FIRST TRIPLETS IN COUNTY SINCE THE TWENTIES

## Triplets Born Here Last Sunday Morning

TO MR. AND MRS. DON SOLES A BOY AND TWO GIRLS

Triplets, a boy and two girls, were born in the Sterling County Hospital Sunday morning. The babies were named Marian Hugh Soles, Karne Sue Soles, and Sharon Sue Soles. The weights (as named above) were four pounds and eight ounces, four pounds and six ounces and four pounds and two ounces. The babies were born (in above order) at 8:05, 8:09, and 8:10 a.m. Total weight was thirteen pounds. The babies, the first triplets since the trio to Mr. and Mrs. Leon Wallace back in 1927, were seen by throngs of people peering through the nursery windows all that day and are still a drawing card at the institution.

The Wallace triplets were all boys and were 24 years old on May 28. They are Ray, Rob and Roy.

The Soles have three other children, all boys. They live in Mitchell County in the Hyman community.

A Colorado City ambulance had started to Sterling with Mrs. Soles and broke down before making it. Roland Lowe had gone to Dallas for the week-end, and Sheriff Bill Green met the broken down ambulance and completed the trip with Mrs. Soles. Neither the mother nor Dr. Swann were looking for triplets.

They are cute little things. If you don't believe it, go by and take a look.

You'll agree.

## NEW HOSPITAL ADMINISTRATOR STARTED MONDAY

J. M. Stuckwisch

J. M. Stuckwisch of Cleburne, arrived here Monday and reported for duty as the new administrator of the Sterling County Hospital. He had been doing laboratory work and X-ray work at the St. James Clinic in Cleburne. In fact he was administrator for the lab and X-ray work there. He had been doing the lab work for the Johnson County Memorial Hospital in Cleburne since its opening.

Mr. Stuckwisch served in the U.S. Navy for eight years in the hospital corps; and part of that time he was with the Marines in the South Pacific invasion forces.

The new administrator has a wife and two children, ages two and three and one-half—both boys. His family will move here a little later from Cleburne, he said.

## FIRE AT THE FORREST FOSTER'S

A fire at the Forrest Foster ranch home Wednesday afternoon damaged the house and some of the contents. Starting in an unknown manner in the attic, the flames swooshed across the "nap" of the rock wool insulation in an instant and caught rafters and boards, etc. on fire. Clothes in one of the closets were burned. The opening to the attic was in that closet. Water damaged constituted the remainder.

The household furnishings were taken out of the house for safety and later stored in the garage. The electrician said that was the first time that he had seen a deal like it. Damage was not estimated until the insurance adjuster looks over the situation.

## T.F.W.C. PRESIDENT HONORED AT TEA HERE SUNDAY

Miss Ethel Foster honored the State President of Texas Federation of Women's Clubs, Mrs. Van Hook Stubbs, of Wortham, with a tea Sunday afternoon in her home.

Wimodausis Club members, Noratadata Club members and other guests heard Mrs. Stubbs tell of the plans for the various projects the clubs are undertaking in helping the section of Austria occupied by the U.S., England and France. She suggested that the Sixth District help with the hospitals.

Miss Babe Cole exhibited her music boxes and Mrs. H. L. Hildebrand showed dresses, skirts and capes worn by members of her family in the nineteenth century.

## "Music" Is Topic For Club Discussion

"Music's Charm" was the theme used at the Wimodausis Club program March 22 at the club room of the Community Center. Twenty-three members were present and the following guests: Mrs. Aaron Clark, Miss Bonnie Ruth King, Kathy Cope and Miss Babe Cole of Amarillo, who was guest speaker.

The club collect was given in unison by the members. Mrs. Lura McClellan led the group in a salute to the Texas flag.

Miss Cole exhibited a few of her collection of music boxes. In giving the history of music boxes, she said they originated in Switzerland first in watches and later in opera glasses, brooches, fans, jewel boxes, steins, etc. The first boxes played tunes on brass cylinders. The box she exhibited of the cylinder type was made in 1816. It had the tone control and the speed control as well as the selector, and repeat and repeat controls. She played several records on this one.

Miss Cole also showed an antique sewing box, ink well, album, a tottem jug and the more modern ring box and box shaped like chapel loors which played "Silent Night". Another box made in the latter part of the 1800's played the disc type records.

Mrs. Harvey Glass led the group in "Songs We Love to Sing" and Mrs. Jack Douthitt gave the take some thought, which was a tribute to music.

