalius said. "The land the government plans to take away from the Panhandle is some of the best agricultural land in the state."

Sarpalius explained that the MX plan would use half the land in Deaf Smith County alone. Deaf Smith County is consistently among the top two agricultural counties in the state.

Sarpalius' resolution had three main objections to the proposed Texas MX missile site: it would use up valuable agricultural land which probably never would be reclaimed; it would displace hundreds of families; it would cost the taxpayers \$3.475 billion more than the plan to put all the bases in Nevada and Utah.

"In a day when food is fast becoming one of the most important issues of our time, and in a day when people all over the country are fed up with the amount of money the federal government spends, the idea of putting these missiles in Texas is ridiculous," Sarpalius said.

Sarpalius explained that

the government now has two MX missile plans. One would place all the missiles on a single base in Nevada and Utah, while the other plan would put about half the missiles in Texas and New Mexico. Splitting the site would cost taxpayers nearly \$3.5 billion extra, he said.

"That's only part of the story. That figure does not include the long-term cost of throwing away some of the best farm and ranch land in the state. We plan to fight with everything we have to keep the federal government or anyone else from taking away our livelihood," Sarpalius said.

If the split-basing plan is adopted by Congress, 6200 acres of land will be used just for operating base, he said.

Sarpalius was recently defeated in a bid to bring the resolution to the Senate floor for a vote, which requires a two-thirds majority. "We didn't have much real opposition. There were just a few Senators who didn't understand how serious this matter was. I talked to them personally and showed them just that these MX missiles would do to our state. I showed them letters of support from Senator Lloyd Bentsen and Governor Bill Clements. We told the people in our district we were not going to give up and we didn't give up."

"Nobody in our district wants the MX missiles here, and we want to go on record as being very much opposed to this split-basing plan. We are here to be a voice for the people in our district, and we plan to

make that voice heard," Sarpalius said. He added that he hopes every voter in his district will write to Senator John Tower to oppose the plan. Tower is

chairman of the Senate Armed Services Committee in the U.S. Senate. His address is 142 Russell Office Building, Washington, D.C. 20510.

Disadvantaged Aren't Always

Against Budget Cuts

The poor are not necessarily against Reagan's budget cuts, according to Art Berliner, chairman of the social work program at Texas Christian University.

"Many poor people but into the prevailing opinions that if you're rich it must be because you're a better person; if you're poor there must be something wrong with you," said Berliner.

"I would suspect that many poor people would go along with the Reagan program out of the notion that they're getting what they deserve—namely the short end of the stick. It's one of life's ironies that to be poor in this country means that you develop some self-inflicted wound-

fellings of self depreciation and self contempt," he explained.

The TCU sociologist also feels that the withdrawal of federal funds will shift the responsibility of the disadvantaged to state and local governments. There will be more problems in competing for dwindling local resources, especially since most of the strong lobbies are not "people" oriented.

The answer may be to form coalitions between the powerful lobbies, such as medicine, with social work organizations. The medical and social work communities are natural allies in the fight against disease and poor health, said Berliner.

Gilbreath Services Held In Sudan

Funeral services for Boyd Leslie Gilbreath, 62, of Sudan were held at 2:30 p.m. Wednesday at the Sudan Church of Christ.

Hicks Services Held Here Today

Services for Martha P. Hicks, 70, were held at 3 p.m. today (Thursday) in the First Baptist Church with Rev. E.K. Shepherd of Brownfield and Rev. B.C. Stonecipher, minister of the Longview Baptist Church, officiating.

Interment was in the Bailey County Memorial Park under the direction of Ellis Funeral Home. Mrs. Hicks died at 10:45 a.m. Tuesday in West Plains Medical Center.

She was born September 25, 1910 in Stonewall County, Texas and married Biddy Hicks July 10, 1932 in Centerville, Texas. She came to Muleshoe in 1955 from Afton. She was a member of the First Baptist Church and Muleshoe Eastern Star.

Survivors include her husband, Biddy; two sons, Jerry of Muleshoe and Tommy of Grand Prairie; two daughters, Mrs. Rosemary Smith and Mrs. Coralynn Jarman both of Lubbock; five sisters, Mrs. Willie Bell Tree of Ferris, Ok., Mrs. Lennie Mae Dickerson of Kaufman, Tx., Mrs. Anita Baker of Bonham, Mrs. Bernice Williams of Lubbock and Mrs. Ida Bell Smith of Tulia; two brothers, Granville Patterson of Lubbock and Johnny Patterson of Breckenridge and eleven grandchildren.

