Sterling County voters went to the polls Tuesday and voted strong ly the Democratic ticket. Republicans got only a scant handful of Sterling votes.

President Truman got 244 votes to Dewey's 17 and Governor Thurmond 7.

Governor Jester was top man in popularity. He received 289 votes. Lyndon B. Johnson, Democratic nominee for the U.S. Senate received 238 tallies to Jack Porter's Sam Morris, the Prohibition candidate, got one lone tally.

All the amendments except two,

carried by comfortable majorities. Amendment No. 7, which called for the abolition of the state ad valorem tax, and No. 8 calling for retirement and compensation of judges and commissioners of appellate courts and judges of district courts were defeated. No. 7 lost by six votes-76 for to 8 2against and No. 8 lost by 33 votes-63 for to 96

It was normal to assume that the County would go Democratic in a big way, but the Republicans got more votes than was generally believed they would.

A new flame may be hot stuff, but the old flame knows what's cooking.

Walt Disney has recently produced an animated educational film to prepare teen-age girls for womanhood. This film is available, free of charge, for use in school classrooms, for organized groups of teen-age girls ,and one for Parent-Teachers organizations.

One way to take in a lot of money in a hurry is to sell at a loss. Bob Knetzer of Edwardsville, Illinois, tried to get rich that way. He sold automobiles for less than he paid for them. Within 30 to 60 days after a customer deposited \$1,00 the car was delivered to the customer at list price. Bob got the car in the black market anl lost money on the deal. But the customer was very happy and told all his friends about how Bob would give you any new car for list price, just deposit \$1,000 and wait a month or so. So a lot of peole came in and made \$1,000 deposits. The process was repeated and each of the new customers told all his friends. In a short time people from all over the United States and even foreign countries were depositbobin, from \$89.50; Consoles, round ing \$1,000 with Bob. He had piles of money by selling at a loss.

You ask, what about these people expecting cars. Bob probably worried about that, too, sometimes. But still the money came flooding in and he thought maybe with all that money he could make a lucky speculation and make enough to bail himself out. Now comes the sad part. Bob's investments lost money in big batches. One deal cost him \$85,000. Those Hollywood beauties he had flown in by plane to his fancy parties cost money, too. Finally, the bubble burst and now Bob faces jail.

The whole crazy business lasted about two years and about five million dollars passed through Bob's

From where I sit ... by Joe Marsh

"Husbands, Wives, and Marriage"

Maybe you read that survey pubfished recently in a national magazine, entitled "Husbands, Wives, and Marriage."

It showed that among happily married couples, those who criticized themselves outnumbered those who criticized the other person. Among unhappily married couples, it was just the oppositeeach one tended to criticize the other.

That's the way it is in our town, as I guess it is in yours. Criticism, whether it's of a wife's taste for hats, or a husband's taste for pipe

tobacco and an evening glass of beer or ale, is a sure start towards unhappiness.

As for what made happy marriages, companionship within the home was listed most important of all. And from where I sit, a husband and wife who can spend an evening by the fire-with nothing more exciting than a mellow glass of beer, and a friendly conversationare a truly well-matched couple!
