## "Covering the County"

By Fred Campbell, County Agent

There will be a meeting of all landowners joining the Concho River on Friday night, September 14, at 8:00 p.m. in the courthouse. The purpose of the meeting will be to determine whether or not the River should be cleaned out of rough fish and re-stocked. Jim White and Larry Campbell of the Fish Game and Oyster Commission will be present to supply technical information. All landowners adjoining the river should be present.

About 60 4-H Club lambs are now on feed. It is hoped to have all of the lambs in the pen within the next two weeks.

It appears that there will be about 100 lambs on feed this year, about 6 hogs and 1 calf.

In an effort to save some money on livestock feed, the 4-H Club boys are pooling their orders and buying feed in bulk. The first load was brought in on Wednesday by Ira Ratliff, Larry Glass and the County Agent. This load of 150 bushels of oats was purchased at a savings of thirty to forty cents a bushel.

Within the next 2 or 3 weeks, a load of maise will be brought in and club boys will bring their sacks and load the grain from a truck.

Yesterday (Thursday) a meeting was held in Austin to discuss the reduction of freight rates on livestock feed. A hearing was held before the Railroad Commission and some 80 counties presented petitions requesting reduced rates.

J. T. Davis of Sterling City attended this hearing and carried with him the petition which was circulated in this county.

The outcome of the meeting is not yet known.

 ... as the saying goes in France across-the-sea. On this side of the ocean we say "Everybody to his own taste." But a family taste test will give a happy vote of approval to this recipe for Frozen Crunch, a delightful new cooler that is as refreshing as a sea breeze itself. It's a mixture of ice cream, nut meats, and the new candy-coated rice cereal that lends itself so well to recipes:

- Frozen Crunch**
- 2 tablespoons butter
  - 1/2 cup chopped nut meats
  - 1/4 cup brown sugar, firmly packed
  - 2 cups candy-coated rice cereal, crushed
  - Dash of salt
  - 2 teaspoons gelatin
  - 1/4 cup cold water
  - 1 1/2 cups hot milk
  - 1/2 cup sugar
  - Dash of salt
  - 1 cup cream, whipped
  - 1 teaspoon vanilla

Melt butter in skillet over low heat. Add nut meats and brown lightly. Add brown sugar and cook, stirring constantly, until sugar melts and caramelizes slightly. Add cereal and salt; mix well. Cool and crumble.

Combine gelatin and cold water; mix well. Add hot milk and stir until gelatin is dissolved. Add sugar and salt and mix well. Chill until slightly thickened. Then fold in whipped cream and vanilla.

Turn into freezing tray of automatic refrigerator, setting control for coldest freezing temperature. When partially frozen, turn into a chilled bowl and beat with rotary egg beater until fluffy and smooth. Fold in 3/4 of the cereal mixture. Return to tray and freeze 30 minutes longer; stir. Then sprinkle remaining cereal mixture over the top and freeze until firm. Freezing time: 3 to 4 hours. Makes 1 quart.

You can even European-ize this interesting treat: for Mock Biscuit Tortoni, simply turn the ice cream and cereal mixture into 4- or 6-ounce paper cups. Top them with the remaining cereal mixture and freeze them until firm. This makes 12 to 16 servings.

## North Concho River Dam Dedication Sunday

A visitor's tour of the North Concho Dam and Reservoir at San Angelo will highlight dedication ceremonies for the world's longest earthen filled dam September 16. Visitors at the ceremonies will be guided on a tour of the seven-mile embankment that cost \$16,200,000 to complete as a project of the U.S. Corps of Engineers.

U. S. Representative O. C. Fisher will be featured speaker at the dedication. Others on the program include Colonel Louis W. Prentiss, division engineer, Southern Division of the U.S. Corps of Engineers and Colonel Delbert B. Freeman, district engineer, of the U. S. Corps of Engineers.

Gates at each end of earth embankment will be closed to the public after Sunday. The embankment rises above the northern edge of San Angelo's City Limits dwarfing the city's skyline. The dam's intake structure is taller than the highest building in downtown San Angelo.

Closing of the flood gates will form a conservation pool with 27 miles of shoreline. The reservoir is designed to protect the City of San Angelo and other areas below the dam site from flood water. The conservation storage will be used for municipal and industrial needs and possibly for the irrigation of farm land.

Engineers concerned with the building of the dam, state and federal dignitaries and boosters of the project will be guests at the dedication ceremonies. The dedication site will be the down stream side of the north bank of the North Concho some 4 miles from downtown San Angelo.

Rufus W. Foster, a director of the Upper Colorado River Authority (UCRA) will be one of the officials

present. The dam's control falls under that of the UCRA.

