> This revival will be held simultaneously with revivals in many of the Methodist churches throughout Texas. As a part of the All-Texas most participating churches will hold five-day revivals either the week of the 19th or the week of the 26th. Each Methodist church will have the services of a guest preacher one of these weeks, and send

Before going to Yoakum last beat the Wildcats 26-25 and they June, the Rev. Smith was for five years pastor at Dilley, Texas, where under his leadership, the church grew from a point on a circuit to a strong full-time church. He First Methodist Church ir. San Angelo several years ago.

Local Methodists are cordially inviting everyone to participate in as many of these revival services as possible. The local pastor, Bruce Medford, stresed that everyone in the community was cordially in-

C.W.B. Collyns of Fort Worth is here visiting the Claude Collinses and Tom Collins.

FORT WORTH-Trade was resumed in the sheep yards at Fort Worth Monday after more than a week of idleness caused by the findings of some hogs in the yards with vesicular exanthema. Hogs and sheep can no longer intermingle on the yards and prices on. The Sterling Finance Company most lambs and yearlings were has been formed here by Roland steady with those in effect at the Lowe and Mrs. Worth Allen. They time the yards were closed. Old ewes sold 50 cents to \$1 lower.

Stock Yards officials reported ppliances which formerly were the hogs yards would be opened to receive shipments at midnight and that trade would be resumed on Tuesday morning. They stresed, however, that there would be no market for stocker or feeder pigs and such animals should not be shipped onto the yards. Pigs cannot be held on the yards for more than 48 hours in the future and will then be sent to slaughter.

Cattle and calf trade was extremely slow and most classes where under severe pressure again and selling measurably lower than a week ago. The largest offerings of the year appeared around the major marketing circle, topping last week's mark by several thousand cattle and calves.

Stocker demand was virtually limited to choice quality light weights, other kinds having to move into slaughter channels. A few good and choice fed steers

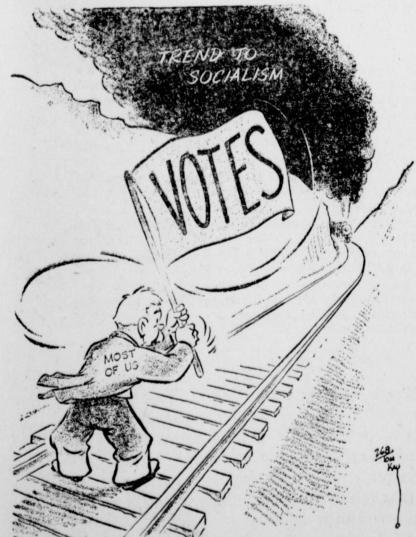

and yearlings drew \$22 to \$31, and common and medium kinds cashed at \$13 to \$21. Cutter grade steers and yearlings sold from \$10 to \$13. Fat cows cleared at \$11.50 to \$14, and canners and cutters sold from

ON COLORADO HUNTING TRIP Good and choice fat calves cashed at \$17 to \$24, and common and medium sorts sold from \$13 to \$17, with culls at \$10 to \$13.

Good and choice stocker steer calves sold mostly from \$18 to \$23.50, and most heifer calves sold at \$21.50 down. Stocker steer yearlings and stocker steers cashed at \$17 to \$23 when good and choice. Stocker cows cashed at \$12 to recognized. The eyes need to be \$15. Stocker heifers sold mainly

Good and choice fat lambs Medium grade feeder yearlings sold at \$10 to \$11. Slaughter ewes cashed at \$4 to \$6.

# THE AMERICAN WAY

Only Way To Prevent A Wreck

Often you will find a Mother who has the extremely difficult task of trying to get her youngster to consume his daily quota of milk for healthful living.

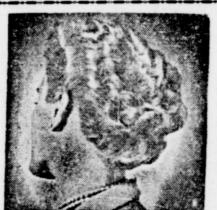

Not so with the young man in the illustration. He not only has a large glass of milk in front of him but also an excellent dessert that is filled with milk. He likes his milk both ways-BUT for the kiddies who dislike it plain, a light, healthful and delicious rennet dessert, attractively topped, will surely meet with approval. And by a few simple twists of your pastry tube, you can personalize Junior's dessert with any letter of the alphabet such as the 'J" in the photo.

By the way, Mother, when you're preparing these delicacies, better make some for the rest of the family. They'll like 'em too!

Vanilla Rennet Dessert

2 cups milk (not canned) 1 package vanilla rennet powder Set out 4 or 5 dessert glasses. Warm milk slowly until lukewarm, stirring constantly. Test a drop on the inside of your wrist frequently. When it feels comfortably warm (110° F.) not hot\*, remove at once from heat. Stir in entire contents of package at one time. Mix until powder is dissolved-not over one minute. Pour at once, while still liquid, into dessert glasses. Do not disturb for about 10 minutes, while milk sets. Then chill in refrigerator until serving time. (These desserts may be topped with whipped cream and seasonal fruits in desired.)

