

## Sterling Annual Rodeo June 23rd and 24th

The Sterling City Annual Rodeo will get under way here next Thursday afternoon with the parade and free barbecue. The rodeo will follow at the rodeo grounds on the ball field. The free barbecue will be given at 5:30 p. m. in the City Park. The rodeo proper will begin about 8:00 p. m.

### Matched Roping

A matched roping has been scheduled between Lawrence Davis of Big Spring and Clay Mann of Colorado City. They will rope four calves each night, or 8 together.

### For Amateurs This Year

This year the events will be for amateurs. No professionals will be allowed to participate. Included among the events will be bronc riding, bull riding, bull dogging, barrel races, calf roping, and the matched roping.

Extra pens, feed and watering facilities and 300 new bleacher seats are being added.

The senior class of the high school has the concession for ice cream, candy, etc. at the affair.

The U. S. Army Recruiting Station of Big Spring is furnishing a public address system for the event.

### Goats Wanted Now

The barbecue committee wants anyone who will donate goats to bring them in now. They should be ready soon, said Jim Butler.

About thirty head are wanted.

### Dance Each Night

There will be a dance each night at the school gym following the rodeo.

### Party This Year

The rodeo is being held somewhat earlier this year because beginning on July 1, the athletic field is to be sodded. A well has been drilled and a sprinkler system has been put in for the sodding. All profits after expenses of the rodeo will go to the school for improvements.

### Covering the County"

Byron W. Frierson, Sterling County Agent

Gene Smith, Clinton Hodges, Joe Davis and Henry Bliznak attended three-day 4H Club camp with last week at Lake Buchanan. It was the best camp I ever attended.

About 100 boys and their county agents and adult leaders were there. The Sterling group placed third in the grass contest which was held during the camp. It was the high point man on the team.

.....

The chloradane which was sprayed here in town recently did a good job of knocking out the flies. It may not last as long as it usually would have due to the large amount of rain that we have had. Men and others who furnish spray machines for the job were North Durham, Roland Lowe, John Ed, Temp and Forrest Foster, Roy Foster, Roy Foster, Claude Colson, Fred Hodges, Lester Foster and Tommy Humble. About 25 men did the application job. I won't attempt to list them for I will miss somebody. They do an excellent job and their work was appreciated.

.....

Every resident of Sterling City should assume the responsibility of attempting the control of flies around their own premises. You do it to your own families. If you doubt this, just ask any physician how important he thinks it is. Here are some suggestions you can use if they are worth anything to you. 1. Lime your open toilets daily. Keep a sack of lime handy. Do away with them entirely if circumstances will allow it. 3. Keep tight, fly-proof cover on your garbage cans. 4. Keep barns, pens, and chicken houses cleaned often. Use a good insecticide often in spraying around outdoor toilets, garbage cans, barns, shrubs, and other place where flies breed. 6. See that no stagnant water is available for mosquito breeding. Put oil on any pools that can't be drained. 7. Make use of weekly trash removal service if it is available.

## LIONS DISCUSS NEW CLEAN-UP CAMPAIGN

Another spraying of the town, this time with DDT, was discussed at the Lions Club luncheon Wednesday. The county is furnishing the money for the insecticide this time, but volunteer labor will do the job as before. Dr. W. J. Swann, county health officer, said that he thought that the spraying should be redone not later than three weeks from the first. The first job did a real bang-up job of killing the flies but heavy rains have dissipated the chloradane. It is suggested that the insecticides be alternated, in case any flies develop resistance to one of the insecticides.

Men and spray machines will be needed again this week end to do the job. Committees are getting the sprayers lined up, but labor is needed. Anyone wanting to help should be at the courthouse well early Saturday morning.

Swann said the flies were on the run from the first spraying and we ought to keep them on the run.

