### Around Muleshoe

Word has been received that the Muleshoe Texas **Employment Commission** office will be re-opened.

A date for the re-opening has not been scheduled as yet.

The Fine Arts Boosters of Muleshoe will host a salad luncheon on Friday, February 26 at the High School Cafeteria. The charge will be \$3 per person for advance or tickets at the door.

The annual meeting of the members of the Bailey County Electric Cooperative Association will be held in the Bailey County Coliseum Saturday, February 27, beginning at 1 p.m.

### Honea Joins Sarpalius Staff

Senator Bill Sarpalius has announced that Henry Honea, 37, who is a Boys 'kanch alumnus, has joined his staff as executive administrative assistant. Honea is a native of Swisher County and has been district office manager for the past year.

Honea will continue to travel the district in the Mobile office. Senator Sarpalius represents the 31st Senatorial District which covers the top 26 counties of the Texas Panhandle. The purpose of the mobile office is to give rural residents an opportunity to participate in state government on a grass roots

The mobile office has been successful in relieving the feeling of isolation of many Panhandle and South Plains residents because of the distance between them and Austin. When he is not traveling the district, Honea will be in Sarpalius' Amarillo of-

coined from the hope that next year will be a better year. The American farmer may be daunted, but his spirit is still there, evidenced in the plowing and preparation of his land for the spring planting just around the corner.

### Arson Attempts, Threats Made On Two Local Businesses

Around 11 a.m. Sunday morning, a local Shop Rite cashier answered a telephone ring in the store. The first time the phone rang, the caller hung up. The second time it rang, she answered once again; and, while she was unable to decipher the first part of the caller's words, the last part were "it's set to go off in one hour."

Local police were dispatched to the store and after clearing it of all customers, conducted a search with the aid of the employees. The search revealed nothing. The cashier reported that the caller had seemed to have "a rather strange

Another cashier reported a white male had been in the store and purchased some items and asked directions to the restrooms. She gave him the directions. The restrooms are near the storage area.

At noon, after a period of waiting, the store was re-opened. Then, shortly before 2 p.m. police received another call from the assistant manager, advising them that what they had been looking for had been found. Upon arrival, the assistant manager took the officer to a storage area near the restroom and showed him some burned ceiling tile. The store employee related that they

Dr. Elmer V. Krehbiel, **Beef Production Specialist** with the Agricultural Education Adult Specialist

Program and the Department of Animal Science of Texas A&M University, will be the instructor for the course.

Dr. Krehbiel has a strong backbround in animal production and genetics. He received a B.S. degree from Oklahoma State University in 1950, a M.S. degree from the University of Arkansas in 19-59, and a Ph.D. degree from Virginia dPolytechnic Institute in 1966. His graduate studies were based on selection for type and reproduction performance of cow herds.

Between periods of formal training, Dr. Krehbiel worked with the beef cattle industry as artificial semination technician, beef cattle herdsman, and ranch manager in Oklahoma. He also served as beef cattle research assistant in Arkansas and as animal geneticist for the USDA at Miles City, Mont. For two vears prior to joining the Agricultural Education Adult Specialist Program, he served as Area Livestock Extension Agent in Ohio.

U. S. growers will plant 12.6 million acres to cotton this spring. This compares with about 13.8 million harvested during the 1981crop year.

High Plains growers sold mixed lots of mostly grades 42 and 52, staples 31 and 32, mike 35 - 49 at about .44.50 cents per pound, unchanged from a week earlier. Grade 52, staple 32, mike 30o - 32 sold around 39.15 cents, down 25 points from a week earlier. Gins paid High Plains growers \$70 to \$80 per ton for cottonseed, mostly \$75 per ton.

Lubbock's Marketing Services Office classed 39,000 samples during the four-day week ended February 18 for a seasons total of 2,296,000. This compares with 1,614,000 classed by the same date one year

Predominent grades were grade 42 at 14 percent, grade 52 - 40 percent, grade 43 - 13, and grade 53 at 21 percent. About 89 percent of the samples were reduced one grade because of bark. Eight

Saturday Mishap Leaves One Dead, One Injured

One man was killed and another injured Saturday night about 7:30 p.m. approximately one and one half miles south of Muleshoe on Highway 214, when they were struck by an auto driven by Lester Howard of the Needmore community.