Mrs. N. H. Reed was elected delegate and Mrs. W. R. Morgan was named alternate to the Sixth District Federated Women's Clubs to be held in Cisco April 1, 2 and 3. Mrs. Riley King served tea.

### "Covering the County"

By Fred Campbell, County Agent

High winds and blowing dust are getting on everyone's nerves, even the livestock over the county. The only consolation is that all previous drouths have been broken by a period of rainy weather.

These same winds have kept our eagle hunter—W. A. McCasland—at home in Kent. At last report he had two or three days of flying to go before he could come to this county, but winds such as we've had prevent any low light plane flying. Maybe the winds will blow the eagles on over into east Texas.

During the past two weeks, we have had three workouts for all club boys interested in judging livestock. Last Monday, a team consisting of Mims Reed, Billy Humble and Delmar Radde attended the Abilene Christian College Judging Contest. Only the scores and placings of the top ten teams were announced, so the correct placing of the local team is still in doubt.

If you are in the chicken business and are interested in freezing eggs—here's how to do it (quoting an Extension Service release.)

The foods and nutrition specialists with the Texas Agriculture Extension Service say that thawed eggs may be used the same as fresh eggs for cakes, meringues, omelets, souffles and scrambled as well as in any other recipe calling for eggs.

For freezing, eggs should be cooled to about 32 degrees F. Egg whites and egg yolks may be frozen separately or mixed. Egg whites need no treatment. Mixed whites

A trace of rain fell here Thursday arousing hopes if nothing else. It is trying hard to rain and if the Blanks would turn on that rain making machine full force maybe it would turn loose.

and yolks or just yolks should have 1 tablespoon light corn syrup mixed with 2 cups of the eggs to prevent the yolks from forming in to a thick curd—like moss during storage. Salt, 1 teaspoon per cup of yolks, may be used instead of corn syrup if the eggs are to be used for making mayonnaise.

The specialists say clean each egg and break into a small dish to be sure there is no stale odor. Pour into a bowl, mix thoroughly and freeze in small containers. Use promptly after thawing.

The following are correct measurements when using thawed eggs:

- 1 tablespoon yolk equal 1 egg yolk.
- 2 tablespoons whites equals 1 egg white.
- 3 tablespoons yolks and whites equals 1 whole egg.

# Tribute to a neighbor

We'd like you to meet a neighbor on whom both of us depend.

He's the man who operates the service station in your neighborhood.

You depend on him to take care of your car, to supply you with products of high quality at reasonable prices. You expect, and get, from him more free service than from any other merchant with whom you do business: whatever you spend, he cheerfully cleans your windshield, checks your oil and tires, furnishes you with free battery water, and renders special services as you need them.

The oil companies depend on him as the independent merchant who distributes their products. He demands, and receives, continuously improved products with which to compete with his business rivals. He insists on reasonable prices that will move his merchandise in volume. His progressive attitude is one of the chief reasons why the oil industry has supplied you with better products at about the same prices over a long period of years.

It's a pleasure to pay this tribute to a neighbor, to thank him publicly for being such a friendly, dependable contact between the oil industry and its millions of customers. He is not on our payroll, but we couldn't do business without him.

FOR SALE—1951 Demonstrator Chevrolet Fleetline 2-door sedan at the R. T. Caperton Chevrolet Co. New car guarantee. See it today—

AMERICAN TAXPAYERS got a break last week when an economy-minded House cut three quarters of a billion dollars from the President's budget request for funds to run some 27 agencies during the next fiscal year. Some of us would have liked to abolish some of those bureaus altogether. There was also a mandatory reduction in personnel. It was one of the biggest budget cut backs in the history of these sprawling agencies. The bill now goes to the Senate.

The most controversial issue debated was an amendment which I offered to prohibit more than 5,000 new public housing units to be started during the next fiscal year. The President had requested 75,000, the House committee recommending 25,000.

With support spearheaded by the House Liberals, the public housing issue has cropped up periodically for several years. It has been described as a good example of the creeping type of socialism which gnaws away at Free Enterprise and gets the government deeper and deeper into a Welfare State activity and at the same time deeper and deeper in debt.

After a hard fight, my amendment was adopted on a roll call vote by a margin of 192-to-168. We lost only three votes in the Texas delegation. If this cutback can be maintained it will eventually save the American taxpayers a total of \$348,400,000 by reducing the new units by 20,000.

