## GETS DEGREE FROM ACC

ABILENE, May 20—LaVerne King of Sterling City will be among the 191 Abilene Christian College seniors who will receive degrees at commencement exercises May 30.

LaVerne is the daughter of Mr. and Mrs. Riley J. King of Sterling City and a 1950 graduate of Sterling High School. She majored in education with a minor in home economics and will receive a B. S. degree.

She was a member of Kappa Delta Pi, national educational organization; Future Teachers of America and the "W" Club, women's honor organization.

The House turned on the steam last week and took action on several important measures, including the Postal Pay Bill, the military appropriation bill, and the proposal to admit Hawaii and Alaska to statehood.

The military bill assures a continued powerful defense establishment costing \$31 billion plus carry-over of funds previously appropriated. The same bill included what is called a "sleeper" or rider which would keep the Government in business operations which can and should be contracted out to private industry. I voted against the rider, though it was retained. It will probably be knocked out by the Senate, since untold millions can be saved by allowing such contracting to take place as is desired by the Defense Department.

That Statehood bill, which this time included both Hawaii and Alaska in the same package, was decisively defeated by a majority of 48 votes. I voted against statehood. Alaska is simply not yet financially able to afford the cost of maintaining a state government, and Hawaii needs to do some house cleaning. While most Hawaiians are good patriotic people, it is a fact that Harry Bridges' labor union, completely communist-dominated, maintains a strangle-hold over the Territory's economy and, according to former Governor Stainback of Honolulu, now Supreme Court Judge out there, says it would be dangerous to our national security to admit that group of Pacific Islands, and grant statehood status.

There are two or three alternatives to meet the charge, which has some validity, of "taxation without representation." One is to give the islands, when and if they clean house, a commonwealth status-comparable to Canada's relationship to the British Isles (with our military bases retained), or let Hawaii become part of the State of California.

Last week the House Agriculture Committee turned thumbs down on bills to allow a little extra cotton acreage to counties which have two successive crop failures because of the drought. This would have upped the national allotment by less than one-half of one percent and would have done justice to a group who have certainly added nothing in recent years to the cotton surplus. But despite the efforts of several of us, the Committee decided against any increase at this stage.

Mr. and Mrs. John W. Denton of Eagle Pass spent Mother's Day week-end here with Mrs. Denton's mother—Mrs. George Case and Mr. Case.

Mr. and Mrs. John Green of Green Forrest, Ark. has been here visiting the past two weeks. They took Jodie and Bernice Green home with them for a visit.

**CATTLE STRONGER**

Fort Worth—Rains and threats of rains strengthened the hands of cattle producers in the Southwest and prices were strong to 50 cents higher on most kinds at Fort Worth Monday.

Cows, slaughter calves and stocker and feeder cattle and calves were in the forefront of the advances. Contrary to the usual Monday trade, the movement was fairly active as order buyers, shippers and independent packer buyers showed their strength early in the day and had cattle crossing the scales shortly after the starting siren wailed.

Fed beef cattle were in small supply and cleared at firm prices. Bulls also held up to last week's strong close. Some fed cattle topped at \$23 and \$23.50, those at the higher figure from McClung Land and Cattle Co., Johnson County, averaged under 1,000 pounds. A load of choice fed steers from Clint, Texas, averaged 1,107 and topped at \$23 and were sent to Fort Worth by Paul C. Davidson. Grassy steers, yearlings and heifers bulked at \$13 to \$18, some

rannihans below that range. Fat cows sold from \$11 to \$13.50, some very old registered cows at \$13 to \$13.50, and some of their younger mates in choice butcher flesh to \$14.50. Cannors and cutters bulked at \$6.50 to \$11. Bulls mostly \$10 to \$14, some above or below that.

Good and choice slaughter calves cashed at \$16 to \$21, while plain and medium butcher sorts sold from \$12 to \$16 and culls drew \$9 to \$11.

Good and choice stocker steer calves cashed at \$18 to \$22, the higher figure for load of choice steer calves from J. R. Condron of Clay County. These steer calves at \$22 and their heifer mates cashed at \$19, and a three dollar spread between steers and stocker heifer calves was generally the rule. Stocker yearlings drew \$21 down, and older replacement steers sold from \$20 down. Some stocker cows went back to the country at \$7 to \$12.

Mexican Cattle Not Likely to Hurt Much

Reports received in Fort Worth last week indicate that the shortage of cattle in Mexico may be more acute than suspected earlier. You recall the story we carried about the need for 100,000 heifers and cows in the Mexican State of Sonora?

Here's the latest as we get it here. Mexican packing houses in the border states of Sonora, Chihuahua and Coahuila face closure soon unless something can be done to increase their supply of cattle.

The supply of these native Mexican packing houses has become

critically short since their border was opened to the United States and export were resumed last January. You can be looking for some action from Mexican authorities as soon as the beef shortage hits their people and some "relaxed" export quotas are likely to have some of the slack jerked out of them!

**SPRING LAMBS TOP \$22**

Spring lambs opened 50 cents or more higher at Fort Worth Monday, with top lambs at \$21 to \$22, the latter the highest price since April 21, and a price of \$22 has not been beaten since April 12!

Shorn old crop lambs were slow starting, but topped at \$15 to \$16, full steady on Monday. Older sheep ruled steady. Feeder buyers still have a hard time beating packer prices on just about everything as feeders in other parts of the country are still rather pessimistic unless they see a big "spread" between prices on feeder and fat lambs.

Improved pasture conditions in the Southwest could help sheep prices more than anything else, especially in view of the number of yearling ewes coming to market.

**Pause for Reflection**

BY James C. Ingebreton  
Why do thoughtful religious leaders persist in comparing Soviet Communism with Christianity?

Dean James A. Pike of the Cathedral of St. John the Divine in New York City is the latest victim of this fallacy to come to my attention.

In a recent address before a convention of the New York State YMCA, Dean Pike reportedly said that Communism is a kind of religion that "we don't quite know how to handle". And he added, according to news accounts, Communists "stole our stuff", but in doing so "made it earthbound".

What "stuff" did Communism steal from Christianity? The sooner we realize that Communism is a complete antithesis of Christianity, the sooner we shall "know how to handle it."

There is no forced sharing, no forced labor, no class antagonism, and no political interference with economic affairs, as such, in Christianity. And I challenge anyone to prove that there is. The Christian concept of government is that it is to be "not a terror to good works but to the evil." And everything that I have ever seen or heard regarding Soviet Communism leads me to believe it is the exact opposite of this.

**Impressions While Visiting**  
Sterling City, that lives up to its name,  
People of a quality that is the same.

The windmills turn as the wind does blow,  
And as freely does their friendliness flow.

Dry it may be and a mite of dust,  
But one thing's certain, their smiles don't rust.

Taint always so, that their legs are bowed,  
But when they show hospitality you've been showed.

At the Lion's Club luncheon table manners, they don't teach  
Every man for himself,  
and the boarding house reach

But when they clasp your hand,  
you know 'tis true.

When you hear, "Welcome  
Partner, I'm with you!"