Felix Contreras, 18, was pronounced dead by Justice of the Peace Frank Ellis III at the scene of the mishap. His companion, Jesus Perez Garcia, 21, was transported to Methodist Hospital in Lubbock by Ellis Ambulance, where he underwent treatment for a broken leg. The two men were from Chihuahua,

According to reports, the two men were walking south on the highway. The driver apparently failed to see the men before he struck them.

Services for Felix Contreras are scheduled in Villaldama, Mexico. He is survived by his parents, Mr. and Mrs. Carmen Contreras, of Villaldama, Mexico, three sisters, Mrs.

Lucha Torees, Mrs. Irma Doran and Miss Chela Contreras, all of Chihuahua, Mexico; two brothers, Penro Contreras of Chihnahua and Jose Contreras of Andrews, Texas. The deceased was employed as a farm laborer near An-

### Investment Device For Savings

Investment Credit is a tax savings device designed to stimulate the purchase of business assets. Most business depreciable personal property qualifies for investment credit as well as some types of real estate. Business real estate which qualifies includes some single purpose agricultural buildings, livestock fences, irrigation wells, and fruit trees.

The credit serves to offset your income taxes dollar for dollar. For example, if your income taxes totaled \$3,000 for 1981 and investment credit equals or exceeds that number, you would pay no income tax for the current year. Investment credit cannot be used to offset social security taxes.

Credit earned in a given year which is not used to offset current income taxes can be carried back to create tax funds. Any credit unused for the three year carryback is available under the new tax act for up to 15 years carryfor-

Property which qualifies for a three year write-off under the new tax act is entitled to investment credit equal to 6 percent of the purchase price. Property qualifying for a five year write-off or longer is entitled to a credit equal to 10 percent of the purchase price. If you dispose of the property before the writeoff period expires you must pay back a pro rata share of the credit.

Investment credit is not elective; you must take it in the year earned and carry it back and forward appropriately. Investment credit is above and beyond all depreciation deductions and represents a true tax savings without a reduction your depreciation

There are special rules for investment credit on leased property. Taxpayers undertaking leases on any business assets should investigate the effects of investment credit before signing a lease.

### '81 Brings Many Changes In Social Security

ed in the many changes in the Social Security Law of 1981, these changes are outlined below:

-The first month of entitlement has been changed to the month after the month of application or the first full month of age eligibility unless attainment was on the first day of the month of application or earlier. This means that a person cannot be entitled for the month he is age 62 unless the applicant was 62 or older the first day of the month he applied.

-The lump sum death payment can no longer be paid to anyone except a wife who was living with the deceased or a child of the deceased who was receiving a check the month of death.

-Termination of benefits to a pre-retirement spouse when the youngest child attains age 16.

-Broaden offset base for disability.

This means that persons now age 62 through age 64 will have their disability benefits offset against Workmen's Compensation past age 62 as it was in the old law.

-Repeal of the Supplemental Medical Insurance open season.

This means we now return to open season only in January, February and March each year.

-Repeal of age 70 as the age to draw benefits without regard to earnings.

This means that age 72 to draw without regard to the amount of earnings is reinstated through 1982.

Readers will be interest- Under the 1981 law, anyone age 70 in 1983 will be exempt from all earnings.

-Elimination of the minimum benefit amount for anyone not eligible before 12/31/81.

This means that all persons applying in 1982 or later will have benefits figured on the actual yield without a floor of the minimum benefit.

Everyone who has questions about these or any other subjects may call and get answers at 1-800-392-1603 or applications for any kind of social security benefit may call 806-762-7385.

### Beef...

Cont. from Page 1 ing. During the dates the short course is in progress, Dr. Krehbiel will be available to assist cattlemen with individual problems and to provide on-the-farm instruction.

Cattlemen interested in attending the short course should write or call the teachers of vocational agriculture, Carl Wheeler or John Reynolds.

Beef Production Short Course Certificates will be presented to each cattleman who attends all four of the training sessions.

