STERLING FLEECES RANK HIGH AT SONORA WOOL SHOW

Sterling County ranchers walked away with the two main classes of wool prizes in the Sonora Wool Show Wednesday and a Sterling boy Clinton Hodges, took the Grand Champion Ribbon for his single fleece—a fleece from an Aged Registered Rambouillet Ewe. His fleece took first in that class, before the judging for the grand championship.

Wool from the Mrs. Ruth Mendenhall ranch took first place in the Fine Wool Rambouillet Yearling Ewe class; Foster & Hildebrand placed second; and Tommy Foster was third.

In the Aged Rambouillet Ewe class, wool from the Reynolds Foster ranch took first with his brother, Ross Foster, placing second.

Byron W. Frierson, County Agent, phoned this information to the News-Record soon after the judging.

Going to the Sonora Show with Frierson were Ewing Fowler McEntire, Quinton Welch and Larry Glass.

It seemed to be Sterling's Show most of the way, and considering that 263 entries were in the show Sterling wool really did well.

Clinton placed a 4th on Registered Rambouillet Bucks, and 7th on Registered Rambouillet Ewes in the boys' division.

LIONS CLUB MEETING

Rev. Lester Collins of Dallas, visiting evangelist here for the 1st Baptist revival, spoke to the Lions Club on "Separation That Will Be Eternal" at the regular Lions Club luncheon Wednesday at the Community Center.

Guests at the luncheon were Rev. and Mrs. Collins, Rev. and Mrs. C. D. McEntire, Rev. James Black, Mrs. Henton Emery, and Miss Marvin Frances Foster and Bob McGee.

The president told of the Sterling County fleeces winning at the Sonora Wool Show. It was announced that the U. S. Army Recruiting Service would show combat films made during the last war, at the luncheon next Wednesday.

Baptist Revival In Progress at Tabernacle

Rev. L. B. Collins of Dallas, who in the past has held two revivals here, is doing the preaching for the Baptist revival now in progress at the tabernacle. Services are being held daily at 10:00 a. m. and 8:00 p. m.

Rev. C. D. McEntire, pastor of the church, is leading the song services. A cordial welcome is extended to all to attend.

The revival will close out with the Sunday evening service.

Mr. and Mrs. T. C. Murrell left last week for a visit with relatives in California. They stopped at Hot Springs, New Mexico for a few days before going on to California. They will sightsee in Colorado on the return trip.

OUR WASHINGTON NEWS LETTER

By Congressman O. C. Fisher

Following a congressional investigation the State Department has announced the "Voice of America" programs will be revamped in the future. The shameful abuse of those broadcasts was shocking when revealed. That program has been prepared by a broadcasting company after it became apparent that the State Department itself was doing such a miserable job.

Unless a better showing is made in the future of beaming the spirit of America to the world, it is my prediction the venture will be abandoned. It can serve a useful purpose, but only if properly conducted.

"Average Congressman"
Since the Republic was established it has been a good old American custom to poke fun at Congress now and then. Will Rogers took good-natured delight in doing so, yet in his serious moment he referred to the Congress as the real "bulwark of our freedoms."

The other day, in the absence of something to do, I suppose, a writer for the New York Times, set out to make an appraisal of what an average congressman is like. He found that the average Congressman is 52 years of age, 5 feet 9 inches tall, weighing 184 pounds, married 24.4 years, having 2.1 children, living in a modest home, owning 7.5 suits and 1.2 cars, eating simple lunches and smoking 22 cigarettes a day, having $\frac{3}{4}$ of a college diploma and reading 18 books a year—these added together, make the average Representative.

And the average Senator conforms to the same pattern more than might be expected. He has been to school more. Eleven Senators—or 11.4 percent—hold Phi Beta Kappa keys for scholastic achievement, while only 17—or 3.9 percent—of the House have been so honored.

