No. 51

"Covering the County"

By Garlyn Hoffman, Co. Agent.

(Editor's note—Hoffman tells how to cook a turkey.)

Are you already thinking about that good Christmas turkey and dressing? If so, you will be interested in the latest on cooking it really juicy and tender. Miss Louise Mason, extension foods and nutrition specialist of Texas A&M College, tells us how to do a wonderful job of roasting it in foil. This is especially good if you don't have a roaster that is quite big enough for your turkey.

You rub the turkey with fat, salt and season it, stuff it if you want to, then roll it in foil. You have to have the heavy duty kind so that there will not be any tiny holes when you get through wrapping. You take a piece twice as long as the turkey, lay the turkey on it lengthwise, bring the foil up over the top of the turkey, and put the edges together and close them together tightly. Now you are ready for the cooking.

You put the turkey in an uncovered pan breast side up . . . no matter if it sticks out a little over the edges. The oven should be preheated to 400 degrees and kept at that temperature until the turkey is done. For an eight to ten pound turkey you cook two and one-half to three hours; an 11 to 14 pound bird from three and a quarter to four hours; a 15 to 18 pound bird from four to four and three-quarters; and a 19 to 24 pound bird from five to six hours. Be sure and watch that time carefully if you don't want your turkey overdone. The last half hour or 45 minutes of cooking you may open the foil and let the juice run into the pan and the turkey brown.

To see if the turkey is done move the leg and thigh joint. If they give readily the turkey is done. Another test is to stick a fork into the meat where the wing is joined to the body. If the meat feels tender and the juices do not run pink the job is done.

This works plenty good as the Noratadata club used it last Monday night.

With eggs so high in price I am sure all chicken raisers are interested in getting their hens to produce as many eggs as possible. The laying flock will produce more eggs during the winter if the owner carefully follows a good poultry management program. Laying hens need about 13 to 14 hours of light a day for maximum production. This can be provided by using artificial lights during short winter days. An inexpensive clock and switch can turn the lights on and off automatically. This is especially good, because regularity is very important when lights are used for this purpose.

The best hens, best housing and equipment will not give high egg production without a good, complete and palatable ration. A good ration comes first, and getting the hens to eat as much as possible is

Gatlin-Campbell Nuptials Set For December 24

Miss Betty Lynn Gatlin of Snyder will become the bride of Bill Campbell on December 24. The ceremony will be held in the First Methodist Church in Snyder on that date.

The bride is the daughter of Mr. and Mrs. Ivan Gatlin of Snyder. She is now a senior student in McMurry College, Abilene.

Campbell, the son of Mr. and Mrs. A. J. Campbell of Oakland, California, is the teacher in the 6th grade here. He has a B.S. degree from McMurry College.

The bride will return to college, following a five-day wedding trip spent in Dallas. Mr. Campbell will return here and finish teaching out this semester. He then will take out preparatory to reporting to the army on February 14 for duty.

Lions Club Luncheon

Clinton Hodges, local 4-H Club boy, who recently won a trip to the National 4-H Club Congress in Chicago, told of his trip at the Lions Club luncheon Wednesday. Clinton won the trip on his scrapbook and records kept on his sheep as a club boy. The Sheep and Goat Raisers Association paid all his expenses. He told of the banquets, the sightseeing trips, and of attending the National Livestock Show while there.

Lion Farnsworth told of the re-roofing job on the Community Center.

There will not be a Lions Club meeting next week. This is the usual custom of skipping the week of Christmas. Lots of members are out of town and it gives the cooks a rest.

CHRISTMAS GREETING ADS

As you will note, most of the merchants of the town have Christmas greeting ads in this issue of the paper. In this manner the merchants are wishing their friends and patrons a gay holiday season, and are expressing their thanks for the loyal support and patronage of the past year.

Have you renewed your subscription to the News-Record yet?

next. It is recommended that flock owners keep mash before the birds at all times, and that they give them a small feeding of pellets at noon and a liberal feeding of grain in late afternoon. Satisfactory production can be obtained however, by feeding all mash, and this requires less labor.

October laying rates were the highest on record, but cold weather always makes egg production stop. It is important to produce more eggs during the fall and winter as records show that prices always rise about seven to ten cents at least during these months.

School Out For Holidays

The Sterling Public Schools were dismissed for the Christmas holidays Wednesday and classes will be resumed January 2, 1951.

This ten-day school holiday is of the usual length for the local schools.

