

STERLING CITY NEWS-RECORD

VOLUME 61 PUBLISHED EVERY FRIDAY AT STERLING CITY, TEXAS. "Since 1890" FRIDAY, JANUARY 19, 1951 No. 3

"Covering the County"

By Garlyn Hoffman, Co. Agent.

The Lions Club will sponsor the boys' livestock show to be held February 12 south of the Legion Hut. The club plans to raise \$300 to be offered in prizes for the show. There will be one hundred lambs, four calves, and four pigs to be shown by 4-H Club boys, and the general agriculture class. The 4-H Club will have seventy lambs and the agriculture class will have 30 fine wool lambs.

There will be light and heavy-weight divisions for both finewool and crossbred. All first places will receive a prize of \$5.00. There will be prizes for twelve places in each single class of lambs, prizes being one dollar less for each lower place down to fifth. Fifth places and all lower places will receive prizes of one dollar. There will be six places for the pen of three fine wool lambs. There will be three places in the registered ewe lamb, registered ram lambs, and fat barrow classes.

The champion finewool and champion crossbred fat lambs will receive a \$5.00 prize and a rosette. The reserve champions will receive a \$3.00 prize and a rosette. The champion finewool will receive the J. T. Davis Award plaque.

Of the four Hereford calves, one will be milked, and three will be dry lot calves. These calves will not compete for a championship.

The American Legion is going to present a belt buckle to the boy judged the best showman. The showmanship will be judged by Jim Bob Clark, Ross Foster, and Bubba Foster. The judging will begin at 1:30, with W. I. Marschall, district extension agent from San Angelo as judge. Tommy Foster is superintendent of the show.

Holland Jewelers of San Angelo will give a belt buckle to the boy exhibiting the fattest lamb, fattest calf, and the fattest pig. This award is to be given for the fattest animal disregarding conformation and type. The score card for this judging is as follows: 35 points for fatness; 20 points for daily gain and total gain; 15 points, economy of gain; 15 points, fitting or grooming of the animal; and 15 points, accuracy of records. Record books will have to be worked up so that judges can decide the winner the day of the show. This will give the boys something to shoot at if their animals might not be of the ideal type.

There are some new findings on the use of clostridium perfringens Type D Bacterium for pulpy kidney or "clabber belly" in baby lambs. It was previously recommended that it be given to lambs that were two and one-half months old or older. Now, it can be given to baby lambs one day old, and actual use of this method by ranchers has cut the death rate to not more than one and one-half per cent. Last year one Sterling rancher used it at the time he marked his lambs, and he

Lions Club Luncheon

The Lions club members met for the regular luncheon Wednesday at the Community Center.

It was reported that \$83.75 was netted for the March of Dimes at the Game Night sponsored by the club on Monday night of this week. It was reported that the Wimodausis members made \$9.25 on the sale of coffee and donuts that night. That total, too, goes to the drive. Lion Doug Farnsworth reported that the new roof had been completed for the Community Center. All that was lacking was the final paying for the remainder of the cost, which possibly was between \$75 and \$100.

The club is planning to sponsor a negro minstrel sometimes in March, if present plans materialize.

President Tillerson told of the Fourth Annual Basketball Tournament that would be held here next week, beginning on Wednesday night.

Gene Alley To Arabia With Oil Company

Gene Alley, Soil Conservation head of the unit here since October, is resigning and leaving for a job in Arabia soon. Gene, who replaced A. T. Bratton, is going to be a farm supervisor for the Arabian-American Oil Company in that country for two years.

He will go to New York on the 19th of this month for a month's schooling. There he will be instructed in the customs of the country, his duties and other things pertaining to his job there. Then he will fly to Arabia, landing first at Dharan. He will be the supervisor at the company's project at Al-Kharj. The oil company raises food there for employees and the king of Arabia.

Alley, a native of Sonora, is an agricultural graduate of Texas A. & M.

It is not known at this time who will replace him at the local soil office.