Both groups, the Times writer finds, are "family men." The average Senator has been married 30 years, the average Representative 21.5 years. No Senator of the present Congress has been divorced; only 6 Representatives out of the 435 are known to have been through divorce courts. Only 20 percent of the Senators and 40 percent of the Representatives find it feasible to save any money out of their salaries. Six Senators are considered millionaires; no Representatives rate that title.

Two-thirds of the House and one half of the Senate habitually use tobacco. One out of 5 members plays a musical instrument. The average Congressman puts in an eleven-hour working day.

This is the last week of the session before the recess begins. There will be one additional Newsletter and we will try to summarize the work of the past six months. When the session ends I plan to open an office in the Federal Building at San Angelo, as is my custom each year and, as I do each year, will visit over the district and report on the Congressional session.

Thomas Jefferson's home is called Monticello.

Annual Alumni Banquet And Dance Set For Next Monday Night

Rev. Ross Welch, now of Robert Lee, and member of the graduating class of 1928 will be the principal speaker at the Sterling City High School Alumni Banquet next Monday night in the Cactus Hotel, San Angelo. The annual affair will be held in the ballroom there.

Ansel Reed will give the invocation; Ross Welch follows with the welcome; Carolyn Foster will respond. Jacqueline Everitt will play special music, and Mrs. Teddy Johnson (Peggy Hinshaw) will give the history. Following the roll call new officers will be elected. Mrs. Lester Foster is the present president.

The affair begins at 7:30 with the banquet, followed by a dance in the ballroom. The Alumni Association will celebrate its 20th year as an organization.

Don't miss it! \$5.50 per couple for banquet and dance. Those who are not graduates of Sterling Hi may attend the dance for \$3.50 per couple.

Tickets may be secured from Mrs. Lester Foster, Mrs. Tommie Johnson or Mrs. Joe Emery.

Due to the observance of the 20th anniversary of the organization, it is expected that a large crowd will be present.

Alumni from over the state, as well as from out of state usually attend the affair.

Make your reservations now!

A new pine floor was put in the post office building this week. The floor was put on over the old floor. The building is the property of W. L. Foster and J. T. Davis.

LOCAL ARMY RECRUITER EXPLAINS OPERATIONS OF THE COMBAT ARMS

The Infantry, Artillery, and Armored Cavalry, which combine to provide the "sharp cutting edge" of the Regular Army's wartime might offer challenging opportunities to alert, intelligent and ambitious young men, Corporal J. C. Tyra pointed out here today.

"Despite the potentialities of the atomic bomb and the forecast of pushbutton warfare, wars still are won by ground soldiers," he said. "Scientific advances in the art of war have not diminished the need for a strong and well-trained Infantry, Artillery, and Armored Cavalry."

Many important career fields are available in each of these combat arms, Tyra explained, and the Army now is training thousands of technicians—in specialties which will qualify them for important work.

"The work of a combat soldier isn't easy or soft," he said, "but it's vitally important to the peace and security of America. There's satisfaction in it; the pay is better than in most civilian jobs; and there are other things which money can't buy, such as rugged clear-eyed health and the lasting companionship of real men."

He explained that the Infantry is training men not only for motorized and dismounted operations but also for airborne mountain Artillery, and amphibious warfare. In addition to fighting men, he said, the Infantry needs technicians trained to practice their specialties in each of these types of operations.

Tyra explained that the Artillery affords exceptional opportunities for men interested in radar and other branches of electronics. In addition to these opportunities, men are now being trained for service in Field Artillery, Coast Artillery, and Antiaircraft Artillery batteries, and other tactical units.

The Armored Cavalry, which combines the mobility of motorized troops with the firepower of heavy tanks and the dogged spirit and determination of the Infantry, offers opportunities to men interested either in ordnance specialties or in automotive mechanics.

Men who qualify for any one of these Army Combat Arms, he added, may apply for assignment to their choice of several famous fighting divisions in this country or overseas. Openings now exist, he said, in some of the Army's top units, especially among the forces occupying Japan and Korea.

D. D. (Levi) Garrett has bought out R. P. Davis's barber shop here and is operating it. Davis bought a farm in Arkansas and moved there last week.