Future Homemakers Christmas Doings

By Marian O'Dell

The Future Homemakers of America, and their guests, met at the school house at eight thirty p.m. on Wednesday night, December 13. They took several cars, and went to different houses singing Christmas carols.

At nine thirty, they returned to the school house, and were served doughnuts and hot chocolate with marshmallows. The guests dispersed about ten and went their separate ways.

One of the guests, Homer Weimer, was slightly injured when he fell out of a pickup during the caroling.

The gifts brought to the party will be sent to the Mexican Orphanage in San Antonio.

The guests were: Celia Ruth Hanson, Bobbie McEntire, Garland Cates, Shirley Langford, Loy Mitchell, Jacque Foster, Hollis Kenner, Carol Campbell, Jack Durham, Charlotte Berry, Homer Weimer, Sue Lowe, William Blair, Darlene McEntire, Billy Roland Conger, Elizabeth Hildebrand, Buzz Bliznak, Mary Davis, Clinton Hodges, Charlene Drennan, Charlie Davis, Barbara Garrett, Ruby Joyce Mitchell, Earl Blair, Bill Cole, Dan Glass, Kay McEntire, Larry Glass, Pack Brown, Ginger Lane, Duard Grosshans, Marian O'Dell, James Miller, Pam Sanderson and Miss Jorene Shinn.

No Paper Next Week

Following our usual custom, we will not put out a paper next week. Most of the state dailies skip Christmas day. We skip the last week of the year.

We will be in the office most of the time, doing job printing and getting the mailing list marked up, and up-to-date.

HEALTH TALKS

Prepared by the State Medical Association of Texas

The use of laboratory facilities to follow up on threats to health which may become evident during the physical examination will vary according to the location of the sign your doctor may have found. There are two tests which have now become practically routine in any medical check up, however, the urine analysis and the blood count.

Since urine is a waste material of the body, the composition of the urine may lead to information as to what ingredients the body is throwing away that it needs for proper functioning. A sample of urine is broken down into the various chemicals it contains to ascertain whether too much of any essential material is being thrown off. Albumin and sugar in the urine do not necessarily point to disease; if the amounts discarded by the body are excessive, however, it will usually lead to a more detailed examination and probably repeated urine analysis as well as other types of tests.

The amount of urine which the body throws off will vary with the temperature, humidity, exercise, excitement and consumption of fluids. Under normal circumstances the amount is so variable that it is unimportant, but if the amount is consistently, over a period of time, too little or too much it may be an important health signal.

The other waste materials of the body may be subjected to laboratory examination if conditions within the body suggest it is advisable. Various forms of worms and other parasites may invade the intestines, creating minor and major difficulty, and an examination of the stools will usually detect their presence.

The sputum, too, may bring a health threat to a definite head after a laboratory examination. The color, odor and amount of material coughed up may contain the answer to an illness in the respiratory tract.

Diphtheria has changed a great many of its symptoms over a per-

Record Hog Price To F. F. A. Boy

BUSHNELL, ILLINOIS—In his initial effort in big-time barrow competition, Joe Pecharich Jr., 19 year old FFA boy here, showed his middle-weight Hampshire to supreme grand champion honors over barrows of all breeds and weights at the 1950 International Livestock Exposition at Chicago. In the auction of prize winners this perfectly balanced, firm meated belted champion set a new all-time price record for this show when he was purchased by Wilson & Co. at \$3.10 per pound, bringing his youthful owner more than \$825.00. Joe is junior partner in the Hampshire breeding firm of Joseph Pecharich & Son, where his champion barrow, son of Mischief Choice, was bred.

Mrs. C. D. McEntire entered an Abilene hospital Wednesday for an operation Thursday of this week.

Mrs. H. P. Malloy is spending the Christmas holidays in College Station with a niece, Miss Kate Adele Hill and in Austin with relatives.

Mr. and Mrs. Glenn Easley and their two children of Albuquerque visited the Pete Easleys here this week. Glenn, Pete's brother, is a consultant psychologist at the Delinquent Girls Home at Albuquerque.

Mr. and Mrs. George Blackburn and baby daughter, Diane, are spending the Christmas holidays in Sherman with Mrs. Blackburn's parents.

Johnny Ozee, grade school principal, is in Wichita Falls with relatives for the holidays.

The G. W. Tillerson are spending the Christmas holidays with relatives in Electra and Celina.

iod of years but a study of the patches diphtheria usually forms in the throat may lead to the definite knowledge that though it has disguised itself in other ways, the illness is diphtheria.