### TB X-Raying To Be Done Here

Dr. Swann said that on June 21 a person from the State Health Department would be here at the courthouse to meet with citizens in a mass meeting and see if the town wanted to have an X-ray campaign for TB diagnosis. The X-rays are free and they are given to get early diagnosis of TB.

If you want to have such a campaign here be at the courthouse on June 21 at 10 a. m.

## Graduates From Tech

Winston Churchill, son of Mr. and Mrs. M. E. Churchill, graduated from Texas Technological College in Lubbock this spring term.

A 1942 graduate of Sterling High, Winston entered Tech in the fall of that year.

He spent three years in the Navy and served in San Diego, San Francisco, Samar, Leyte and Manila.

He was the recipient of the Asiatic Pacific ribbon, the Philippines Liberation and American Area Campaign decoration and the World War II and Good Conduct Medals.

In the fall of '46, Winston re-entered Tech where he was a member of the Student Council, Double T Association, three year varsity basketball letterman, Tech Chamber of Commerce, Saddle Tramp Organization and Tech War Veterans' Association.

Winston received a B.S. Degree in Physical Education, and plans to coach in September.

John Gay of George West spent the night with Homer Weimer last Thursday night and the two left last Friday to work in the wheat harvest near Dalhart.

sprayed with 2% chloradane. This is a good insecticide, but please, if you use it follow manufacturers directions. Use reasonable precautions with ALL insecticides. This means don't leave them on your body, wash often, bathe good with plenty of soap when you are through, stay upwind when you are handling dust or wettable insecticides, do not wear clothes which are contaminated until they have been washed, and another thing, be sure and wash vegetables thoroughly which have been sprayed with ANY insecticide. Be sure your insecticide is safe to use on your gardens before you apply it.

.....

Dr. Omer E. Sperry from A&M College was bitter-weeding here last week. It appears that this county may become the focal point for bitterweed control experimentation. Three big chemical concerns, as well as Dr. Sperry, are very interested in cooperating with Sterling County ranchmen in this work. They have found ranchmen here to be very cooperative. Some big plans are being made for work next winter and spring in this respect.

.....

I'll be attending the annual agents' conference at College Station when this is published, but will be back June 18.

## Miss Andylene Davis And Weldon Phillips Married Monday

In a double ring ceremony performed at 7:30 o'clock Monday evening, Miss Andylene Davis became the bride of Weldon Phillips. The Rev. B. O. Wood officiated at the service held in the First Presbyterian Church, U.S.

Miss Davis is the daughter of Mr. and Mrs. A. Z. Davis of San Angelo, and Mr. Phillips is the son of Mrs. Minta Phillips of Sterling City.

The bride, who was given in marriage by her father, wore a white marquisette gown fashioned with a basque waist and ruffles extending down the skirt into a train. She wore a finger-tip veil attached to a tiara of seed pearls and orange blossoms and carried a white prayer book topped by a white orchid.

Mrs. B. L. Hise of Houston, matron of honor and sister of the bride, wore a dress of green marquisette designed with a fitted waist and full skirt. She carried a colonial bouquet of mixed flowers.

Serving as bridesmaids were Miss Marie Manitzas of San Angelo and Miss Helen Martin of Sonora, who wore gowns in identical design to the matron's of honor. Miss Manitzas wore an orchid dress, and Miss Martin was dressed in peach marquisette. All attendants wore small illusion caps and short mitts.

Billy Vern Davis, cousin of the bride from Sterling City was best man. Tommy Augustine and Jack Tweedle, both of Sterling City, served as ushers. Candlelighters were Wayne Hudgens, nephew of the bride, from San Angelo, and Billy Hudson of Sterling City.

The church was decorated with baskets of white gladioli and white candles in candelabra. Candles formed an archway for the ceremony which was performed on the 78th wedding anniversary of the bride's grandparents.

Wedding music was given by Mrs. Roy Clary, organist and sister of the bride, who also accompanied J. T. Houston in a violin solo. Floyd Cope sang "Because" and "Oh Perfect Love."