Much Conservation Work Underway Under 1948 AAA Practices

Work on eradication of cedar seems to top the list at present on elimination of destructive plants on range land. Jobs have been completed to meet AAA specifications on the Bill and Lee Reed ranch, W. R. Davis & Son, Neill Munn ranch, and the Hal Knight ranch.

John and C. J. Copeland have completed around 100 acres of cedar eradication on their place.

Cedar eradication is being started on the W. B. Welch ranch, Mrs. Nora Gee ranch, Riley J. Welch ranch and on the Jeff Copeland estate.

Pear eradication has been completed on the Wayne Harris ranch, the C & M Ranch Co. place, and the E. E. Barbee ranch, all totaling about six and one-half sections.

Riley King, Earl Bailey, Fred Council and Mrs. Margaret Smith are at work, or beginning to make definite plans for eradication of pear on their ranches under the AAA program.

Harold McCabe has completed 2055 feet or large ridge type terraces on one of the fields on the Matlock place out on the Divide.

Claude Collins has completed a 3043 cubic yard earthen dam for livestock water and erosion control. Mrs. Nona Grosshans applied 9,000 pounds of 20% Superphosphate on alfalfa, which 6500 pounds was applied under AAA control.

Several ranchers have made request for mesquite eradication spreader dams, terraces, water wells and deferred grazing. Most of them plan to get to the work in the very near future.

AAA has assisted in the payment of the work carried out on these ranches up to 50% to 60% of the cost. Additional cost is being paid out of the rancher's pocket.

Much work is yet to be done, says Mrs. Roxy A. Brock, Administrative Officer of the Sterling County AAA, and before any work is started the rancher must have a WRITTEN APPROVAL in his hand in order to receive payment for the work carried out.

Films At Community Center Friday, June 25

The U. S. Army Recruiting Service will give a picture show program at the Community Center building next Friday night June 25 at 8:00 o'clock, it was announced this week.

Corporal J. C. Tyra, who made the arrangements, said he would have about a two-hour program, including comedies, main feature, etc.

The showing is free and open to the public. Everyone is invited. He said that the films are the kind the Army shows at YMCA's, hospitals, and other gatherings all over the country. Usually one film on Army training is shown, but the program is primarily one of entertainment.

So, for a free show, be at the Community Center next Friday at 8:00 p. m.

The show will last approximately two hours, said Tyra.

Daughter To Mr. and Mrs. L. C. McDonald

A daughter, named Jeanie Lynn, was born to Mr. and Mrs. Chesley McDonald last Friday afternoon at 3:15 p. m. in the Shannon hospital in San Angelo. The McDonalds have two other children, Don, 5, and Cecelia Ann, 2½.

Grandparents are Mr. and Mrs. Bill Reed of Sterling and Mr. and Mrs. J. C. McDonald of Pelly. Mrs. J. O. Longshore and Mrs. Neal Reed are great grandmothers.

COMMISSIONERS RAISE LAND VALUES FOR TAXES

The Sterling County Commissioners Court sat on a board of equalization Monday of this week at their regular session of court.

The court raised valuation on land acreage 50% above the present assessed value.

Al Booker was fined \$20 and costs in County Court last week on a cold checking charge. He is laying out the fine and doing some work around the courthouse and jail house yards.

Anderson-Prichard And Vickers No. 2 Foster Well Due To Test

Anderson-Prichard Oil Corp. and Vickers Petroleum Company was believed by interested observers Monday to have drilled enough section to insure their second Wichita-Albany lime producer in southeastern Sterling County.

The companies' No. 2 Miss Marvin Frances Foster topped the pay at 4,195 feet, correlated 45 feet high to No. 1 Foster, the discovery, 330 feet to the north and 990 feet west. It cored from 4,195 to 4,239 feet with a 50 per cent recovery of soft, saturated lime indicating pay from 4,201-4,239.