When thyroid disorder is suspected, the basal metabolism test becomes an important part of the physical examination. This test is conducted by your breathing into a mask which is attached to a machine and the rate at which you exhale oxygen and convert it into carbon dioxide is computed. Since the lowest rate at which you "metabolize" is being sought, you report for this test with an empty stomach, fresh from a good night's sleep.

The empty stomach is important too, for the test of the stomach juices. Sometimes there will be a preliminary test with a tube eased down your throat into your stomach to extract some of the juices. That gives the picture of your empty stomach. Sometimes the test starts with the step where you are given some undetectable cookies to munch upon. After your stomach has gone to work on them with the juices, then that tube is eased back down into the stomach and the cookies and juices are extracted. Since those stomach juices are very important, you can see that this test might play a vital part in a complete physical examination where digestive difficulty seems indicated.

The various skin tests for diseases, the patch test for tuberculosis and the Schick test for the effectiveness of diphtheria immunization are among the seemingly endless variety of health measures that can be included in a check-up. The vaccinations, inoculations and immunizations that are part of the child's physical examination may have to be repeated in adults under certain circumstances. X-ray pictures of various parts of your anatomy may be necessary, too, for your doctor to complete the picture of diagnosis of your health. That is why he cannot tell until he starts checking you over just how extensive or expensive the physical examination will be.

He advises only such tests and analyses as he considers necessary for your good health.

LOCAL ITEMS

Fern Garrett, student in Abilene Christian College, is home with her parents, the Taylor Garretts, for the holidays.

Dick Bailey, son of the Seth M. Baileys, is home from S.M.U. for the holidays.

LaVerne King, daughter of the Riley Kings, is home from A.C.C. for the Christmas holidays.

Hector Long of Arlington State College, is home with his parents, the Cecil Longs, for the holidays.

James Miller, high school English teacher here, is spending the holidays in Collinsville with his parents.

Jacqueline Everitt, daughter of Mr. and Mrs. Herman Everitt, and student in Baylor University, is home with her parents for the Christmas holidays.

Buddy Cole, son of Agnes Cole, and student in Hardin-Simmons in Abilene, is home for the Christmas holidays.

Margaret Ritter, sophomore in TSCW, Denton, is home for the holidays with her parents, the Dan Ritters.

"THE CHRISTMAS TREE KING . . . HIS SECRET OF SUCCESS" . . . Nobody had any use for the small black spruce tree which was useless as lumber or pulp wood . . . Nobody but Roy Halvorson, whose trees will brighten about 1,500,000 homes this Christmas! Don't miss his amazing story in the American Weekly, that great magazine distributed with next Sunday's Los Angeles Examiner.

GI in Korea Receives 100,000,000th Cop.

Air Force Photo

NASHVILLE, TENN.—When The Upper Room reached its one hundred millionth copy, a huge figure in the religious field, the decision was made to present it through a chaplain to a G I in Korea. Thus Sergeant Keith C. Heckel of Buffalo, New York, a radioman with the famous Mosquito Squadron, is shown receiving it from Chaplain Thoburn Speicher of Long Beach, California. The presentation of this copy, which marks a significant milestone in religious publishing, is symbolic of the many hundreds of thousands of copies that have been used by servicemen. Some are presented by chaplains and others come from loved ones and churches at home.

The Upper Room, published in fourteen editions and eleven languages, is the basis of a daily world-wide Christian fellowship. It provides a Bible reading, a meditation, and a prayer for each day and is used by servicemen as well as by those at home as a source of inspiration and courage to meet each new day with faith and peace of mind.

CHRISTMAS JOY

May heaven
and nature sing
for you this
season.

Sterling City
News-Record

PONTIAC, MICHIGAN — All peacetime production records were shattered as GMC Truck and Coach Division rolled out its 100,000th truck of 1950, surpassing the former mark of 92,677 units produced in 1948. General Manager Roger M. Kyes (left) and J. E. Johnson (center), General Sales Manager, watch as factory manager F. R. Falberg rides the history-making vehicle, a model 650 GMC Diesel, off the assembly line.

HALP! HALP! Somebody borrowed my black Shaffer fountain pen the night of the football boys-pep squad girl banquet at the community center December 2. They failed to return it to me. Gosh, I need it. Please return it. Levi Martin.

D. L. Hunt of El Paso visited his parents, the Lee Hunts, here last Saturday.

HEAD NOISE MISERY?