A reception was held in the Masie Clubhouse following the wedding. The table, centered with the bridesmaids bouquets and white candles, featured a four-tiered wedding cake. Miss Berdie Margaret Walker of Abilene, cousin of the bride, cut the cake. Mrs. Chappo Morrison of Ozona, assisted by Miss Louise Kletches, served the punch. Miss Marie Phillips, sister of the bridegroom, presided at the bride's book.

For the wedding trip, the bride wore a navy blue linen suit, navy and white accessories, and an orchid corsage. The couple will be at home in Sterling City following a trip to Denver, Colo.

The bride is a graduate of San Angelo High School and attended San Angelo College. Mr. Phillips who is a graduate of Sterling City High School, served in the Navy for three years. He is employed by the West Texas Utilities Co. here in Sterling City.

Out-of-town guests for the wedding included Mr. and Mrs. D. H. Gefferies, Mrs. Dean Walker, and Mrs. H. W. Hart of Abilene; Jerry Walker, Miss Berdie Walker, and David Page of Coleman; Mrs. Marvin Hensley of Laredo; Mrs. W.P. Smith of Seminole, and Mr. and Mrs. A. P. Smith of Andrews.

### Bake Sale Saturday; Also Fryers and Country Butter

The adult Sunday School class of the Methodist Church will have a bake sale Saturday morning at 10:00 o'clock at the West Texas Utilities office. We expect to have some nice dressed fryers and country butter for sale also.

The purpose of this bake sale is to raise money to send Miss Dorothy Zumwaldt to Baylor University. Miss Zumwaldt is the girl at the Waco Home that the Sunday School class has sponsored over a period of years.

We will appreciate your patronage at this sale.

### 58% OF BONDS SOLD HERE

Anna Lee Johnson, Sterling County chairman for the Opportunity Bond Sales Drive, said this week that 58% of the quota for the County had been sold—a total of over \$6,000 bonds sold.

The drive lasts through the month of June and the county quota is nearly \$12,000.

## U.S. Army Mobile Unit To Be Here July 1

Lieutenant O. E. Alton of the U. S. Army Recruiting Station at Big Spring, said this week that a mobile unit will be parked in front of the courthouse and will be there all day beginning at 10:00 a. m.

There will be officers and men to interview anyone interested in joining the Army or Air Forces. Two sergeants will be on hand to answer questions of service men's families concerning allotments, or any questions dealing with men already in the service.

On the recruiting side, there will be men to interview anyone interested in joining the Army, re-enlisting, WAC's or graduate Nurses.

The unit handles information and details formerly handled by the Veteran's Administration and service officers.

## North Concho River Soil Conservation News

The Supervisors of the North Concho River Soil Conservation District have scheduled a district-wide range field day on Robert Foster's ranch seven miles south of Sterling City. The tour of the ranch will be made June 30 from 2 to 5 p. m. Current growth of range vegetation and composition of range plants growing on several sites will be observed.

The district will use selected areas for close observation to aid ranchers in evaluating range recovery to date. Some 8 to 10 stops will be selected by Range Conservationists assisting the district for these observations. All ranchers and others planning to attend the tour should meet in front of Sterling County courthouse at 1:30 p. m. June 30.

Seven construction plans were approved at the regular supervisor's meeting Monday this week. One farm plan was approved on N. J. Dierschke and L. R. Wilde's 639 acre farm south of Garden City.

Ranch conservation plans were approved on the following ranches: John H. Cox, Gordon Bird, J. E. Bynum, Mrs. James McEntire, Fred W. Allen and Harvey D. Glass.

Applications for planning assistance was approved on the J. L. Glass Estate and Clyde Everitt ranch.

Approval was also given for engineering assistance to Sterling County on the city streets and several other projects.

During the preparation of his conservation plan Harvey D. Glass found that his livestock were taking side oats grama in preference to lower feed producing plants such as needle grass and hairy trioda.