Following coring to 4,280 feet, a Schlumberger survey was made. Casing is to be run preparatory to testing. Location is 330 feet from the south, 1,650 feet from the west line of section 12-15-H&TC.

No. 1 Foster was completed late in April with a daily flowing potential of 946 barrels of 26.5 gravity, pipeline oil through casing perforations at 4,252-4,305 feet. The section had been washed with 1,000 gallons of acid. The well is 7½ miles south of Sterling City.

Plymouth No. 1 J. C. Reed and others, slated 5,000-foot wildcat in northwestern Sterling County, C N E SE 42-2-H&TC, is drilling at around 2,700 feet in lime.

Miss Marvin Frances Foster of Dallas is here for a visit and she wants to see what the Anderson-Prichard and Vickers No. 2 Marvin Frances Foster oil well tests out when the test is run, probably Friday (today.)

HUMBLE OFFSETS STERLING FOSTER STRIKE ON SOUTH

Humble Oil & Refining Company plans to start at once a south offset to Anderson-Prichard and Vickers No. 1 Miss Marvin Frances Foster, Wichita-Albany lime discovery producer in southeastern Sterling County.

The scheduled 4,500-foot rotary test will be No. 1 R. T. Foster, 660 from the north, 330 feet from the west line of section 19-15-H&TC. It will be 1,320 feet south and 330 feet west of the pool owner, which produces through casing perforations at 4,252-305 feet.

HORACE DONALSON NEW SANTA FE AGENT HERE

H. F. Donalson, former Santa Fe agent at Carlsbad and Water Valley bid in for the agent's job here and was given the assignment. Horace was agent at Carlsbad for several years and the first part of this year he moved to Water Valley as the agent. When D. Hall bid for the Carlsbad job, Horace put in a bid for Sterling City.

Horace operates the Palace Theater here, and has a new home almost completed in the north part of Sterling City.

W. L. Foster Still Ill

W. L. Foster, who has been the past month, is still in a serious condition at his home here. Mr. Foster has some good days and some bad days, and is not out of danger yet.

McEntires Still In Hospital

Mr. and Mrs. George McEntire, who underwent painful injuries in a car wreck near Broome several weeks ago, are still in a San Angelo hospital. They will be confined there for quite a while yet.

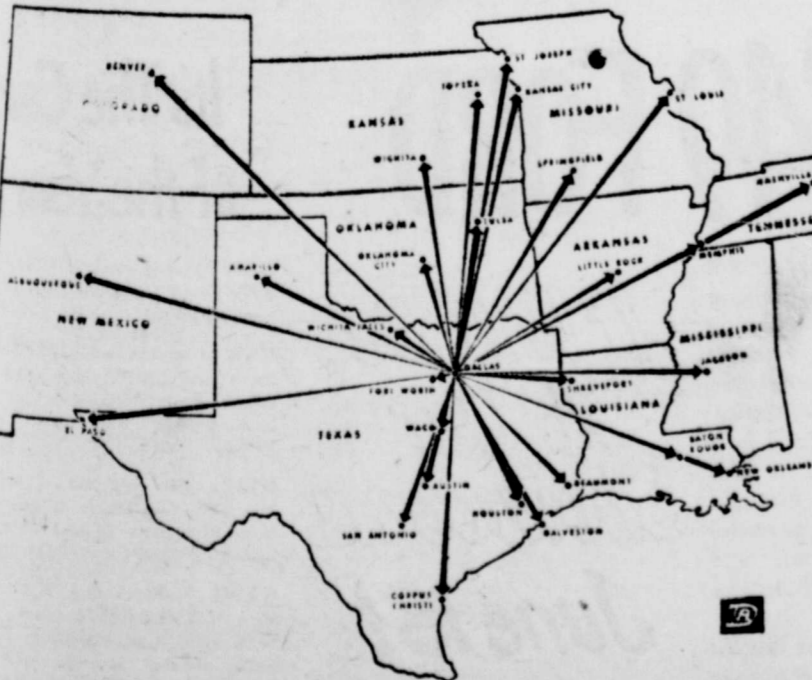

Bob Brown Out For County Treasurer

To The People of Sterling County: I have decided to try to be elected County Treasurer. I will not try to tell about my past as most of you know me, even better than I know myself. You know the good as well as the bad. But I hope when you go to cast your vote you can think of enough good to cause you to leave my name on the ticket for which I shall feel grateful as long as I live.