Dr. Krehbiel states that the field of beef cattle production must take a close look at efficiency of production in the future. With land prices, feed and taxes rising, the producer is meeting more and more competition for the consumer's dollar at the meat counter. From the economic view of the beef cattle business, there is every indication that in comparing the producer of yesteryear and the producer of tomorrow, beef must be produced more efficiently in order to be a profit making business. Dr. Krehbiel indicated that the Beef Production Short Course will deal with methods of producing beef at a lower cost and the ways of producing the kind of beef that the homemaker wants to buy. The course will include such important topics as nutritional requirements, winter feeding, minerals, vitamins, feed additives, implants, facilities, equipment, selection of bulls and cows, animal identification including freeze branding, cross breeding, feeder cattle grades, diseases, parasites, reproduction, market trends, and management for efficient production. The course can be altered to meet the wishes and interests of the farmers and ranchers attending.

Short courses in beef production, as well as in other areas, are available to farmers throughout the state under this cooperative program between the Texas Education Agency and Texas A&M University. This program is designed to make the ser-

by stuffing a rag into the top of a bottle of Cutex nail polish remover and then set it on fire. It was also noted that the arsonist had removed or raised a ceiling tile and set the crude fire bomb up into the ceiling.

On Saturday night, February 20, at approximately 10:12 p.m., the manager of the New Dimensions Arcade received a telephone threat "from a young male" saying there "there is a bomb under one of the games." Police were called and the arcade vacated of customers. A search conducted by Officer Tom Watson revealed no bomb, but police do have a suspect on the caller.

Sometime Sunday night, two show lambs were taken from the Muleshoe Ag farm. One of the lambs' remains were found encased in a plastic bag just outside of town south on Hwy. 214. The other had not been found at presstime. The lambs were scheduled to be taken to the Houston Stock Show next week. This is the second happening of this sort to hit FFA students this year.

On February 20, local police arrested one male for DWI and fleeing a police officer; another was arrested for the same two charges, compounded by fleeing the officer, after an attempt had been made to stop him for a traffic violation.

On February 21, two males were arrested for fighting and causing a disturbance in front of a local

### Rural Banking Confab Scheduled March 1-3

Some 300 bankers from throughout Texas are expected to gather in College Station on March 1-3 to discuss such key issues as rural banking and the holding company movement, the economy, farm policy, the future of banking and of Texas agriculture, and the outlook for various agricultural commodities.

The discussions will be part of the 30th Texas Farm and Ranch Credit Conference for Commercial Bankers at Texas A&M University, says Dr. Bud Schwart, economist with the Texas Agricultural Extension Service, Texas A&M University System, which is sponsoring the event.

Headlining the conference will be U. S. Congressman Tom Loeffler of Kerrville and Phil Gramm of College Station. Loeffler will discuss "Banking -- Now and Future" while Gramm will give an overview of the nation's eco-

## SPAG Will Conduct

### Election School

Tom Clark of the Elections Division staff of the Secretary of State's office will be conducting an election school to prepare municipal and special district election officials, as well as other interested persons, for the upcoming elections. The South Plains Association of Governments will be sponsoring this school for the South Plains region.

The training will be conducted at 9:00 a.m. to 12:00 noon on Tuesday, March 16, 1982, at the Energas Building, Flame Room, 1500 Broadway, Lubbock. Some of the topics to be discussed include:

Procedures for calling an election; conducting absentee voting; appointment of election judges and clerks; and procedures used in polling places such as assistance to voters, vote counting, opening and closing polls, and returning voting reports.

All interested persons are asked to contact SPAG no later than Friday, March 12. Any questions or for further information, please contact Arlene Miller at SPAG, 806/762-8721.

A session on "Recognizing and Managing Problem Farm Loans" and discussions on the special requirements of crop, live-stock, dairy, and farm equipment loans will also be featured.

The conference will include a special session on oil and gas leasing hints since many agricultural landowners have witnessed increased oil and gas activity.