Drennen Held on Charge

L. L. Drennen (alias Jock Pilant) has been picked up and is now in the Sterling County jail on charges of theft by bailee. Drennen was picked up in Mississippi. He was billed by the grand jury here last fall on the felony charge.

reported that it appeared to do considerable good.

Any ranchman wanting game fish for stocking purposes in tanks should let me know as soon as possible so that their names can be given to the fish hatchery. If the names are turned in soon they are almost assured of getting fish this year. Most all the applications are processed after August 1, but the application has to be in some time before that date.

Fourth Annual Basketball Tournament Here Next Week

20 Teams to Compete

The Fourth Annual Sterling Basketball Tournament is to be held in the local gym next week. Such was the announcement by Coach G.W. Tillerson this week.

Twenty teams from over the surrounding territory have entered.

The tournament begins on Wednesday night at 8:30. Water Valley will play the Lakeview boys at 8:30. Garden City will engage the San Angelo B team boys at 9:30.

On Thursday the Robert Lee girls play the Lakeview feds at 5. The Coahoma boys tangle with the Mertzton aggregation at 6:10. The Mertzton and Water Valley girls tangle at 7:20 and the locals feds play the Big Lake team at 8:30. At 9:40 the Sterling and Knott boys teams play the last game of that evening.

On Friday at 1:00 the Courtney and Forsan boys go to bat. At 2:15 the girls from Forsan and Garden City play, and at 3:30 Courtney and Knott girls meet.

Play off games between winners will begin Friday afternoon and go into Friday night, Saturday morning, afternoon and night. The championship games will be held on Saturday night at 7:00, 8:15, and 9:30 p.m.

Juniors and Seniors to Serve Food at Tournament

The Junior and Senior classes will serve food at the tournament. They will serve a lunch for 60c. It consists of home baked ham, potato salad, English peas or green beans, bread butter and fruit jello.

Other items include vegetable soup at 25c, chili at 35c, hot dogs with chili at 25c, pimiento cheese sandwich at 20c, home baked ham at 25c, home-made pie—15c, home-made cake—10c, and all kinds of drinks—bottled, milk, hot or iced tea or coffee—10c.

Sterling Basketballers Take Robert Lee Tournament

By Harry Blank

The Sterling teams brought home two championship trophies from the Robert Lee tournament last week-end.

G. W. Tillerson's boys team copped the title in their bracket by trouncing the host team, 35-26. Don Gann was top scorer for the winners with 11 points while Hamilton had nine for the losers. Score at half time was 16-9, Sterling.

The Sterling girls licked Miles, 12-5, in the finals after the teams had failed to score in the first period. Darlene McEntire paced Sterling with eight points. Miles did not get a field goal, but Muery counted four free shots for the losers.

Named to the boy's all-tournament team were Steger, Mertzton, Williams, Norton, McClutchen, Bronte, Sparks, Robert Lee; and Glass, Sterling City.

Members of the girls' all-tournament squad were Evans, Mertzton; McEntire, Sterling City; Davis, Sterling City; Blair, Robert Lee; McCauley, Bronte; and Muery, Miles.

The Sterling girls played Mozelle in a first round game of the Lakeview tournament Thursday.

Tuesday night the Forsan team will play a conference game here with the Eagles at 7:00 and 8:00 o'clock in an A and B game.

New Equipment Added To The Palace Theater Here

Horace Donalson, operator of the Palace Theater here, has added about \$5,000.00 in new equipment in his theater this week. The new projection machines and such like were brought from his Star Theater in Snyder.

Ed Hogg of Ennis, Texas, father of Mrs. Ollie Carper, is spending part of the winter here with the Carpers.

"THE SULTAN'S LEGACY" . . . When the Sultan of Turkey died in 1918, his personal treasure amounted to almost \$3,000,000,000 . . . Yet try as they will, his heirs haven't been able to touch it. This absorbing story, plus many other fascinating features will appear in the American Weekly, that great magazine distributed with next Sunday's Los Angeles Examiner.