Sincerely,
BOB BROWN.

Uncle Gid Ainsworth underwent another operation on his leg last Friday in the Shannon hospital in San Angelo. He is doing as well as could be expected.

Accentuating Importance of Southwest

Attention of business and financial leaders throughout the country has been focused on the Southwest as a result of establishment by the Wall Street Journal of a Southwest edition, printed in Dallas. It contains regional business news, but most of its content is identical with the issues published in New York. This is achieved by constant leased wire contact. The Southwest edition of the famous national daily newspaper, which features full reporting and analysis of all economic news and trends, provides day-of-publication service to nearly all 12,000 subscribers in 10 states.

Sweets For Later On

By BETTY BARCLAY

These are unpredictable days. Food preservation is as important today as it ever was. Tasty preserves, jams and jellies in the emergency cabinet are now MUSTS.

Start with rhubarb and strawberry conserve when these fruits are at their peak season. Here's a recipe which blends the lusciousness of these two fruits into a conserve you'll be proud to serve next winter. The combination of corn syrup and sugar gives a nice texture and sheen, and just the right degree of sweetness to this conserve.

- Strawberry Rhubarb Conserve**
 2 cups (½ pound) prepared rhubarb
 1 cup seedless raisins
 2 cups sugar
 1 cup Karo Syrup, Red or Blue Label
 1 large orange
 4 cups (1¼ pounds) prepared strawberries
 ½ cup blanched walnuts, coarsely chopped

To prepare rhubarb, wash and cut into ½-inch pieces. Place in deep kettle. Add raisins, sugar and Karo Syrup. Remove peel from orange and cut away one-half of the inner white part. Chop peel and add to rhubarb. Cut orange pulp, entirely free from membrane, into small pieces and add to rhubarb. Meanwhile, wash about 1½ quarts fully ripe strawberries. Drain and hull. Add to rhubarb mixture. Bring to a boil, stirring occasionally. Reduce heat; simmer, stirring occasionally until thick, about 30 to 35 minutes. Remove from heat and cool about 5 minutes. Blanch walnuts by covering with boiling water for about 3 minutes, then drain and cover with cold water. Drain; chop and add to rhubarb mixture. Pour Conserve into hot sterilized glasses. Paraffin. Makes 7 glasses (6 fluid ounces each).

Jelly and Preserve Canning to Increase

Housewife Now Has Sugar to Satisfy Craving for Sweets

The high cost of jellies and preserves is a problem which the housewife can now solve by putting up her own this summer for sugar is more plentiful and the price is not too high. So get ready your supply of sugar, jelly glasses and fruit jars and make jellies and preserves along through the summer at every opportunity. You'll be surprised how the number of containers filled with spreads will mount and be gratified when they are an easy means of satisfying your family's large sweet tooth this winter. The Ball Blue

Book, famous home canning guide, contains dozens of good recipes and complete instructions for making jellies, preserves, marmalades, butters, jams and conserves.

Here is one of the Blue Book's excellent recipes for Berry Jams including Blackberry, Dewberry, Loganberry, Raspberry, Boysenberry, and Youngberry Jams. Wash and crush berries. Add one-fourth cup water to each quart berries. Cook until soft. Press the cooked berries through a strainer to remove seed (If preferred, the seed may be left in.) Add from three-fourths to one cup sugar to each quart berries or from three-fourths to one pound sugar to each pound berries. Boil until thick. Pour, boiling hot, into hot Ball Jars; seal at once.

LOST—Black billofold, zippered on 3 sides. Contained driver's license, social security cards and money. Return to Garrett & Baileys. Dorothy McCune.

