# Sterling Eagles Romp **Over Mertzon**

The Sterling Eagles toyed with the Mertzon Hornets at Mertzon Saturday last Friday afternoon winning easily 48-12. The boys were a bit bruised after the game on the rocky hein once on a punt return for 76 erage of \$670. vards and a touchdown only to have Billy Vern Davis, Norvin Brown, erage of \$543. and Bobby King accounted for the other scores-Davis and Brown on uns. and King on a pass from Hudson.

Water Valley invades Sterling tonight with what is supposed to be foals. the strongest club in the loop. They remain the only undefeated team, having beaten Forsan last week 48-0. Sterling is definitly the underdog in tonight's fracas, but the Wildcats are in for their toughest battle of the season. The Eagles will enter the game in full strength, asking no quarter from their favored foe. Sterling still has an outside chance at the districttitle, but must win tonight or slide back down the ladder.

The probable line-ups for tonight's game is as follows: Water Val. nos

Mer mig	pos.	water var.		
. Brown	LE	Turner		
B. King	С	Bannister		
I. Baker	RE	MIERS		
Hudson	QB	Westbrook		
weedle	LH	Dorsey		
Davis	RH	Cope		
Othon dom	an nolo	into incignifi.		

Other games pale into insignificance before this one. However, over at Forsan, Garden City and the Buffaloes tangle in a game that definitely eliminates the loser from title consideration. Forsan is still badly crippled and it might be the Bearcats night.

Courtney is host to Mertzon in a game that should go to Courtney. Coahoma, riddled with injuries, bowed out of the picture last week, losing to Garden City. The Bullmeet Knott this afternoon.

UPSTREAM from Niagara Falls a short distance, the weathera short distance, the weather-beaten hulk of a wrecked yacht lay for years in mid-channel. I saw it once, clinging precariously to the rough, stone river-bed while the swift current lashed violently at its decaying sides. A Canadian, native of Welland County, told me the story of the derelict, a thriller if I ever heard one, and worth repeating.

Several miles up the river, this comfortable little craft rode at anchor one night in quiet water. The skipper and some guests were sleeping peacefully on board when, by some unexplained cir-cumstance, the boat came loose from her moorings. Nobody waked for a long time. The boat drifted with the current which drifted with the current, which was not fast at first but gradually gained speed as it neared the falls.

THE KEEL was Start to Investigate

grinding on the nodulated rock bottom before the boat's unsteady motion roused any of the sleepers. Then they all got active at once. Most of them had no idea what to do first. Some actually began accusing one another and trying to fix the blame for losing the anchor - this, with the thundering cataract in plain hearing, destruction only a few seconds away. The skipper was a man of ac-tion and presence of mind. While his guests suffered panic, he went below and blasted a hole in the hull with dynamite. The crippled craft took on water fast and settled to bottom in the swift

stream. Then it lodged! Days like months passed before the handful of frightened people could be brought ashore, but no lives were lost. Quick action saved them.

Paying CERTAINLY the the Price skipper loved his boat and hated to sacrifice it. He wished something might

it. He wished something might have waked him a mile up stream where life and property both could have been saved, but he paid the price of survival. Ameri-ca's ship of state is, this very day, drifting down a channel toward a cataract: the same channel through which Italy, Germany and Russia have passed, and the one France and England are en-tering now. tering now.

The United States of America has drifted far but our engines are still in condition and the boat is not out of control. Still there is time for our leaders to save, not only our people from revolu-tion, but the personal freedom our forefathers fled monarchs and despots to obtain and fought des-perately to keep. The way to ruin is via central planning, gov-ernment-management, -direction, -control, -ownership.

Ever play chess? It's a great game! One of the strongest friendships I know of started with a game of chess-between Dad Hoskins, in our town, and a man named Dalton Barnes, in England.

They've never seen each other, never met. But for the past eight years they've been playing chess by mail together — Dad puzzling over Dalton's latest letter, while he sends a chart of his next move to England.

Dad always thinks best with a mellow glass of beer beside his

chessboard. And the Englishman writes him that he does the same. "You know, it's almost as if we shared a glass of beer together, too!" says Dad contentedly.

From where I sit, you can talk about diplomacy and foreign policy, but it's often those little things -like a game of chess or a glass of beer-that can make for tolerance and understanding . . . between people of all nations . . . between neighbors here at home!