Of special importance to bankers will be the closing session of the conference which deals with the outlook for major agricultural commodities, notes Schwart. Extension economists will provide an up-to-date perspective on rice, dairy products, soybeans, grain, cotton, sheep, hogs and cattle to help bankers cope with farm loans and related matters.

Bankers and lending officials interested in taking
part in more extensive
training are invited to participate in an agricultural
credit analysis workshop
March 3-5. The workshop
will include computer simulation techniques and the
use of income statements,
cash flows and balance
sheets in making and servicing loans.

### Tax Counseling For Elderly Meets Needs

While there are few things in life that are free, there's one thing for sure. It's tax counseling and assistance for persons 60 years of age or more.

Tax Counseling for the Elderly (TCE) is a program coordinated by the Internal Revenue Service through which non-profit organizations provide free tax information and assistance to individuals 60 years of age and over.

Volunteers are specially trained by IRS to help older Americans with the tax credit for the elderly, the double personal exemption, the special treatment of the gain on the sale of a home by an elderly person, the proper method of reporting pension income and paying tax

### TTI conducting van-pool census

college Station — If you drive your own van and regularly haul at least seven other people to and from work, researchers at the Texas Transportation Institute want to hear from you.

Experts with TTI, a transportation research branch of the Texas A&M University System and the state agency responsible for promoting and counting vanpools in Texas, are trying to obtain an accurate count of individually owned and operated ride-share vehicles.

cles.

What van census takers lack, said Dr. Don Maxwell—a civil engineer at Texas A&M and director of the TTI vanpool project— is an accurate estimate of how many vanpools are owned by individuals or a group of neighbors. "We know of about 30 some-odd cases, but we feel there must be at least 300 we don't know about," he said.

Maxwell asks any individual vanpool operators to contact his office with the Texas Transportation Institute at Texas A&M University, College Station, Texas 77843.

These volunteers will even help taxpayers fill out their tax returns.

TCE programs are provided in neighborhood areas which makes getting needed help easier and more convenient. Taxpayers age 60 or over who require assistance should call IRS for the TCE location nearest them.

## Tips for keeping energy costs down when using fireplaces

COLLEGE STATION — If you have a fireplace, you should consider these maintenance and operational suggestions from the Texas A&M University Center for Energy and Mineral Resources:

Mineral Resources:

— Clean fireplaces and chimneys. If you use a fireplace fairly frequently, the chimney will have to be cleaned from time to time because of the formation of creosote, a black tarry liquid that results from the condensation of wood gases not burned in the combustion process.

—Lower the thermostat setting to between 50 and 55 degrees when the fireplace is in use. Heated air from the rest of the house will be lost, but the furnace won't use nearly as much fuel.

— Close all doors and warm air supply ducts entering the room with the fireplace, and open a window near the fireplace about ½ to 1 inch. Air for combustion will be drawn in through the partially opened window, not from the rest of the house.

— Consider installing a glass screen if you have an open masonry fireplace. Louvers at the bottom restrict the amount of air a fire consumes and can be closed when the fire burns down. This cuts substantially the loss of warmed air up the flue.

— If your fireplace damper opening can be adjusted from outside the fireplace, try closing the damper part way. This reduces the draft and the amount of warmed air drawn in from other parts of the house.

— Close the damper when

— Close the damper when the fire is out. If the damper is left open, your furnace may consume 10 to 30 percent more fuel, than it does normally.

If it's Borden, it's got to be good

### Houston Rodeo Draws Top Cowboys

Spectators at the 1982 rodeo, February 24-March 7, will again be treated to top flight rodeo competition. Cowboy champions will be matched against rodeo's toughest stock with one of the richest purses in American rodeo riding on the outcome.

For the final performance of the rodeo on March 7, the top finalists in each event will compete in Houston rodeo finals for additional prize money, trophy saddles and the coveted title of Houston All Around Cowboy on the line. In 1981, rodeo contestants split more than \$300,000 in prize money and more than 604,000 spectators turned out to see them win it!

This year's rodeo performances feature superb television and recording star talent. Fans will be assured that whatever performance they attend, they're bound to see a true superstar.