Visitor in the home of Mrs. D. C. Durham and Mr. and Mrs. Roy Morgan last week-end was Mrs. Jack Smith of Rankin, sister of Roy Morgan.

Mrs. W. J. Weimer attended the W.S.C.S. Sub-District meeting in Eden last Wednesday.

**Recipe for Success -- With Plum Jelly!**

By BETTY BARCLAY

If you'd like more glasses of gleaming, jewel-colored jelly on the pantry shelf—if you'd like a short-boil recipe that keeps your kitchen cool in jelly making weather—and if you'd like a perfect product every time, try this recipe for Plum Jelly—it won't fail. The secret, of course, lies in the boiling time. In fifteen minutes after the fruit has been prepared you can have the kind of jelly you'll be proud to display—clear and firm, with real fruit flavor. None of the delicious ripe fruit flavor is boiled away—and you'll have more glasses of jelly per pound of plums.

Perfect jam and jelly should taste exactly like the fresh, ripe fruit when it's picked, and there's a way of making it just like that today. Anyone can count on results even before they prepare the fruit—just follow the easy directions given in these recipes.

**Plum Jelly**

**Yield: about 12 six-ounce glasses**  
5½ cups prepared juice  
7½ cups sugar  
1 box powdered fruit pectin

To prepare the juice. Crush thoroughly about 5 pounds fully ripe plums. (Do not peel or pit.) Add 1½ cups water, bring to a boil and simmer, covered, for 10 minutes. Place in a jelly cloth or bag and squeeze out juice. Measure 5½ cups juice into a very large saucepan.

To make the jelly. Measure sugar and set aside. Add powdered fruit pectin to juice in saucepan and mix well. Place over high heat and stir until mixture comes to a hard boil. At once stir in sugar. Bring to a full rolling boil and boil hard 1 minute, stirring constantly. Remove from heat, skim off foam with metal spoon, and pour quickly into glasses. Cover jelly at once with ¼ inch hot paraffin.

**Plum Jam**

**Yield: about 14 six-ounce glasses**  
8 cups prepared fruit  
8 cups sugar  
1 box powdered fruit pectin

To prepare the fruit: Pit (do not peel) about 4 pounds fully ripe plums. Chop fine. Add ½ cup water; bring to a boil and simmer, covered, 5 minutes. Measure 6 cups fruit into a large saucepan.

To make the jam. Measure sugar and set aside. Add powdered fruit pectin to fruit in saucepan and mix well. Place over high heat and stir until mixture comes to a hard boil. At once stir in sugar. Bring to a full rolling boil and boil hard 1 minute, stirring constantly. Remove from heat. Skim off foam with metal spoon. Then stir and skim by turns for 5 minutes to cool slightly, to prevent floating fruit. Ladle quickly into glasses. Cover jam at once with ¼ inch hot paraffin.

J. T. DAVIS

**J. T. Davis Representing County at Freight Rate Reduction Hearing**

J. T. Davis, local rancher and banker is in Austin this week to represent Sterling County at the hearing before the Texas Railroad Commission to ask freight rate reductions of the railroads for the winter season. The hearing is for the drought stricken areas of West Texas in order to get lower freight rates this winter, particularly on feed that will be shipped in from the feed growing areas of the middle west and the corn belt.

Due to the droughty conditions that have prevailed over this section the past year, no feed has been raised to speak of, and the short supply has been used up. So, naturally, feed this winter must be shipped in from out of state. It will hurt the ranchers, more than usual, due to heavy feedings of last year, followed by even heavier prospective feed bills this winter. There was some grass on the range last winter but not much is expected this winter, due to the dry summer and fall.

Davis agreed to go and represent the county at the hearing, hoping for Sterling to be included in the reduced rate portion of the state, should such be allowed by the Commission. Such a reduction has already been asked directly of the railroads and they refused.

So often on these hot sultry summer days our meals are planned around crisp, cool salads which usually means that we can splurge when it comes to dessert time. And just watch the family devour those salad vitamins when they know there's a luscious cake, such as the one pictured here, waiting for them to enjoy at the end of the meal. Richly moist and downy-tender is this devil's food cake. Superb eaten warm—swirled thickly with whipped cream and decorated prettily with shaved chocolate—it rates as a "summer special" when you use a cake mix. For then your cake will be in and out of the oven before you can say "Jack Robinson"—quite a feature these sultry days!

**Chocolate Whipped Cream Dessert**  
1 package devil's food cake mix  
1 1/2 cups milk  
3/4 cup cream, whipped and sweetened  
1 square unsweetened chocolate, grated

Turn cake mix into bowl. Add 1/2 cup of the milk, blend, then beat 2 minutes. Add 1/2 cup more milk, blend, then beat 2 minutes. Then add 1/4 cup milk and beat 1 minute longer. (Beat vigorously by hand or at low speed of electric mixer. Scrape bowl and spoon or beater often.)