"If milk gets too hot, cool to com fortably warm before adding pow der, or it will not set.

OCT-12-18 THIS IS OIL PROGRESS WEEK

Texans have a natural interest in the oil industry, which is so important in our State, and in the progress made since Oil Progress Week was last observed. Here are a few quick facts:

New Wells - During the twelve months ending August 31, 1952, the Texas oil industry drilled 17,000 new wells, at a cost of over \$700 million. Most of the heavy expense of drilling these new wells was paid from earnings plowed back into the development of the State's oil re-

Transportation - The total mileage of Texas' trunk pipe lines for oil and finished products is over 29,000. This low-cost transportation system is a major factor in the maintenance of the low prices you pay for petroleum products.

HUMBLE

TEXAS OPERATIONS Twelve Months Ending August 31, 1952 Wells Drilled . . .

Average Production, in barrels daily . Employees in Texas, August 31 . . 17,775 **Baytown Refinery:** 

Average crude runs to stills, barrels daily . . . . . 249,310 Humble Pipe Line Co. operates 5,895

miles of trunk lines for oil and finished products, which had transported a daily average of 722,600 barrels in the year ending August 31.

Production - Production has reached a record level. Texas currently is producing about 46 per cent of all the crude oil produced in the U. S. In the year ending August 31, Texas production totaled about 1,015 million barrels. There are now 133,800 producing oil wells in Texas.

Reserves - Proved oil reserves in Texas of 18 billion barrels represented 57 per cent of the U. S. total at the beginning of 1952. During 1951, the last year for which figures are available, proved reserves increased two billion barrels. These are developed oil reserves and the figure is important: developed reserves supply our needs currently and provide reserve capacity that is immediately available when we need it.

Refining - The Texas refineries will have a big year. They now employ, in round numbers, 46,000 Texans, and process about 28% of all the oil refined in the U. S. The daily refining capacity of all Texas refineries exceeds 2,000,000 barrels. A program to expand and improve these facilities has been general throughout the industry.

Sa

Taxes - The Texas oil industry continues to be the largest tax-payer in the State. Through the year ending August 31, gross production taxes alone on Texas oil and natural gas amounted to more than \$137 million; in addition, the industry pays large amounts in other taxes.

In brief, the Texas oil industry during the past year continued to do its part in meeting the demand for oil. It has expanded pipelines to provide low-cost transportation. It has improved facilities for making more and better petroleum products for your use. Today, two gallons of gasoline do work that required three gallons in 1925; and the gasoline costs no more than it did then.

#### CARD OF THANKS

We should like to take this means of thanking each and every one of you for your kindness and thoughtfulness during Joe's long illness-Only the kind deeds, thoughts and solicitious care kept him with u in such good condition.

The ho pital staff never left him. There was never a time in the last seven months when he was left alone night or day for ten minutes. Fern Davis has driven from San Angelo each day and in her kind and efficient way kept his body in a wonderful condition. Mary has fixed food for him at any time or hour when she thought he needed it. Cora and Louis never failed to see him and cheerfully greet him each day. The nurses and Mr. Stuckwish were by his side in constant care and ever remembered that he should have the best of care and everything-from the first and last flowers on the lawn.

And here words fail us as it does everyone else-when we try to word the love and thanks we have for Doctor and Mrs. Swann. used every resource of knowledge known: he attended him as a friend and brother-he was con tantly at his side until his last breath was gone-and then as his Masonic brother assisted in the final rites awarded him. In caring for him he also patiently attended to us, the family, by his explanations and by anticipating and preparing us. Always by him was his good and kind wife-as she had always been -in their care of us.

And then to each of you, our love and gratitude for the personal gifts, the food, your calls, your &

watchful care over Jodie, and for your having Joe's care and welfare paramount in your thoughts. The inquiry from the smallest child to " the oldest person are vivid and will remain so as a tribute to Joe in our mind. For it was this town and the people here that he loved most -and it was fitting that it should be all of you who were nearest him when he should depart.

Sincerely. Mildred and Jodie Emery

Mrs. A. G. Daves is in Iola, Texas with her mother. Mrs. J. L. Lewis, 90, who is seriously ill.

"NEW LIGHT ON IKE AND ADLA!" \* \* \* Meet the two presidential candidates as seen through the eyes of Mamie Eisenhower and Mrs. Ernest L. Ives, oldest sister of Governor Stevenson. What's the next President really like? For revealing close-ups of the two candidates read the American Weekly, hat great magazine distributed vith next Sunday's Los Angeles Examiner.

Our opinion of the matter is that the feller who invented ox-tail soup must have been trying to make ends