David Glass pointed out a hillside on the Glass Estate where water was seeping out and running over a flat rock. This hillside was found to be good range condition and has a good current growth of grass on the ground. Side oats grama and needle grass are growing as companionate plants on this area. Other top forage producing grasses such as tall dropseed, little bluestem, Canada wild rye, and green spangletop were found on the area.

### NEW PREACHING HOURS AT THE METHODIST CHURCH

There has been a slight change in preaching hours on the Methodist charge. The schedule is as follows:

**Sterling City**—First Sunday morning the Lord's Supper will be administered 10-10:30. Preaching at 8: p. m.

Second Sunday, Preaching 11 a. m. and 8 p. m.

Third Sunday, Preaching at 11 a. m. and 8 p. m.

Fourth Sunday, Preaching at 11 a. m. and 8 p. m.

Fifth Sundays, Preaching at 11 a. m. and 8 p. m.

**Water Valley**—First Sunday, preaching at 11 a. m.

Third Sunday, Preaching at 8 p. m.

**Moon's Chapel**—Second Sunday, Preaching at 3 p. m.

The church is not like a club in that you are supposed to be a member or have a special invitation as guest of some member before attending. The church services are for all who-so-ever will. You have a right to attend any and all our preaching services, Sunday school, Young People's service, etc. Not only do you have a right, but we want you.

Bill Weimer, pastor.

At this season of the year thousands of people, including many Texans, route their vacation travels through the Nation's Capitol. A million people visit the National Art Gallery annually, and Dr. Luther Evans, himself a native Texan and Librarian of the Library of Congress, says more than a million Americans viewed the interior of the Library of Congress last year. Exhibits there include such immortal documents as the Constitution and the Declaration of Independence. An even greater number tramp through the corridors of the Capitol building.

Speaking of the Capitol, the building will be practically closed to sight-seers after July first when construction begins on the re-roofing of the House and Senate wings. The old roofs were condemned some years ago and have been supported temporarily by rather unsightly steel superstructures. While this work is going on the House will meet in a spacious caucus room in the office building and the Senate will carry on in the small room which years ago was the Senate chamber. That was before the Senate wing of the capitol was built. The space was then used by the Supreme Court until 1935 when the new Supreme Court building was constructed. Since the old chamber has been preserved as a historic memento of by-gone days. It was in there that Lincoln delivered his Emancipation Proclamation and Daniel Webster proclaimed the Constitution.

.....

The other day Mr. and Mrs. Louis Joseph and daughter were in town en route to the Rotary Convention in New York. It was their first visit to Washington and they made the most of their stop over.

.....

Col. and Mrs. John White, of Uvalde, with their two children, Jack and Sally, came in from Germany the other day, after a three-year assignment in the occupation zone, and said, "It's wonderful to be home." From here they went on to Uvalde for a three-week visit with Col. White's mother and brother's, including Dr. James N. White of San Angelo.

In Washington the Whites met many relatives and friends. To greet them there were Mrs. White's parents, Col. (Retired) and Mrs. Perry Wainer, who live in California, and Mrs. White's sister, Mrs. Joe Smith, along with the latter's husband, General Joe Smith. The General presently is in charge of the Air Force Plans Division at the Pentagon. The Smiths returned from Germany about a year ago. Over there General Smith had charge of the initial Air-lift program and for several months lived next door to Col. and Mrs. White. Following their brief vacation, Col. White will be assigned to the Air College at Maxwell Field in Montgomery.

Also joining in welcoming the Col. Whites back home were Col. and Mrs. E. M. Hampton, also of Uvalde, along with Col. and Mrs. Beverly Tucker and their daughter, Betty. The Tuckers will soon move to San Angelo. Mrs. Tuckers old home-town, where they will engage in the ranching business.