FOR SALE—6 room, modern home, good location, butane gas, venetian blinds, water heater, new pressure pump. Immediate possession. See M. C. Mitchell

FOR SALE—My home and 14 lots. John Green.

FOR SALE—One air conditioner in good shape. Breakfast room suite, drop leaf table and 4 chairs. Mrs. Sterling Foster, Ph. 108

NEED A CARLOAD OF FEED

The local Santa Fe Agent, Jack Andrews, said the agent at Ben Franklin, Texas, said that feed—such as hay, corn, sorghum, etc., by the car load, could be bought there now cheap. If anyone wants any of that kind of feed, they can write the agent there for information and prices.

Watermelon Rind Preserves for the Right Touch

—Photo courtesy Ball Bros. Co.

Watermelon Rind came into its own as high style in the little extras which make a meal something special when the preserve recipe was introduced and perfected. It seems strange there was a time when watermelon rind was thought as worthy of salvage as old shoe leather. Now the guest who bites into a crisp piece of watermelon preserve looks at his hostess with new respect and admiration. "Just the right touch to this fine meal," he is apt to pronounce.

That crisp texture is something to be prized. To obtain it, soak the rind two or three hours in lime water to cover. The lime water is prepared by adding one tablespoon of slaked lime (calcium oxide) to each quart of cold water. (If you prefer a texture more like that of preserved pears, soak the rind overnight in salt water—two tablespoons salt to each quart of water.)

These hints and the following recipe

for Watermelon Rind Preserves are from the Ball Blue Book of home canning:

- 2 pounds watermelon rind
- 1 tablespoon ground ginger
- 4 cups sugar
- 2 lemons
- 2 quarts water

Cut the white part of the rind into pieces of uniform size and shape. Soak in lime or salt water. Freshen in two or more changes of cold water. Sprinkle ginger over rind. Cover with water and boil 1½ hours. Drain and drop into cool sirup made with the sugar, two quarts of water, and juice of one lemon. Boil gently one hour. Add the second lemon, sliced thin. Continue boiling until rind is tender and the sirup thick as honey. (If the sirup gets too thick before the rind is tender, add a cup or more of boiling water.) Let stand several hours. Pack into hot Ball Jars. Process 15 minutes at simmering.

From where I sit... by Joe Marsh

How to Live Longer

Someone asked Pappy Miller last week how he stayed so spry at ninety. Pappy told him:

"Well, sir—when I work, I work hard. When I set, I set loose. When I think, I go to sleep."

According to Doc Hollister, that formula isn't far amiss. "Hard work," says Doc, "never wore out anyone before his time, providing he knew how and when to relax."

Doc himself works overtime, with his daytime patients at the office, and his evening calls. And

when he gets home he takes it easy with a mellow glass of beer and chats with the missus until it's time to go to bed.

From where I sit, relaxing is a fine art—especially in these tense, fast-moving times. And there's nothing like a temperate glass of beer—enjoyed with pleasant company—to restore that easy frame of mind that one needs after a hard day's work.

"When You're Pleased, We're Happy"—Cliff Wiley
BIG SPRING, TEXAS

You can't buy it at a store—
 You can't carry it in a bag—
 It's your biggest bargain—
 It's YOUR ELECTRIC SERVICE!