STRANGE FACTS ABOUT POLIO

FIRST
SUCCESSFUL USE OF IRON LUNG WAS ON 21-YEAR-OLD HARVARD UNIVERSITY SENIOR STRICKEN WITH POLIO IN SEPTEMBER, 1929!

Given 30 minutes to live, he was rushed to ONLY iron lung in world and eventually recovered.

THE YOUTH IS BARRETT HOYT, NOW LIVING IN BROOKLINE, MASS.

MARCH OF DIMES RUSHED 450 IRON LUNGS TO POLIO PATIENTS LAST YEAR—\$1,000,000 IN EMERGENCY EQUIPMENT.

75% OF POLIO PATIENTS EVENTUALLY RECOVER WITHOUT DISABILITY AND RETURN TO WORK AND FAMILIES!

2,822 LOCAL MARCH OF DIMES CHAPTERS IN U.S., ALASKA, HAWAII, PUERTO RICO, PHILIPPINES AND VIRGIN ISLANDS CONTRIBUTE ASSISTANCE TO POLIO VICTIMS OF EVERY RACE, COLOR AND CREED!!!

POLIO IS THE LEADING CAUSE OF ORTHOPEDIC HANDICAPS IN CHILDREN...

MARCH OF DIMES RESEARCHERS HAVE DISCOVERED THAT ISOLATION OF POLIO VICTIMS CAN BE REDUCED SAFELY FROM TWO WEEKS TO 7 DAYS!

JOIN MARCH OF DIMES... JAN. 15 TO 31!

March of Dimes Drive Underway Here

Mrs. Martin C. Reed, local chairman for the March of Dimes, announced this week that the drive for funds had gotten underway here.

An auspicious start was given the drive when the Lions Club held a "game night" Monday night at the Community Center. A total of \$83.75 was netted from the affair. The Wimodausis Club members served coffee and doughnuts at the affair and made around \$10.

The Sterling P.T.A. is to have a Food Sale at the Palace Theater lobby this Saturday, January 20. All proceeds go to the drive.

The Square Dance Association is sponsoring a dance at the school gym on Feb. 3. The Noratadate Club will handle the concession at this affair with all monies netted by both organizations going to the March of Dimes.

Mrs. Garlyn Hoffman is heading a "Mothers' March", scheduled for the night of January 31 between 6 and 7 o'clock. All who have not contributed to the drive should put on the porch light or some kind of light, signifying that they would like to make a contribution.

The school is holding the contests as before and also a basketball game between two colleges is scheduled. The American Legion and Auxiliary will handle the concession at the benefit basketball game, said Mrs. Reed.

There have been put out stations for collections and miniature banks to be worn on the shirt or coat for contributions by local citizens.

Mrs. Reed has the following people helping her in the various events, including special gifts: Mrs. Lee Augustine, Miss Sue Nelson, Miss Bonnie Ruth King, Mrs. Sterling Foster, Mrs. Trinton Revell, Mrs. Garlyn Hoffman, Garlyn Hoffman, H. A. Chapple, Miss Pam Sanderson, G. W. Tillerson, George Blackburn, Mrs. David Glass, Tommie Foster, Mrs. Worth Durham, Mrs. Harold Emery, Mrs. Anna Lee Johnson, Mrs. Joe Emery, G. C. Murrell.

The permanent Sterling County Committee is composed of G. C. Murrell, president; J. T. Davis, vice-president; Mrs. Anna Lee Johnson, secretary and Hal M. Knight, treasurer.

P.T.A. FOOD SALE SATURDAY FOR MARCH OF DIMES

The Sterling City P.T.A. is having a food sale at the Palace Theater Saturday morning at 10 o'clock. All proceeds will go to the March of Dimes, said Mrs. G. W. Tillerson this week.

Among items that will be offered for sale will be cakes, pies, cookies, butter, eggs and other foods.

Lloyd Murrell in V.A. Hospital

Lloyd Murrell was taken to the Veteran's Hospital in Big Spring last Friday suffering with a bad case of stomach ulcers. It is supposed that an operation will be resorted to before he is able to return home.