William F. Mickelson, an architect, of Kerrville, spent most of last week in Washington working with me on behalf of a crippled children's project at Kerrville. We are attempting to acquire some land which the Veterans Administration has declared to be surplus to their needs at the Legion VA Hospital. This would be used as the site for a facility for crippled children and is sponsored by all Lions Clubs of Texas.

Visiting the W. R. Hudsons here this week was Webb's brother, Marvin Hudson of Colorado. Webb and Marvin visited relatives in Austin the first part of this week.

**Behind The 8 Ball**

A tornado cloud, or cyclone, high in the air, was observed over the Sterling Country Monday evening about 6:15 by many people. It was high enough in the air to suit just about everyone.

Observers said it twisted around just like a cyclone is supposed to.

With commission men offering around 23c for calves, wool not selling and lamb prices dropping, it is a good thing that Sterling ranchers are getting good rains all along. They need something to make them feel good these days.

It's almost an oddity when a day passes without some part of the county getting a rain. And with all the moisture already in the ground, an inch rain seems like a 2 incher.

A report came through Tuesday that Webb Hudson was in jail in Austin and needed some one here to go his bail. He wanted Orrie Deal or Tom Onstott to go his bail. Such was the information relayed to us at the drug store.

The interior of the First National Bank here is beginning to look "up-town." The remodeling prog-

ram is really dressing up the bank inside.

With polio cases at an all-time high in San Angelo—more than 150 cases this year, it behooves us here to take all precautions to keep it out of Sterling City.

As the old mother skunk said to her children as the hunting dog approached, "Children, let us spray." We can't spray too much. AND keep our premises free of fly breeding places.

Some time ago a newspaper editor wrote a humorous piece titled, "What is an editor?" Among other things, according to this fellow, an editor "need not have been a judge, but he must have acquired a knowledge of law and court procedure. It is not required that he should have been Secretary of State, but it is mandatory that he should have lived a total of not less than 150 years in India, Europe, South America, Russia, Palestine and China, with side trips to the Solomons and the Aleutians.

"He must have served a term as city manager and it would help if he had served one in prison. It is not essential that he be a scientist, but it will be sufficient if he has a working knowledge of nuclear physics based on a thorough understanding of Einstein's general theory of relativity. He must be a sentimental realist and a cynical crusader. He must have the mind of Machiavelli and the style of Swift, and the heart of a sweet girl grad-

uate."

And finally, according to this fellow, "he must have an uncontrollable hanker to trade his accomplishments for considerably less money than he could make at any other profession."

Your humble ed makes no claim to the accomplishments listed above. We just etruggle along in our feeble way.

Why, we didn't even know enough about nuclear physics so that during the war we got no meaning whatsoever when the office of censorship sent out letters to all editors saying that could not discuss in any manner nuclear physics or chain reaction, etc. We just didn't catch on at all. I wouldn't even know what an atom was if I had met it face to face.

Why I was like Archie in Duffy's Tavern. Archie was telling the negro fall guy on the program about a great "skientist" that was coming to the tavern. They were going to discuss the atom. The fall guy said, "Oh, yes. 'Adam' was the first man. I've heard of him."

Archie said, "Oh, no. That was A-D-A-M (spelling it out.)" "We are going to discuss A-T-A-M and he accented the 'T'."

Also during the war, the office of censorship would send us bulletins saying, "The President is going on another trip. Even if you see him and his party, you cannot mention it in the papers for reasons of security."

Well, sir, we never could guess where he would be going. The time he came through Texas at the beginning of the war, the people of the cities were let in on the secret at the last minute—I'd be as surprised as anybody.

When the first atom bomb fell on Hiroshima, nobody was more surprised.

I had a friend, a doctor in a Texas university. His son was among the first to report at the Oak Ridge plant of the project on the atom bomb. (The boy was working for the Eastman Kodak Co. on their end of operating the plant.) The professor would say to me when I might ask about the boy, "Aw he's working at the new government project in Tennessee," and he would give me a knowing look, and

I would give him one right back—just as if I knew what he was talking about, when all the time I did not know from nothing—as the saying goes.