MARTHA HICKS

with Don Stone, minister of Clarendon, officiating, assisted by Rick Kaufhold, minister of the Sudan Church of Christ.

Interment was in the Sudan Cemetery under the direction of Hamons Funeral Home of Littlefield. Gilbreath was dead on arrival at Littlefield Medical Center, Monday at 7:20 a.m.

He was a native of Venus and had lived in Sudan for 57 years and was a member of the Sudan Church of Christ.

Survivors include his wife, Ida Ruth; a daughter,

BIBLE VERSE

"Know ye that the Lord he is God: it is he that hath made us, and not we ourselves."

1. Who is the author of this verse?
2. What does this verse warn us against?
3. What is the rest of the verse?

Answers To Bible Verse

1. The Psalmist--probably King David.
2. Against the sin of worry.
3. "We are his people, and the sheep of his pasture."

Bill Will Make Convenience Stores Less Convenient For Criminals

"Manager killed at convenience store." "Missing clerk found dead." "Manager found dead in street near store."

"Shocking headlines like these are much too common these days," Senator Walter Mengden, Republican from Harris County, said. "The Department of Public Safety statistics show that 5,105 convenience store robberies were committed in Texas in 1980. Almost half of all commercial robberies and about one-fifth of all robberies in Texas occur in convenience stores," he noted.

"It's time to fight back against these crooks who are terrorizing convenience

store employees and customers and looting cash registers like they were a kid's piggy bank," Senator Mengden added.

"I have introduced Senate Bill 1205 to help put a stop to these crimes," he said.

"All this bill does is apply common sense to make convenience stores less convenient for criminals," Senator Mengden continued. "By installing silent alarms or telephones behind the counter, putting in safes to hold spare cash,

prohibiting the counting of huge amounts of cash in public, and protecting employees against personal liability for their own injuries or for money lost during robbery, we can help tip the scales against the crooks and in favor of law-abiding property owners, workers, and customers."

"The minor cost of these protective measures will be more than offset by the savings in lost revenues, totalling over \$1.8 million in 1980, and by an increase in patronage from folks who won't go in convenience stores now, for fear they'll walk into a stick-up," Senator Mengden said.

"More importantly," he added, "we'll reduce the number of senseless murders of innocent people,

whose only crime is that they're working for a living or shopping for a few groceries."

Mesquite Control Geared To Rainfall

Ranchers battling mesquite brush should consider flyin' on a liquid herbicide in late spring and early summer.

Since mesquite control with herbicides depends greatly on weather conditions, ranchers need to look at what has happened since last fall, says Dr. Tommy Welch, range brush and weed control specialist with the Texas Agricultural Extension Service, Texas A&M University System.

Herbicides for mesquite control are growth-regulating chemicals that must be translocated from leaves to stems and roots to be most effective. This process is strongly influenced by growing conditions when the herbicide is applied, explains Welch.

Texas Agricultural Experiment Station studies bear this out. Aerial spraying of herbicide produced average mesquite control when monthly rainfall was average or slightly above average for at least three months before the herbicide application. Best control occurred when monthly rainfall exceeded the average for six months or less of above average rainfall prior to spraying.

Since rainfall has varied greatly throughout the state since last fall, ranchers must evaluate their individual situations. Also, Welch advises each rancher to watch the foliage development of mes-

quite when leaves begin to grow. Mesquite with little foliage will be in poor condition for spraying while plants with lots of leaves are ripe for control.

When to apply the herbicide is also important. For maximum kill, do not spray mesquite until leaves have fully extended and have turned from light to dark green. Plants with fully developed, dark green foliage that are past full bloom and have small pods developing are in the best condition for spraying.

In addition to weather conditions and plant growth, check the soil temperature, recommends Welch. Best kill of mesquite is usually obtained when the soil temperature 18 inches deep at spraying time is 75 degrees F. or higher.

Usually soils on upland range sites and soils with a higher sand content warm up faster than bottomland soils or those with a lot of clay. As a result, root kill of mesquite is usually higher on upland sites.

If frequent rains occur during the spraying season, root kills are often reduced because mesquite plants will continue to add new leaf growth. Thus it's best to delay spraying 10 to 21 days after a good rain to allow new growth to mature.