MOTHERS' MARCH TO BE A FEATURE OF MARCH OF DIMES

A new feature of the March of Dimes in Sterling City will be the Mothers' March, planned for January 31, this year. It is a new idea for contacting many who might otherwise be missed, and is carried on by the women only.

The Mothers' March will last for one hour only, 6:00 to 7:00 in the evening, and all those who wish to give are asked to turn on their porch lights to indicate that they would like for someone to stop and take their contribution. (Or some type of light if you have no porch light). Mrs. Martin Reed, the local March of Dimes chairman, has announced that Mrs. Garlyn O. Hoffman will be in charge of the Mothers' March here, and plans for organizing and publicizing it are now underway.

Polio was particularly severe last year, so calls for March of Dimes funds were very great. The Mothers' March is being used in many towns in hopes of raising enough to meet the needs.

HEALTH TALKS

Prepared by the State Medical Association of Texas

The average person under normal circumstances maintains a body temperature around 98.6 degrees. Some people aren't average and their temperature under normal circumstances may be higher or lower, ranging possibly from 97 to 100.4 degrees. Activity of the day, excitement, exercise and a number of other "normal" circumstances may make the body's temperature vary, too. So before you decide you're running a fever you should also check on your activities of the period just preceding popping that thermometer into your mouth.

Fever is a symptom of disease when it's abnormal, just as aches and pains may be one of the body's SOS. If aches and pains are the No. 1 SOS, then fever is probably the No. 2. You don't just take your temperature at random to see if you are coming down with something; you usually will think you have fever before you stick the thermometer in your mouth and that thought will probably stem from some pain such as a headache, hurting eyes, dizziness or such.

When pain and fever come together, it's usually a good bet that some bug is settling down to upset your trend toward good health.

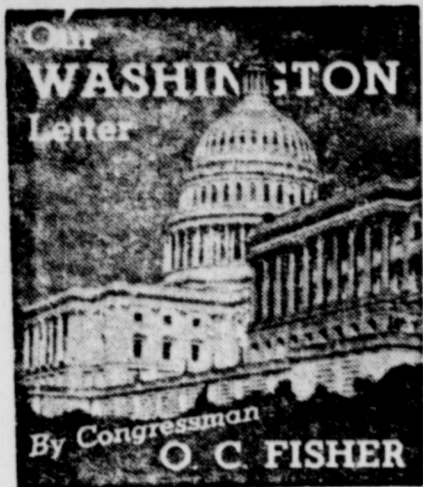

Before you replace that thermometer in your mouth with a pill of some sort to check both the pain and fever, it would be wise to stop and consider the value of fever in fighting disease. In many cases fever is considered a protective mechanism, a signal that the body is building up counter charges for whatever invader is laying hold of you, and not only killing those germs with the heat of the body, but building things of its own that eat up the germs.

Fever isn't all good, though. There are other diseases in which (Continued on Page 3)

THE AMERICAN WAY

Look Behind You!

THE MOST IMPORTANT action taken by the House in organizing for the session's work was the adoption of an amendment to the House rules whereby the Rules Committee was given power to screen legislation before it can be programmed for debate and floor action.

Barring some unforeseen and improbable development, this means the controversial features of the Truman Fair Deal have been put on ice for the duration of Congress. That should mean more economy in government; fewer pressure-group and special interest laws enacted, and more time and effort devoted to the nation's primary interest—preparedness.

The change was accomplished by a coalition of Southern Democrats and Republicans, the vote being 244 to 179. I joined with a majority of Texas members and voted for the

A Cranberry Treat

Here is a new and delicious way to serve cranberries, that will appeal to all members of the family—particularly during the late-fall and winter "cranberry sauce season".

Fresh cranberries are seasonable but cranberry sauce is available any time, so the following recipe may be filed in your "when needed" file.