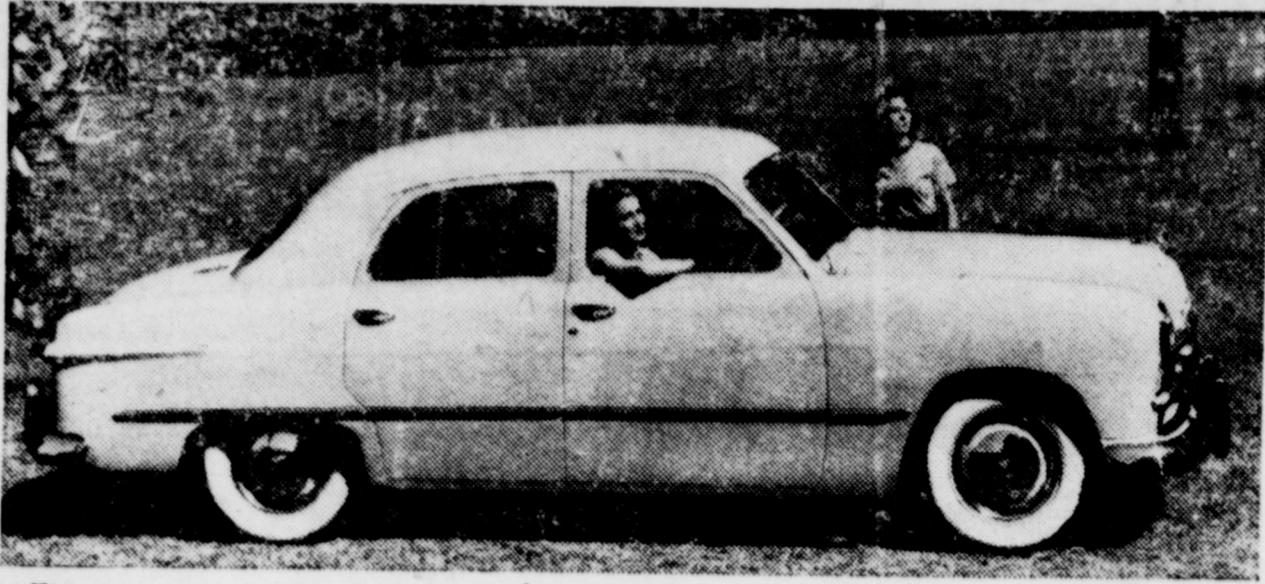

You don't buy it at a store—you can't carry it home in your shopping bag—yet it's one of the biggest values in your family budget. It's your electric service, of course!

Yes, although it costs the West Texas Utilities, your electric service company, more to supply it to you—and such costs are still rising—you're nevertheless now getting electric service at rates 17 per cent less than you did ten years ago—if yours is the average family.

Why is your electric service so big a value? One reason is that more people are using more and more electricity. Another reason is the constant effort which the experienced personnel of your service company makes to keep your electric service a bargain.

West Texas Utilities Company

New 1949 Fords on Display Today

The revolutionary new Ford four-door sedan for 1949 is lower, wider, roomier and provides nearly 25 per cent more visibility.

SEE THEM AT HEFLEY MOTOR COMPANY TODAY

The new 1949 Ford four-door sedan is shown here. Eliminating much of the chrome finish, Ford has built a roomier more exacting car, with the new flowing lines giving a semblance of roominess, bigness and safety. Martin Reed said two of the new models will be on display at the Hefley Motor Company today, June 18. This car will be shown to the public all over the nation at the same time.

Queen Victoria of England became Empress of India in 1877.

ATHLETES FOOT GERM. KILL IT IN ONE HOUR. YOUR 35c BACK

If not pleased. The germ grows DEEPLY. To kill it, you must REACH IT. Get TE-OL at any drug store. A STRONG FUNGICIDE, made with 90% alcohol. It PENETRATES. Reaches more germs. Today at DEAL DRUG COMPANY

SWING OF SOUTHWEST FARM MARKETS

By United States Department of Agriculture

(USDA)—Livestock netted gains at southwest markets last week, poultry and eggs held steady while grain and cotton declined slightly, according to the Production and Marketing Administration, U. S. Department of Agriculture.

Grain markets opened this week at slightly lower prices than the preceding Friday. However, compared to the previous Monday, wheat and oats were only down 2 cents while milo and barley were up 2 cents. Corn held steady.

Southwest egg and poultry markets opened Monday at the same steady pace kept since the last of May. Farm run eggs ranged from 36 to 38 cents per dozen with some deficit areas paying 40. Fryers were slightly stronger at 40 to 42 cents per pound. Light hens brought mostly 22 to 24 cents. Old Tom turkeys, U. S. No. 1 quality, were quoted at 33 to 36 cents and hens at 38 to 41.