Ignorance is bliss goes the saw. There are a lot of blissful creatures—one among whom I am which.

On Wednesday of this week we received a letter (airmail) from a woman in Nigeria, Africa. She wants to swap native African goods for some American goods. So you may get the complete idea, we reprint the letter complete, just as written:

Dear honorable Editor/  
In the last magazine I got from one of my uncles, I found your address and name of your world wide newspaper which I thought is one of the nicest. According to the articles written in the paper with clear understanding, I make up my mind to write you to advertise my name in your newspaper.

I am ready to pay any tax which you will impose on me. I will be very grateful if your assistance can be rendered to this. Here is the advertisement.

Mrs. Rafin Ayala of 22 Moshalasi St., Oko—Awo, Nagos, Nigeria will like to correspond with both sexes young or old. I am an African lady, having brown complexion of negress type, 5 ft., 4 in. tall, 179 lbs. in weight, black hair, blue eyes. I have great delight in collecting such articles as tee shirts size 36, anklets, socks size 8, dollar bills, hankies, crepe sole shoes size 8 and also sport shirts size 36. I exchange articles such as carved calabashes, ladies handbags of animal skins, slippers, shoes ebony carvings, African native cloth, coconut, tiger skin turned to slippers, shoes and bags.

Dear Editor/  
Please let me know what you want from Africa and I will mail it to quickly as I receive your letter. I shall be glad if you can advertise this boys name and address.

## FEEDERS' SUPPLY COMPANY

The Feeder Supply Co. is located at 1318 N. Chadbourne in San Angelo. Here they feature Purina quality feeds that are famous for containing the proper vitamins and minerals.

If you are a rancher or farmer, no doubt you are always in need of feed for livestock or poultry. To get the desired results from feeding, you must first be sure you are feeding the right thing. At Feeder Supply Co. you'll find men who are well qualified to advise you on the proper feeds you should use. When you are using feeds that are high in vitamin contents, it is not necessary

to give as much as it would be for feed that is low in vitamins. It is not the amount given that counts, instead it is the nutritive value of the feed you're using. You can save a lot of money on your feed bill if you use only these feeds that are high in vitamins and mineral content.

For all your livestock and poultry feed, remedies and seeds, go to Feeder Supply Co., located at 1318 N. Chadbourne in San Angelo. You are invited to come in and discuss your feeding problems with them. In this "Merchants and Ranchers Review" we are happy to have a firm as this to recommend to all our readers.

## Colomark Paint Co.

Colomark Paint Co. is located at 33 North Chadbourne in San Angelo. This prominent firm features choice patterns in quality wallpaper. They carry a complete line so there is no need for shopping around to find what you want when you trade at this store.

Paint is to a house what clothes are to a person. Don't be one of those persons who dress well but forget their house and let it go in need of paint. A mans home is his castle and he should be proud of its appearance. Good paint not only adds to the attractiveness of a home or building but also preserves and protects the lumber in it.

This reliable dealer in San Angelo features a complete line of DuPont paints and wallpaper. Also Linoleum by the yard. Be sure you see them for all your paint and wallpaper needs. They will be glad to recommend reliable paper hangers and painters that you can depend on to do the work properly.

This Review takes pleasure in recommending this firm to our readers

## Sonotone--The House of Hearing

The ideal hearing aid has often been defined as one which would allow the individual using one to hear as clearly as if his hearing were not impaired. This is a misleading statement. No Hearing aid can make a person with a hearing impairment hear perfectly. However, in many cases the correctly prescribed hearing aid can almost accomplish the utopian ideal.

The rational definition of an ideal hearing aid must be limited in the following. A device which would assist the individual to make use of his or her impaired hearing to the fullest extent for certain specific purposes—speech, enjoying music, control ones own voice, etc.—with a definite setting of the controls for each purpose.