And this recipe for Cranberry Rennet Dessert is one that you'll find extremely popular. It combines our friend "cranberry sauce" with milk, and raspberry rennet powder. The result is a colorful taste treat, topped with chopped nuts, that provides a healthful and nourishing delicacy—ideal for Bridge luncheons, kiddies' parties and holidays, or just "any time at all".

- Cranberry Rennet Dessert
- 1/2 cup cranberry sauce
- 2 cups milk (not canned)
- 1 package raspberry rennet powder
- Chopped nuts (if desired)

Divide cranberry sauce among 4 or 5 dessert glasses. Warm milk slowly until lukewarm, stirring constantly. Test a drop on the inside of your wrist frequently. When it feels comfortably warm (110° F.)—not hot, remove at once from heat. Stir in entire contents of package of raspberry rennet powder at one time. Mix until powder is dissolved—*not over one minute*. Pour at once, while still liquid, into dessert glasses over cranberry sauce. Do not disturb for about 10 minutes, while milk sets. Then chill in refrigerator until serving time. Just before serving, top chilled rennet with chopped nuts.

change.

VICE-PRESIDENT BARKLEY in bidding adeau to retiring Senators the other day, recounted some interesting experiences in the Senate and House that happened a hundred years or so ago, and recalled how members disagreed violently on occasions only later to become warm friends. These are two incidents which were cited: "When Andrew Jackson and Thomas H. Benton were young men in Nashville, Tenn., they fought, not a regular duel, but a pistol battle on the streets. One of them fell over backward into a basement, and that fall may have thus saved his life. Thereafter Thomas H. Benton went to Missouri. Later he became a Member of the Senate of the United States, and here he met Andrew Jackson, who then also was a Senator. Andrew Jackson subsequently resigned from the Senate and returned to Tennessee, where later he took the command of troops. Later on, when Andrew Jackson was President, Thomas H. Benton was his great spokesman in the Senate; and in this Chamber, Thomas H. Benton moved to expunge from the Journal of the Senate a scurrilous resolution in regard to Jackson, which, some time before had been adopted by the Senate.

Henry Clay and John Randolph, of Roanoke, fought a duel over a debate in the House of Representatives which one of them regarded as insulting. They went across the Potomac River to what is now Rosslyn, Va., and fought a bloodless duel. For years thereafter they did not speak to one another. One day Henry Clay was going down a footpath which led from the Cap-

itol to what is now Peace Monument, and Randolph was coming up the same path, which was too narrow for two men to pass on it. They met, glared at each other. Randolph sneered, "I never get out of the way of a damn scoundrel." Clay replied, "I always do," and stepped out of the way, and let Randolph pass. Years later, when it was announced that Clay would address the Senate from his desk in this chamber, John Randolph, who by then had become an invalid, asked that he be carried on a stretcher into this Chamber in order that he might hear Clay's last speech."

AMONG RECENT VISITORS to our office have been: Cal Adair and Bob Bruce of Ballinger, Forrest Kyle of Bangs, and Bob Bissett of Junction. The latter, a former classmate of mine at Junction High School, is now a professor of Engineering at the University of Arkansas. He came to Washington to attend and address a meeting of meeting of the Highway Research Board.

OF INTEREST TO TEXANS is a series of weekly congressional 30-minute radio programs on January 17 and carried over WFAA, KPRC and WOAI. Called the Texas Quality Forum, and directed by popular Bill Shomette, agricultural editor for WOAI and produced by Mrs. Sarah McClendon, the program will feature four Texas Congressmen each week in a roundtable discussion of current legislative problems. Shomette was sent to Washington for extended duty to arrange these broadcasts. The first program included Sen-

ator Connally, Speaker Rayburn, George Mahon and myself.

The transcriptions will be carried each Wednesday evening at 9:30 to 10:00.

NOTICE! Any one interested in buying the M. J. Askey Estate lands, 1140 acres on the divide, please call or write Jimmy Logan, Alpine, Texas. Land is clear of debt. Immediate possession.