Welch also suggests that ranchers inspect mesquite foliage for damage by insects, disease, frost or hail

before spraying. Heavy defoliation will reduce plant kills. New foliage should be allowed to mature before herbicides are applied.

Three registered and effective herbicides for mesquite control on Texas rangeland using aerial broadcast spray are 2,4,5-T; one-to-one mixture of picloram and 2,4,5-T (Tordon 225E); and one-to-one mixture of dicamba and 2,4,5-T. Dicamba and 2,4,5-T must be tank mixed because a commercial formulation is no longer available.

Effective rates for these herbicides are one-half to one pound acid equivalent per acre. Tordon 225E and the dicamba-2,4,5-T mixture usually give a higher percentage of root kill than 2,4,5-T alone, but they are more expensive. Tordon 225E has given the best control in research and

demonstration work, points out Welch. If weeds are a problem along with mesquite, Tordon 225E and the dicamba-2,4,5-T mixture give excellent weed control in conjunction with mesquite control. Tordon 225E also provides good control of pricklypear.

Before applying any herbicide, read and follow directions on approved labels on the herbicide container, cautions the specialist.

To obtain the most benefit from mesquite control, follow herbicide spraying with good range management practices, advises Welch. If possible, defer grazing on the area sprayed for mesquite control at least three months. This will allow desirable plants an opportunity to regain vigor and produce seed and for seedlings to become established.

SAVE UP TO
\$4,500
RED POWER DOLLARS

150TH ANNIVERSARY SAVINGS

SAVE BIG ON IH TRACTORS WITH RED POWER BUYER'S CHOICE

The Red Power Buyer's Choice gives you three ways to save on any new IH Tractor in stock during the International Harvester 150th Anniversary. And you begin your savings selection with great Red Edge Rebates.

Buyer's Choice No. 1... Get Red Edge Rebates Worth up to \$3,500.

When you buy any new International Harvester Tractor that we have in stock between now and April 30, 1981, you can get a Red Edge Rebate of up to \$3,500 direct from the Company. See the chart for a full list of rebates available.

Buyer's Choice No. 2... Get a Free Cub Cadet Tractor.

Now through April, you can get a free Cub Cadet® Tractor when you buy any Series 86, 4WD or 2+2 Tractor. So if the Red Edge Rebate isn't the savings you need, maybe this is. The chart below has a complete listing of free Cub Cadet models with tractor purchased.

Buyer's Choice No. 3... Get Red Power Dollars valued up to \$4,500.

Instead of getting a Red Edge Rebate or a free Cub

Cadet with the IH Tractor you buy, you can get Red Power Dollars. These are good toward the purchase of any new IH equipment or parts. They may not be used toward the tractor purchase price and must be used by December 31, 1981.

These tractor savings may never be matched again. See us today for your best selection of IH Tractors... and for your selection of Buyer's Choice Savings.

MODEL	RED EDGE REBATE OR	FREE CUB CADET OR	RED POWER SAVINGS DOLLARS

By Spencer Tanksley
County Extension Agent

It's safe to say that if insects and diseases are not a problem in your garden right now, chances are they will be before long.

You may or may not want to use chemicals for pest control. This is one of the real advantages for growing your own vegetables. You can do it any way you want to! Plant by the moon, sprinkle irrigate, choose your own varieties, or garden without pesticides. It's your garden and you make the decisions.

For the sake of today's column, let's assume that you're one of the large number of local gardeners who will choose to control garden pests using cleared and recommended chemicals. Proper use if chemicals poses no threat to you or the people who enjoy eating vegetables from your home garden. How-

ever, if the label on the chemical product you use says one teaspoonful per gallon of water, that's what it means. If the label says to wait three days after spraying before harvesting it doesn't mean you have to wait a week or more. Follow directions on the container to the letter. If you do this, you won't have any problems with possibly dangerous chemical residues.

Using chemicals for pest control generally means "spraying" to most gardeners. Therefore, you are going to need a sprayer of some type depending on garden size, location, layout and intended use.

Sprayers used most often in local gardens are compressed air and hose-on sprayers. Compressed air sprayers are mobile, self-contained units that are pressurized by

periodic pumping. They come in various sizes and are made of either plastic, galvanized steel or longer-lasting stainless steel. An obvious advantage of compressed air sprayers is that they are completely portable. However, this portability is directly proportional to your strength. In other words, a 5 gallon compressed air sprayer is heavy and unless you're physically able to lift and tote it around, don't try it. If your garden is small, a 2 gallon sprayer is probably all you'll need.