Opening the rodeo on Wednesday, February 24, for one performance, is Eddy Arnold: on Thursday February 25, for one performance, Anne Murray; on Friday, February 26, for one performance, Larry Gatlin; on Saturday, February 27, for the matinee performance, Merle Haggard and for the evening performance, The Oak Ridge Boys; on Sunday, February 28, for both the matinee and evening performances, Charley Pride: on Monday, March 1, for one performance, Mac Davis; on Tuesday, March 2, for one performance, The Statler Brothers; on Wednesday, March 3, for one performance, Moe Bandy and Joe Stampley; on Thursday, March 4, for one Conway performance, Twitty; on Friday, March 5, for one performance, and Saturday, March 6, for both the matinee and evening performances, Dolly Parton; on Sunday, March 7, for the matinee

### Patriotism Week Observed At M.IH

Last week, February 15-19, was Patriotism Week for the Muleshoe Junior High School students and faculty. The faculty and students decorated the halls, lockers and doors. Everyone dressed up on Friday as a person from history, or in red, white and blue.

The sixth, seventh and eighth graders had themes for each hall. The sixth grade hall had as its theme "Freedom for All," and some of the decorations in the hall were a U. S. flag made from paper chains, a replica of the Liberty Bell and each locker was also decorated by the student who uses it.

The seventh grader's theme was "The Melting Pot." They had a paper machete' pot hanging from the ceiling with red, white and blue streamers coming out of it. Doors were decorated to depict some of the countries represented in America.

The eighth graders used as their theme "Reflection of America," which included early transportation the presidents, and important documents of the United States. The doors had the former presidents on them and streamers hung the width of the hall ceilings.

Each day, the Student Council raised and lowered the flag. When they raised the flag, Brett King played

### **Mulettes Lose** To Fillies

Last Monday, Feb. 15, the seventh grade Mulettes played the Olton Fillies and lost by two points. The final score was 22-20.

High pointer was Debbie Isaac with nine points, followed by Lisa Black with five. Shannon Pelton made three points, Casey King had two and Jana Brown made one point.

The Mulettes attempted 12 free throws and made

eight. This was the final game for the seventh grade Mulettes. The team has been under the direction of Coach Nanette Soto.

"Revelle" on the cornet, and when the stars and stripes were being lowered, Brett played "Taps."

Concluding the week was an assembly on Friday afternoon. The junior high band played several pattriotic songs, concluding with the "Star Spangled Banner," and patriotic speeches were given by Ricky Rasco and Julie Sanders. Mike Holt, Student Council president, introduced the various parts on the program.

This past week, patriotism shone in the faces of the faculty and students, and the week showed how much we all love this country.

### MJHS Coaches Comments

Muleshoe's eighth grade Mules finished their 1981-82 season at Olton Monday night. It was a good year for the team. The season record for the Mules stood at eleven wins and six losses, after a tough 36-32 victory at Olton. The win avenged an earlier 39-20 loss at the hands of Olton, and also kept Olton from sharing district honors with Dimmitt. The Mules won two tournaments during the season, at Muleshoe and at Bovina. A third place trophy was missed at Plainview because of a desperate last second forty footer by a Lockney player.

work with and they were successful because of their good attitudes. Everyone supported the team, from the starters all the way down to those who sat on the bench. They worked hard in practice and strove to improve. This made it fun to practice and to take them to games. They lost out on district honors in both football and basketball by a very small margin. I think they can win in both sports next year if they keep improving like they have thus far.

This was a good group to

The halls were really busy last week, which was patriotic week. The halls were decorated and that will be left up till after open house. Friday, a program was held. Julie Sanders and Ricky Rasco gave speeches. The MJH band played three songs.

Everyone is working hard on the Science and History Fair. A lot of hard work goes in on these projects, and I would like to encourage the parents to attend the open house and see these. Open house is March 4th. The students who win here will go to regional to compete with students from other towns.

School will be out February 26 and March 1st for the ski break. I hope everyone has fun over the weekend.

Well, that's about all, see ya next week.

#### **Texas Triathlon** scheduled for April

COLLEGE STATION -The first Texas Triathlon patterned after the Hawaiian endurance event featuring swimming, running and bicycling-will be held here Saturday, April 10, 1982.