Built in Texas . . . and helping build Texas

Ford is the only Automobile Manufacturer Building Cars and Trucks in Texas

ALL THE FORDS made are not built in Detroit. There are plenty of them built right here in Texas—last year over 128 million dollars worth of cars, trucks, parts and products were made at Ford's Dallas Assembly Plant. What's more, 1,722 Texans put them together or followed through with their consignment to dealers in the Dallas, Houston, Oklahoma City and New Orleans Sales Districts.

The folks who work in Ford's Dallas Assembly Plant and District Sales Offices earn over \$7,000,000 every year. They spend it mostly in Texas. Texas benefits from Ford in other ways, too. For example: during 1950 Ford bought over \$1,000,000's worth

of material and supplies from Texas merchants and manufacturers and paid over \$7,500,000 for incoming and outgoing transportation. Then, too, there is a total of over \$148,000 paid by Ford in local and State taxes.

Yes, Texas is building a lot of cars and trucks for Ford . . . and in the process Ford is helping to build Texas, too!

HEALTH TALKS

(Continued from Page 1)

the heat of the body discourages those germ eating doodads from developing, or if they do develop the rising temperature kills them off before it kills off the enemy.

Fever over a long period of time may lead to damage to the heart, liver, and kidneys. An extremely high fever can also cause damage and when accompanied by delirium or convulsion is usually most alarming. Convulsions in children sometimes occur along with the rapid elevation of fever of the so-called childhood diseases. Delirium is a side-effect of fever sometimes when the temperature goes over 104 degrees, but the temperament of the person, the state of health before the illness began and the drugs given as medication are all as important a part of delirium as the actual fever itself.

The top limit of fever with recovery is considered to be 114.8 degrees and the coldest the body can get and survive, under certain circumstances, is thought to be between 76 and 80 degrees.

And speaking of cold, chills are frequently a part of the picture of fever, the rigors and body trembling that mean the outside of the body is colder than the inside, in case of sickness meaning that the temperature is going up faster than the body can throw off the heat. In some diseases, when the body manages to throw off the internal heat, tending to reduce the temperature rapidly, you get the familiar phase of sweating. Those chills and sweating periods accompany some diseases.

The temperature of infants is about as unreliable as most other phases of babyhood. Until about the time they start to walk, there is usually no internal pattern of temperature regulation in full swing with regulation stemming from the outside, from the changes of clothes and environment. At the other extreme of life, elderly people usually have a lower temperature than average. And since exercise and activity may influence body heat, bed-ridden people also usually have a lower temperature than someone on the go all the time.

Children at play may work up an elevated reading on the thermometer and if they've been indulging in a rapid session of chewing gum before the thermometer was popped into their mouths, that, too, will bring about a higher reading.

Adults vary in the temperature of the body at different times of the day, usually attaining the highest reading around 4 in the afternoon, the lowest around 4 in the

SAN ANGELO COLLEGE TO DEDICATE NEW BUILDINGS SUNDAY, JANUARY 21

School administrators, members of school boards, ministers, parents, graduating students, and in fact, every citizen of this area is cordially invited to attend the "Dedication and Open House" of San Angelo College new dormitories and dining hall.

The new residences for men and women, Carr Hall for women and Mayer Hall for men, will be open for inspection and refreshments will be served in the new dining hall. These new halls provide accommodations for 80 young women and 84 young men in addition to the quarters for the supervisory staff.

Immediately preceding the open house activities, there will be a dedication program in the auditorium. Former president John A. Guinn will be the principal speaker. Dr. Guinn is now president of the Texas State College for Women at Denton. This program will start at 2:30 p.m. Sunday, January 21.

Dr. Bryan Wildenthal, president of the San Angelo College emphasizes the fact that this is emphatically an "area" college and that everybody in the area has the right to participate in its progress.

Foster Sims Price and Bubba Foster attended the Hereford Show & Sale in Denver, Colorado this week.

Billy Joe Gartmann, employee of the Bill J. Cole Butane Company here, has to report for his army physical examination on February 12.