For many years laboratories have been perfecting a hearing aid that measures up to the above statement as nearly as is possible. As a result the Sonotone Hearing Aid comes as near giving perfect performance as is possible.

If you have a hearing impairment, consult your physician, then see your Sonotone consultant at 204 South Oakes in San Angelo, or telephone 3216 for an appointment.

## Chiropractic Clinic

Dr. R. E. Capshaw, Chiropractor has his office at 18 South Irving in San Angelo. Phone 3340 for an appointment.

For more than 50 years chiropractic has been accomplishing wonderful things. That it has endured for that length of time is proof of its worth and merit. It has saved thousands of individuals from a premature grave and has put millions on the road of health and enabled them to become useful members of society.

The practice of Chiropractic is based on the principle of correcting the cause of disease in the body. Disease is effect and every effect must have a cause. Chiropractic contends that the cause of disease in the body is the vertebral subluxation which creates pressure upon nerves and interferes with the normal transmission of vital nerve energy. The Chiropractic objective is to locate the place in the spine where nerve pressure exists, due to vertebral subluxation, and by proper adjustment, to restore the subluxated vertebra to its normal position. Correct adjustment releases the pressure on nerves and thereby removes the real cause of disease in the body.

If Dr. R. E. Capshaw cannot help you he will tell you so. Dr. R. E. Capshaw can also restore abnormal tonsil conditions, without pain, surgery or time lost from work or school.

When you need paper drinking cups or dispensers, see and buy them at the News-Record.

**"Covering the County"**

By Byron W. Frierson, Sterling County Agent

During seasons like the present one, when we are having lots of rainfall and heavy dews, there is a great deal of danger from stomach worm infestation. Moisture and warm weather provide ideal conditions for the reproduction of this parasite.

Sub-Station No. 14 at Sonora recommends the following schedule for the control of stomach worms in sheep: Drench with phenothiazine in the spring (shearing time is an excellent time); feed phenothiazine and salt (10 pounds of salt to one pound of phenothiazine) during summer months; drench with phenothiazine again in the fall (when the lambs are weaned or at shipping time.) The sheep should be watched carefully during a season such as this for symptoms of stomach worm infestation and additional drenching practiced as needed.

A pale watery appearance of the membranes around the eyes and lips is usually a typical symptom. Thus is usually accompanied by a loss of weight or emaciation. Scouring is also a common indicator of stomach worms. In advanced cases bottle jaw (a swelling on the underside of the jaws and neck) and eating of dirt or other material are common signs of this condition.

Lambs should be watched carefully as this parasite will do damage to young animals more quickly than to adults. Adults have had time to build up more resistance and it will take longer to produce the harmful effects.

Every effort should be made to guard against loss from this cause.

FOR SALE—Butane gas water heater. See G. C. Murrell.

**"IS BIGNESS BAD?"**

By GEORGE S. BENSON  
President of Harding College  
Searcy, Arkansas

MANY CRITICS of our American system use big business as a special target for their attacks. According to their charges, big business throttles competition, creates monopolies, maltreats labor, and kills small enterprises. Their attitude toward big business represents more than a natural dislike for bigness in business. It also shows their shrewdness in using the propaganda weapon to destroy our system.

If they should succeed in getting public opinion on their side, it would soon be reflected in legislation which could well destroy this segment of our economy, and eventually turn our entire economy into state socialism.

"Grown Up" BIG BUSINESS is nothing but small business grown up. They grew up because the public allowed them to do so. No business can become big business without public approval. Public approval cannot be bought. It is earned through the hard-work process of competing against scores of other companies and giving John Q. Public a better washing machine, dress, or automobile for his money. As demand for a product grows, facilities must be increased to meet that demand. A business grows as the public with its buying dictates.