Actually, in Federal subsidies and net loss in local taxes (all public

(Continued from Preceding Page)  
housing projects are tax-exempt by local cities), the dwelling units over the 40-year period of the loans for which income tax-exempt bonds are sold, cost the taxpayers a total of \$18,920 each—and the cost to build them runs about \$10,000 for each dwelling unit.

It will be recalled that in 1949, by only a majority of five, the House approved the current public housing program whereby the government, through local housing authorities, may build up to 810,000 units over a six year period. I voted against it. The total cost would run well over \$20 billion! But each year the Congress must pass on the number of new units that may be constructed, not to exceed 165,000. My amendment would hold it to the 5,000 figure during the next fiscal year.

Local authorities who choose to obtain public housing projects are in no wise to blame. The fault is in Congress and the Administration for establishing the policy of having the government go into this sort of business.

The individual apartments in these public housing projects rent for about one-third of what they would rent for if they were opened to the general public on a competitive basis. Thus, the taxpayers pay about one-third of the rent bills for these tenants each month, and that will go on for 40 years.

### A VISIT TO TEXAS

It is difficult to get away from Washington during these times, when so much important legislation is pending. However, while the House was in recess, I was able to fly down to the district recently in response to some invitations, and was enabled to visit a brother-in-law who is seriously ill.

I addressed a large audience at the Masonic Hall in Melvin where a joint Masonic-Public School celebration was held, attended by lodge members, the local school faculty, school board, their families and visitors. Hon. E. L. Allen, City Recorder and retired school teacher, introduced me. Venerable and respected, he taught school for more than 40 years, and was teacher at a one-teacher rural school attended by my older brothers and my oldest sister before I was born.

You will look a long time before you find a more hospitable place than Melvin—or a finer class of American citizens.

It was my pleasure to be the principal speaker at the annual stockholders meeting of the San Saba National Farm Loan Association, held in the High School gym there. That association, with Mr. Perry Hardin as Secretary-Treasurer and Mr. A. F. Wood as President, has made an excellent record of service to farmers and ranchmen in that area. More than 300 people attended the annual meeting and program.

I also attended an earlier meeting of the Directors of the Sheep & Goat Raisers Association, held at San Saba, where many current problems peculiar to farmers and ranchers were discussed.

On Sunday afternoon before my return to Washington, upon the invitation of Rev. Taylor Henley it

### It Isn't the Heat—It's the Hide!

Big discussion after the Grange meeting Friday night. Tik Anderson was arguing that hogs were lots more affected by the hot weather than cattle. Skeeter Morgan declared that it wasn't so—that he never saw any hogs bothered by the hot sun like his cows were.

I was glad when Rusty Robinson stepped in.

"Boys," he says, "don't get so riled up. It all depends on what color the livestock are. Hogs or cattle, the ones with light-colored coats absorb less heat from the

sun's rays than animals with dark coats. So you're both right!"

From where I sit, so many useless arguments could be avoided if a person would remember he doesn't have all the right on his side. Reminds me of folks who insist that coffee, for instance, is the only drink, forgetting that other people have a right to a glass of beer now and then. If we wouldn't get so "het up" about our prejudices—we'd all be better off!

### Easter Bunnies Are On The March

HEADIN' HOME! Chocolate bunnies are on their way to millions of waiting kids across the nation.

New York, N. Y. — The Easter Parade is really under way!

Chocolate Easter bunnies by the millions are on the march! As a matter of fact, they have been marching since mid-November. And the kids will see them Easter Sunday after the Easter Bunny has made his annual tour.

"America's kids, and those millions of chocolate-eating adults, too, are going to have more Easter products to nibble on this year than ever before," reports H. Russell Burbank, president of Rockwood & Co., pioneers in the making of bunnies and other chocolate products. "There will be Mother Rabbit all decked out in her bonnet, apron, calico dress and carrying a wicker basket. Father Rabbit will be the proud old man with his derby, celluloid collar, weskit, striped trousers and morning coat. Of course,

there will be little boy and girl rabbits. Junior wears his Sunday-go-to-meeting suit and sister is regaled in her best dress with buttons and bows and ruffles, too."

The Rockwood "hatchery" in Brooklyn has sent out more than 10,000,000 Easter pieces this year including eggs, standing rabbits holding eggs, sitting jack rabbits, hens on the nest, roosters and even little sweetie dolls.

The bunnies and their friends range in weight all the way from 1 ounce to 12½ ounces. Perhaps, as far as parents are concerned anyway, they shouldn't come any bigger.

But with a company like Rockwood, capable of any quality chocolate product, we might look forward to a 6-foot chocolate "Harvey" in the future!