Mrs. Pete Easley returned home from the V. A. Hospital in Big Spring Wednesday of this week. She had been there for two weeks undergoing treatment.

For wedding invitations, announcements, at-home cards, etc., see the local News-Record shop.

morning. Night workers who sleep all day would just reverse that picture, of course. And woman's temperature varies at different points during the monthly cycle.

Actually, fever alone without any accompanying signs of illness and with only a moderate fluctuation from normal, may mean that you merely vary from the average. Accompanied by chills, pains, or any other sign of disease, however, or if the red line in the thermometer takes a decided lead over the normal line, it is a signal that deserves medical attention.

Remodeling, Home Repairs Due for Boom

While new home construction will be down from the 1950 peak, building authorities agree that remodeling and repair business will boom in 1951.

Severe credit restrictions imposed under the Government's Regulation X limit the construction of new homes, but there is no effective deterrent to the repair and remodeling of existing homes and farm buildings.

The Federal Housing Authority continues to pursue a liberal credit policy in insuring loans by banks and other lending institutions to finance repairs and remodeling. The FHA insures loans in amounts up to \$2,500, subject only to a down payment of 10 percent and repayment of the balance in 30 months.

Government officials obviously recognize the importance of keeping homes in good repair, especially at a time when new construction is being restricted.

Actually, the owners of older homes who have been wanting to remodel or make needed repairs now will have a better opportunity to have the work done. Building mechanics have been engaged largely on new construction, and few homes have consumed the bulk of the building materials available.

Take roofing, for example. Mechanics and materials should be available for long-deferred re-roofing and repair jobs. The asphalt roofing industry is making every possible effort to meet the unprecedented demand for its products. Shipments of strip shingles exceeded 3,000,000,000 squares for the first time last May, and have been in excess of that figure every month since.

To be of help to those who need it in times of sorrow and bereavement is our inspiration to give the kind of service that helps ease the pain left by the departure of a loved one. When the need arises, let us serve you.

Cozy, Easy to Maintain

Hardwood veneer furnishings and wall paneling in hand-somely-grained blond oak lend warmth and beauty to this cozy living room, as shown in American Builder magazine. The matching furnishings and woodwork were constructed Edward A. Precour, Oshkosh, Wis., builder who uses wood plywood and face veneers exclusively in all types furniture, fixtures and paneling made in his woodworking.

Have You

been visiting had visitors sold anything bought anything had a party been to one joined a club or been thrown out of one got engaged been jilted got married been divorced had triplets quadruplets or even one baby?

That's News!

and we, and your friends would like to know about it.

Announcement

To our Sterling City patients

We now have a complete lens-grinding laboratory service so that we can make your glasses and fit them to you the same day that we examine your eyes.

It will help us if you will come as early in the day as possible so that we may make your glasses while you shop or visit in Big Spring.

Do you have an Owner's hand?

Any fortune teller will tell you that palm reading is tricky stuff. Because no two hands are exactly alike. The hands shown above, for example, reveal different temperaments and talents and abilities.

Most American hands, however, have this similarity: they belong to owners of business-managed electric companies like the West Texas Utilities Company.

Several million Americans, in every walk of life, own the securities of these companies.

And some 72,000,000 are indirect owners, through their life insurance and savings accounts. For when banks and insurance companies accept your money, they must invest it wisely, and much of it goes into electric light and power companies.

Value Your Health More Than Riches

Some folks think that fine clothes and fine, big houses are the most important things in life, but these things really don't mean too much if a person doesn't feel well enough to enjoy them. Most folks don't realize this, but Mrs. Lucy Braswell, of Route 2, Stone Mountain, Ga., realizes it very well. Mrs. Braswell takes HADACOL, and by taking HADACOL she found she is helping her system overcome deficiencies of Vitamins B₁, B₂, Niacin and Iron, which HADACOL contains.