Try this simple home treatment. Many people have written us that it brought them blessed relief from the miseries of Hard of Hearing and Head Noises due to catarrh of the head. Many were past 70! For proof of these amazing results, write us today. Nothing to wear. Treatment used right in your own home—easy and simple.

They're Here!

The famous F-1 Pickup . . . with new features for '51! Plus an important money-saving advancement . . . the Ford POWER PILOT, standard on ALL new Ford Trucks for '51, from 95-h.p. Pickups to 145-h.p. BIG JOBS!

The heavy duty champion! . . . the new F-5 for '51. This truck outsells any other truck in the 1½-ton field! New 5-STAR EXTRA Cab offers many extra comforts . . . available at extra cost on Ford Trucks, Series F-1 through F-8.

NEW FORD TRUCKS for '51

FEATURE POWER PILOT ECONOMY

FOR 1951, more than ever, economy-wise truck buyers are going to follow the trend to Ford!

New Ford Trucks for '51 give you step-ahead engineering advantages, such as America's only truck choice of V-8 or Six . . . a choice of over 180 models to fit your hauling job better . . . strength reserves that make Ford Trucks last longer.

You'll find these new features in engines, clutch, transmissions, axles, wheels, cabs, Pickup body—wherever there have been opportunities to make

All heavy duty F-5 and F-6 Fords for '51, like this Dump, give you easier, quieter shifting with new, 4-Speed Synchronizing transmission, optional at extra cost.

Ford Trucks do a better job for you, for less money!

Ford's POWER PILOT is especially important to you . . . for it's a PROVEN money-saver, on every hauling job.

Driver comfort, too, gets plenty of attention in new Ford Trucks for '51. There is the new 5-STAR Cab and the optional 5-STAR EXTRA Cab featuring foam rubber seat padding, glass wool roof insulation, automatic dome light and many other comfort extras at only slight additional cost.

And only Ford gives you a power choice of V-8 or Six . . . four great engines! Over 180 models. Come in . . . Get ALL the facts. Select the new Ford Truck that's right for YOU!

The Ford Truck Power Pilot is a simpler, fully-proven way of getting the most power from the least gas.

It automatically meters and fires the right amount of gas, at precisely the right instant, to match constantly changing speed, load and power requirements.

Unlike conventional systems, the Power Pilot uses only one control instead of two, yet is designed to synchronize firing twice as accurately.

You can use regular gas . . . you get no-knock performance. Only Ford in the low-price field gives you Power Pilot Economy!

NEW FEATURES THROUGHOUT

New massive, modern front end and exterior styling makes Ford the '51 favorite for "good looks"!

New 5-STAR Cabs feature bigger rear window—with up to 50% more safety vision.

New "grain-light" Pickup body, new clutch disc, new transmissions, new wheels assure still longer life.

New autothermic pistons with chromo-plated top rings, new high-lift camshafts for top performance, longer engine life.

POWER PILOT ECONOMY . . . and many other money-saving advancements!

Using latest registration data on 6,592,000 trucks, life insurance experts prove Ford Trucks last longer!

See 'em today!

Win Watch Awards for 4-H Work

HANDSOME gold-filled watches were awarded four club members for achieving highest rating in Texas for work in the 1950 national 4-H Dairy Foods Demonstrations, Home Grounds Beautification, Soil and Water Conservation programs, and a Chicago Club Congress trip to one member for state honors in the Farm and Home Electric program.

Leon Langford

Charles Hoelscher

Wilma Strickland

Mary Bendele

Leon Langford, 15, of Parmer County, won state honors in the 4-H Home Grounds Beautification program. In completing the third year of this project, Leon has had much to do in cleaning and beautifying the grounds around the Langford's new house. He has set out 75 shrubs and has learned the names of all. Leon planted 25 varieties of flowers. He has built lawn furniture, a rose trellis and rock garden. Leon has been a club member four years and is secretary of his local and county clubs. At the Parmer County Fair he set up and took charge of a grass exhibit. Mrs. Charles R. Walgreen, donated the handsome gold watch award inscribed with his name.

Of practical and lasting value to Charles Hoelscher, 19, Rowena, is the down-to-earth knowledge gained in the 4-H Farm and Home Electric program, which also won for him highest state honors. His plans for utilizing electricity and electrical equipment on the home farm have resulted in more conveniences and leisure hours. He has applied his knowledge in extensive adjustment, repair, and installation work around home. Perhaps most important of Charles' innovations are an electric cream separator, a more efficient washing machine motor, and thermostatically controlled electric brooder. Westinghouse Educational Foundation, program sponsor, gave Charles a trip to the Club Congress.