More cattle arrived at southwest markets last week than in several, but failed to depress prices. Most slaughter classes were steady to higher with several new peaks for the year reported. Monday's trading held this strength. Common and medium cows brought \$17.50 to \$21 at Houston; \$17.50 to \$21.50 at San Antonio; \$18.50 to \$21.50 at Fort Worth; \$18 to \$22.50 at Wichita. Oklahoma City paid \$25 to \$26 for odd lots of good cows. Denver sold common to good cows at \$21

to \$25.

Hog prices advanced 25 to 75 cents per hundred pounds at southwest markets last week with Monday's prices even stronger at some places. Top butchers realized \$24.50 at San Antonio; \$24.50 to \$24.75 at Fort Worth; \$25 to \$25.50 at Oklahoma City and Wichita; and \$25 to \$26 at Denver. Sows ranged from \$18 to \$20.

Third largest sheep and lamb run of the year last week left no mark on rising prices at southwest terminals. Spring lambs continued to make spectacular gains of \$2 to \$3 per hundred pounds. Denver paid an all-time high of \$32.50 Monday. Best springers realized \$30 to \$31 at Wichita, \$29 to \$30 at Oklahoma City, and \$28 to \$30 at Fort Worth. San Antonio turned medium slaughter lambs and yearlings at \$18.50 to \$21. Ewes ranged from \$8.50 to \$10.50 per 100 pounds.

Heavy shipments of potatoes, onions, tomatoes, melons peppers and corn rolled away from southwest producing areas this week at slightly lower prices due to increased supplies and slow demand. Onions at North Texas loading sheds brought mostly \$2.75 to \$2.90 per 50-pound sack for U. S. No. 1 Crystal White Wax. East Texas tomatoes netted growers around 4 to 6 cents per pound. Potatoes were quoted at \$4 to \$4.25 per 100 pound sack for Texas Triumphs, U. S. No. 1's, size A at Fort Worth, where Black Diamond watermelons best quality, realized 2½ to 3 cents per pound. Early Wheeler peaches cashed mostly at \$4.00 per bushel.

Monday's cotton markets closed higher than the previous Friday, but compared to a week ago, cotton was off about \$2.50 per bale at 37.25 cents per pound at Dallas.

Nathanael Green was an American general in the Revolutionary War.

Harvard University is in Cambridge, Mass.

USE COMMON SENSE ON THE WATER
DON'T BE A "LEM" LUBBER

He's the fellow who spoils everybody's fun (his own included) because he doesn't use plain common sense around boats. "Lem" Lubber, for instance, is often so thoughtless he's guilty of **OVERLOADING.**

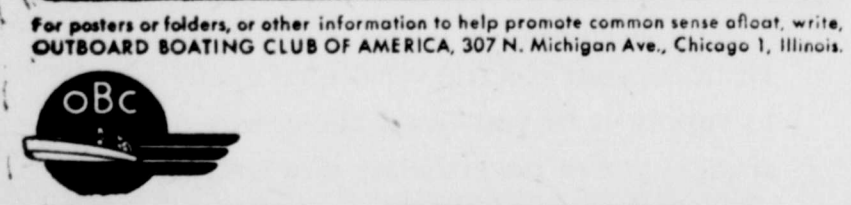

For some reason, he thinks there isn't a fish to be caught in the lake unless the fisherman is **STANDING UP.**

Or he thinks he's not having fun unless he's "buzzing" the swimming float. His favorite sport is **SHOWING OFF.**

You can have more fun this season if you use **COMMON SENSE AFLOAT.** Enjoy yourself safely.

Don't be a "Lem" Lubber

For posters or folders, or other information to help promote common sense afloat, write, **OUTBOARD BOATING CLUB OF AMERICA, 307 N. Michigan Ave., Chicago 1, Illinois.**
