Vanilla instant pudding is layered with crisp chocolate wafers in pretty stemmed glass dishes, then chilled and topped with whipped cream and shaved chocolate. We say "instant", because it takes very little longer than that to prepare when made with a "no-cook" pudding mix.

DO YOU LIVE AS WEL AS THE "JONES"?

One way to find out is to add up the ways you put electricity to work in your home. The more jobs you do electrically, the more likely you are to live comfortably and conveniently.

Just for fun, why not add up all the ways electricity is working for you and compare the total with your "Jones'"? You'll be amazed - for electricity is probably serving you in dozens of ways you often forget.

And just think how little all this convenience costs!