A thorough understanding of the importance of dairy foods plus the many new ways to vary the diet by their use, brought top honors to Wilma Strickland, 16, of Chireno, and the team of Mary

Dorothy Burell

Page Morgan

Bendele, 17, of Devine, and Dorothy Burell, 17, of Castroville. Wilma's prize-winning demonstration was "Making Cocoa." The team demonstrated "Making Boiled Custard." Their project, Dairy Foods Demonstration, is sponsored by the Carnation Co., who presented the watches. The girls admitted that a lot of planning and practicing were necessary before they were ready to give their finished demonstration.

Page Morgan, 17, of Iowa Park, has learned that successful farming depends largely on the soil. In fact, Page has done such a good job in the 4-H Soil and Water Conservation program that he was singled out for top state honors. Firestone Tire & Rubber Co., presented Page with an appropriately engraved gold watch. In mapping out the program for the farm, he made intensive study of different kinds of grasses, hoping that such knowledge would help improve 320 acres of family ranch land. Well-drained marshes and ditches and good irrigation are now the rule. During Page's club career, he served three times as junior leader, and has been on numerous grass judging teams. James Bayles, 14, of Brownsville, also won recognition in the project and received a \$25 U. S. Savings Bond.

All of these activities are conducted under the direction of the Extension Service of the State Agricultural College and USDA co-operating.

Behind
The
8 Ball

Here we go again!
At least that is the way it looks. We're headed straight for another big war.

With most all the controls, etc. of the last one.

And we really hadn't gotten over the last one good.

Maybe something will happen—
8-Ball

Golly, do we need a rain—
No rainfall for almost three months. Looks like a fog toward the close of each day, after the cars have stirred up the dust good.

Maybe it'll rain some day.
8-Ball

The State Highway Department is putting up caution lights at 3 vantage points on the highway here in town.

Hope it'll slow down the through traffic. Some school kid is liable to get killed if it isn't slowed.

John Brock decided that digging holes was nearly so easy as it might seem to be. He quit after a short session at his new place on the Robert Lee highway.
8-Ball

"Cheaper by the Dozen" reads the show title for next week. (It is talking about children.) Bet you Kenny Garms might dispute that, buy even saying that they're not even cheaper by two's.
8-Ball

It's getting so dry that even the "dry, dusty, drier" weather report that Uncle Bill Kellis used to run sounds a little damp.
8-Ball

The Christmas lights and decorations in the homes and in the front of homes over town all help to add to the Christmas spirit. Along with the towns colored lights up and down the highway, there's plenty of color and atmosphere for the holiday season.
8-Ball

Some of these extra super special firecrackers that are now being shot off around here makes one think the war has reached close.

These fireworks could cause grass fires, too.

Open Prosecution

WASHINGTON, D. C. — The U. S. government opened prosecution of the American Communist Party for its defiant refusal to register under the anti-subversive law and charged that the organization is dominated by Soviet Russia. Attorney General J. Howard McGrath, above, signs a 3,000 word document in which he petitioned the new subversive activities board to take action against the Red Party in this country. The petition was prepared by the Justice Department and a copy was sent immediately to communist headquarters in New York City.

Come in and see the
New Silver Anniversary
Pontiac

Double Proof

that Dollar for Dollar
you can't beat a Pontiac!

★ ★ ★

- ① A look at the Car proves its Quality
- ② A look at the Price proves its Value!

In the short time since it was presented, thousands of people have flocked to see the great new Silver Anniversary Pontiac—few cars have ever had a reception to equal this. Most people came to admire, which is natural enough. But a great many people do more than admire, they start *figuring*—they begin to compare this wonderfully beautiful and desirable car with the modest price tag it bears. No car, at any price, offers more for every new car dollar you invest than a great new Pontiac! Drop in any time and look at the car—then look at the price—you'll be doubly sure that dollar for dollar, you can't beat a Pontiac!

What Does Santa Eat?