As business grows, it becomes more efficient and makes possible real savings to the public. Our \$1,500 mass produced automobile, if built with the tools of 1900, would cost \$50,000. Mass purchas-

ing, production and distribution result in economies impossible in small business.

Public Prosperity LARGER investment provides also the necessary extensive research demanded by keen competition. This huge investment pays dividends to workers, too. Labor-saving tools multiply the productive capacity of the worker and ease the load from his back. This greater production allows him higher pay and shorter hours and puts him in a class far above workmen of any other nation.

Small business has fared well in this progress story. You see, big business has created thousands of enterprises that owe their existence to its production. Without the huge output provided by the automotive industry, the average city would be without its many accessory stores, radiator shops, repair shops, filling stations, parking lots, and garages. Far from being exterminated, small business continues to develop.

Big business has made a striking contribution to our nation's prosperity and progress. As long as it is operated by human beings, there will be occasions for justifiable criticism. However, minor criticisms must not be allowed to destroy the true importance of big business to a growing nation. It is essential to a continued dynamic economy. The public, having created big business, will further prosper by its continuance.

Have you heard Dr. Benson and the radio drama, "Land of the Free"? Check your local station for time.

From where I sit ... by Joe Marsh  
**Don't Fence Yourself In**  
Every spring, Handy Peterson and Easy Roberts patch up the stone wall that separates their farms. They walk along talking—Easy on one side, Handy on the other—picking up the fallen stones and putting them back.  
Afterwards, over a friendly glass of beer, Easy says, "You know, wall-mending is a nice neighborly custom, but we really don't need that wall. We keep it up just because it happens to be there."  
"Yes," says Handy, "a lot of walls and fences and boundaries keep on separating people for no good reason. Maybe we'd all be better off if some of them were torn down, instead of kept standing."  
From where I sit, Handy said a mouthful. Take the "walls of intolerance" that people build up against each other. I like a temperate glass of beer now and then, you may prefer buttermilk—but that's no reason for me to criticize you, or you, me. Let's live and let-live together—making more friends and fewer "walls."

**"HOW TO AVOID POLIO"** \* Be on your guard during the polio months—June to October. Read the simple rules on how to avoid this crippling disease in the informative article in the American Weekly that great magazine distributed with next Sunday's Los Angeles Examiner.

Mr. and Mrs. R. P. Brown visited last week-end in Fort Worth and Arlington. In Fort Worth they visited Mrs. Brown's brother and sister-in-law, Mr. and Mrs. Evan Jones. In Arlington they visited Mrs. Brown's parents, Mr. and Mrs. J. B. Jones, and Mr. and Mrs. Stanford Perrett. Mrs. Brown's sister, Mrs. E. E. Young of Kosse, returned home with the Browns for a week's visit.

**Dear Citizens of Sterling City:**

Have you ever thought of who composes your citizenship? Well, it is composed of your merchants, your lawyers, doctors, school teachers, ministers, and so on. I suppose each of these have first interest in their profession, but I hope no one in Sterling City stop in their own profession. Each is a part of the community and should be interested in the community as a whole. It is true that some people can move from a community and no one will ever know of it unless they happen to see them moving or some one sees it and tells it. However, the community is not the only group that have members like that. I suppose some churches have members that no one knows they are members except the pastor who studies the roll. These persons are not dead. They have just lost interest. If this interest can be kindled, they might make the most

active of the group. I understand Sterling City has about 800 citizens. Now, 800 live, active citizens can make an excellent town.

I have met a few people who did not think ministers were citizens. They are only preachers. They are not to be interested in this world. Their business is to try to get people into heaven. I claim my citizenship. I am interested in both earth and heaven. I hope that I can be a good pastor to all of the Methodists around here and that we can be good citizens and neighbors to the rest of you. We want to be a part of you. We had no part in building this

community because we were elsewhere trying to do our part there. Now, since we are here, we want

to lend a helping hand whenever and wherever we can.

Sincerely yours,  
BILL WEIMER.