A hose-on sprayer is attached to the end of a hose, from which it receives its pressure. It's popular because it's light and doesn't need repressurizing by periodic pumping.

The main disadvantage of a hose-on sprayer is that it can only reach the length of your garden hose. Another problem arises in mixing ingredients. These sprayers operate on the principle of siphoning a concentrated amount of material and mixing it with a stream of hose water. To be easily siphoned, the mix must be liquid; yet many insecticides and fungicides are in the wettable powder form. Although these materials are meant to be suspended in water, thorough mixing is difficult sometimes. To avoid some of the problems of plugging up the sprayer, it's a good idea to pre-mix wettable powder pesticides in a small bowl. This helps assure that large particles are broken up and will not clog the siphoning hose.

Regardless of the type of sprayer you use, it's important that you keep it in good condition. Rinse it thoroughly after each use to avoid future problems. If you use a compressed air sprayer, store it bottom side up with the hose drained.

Safe and proper use of garden chemicals can help most of you have a more productive garden. However, you must always use only recommended chemicals, treat only when necessary, follow label directions, and remember to take care of your equipment.

Mr. and Mrs. Bob Drake have been visiting in Houston with their daughter, Mr. and Mrs. Bill Myer and Adrienne and Audrey.

The Sandhills Philosopher

Editor's note: The Sandhills Philosopher on his Johnson grass farm on Sandy Creek has come up with a money-saving idea, perhaps.

Dear editor:
A while back I suggested that since science has invented a silicon chip no bigger than your thumbnail that can hold 100,000 bits of information, there's no good reason for teaching a child past the 4th grade. Why try to cram his head full of information for an additional 8 to 12 years, most of which he'll forget anyway, when he can carry around 100,000 facts in a tiny button? Anybody who claims he needs more than 100,000 pieces of information is just showing off. I know politicians who get by on less than a tenth of that.

However, it appears I left out one additional step. After a kid learns to read and write -- and despite how unfamiliar some schools are with teaching reading and writing most kids do pick up the knack -- and is handed one of those information chips, he still needs to know how to spell. But additional

schooling won't be necessary. Science has come to the rescue.

It has now invented an electronic typewriter that has a built-in vocabulary of 50,000 words it knows how to spell. If you misspell a word the typewriter automatically corrects it. Anybody who needs more than 50,000 words is talking over most people's heads, probably including his own. I know politicians who get by on a few thousand, although when they speak it sounds like 100,000.

So you can now see that if you can teach a kid to read, write and type, you can hand him one of those information chips at about the 4th grade and turn him loose on life. If he loses his chip, send him to the State Legislature where it won't be noticed.

Yours faithfully,
J.A.

RECIPE

By Sarah Anne Sheridan

No one food is more versatile than the potato. The small, fresh potato is now appearing at the vegetable markets.

Potatoes with Sour Cream

- 15 new potatoes
- 1 egg
- 1/4 c wine vinegar
- 1 t dry mustard
- 1 T flour
- 1/2 t pepper
- 1/2 c water
- 1 c sour cream

Cook potatoes until tender. While potatoes are cooking, make the following sauce: Beat the egg in top of double boiler, add vinegar slowly, beating hard. Mix sugar, mustard, flour, pepper, salt, and water. Add to egg and vinegar mixture. Cook over boiling water until sauce thickens, remove from heat and stir in the sour cream. Pour hot sauce over hot, peeled potatoes. Sprinkle with paprika.

Parsley Buttered Balls

- Small new potatoes
- Butter
- Parsley, chopped

Cook and peel potatoes while hot. Melt butter and pour over potatoes, turning them until well coated. Sprinkle with chopped parsley and serve at once.

Due For It

Boarder: "Hey, I found a nickel in my hash!"
Landlady: "Yes, I put it there. You've been complaining about the lack of change in your meals."

Appointments for a "good time" are rarely broken.

The individual with an idea is very often a nuisance to his friends.

Start with more control. Finish with more cotton.

TEMIK® 15G

ALDICARB PESTICIDE

An insecticide, a miticide, and a nematicide. Triple action control with just one application of granular TEMIK(R) aldicarb pesticide at planting. Protects up to 10 weeks against thrips and aphids, spider mites, fleahoppers, plant bugs including lygus and leafminers. Plus outstanding control of root-knot and reniform nematodes. . . microscopic soil pests that can seriously reduce yields through root damage.