By BETTY BARCLAY

I don't know what the good old Saint eats away up there near the North Pole, but it certainly agrees with him. He's always jolly—never thin. For his information, and yours, here are some appealing holiday-time, or any-time recipes:

Oyster Stuffing

- 1/2 cup chopped celery
- 2 tablespoons minced onion
- 1/4 cup butter or margarine
- 4 cups soft bread crumbs
- 2 tablespoons minced parsley
- 2 cups oysters, drained and chopped
- 1 tablespoon Worcestershire Sauce
- Salt and pepper

Cook celery and onion in fat until soft. Add bread cubes and parsley. Add oysters and seasonings and enough oyster liquor to moisten.

Fruit Cake

- 1/2 pound seedless raisins
- 1/2 pound finely cut dates
- 1/2 pound finely cut candied citron
- 1 pound finely cut assorted candied fruits: orange peel, lemon peel, pineapple and cherries
- 2 1/2 cups sifted all-purpose flour
- 1 teaspoon baking powder
- 1 teaspoon salt
- 1 teaspoon cinnamon
- 1/2 teaspoon each allspice, cloves and nutmeg
- 1 cup shortening
- 1/2 cup brown sugar
- 1 cup light or dark corn syrup
- 4 eggs, well-beaten
- 1/4 cup orange juice

Weigh and prepare fruit. Mix and sift dry ingredients. Dredge fruit with 1/2 cup of the dry ingredients. Cream shortening; add sugar; cream until light. Add corn syrup; mix well. Add 1 cup of the dry ingredients; beat until smooth. Add eggs, beating in well. Add orange juice. Add fruit.

mixture. Fold in remaining dry ingredients. Bake in well-greased loaf pans, lined with waxed paper, in slow oven (250° F.) 4 to 5 hours, depending upon size of cake. Place shallow pan of water on bottom rack of oven during baking; remove during last hour. (Fruit cake improves with age. Prepare well in advance. Wrap well; store in airtight container.) Makes about 5 pounds.

Fruit Cookies: Use 1/2 recipe for Fruit Cake; add 1/2 cup chopped nut meats with fruit. Drop by teaspoonfuls on greased baking sheet. Bake in slow oven (325° F.) 20 minutes. Makes about 6 dozen cookies.

Chocolate Mousse Tortoni

- 3 squares unsweetened chocolate
- 1/2 cup water
- 1/2 cup sugar
- 1/2 teaspoon salt
- 3 egg yolks, well beaten
- 1 teaspoon vanilla
- 2 cups cream, whipped
- 1/2 cup macaroon crumbs
- 1/2 teaspoon almond extract
- 1/2 cup macaroon crumbs

Combine chocolate and water in saucepan. Bring to a boil over low heat, stirring vigorously until blended. Add sugar and salt and simmer 3 minutes, stirring constantly. Pour slowly over egg yolks, stirring well. Cool. Add vanilla and fold in whipped cream. Fold in 1/2 cup macaroon crumbs and almond extract. Turn into freezing tray of automatic refrigerator, set control for coldest freezing temperature, and freeze 3 to 4 hours. Sprinkle 1/2 cup macaroon crumbs over mousse before serving. Makes 8 to 10 servings.

Fruit Cake Rennet Desserts

- 3 ordinary size pieces of fruit cake
- 2 cups milk (not canned)
- 1 package lemon rennet powder
- 1/4 cup whipped cream, if desired

Divide fruit cake among 5 or 6 dessert glasses. Warm milk slowly until lukewarm, stirring constantly. Test a drop on the inside of your wrist frequently. When it feels Comfortably Warm (110° F.)—not hot, remove at once from heat. Stir in entire contents of package of rennet powder at one time. Mix until powder is dissolved—not over one minute. Pour at once, while still liquid, into dessert glasses. Do not disturb for about 10 minutes, while milk sets. Then chill in refrigerator until serving time. Just before serving chilled rennet desserts, top with whipped cream and garnish with crumbled fruit cake.

Coconut Cranberry Christmas Pie
1 package prepared vanilla pudding

- 2 cups milk
- 1 cup coconut, cut
- 1 baked 8 or 9-inch pie shell
- 1 1/4 cups canned whole cranberry sauce
- 1/4 cup water
- 1/2 package (3 1/2 tablespoons) orange-flavored gelatin

Place pudding powder in saucepan. Add milk gradually, stirring constantly. Cook and stir until mixture comes to a boil and is thickened. Add 1/2 cup of the coconut. Cool slightly (about 5 minutes), stirring once or twice. Turn into pie shell. Cool thoroughly.

Combine cranberry sauce and water in saucepan; cook and stir until mixture comes to a boil. Remove from heat. Add gelatin and stir until dissolved. Chill until thickened. Spread over thoroughly cooled filling. Chill.