Here is Mrs. Braswell's own statement: "I have been sick for some time with stomach disturbances. I began taking HADACOL and I have been taking it about six weeks. I am so much better and much stronger. I will continue to take HADACOL. It sure has helped me. I tell my friends about HADACOL. I can't praise HADACOL too much. I am 59 years old."

Planned for Corner Lot

Containing six rooms with an attached garage, this house is well-adapted to a corner lot site. The plan features excellent circulation with all rooms accessible from the front entrance hall. It has been selected as Plan No. 205 by American Builder magazine, 30 Church St., New York.

Service rooms, such as the kitchen and garage, face the street front with the living room and dining room toward the rear. Storage area is provided in the attic, and a full basement contains space for all utilities and recreation.

Separating the living room and dining space is a free-standing

bookcase and china cabinet four feet high. If desired, this unit can be placed against the wall, making one large "L" shaped area of the two rooms.

Overall dimensions of the house are 56 feet six inches by 40 feet six inches, including the garage.

The roof of fire-resistant asphalt shingles is the key to a pleasing color scheme, in a blend harmonizing with the white clapboard siding and with fixed blinds on each side of the windows in a suitable accent color.

(Detailed building plans for this house are available from American Builder, 30 Church St., New York 7, N. Y. Refer to Plan No. 205.)

Oil Leases and Royalty Wanted

Individual will buy oil leases, large or small, and royalty, productive or non-productive, in Sterling County. Give legal description and all details, including lowest price, in answer.

New Silver Anniversary Pontiac

New and Beautiful Proof

That Dollar for Dollar you can't beat a Pontiac!

The Car Proves it by its Beauty and Performance!

The Price Proves it by its Downright Value!

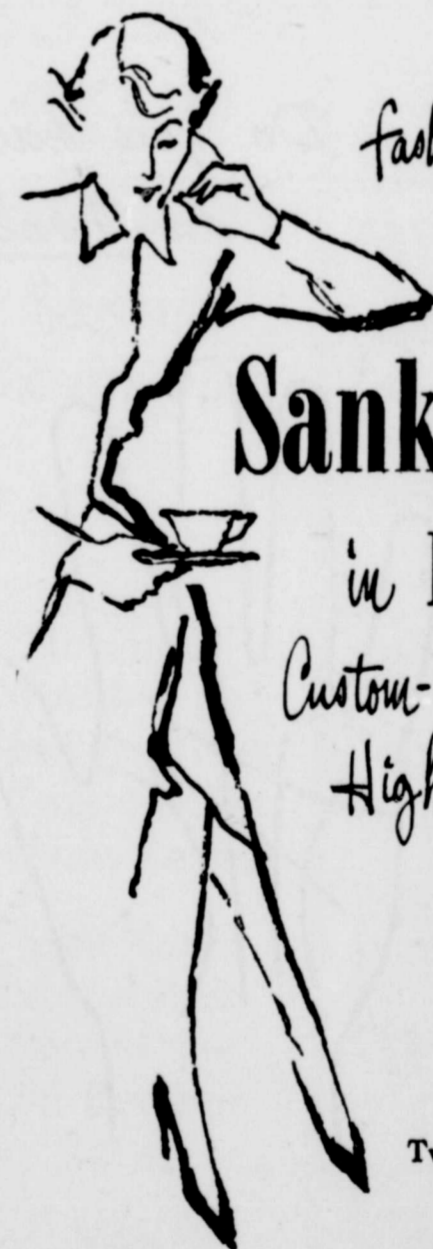

Be prepared to see two striking things when you come in to examine the wonderful new Silver Anniversary Pontiac. First, you will see why Pontiac is acknowledged to be the most beautiful thing on wheels. You will see a brilliantly good-looking car, with its fresh, Gull-Wing styling, colorful new interiors and clean, exciting lines. Second, you will see a price tag on these magnificent new Pontiacs which is so low that you will find it hard to understand why anybody ever buys any new car but a Pontiac!

Here, indeed, is double-barreled proof that dollar for dollar you can't beat a Pontiac! Come in and see for yourself.