The Texas Triathlon, jointly sponsored by the Texas A&M University Extramural Sports Club Association, Bryan/College Station Chamber of Commerce and Schlitz Brewery, will include swimming one kilometer (20 lengths of a 50meter pool), running 10 kilometers (6.2 miles) and cycling 30 kilometers (about 181/2 miles).

Events begin at 8 a.m. Because of the logistics involved in the swimming, that event will have three starting times - 8. 9, and 10 a.m. - with participants having a choice of which time they begin.

Each participant must be accompanied by a person to be available to count laps at the swimming pool and transport the person's bike to the start of the cycling event.

To obtain registration forms or more information, interested persons may contact the Bryan-College Station Chamber of Commerce, Information and Hospitality Center of Brazos Valley, 2615 Texas Avenue South, College Station, Texas 77840 or call 713/693-

### News

The eighth grade Mulettes traveled to Littlefield the first of February to take on the Wildcats. The Mulettes came home with a disappointing loss of 29-27. The Mulettes finally got it together in the fourth quarter, but by then it was too late. Meischelle Logsdon was high pointer with nine points, followed by Brenda Ellis with six. Stacy Smith, Teena Sisemore and Juanita Garcia each had

two points.

The Dimmitt Bobbies traveled to Muleshoe to take on the eight grade Mulettes with the Mulettes coming out on top, the score was 22-19. High scorer was Julie Sanders with nine. She was followed by Meischelle Logsdon and Teena Sisemore, each with four. Brenda Ellis, three and Juanita Garcia had two points.

On February 15, the Olton Fillies traveled here to take on the eighth Mulettes. The Mulettes lost 26-19 after a hard fought game.

High pointer was Meischelle Logsdon with 11 points, Kristy Landers had three followed by Julie Sanders and Leonor Daniel each with two. Bettie Lobaugh had one. Congratulations to the Mulettes for a well fought season.

### Basketball Girls 1982 Cattle Market **Outlook Diverse**

Most cattlemen agree that 1981 was disastrous for the cattle industry, but many disagree about what lies ahead in 1982.

"The outlook for the cattle business in 1982 is probably the most diverse it has ever been." says Dr. Ed Uvacek, livestock marketing economist with the Texas Agricultural Extension Service, Texas A&M University System.

Some economists project continued poor profitability and an aborted cattle cycle while others suggest a reduction in the total cattle inventory has already ocurred. On the other hand, some livestock analysts expect some inprovement in cattle prices and a continued herd buildup until around 1984-85.

He adds that some aspects of the business serve as underlying incentives to a further herd buildup. These include such things as the difficulty ranchers have in altering plans after they decide to expand their herds, the sometimes substantial additional income sources coming from oil and mineral leasing of some ranchland, and the historic bullishness of cattlemen.

"The overall balance sheet for the cattle industry in 1982 is somewhat

encouraging, " believes Uvacek.

Fewer fed cattle will be available in the first six months of 1982 along with reduced pork and veal production. Only a small increase in broiler and turkey numbers is expected, so total red meat and poultry supplies during the first half of 1982 may be below the first six months of last year.

These lower meat supplies should allow higher prices for cattle in 1982, says the economist.

"Price forecasts suggest some improvement is likely through the first half of this year," Uvacek says. "As fed cattle prices increase, feeder prices also will move upward. Improved incomes for feedlots in the early part of the year could stimulate cattle feeding and result in larger beef supplies by the second half of the year."

Predictions of the cattle market depend greatly upon anticipated general econmic conditions. Most economic factors are difficult to forecast because they are influenced by policy decisions made Washington, adds the economist.

A tired business man can get unusually spry when it's time to play.

#### Texas judges learn to catch speeders

COLLEGE STATION -City judges from throughout Texas went back to school to learn what it takes to catch a speeder during a recent oneday seminar at Texas A&M University.

The course, presented by the Law Enforcement Training Division of the Texas Engineering Extension Service, taught the magistrates the basics of radar operation and speed violation evidence gathering. During the afternoon, the judges took to the test track to watch radar in use. \*\*\*\*