For Christmas tree garnish, cut a tree stencil from paper, place on pie, and fill open space with remaining coconut to form tree.

A Party Tip

The smart party hostess makes things easier for herself, as well as delightful for her guests, by serving buffet-style refreshments. One of the easiest and tastiest dishes to serve is spaghetti smothered in a delicious meat or mushroom sauce. The sauce comes out of a can, and it's a real expert's sauce, with all the fine flavoring that only a great chef can give. You can buy a complete packaged spaghetti dinner—spaghetti ready to cook, sauce ready to heat, and Italian-style grated cheese to sprinkle over all. Round out the menu with Italian bread, a crisp tossed salad, and a pot of hot coffee—refilled if need be—and the end result is a chef's triumph.

BADGE OF A MAN

How proud can a man be?

You'll know when you're wearing the Combat Infantryman's Badge on your chest—Because here is the emblem that marks a man—A man with the heart and the guts to serve his country as a member of the finest fighting force, man for man, on the face of the earth. It's there for you—with a sign on it that says "For MEN Only!"

Ask your Recruiting Officer about the opportunities the U.S. Army offers YOU!

SEASON'S GREETINGS

We're deeply grateful for the gift of your friendship.

LONG DRUG COMPANY

Mr. and Mrs. Cecil A. Long and Hector

Q—What should be done if a top, too close to an open window, becomes splashed by rain?

A—First, the moisture should be mopped up with a clean cloth or chamois. Then, as soon as the surface is thoroughly dry, furniture cream should be applied liberally, rubbed in, and the surplus wiped off.

Q—What color should I make my roof to blend with gray side-walls and yellow window shutters?

A—There are numerous solid or blended colors of asphalt shingles which you might like. It all depends on your personal taste. However, you are approaching the problem backwards. Because the roof is so large and prominent, the asphalt shingle color should be selected first, and all other colors should be picked to harmonize with the roof.

Q—How can a sticking drawer be made to work easily?

A—If the sticking is not too serious, it can be remedied by rubbing wax along the top edges. If this fails, pull the drawer out and sand the edges a trifle.

Q—What kind of enamel is best for stoves and stove pipes?

A—Stoves, stove pipes and other metal objects that are subject to excessive heat can be re-finished with a special, heat-resistant enamel. While designed to withstand rather high temperatures, it will not last long on surfaces which become red hot. Caution: Do not apply the finish while the surface is hot.

Red-Hots On A Cold Day

Do you remember those cinnamon red-hots that were so pleasing to you as a child? They are still obtainable and will delight your child as much as they did you. Combine them with applesauce, whipped cream and milk, and behold—a dessert the children will rave about.

Cinnamon Applesauce Rennet Desserts

- 2/3 cup sweetened applesauce
- 2 tablespoons cinnamon red-hots
- 2 cups milk (not canned)
- 1 package vanilla rennet powder
- 1/2 cup whipped cream

Set out 4 or 5 dessert glasses. Heat applesauce with cinnamon red-hots until dissolved (5 minutes). Cool thoroughly. Divide applesauce mixture among dessert glasses; set aside part of mixture for topping. Warm milk slowly until lukewarm, stirring constantly. Test a drop on the inside of your wrist frequently. When it feels comfortable warm (110 F.)—not hot, remove at once from heat. Stir in entire contents of package of vanilla rennet powder at one time. Mix until powder is dissolved—not over one minute. Pour at once, while still liquid, over applesauce in dessert glasses. Do not disturb for about 10 minutes, while milk sets. Then chill in refrigerator until serving time. Just before serving, top with remaining applesauce and a dash of whipped cream.

Incidentally, this particular dainty is a man's dessert and a woman's dessert too—especially delightful to those who clamored for cinnamon red-hots in the old days.

Yes, for a spicy, colorful dessert for some cold day, keep these cinnamon applesauce rennet desserts in mind. You'll find repeat requests all during the winter—from both young and old. So keep this economical and healthful recipe on file, and you may rest assured your file card will be replaced many times due to constant use.

LeBlanc Thanks Newspapers for Cooperation

Oklahoma City. . . (Special) Senator Dudley J. LeBlanc, manufacturer of Hadacol, thanked more than 400 members of the Oklahoma Press Association at their meeting here this week for the important part played by weekly and small daily newspapers in the tremendous success of Hadacol.