Turn batter into 9x9x2-inch square pan which has been lined on bottom with paper. Bake in moderate oven (375° F.) 20 to 25 minutes.

Cool in pan 10 minutes, then turn out, remove paper, and turn right-side up on rack. While cake is still slightly warm, spread generously with the whipped cream and make a border around outer edge with the grated chocolate. Serve at once with iced coffee.

If desired, cut cake in squares while still warm, top with whipped cream, and sprinkle with grated chocolate. Serve at once.

**Brownies Put On Party Dress**

By Betty Barclay

**NO** cookie enjoys greater popularity than Brownies. However, here are Brownies with a difference. For along with the usual rich chocolate-nut flavor combination, these Brownies have donned a party dress—frosting in swirls or rosettes, to make these little dessert squares worthy of some special occasion. Serve them when Aunt Jane comes for dinner, as bridge club sweets, or when you want to give your family an extra-yummy dessert. Then sit back and enjoy the compliments that are bound to follow after the first mouth-watering bite.

**Tea Brownies**

3/4 cup sifted flour; 1/2 teaspoon double-acting baking powder; 1/4 teaspoon salt; 1/2 cup butter or other shortening; 2 squares unsweetened chocolate; 1 cup sugar; 2 eggs, well-beaten; 1/2 cup broken walnut meats; 1 teaspoon vanilla; Butter Frosting.

Sift flour once, measure, add baking powder and salt, and sift again. Melt shortening and chocolate over boiling water. Add sugar gradually to eggs, beating thoroughly. Add chocolate mixture and blend. Add flour and mix well; then add nuts and vanilla. Bake in greased 9x9x2-inch pan. Bake in moderate oven (350° F.) 30 minutes, or until done. Cut in 1-inch squares. Remove from pan and cool on cake rack. Swirl butter frosting on top. Or force frosting through pastry tube to make a rosette on each square. Makes about 6 dozen small brownies.

For your home—use paper drinking cups. Cheap to use—cleaner, less work in dish washing. Don't spread germs in your home—use paper cups. Get cups and dispensers at the News-Record.

From where I sit... by Joe Marsh

**Easy Makes His "Cat" Tread Lightly**

Driving home on Three Ponds Road yesterday, I was flagged down by Easy Roberts' boy Skeeter. "Take it slow," he advised. "Dad's crossing this road with our tractor, just beyond the bend."

Around the curve I saw why Skeeter stopped me. Easy had laid two rows of old truck tires across the road, and was driving his new "Cat" tractor over them!

"More trouble this way," Easy explains, "but it does keep those tank tracks from tearing up the asphalt when I have to cross over to our other fields. After all, the

roads belong to all of us—and guess I'd get mad if someone else chewed them up."

From where I sit, Easy is my kind of citizen. He doesn't just give democracy lip service. He honestly believes it's his duty to consider the other fellow's interest. Whether it's the right to use the public highways or the right to enjoy an occasional glass of beer, Easy's out to protect his neighbor's "right of way."

### Simply Peachy

By Betty Barclay

PEACHES are a universal favorite and still abundant and inexpensive. What more delightful way to show off their beauty and usher out the summer season than in this delicious Peach Cream Pie? An easy-to-prepare base, made with vanilla pudding and pie filling mix, calls for slices of juicy, ripe peaches, used generously as a garnish. For special occasions, try adding an unbaked meringue topping to give it that "something extra" that makes a party.

#### Peach Cream Pie

1 package vanilla pudding and pie filling mix; 1 egg yolk, slightly beaten; 2 cups milk; 1 baked 8-inch pie shell; unbaked meringue; fresh peach slices.

Place packaged pudding in saucepan. Combine egg yolk and milk; add to pie filling mix gradually, blending well. Cook and stir over medium heat until mixture comes to a boil and is thickened. Cool slightly (about 5 minutes), stirring once or twice. Turn into pie shell. Chill. Pile Unbaked Meringue around edge of pie, if desired. Garnish with peach slices.

Unbaked Meringue: Combine 1 un-beaten egg white, 1/4 cup sugar, a dash of salt, and 1 1/2 tablespoons water in top of double boiler; beat with rotary egg beater until thoroughly mixed. Place over rapidly boiling water and beat 1 minute. Then remove from heat and continue beating 1 minute longer, or until mixture will stand in peaks. Add 1/4 teaspoon vanilla. Pile lightly on pie filling.