The Senator described how he had parlayed \$2500 in borrowed money into the \$7,000,000 in assets LeBlanc Corporation, of Lafayette, La., in two and a half years.

"One big reason for my success was that I kept pouring my money back into advertising just as fast and sometimes faster than I made it," said Senator LeBlanc.

He explained that Hadacol uses more than 6500 weekly newspapers on monthly schedules and announced plans for increasing his budget in this field.

Modern Materials

**Made to Supply
Kitchen Color**

Today's kitchens can be many times more colorful and easy to manage than those of less than a generation ago, says American Builder magazine.

The publication points to increased research in kitchen planning as one of the prime reasons. Progress in research by kitchen appliance and equipment manufacturers since World War II is called "amazing." Results show up in more efficient and attractive cabinets, ranges, refrigerators and other products. American Builder explains.

The magazine adds that adequate storage and counter space is important to a good modern kitchen plan. In recent years, research has been made to determine how much of each is needed for families of various sizes.

High kitchen ceilings with out-of-reach cabinets have been replaced by lower ceilings, with cabinet heights scientifically planned. Much storage space is made available as built-in units, such as broom or utility closets, storage space for toasters, mixers and serving trays, and storage for soaps and other cleaning supplies.

On the same subject of kitchen progress, the publication says that the greatest selection in history of colorful floor and wall coverings, appliances and equipment helps make the kitchen a colorful, home-like room.

Eye Operation Successful

SAN FRANCISCO, CALIF.—Sharon Sue Clubb, 3, of South Bend, Ind., who has been nearly blind since birth, plays with doll she can see for the first time after successful eye operation here. Glaucoma—a hardening of the eyeballs—kept her bright blue eyes from seeing more than shadow and glare, where there should have been a shining, curious childhood world. Friends in South Bend raised a fund to clear those tiny eyes and shipped Sharon and her mother off to San Francisco—to world-famed Dr. Otto Barkan, who operated on both eyes successfully.

The Dessert Parade

During the year, the "parade" of desserts gracing your table undoubtedly becomes a lengthy one. Of course, something different is always in demand. Desserts that catch the kiddies' eye, naturally rank high in this parade. And when the dessert is not only nourishing and delicious, but helps you solve a food problem as well, it is sure to rate repeat performances in your home throughout the year.

Mother is ever on the alert to entice the youngsters to consume foods which their bodies require. Some of these foods are not always pleasing to the kiddies. Certain tiny tots absolutely refuse to drink their necessary quota of milk. However, Mother can handle this refusal by serving milk in a tasty and attractive manner. An ideal way to triumph over this situation is to make milk into cool, delicious rennet desserts. Served with a novel topping, they are sure to please the eye and provide "Junior" with a nourishing treat at the same time.

And why not make the children's special dessert so attractive that the grown-ups too, will be glad to eat it. The following recipe for an economical, eggless, non-cooked dessert, provides an ideal participant in your "dessert parade" — one that will be presented over and over again.

Maple Rennet Dessert

2 cups milk (not canned)
1 package maple rennet powder
Honey chocolate stars

Set out 4 or 5 dessert glasses. Warm milk slowly until lukewarm, stirring constantly. Test a drop on the inside of your wrist frequently. When it feels Comfortably Warm (110° F.) — *not hot*, remove at once from heat. *Stir* in entire contents of package at one time. Mix until powder is dissolved — *not over one minute*. Pour at once, while still liquid, into dessert glasses. Do not disturb for about 10 minutes, while milk sets. Then chill in refrigerator until serving time.

Honey Chocolate Stars: Roll 2 cups of crisp corn flakes as fine as possible, and combine with one 3-ounce package of softened cream cheese, ½ ounce melted bitter chocolate, 3 tablespoons honey, dash of salt, and a drop of vanilla. (If chocolate is not available, flavor with cinnamon instead.) Place this mixture between 2 sheets of waxed paper and flatten into a sheet ¾ inch thick. Allow to stand about 30 minutes. Then lift the waxed paper from one side; score with criss-cross lines, using the tines of a fork. Replace the waxed paper and turn over; lift the waxed paper from the other side and score this side also, in one direction only. Cut out stars, using a cookie cutter. Lift these carefully and place one in the center of each dessert just before serving. (Scoring both sides of the garnish causes it to break apart easily when eaten.)

R. E. Kennedy, advertising manager of the West Texas Utilities Company, sent us one of the Rite-point (visible supply) cigarette lighters. You'll know when you're out of lighter fluid.
Thanks, Kennedy.
