Eagles Play Union Here Tonight

Game Time at 9:00 P.M.

The Sterling City High School Eagles football team take on the 8-man team from Union here tonight at the Eagle field. This is the third game of the season and is a non-conference affair.

In fact, the conference schedule for the locals doesn't get underway until October 17 with the game scheduled with the Garden City Bear Kats then. The Eagles play Ackerly there on September 26 and Smyer here on October 10 and both are non-conference games.

PLAY DAWSON TO 6-6 TIE LAST FRIDAY NIGHT

The Eagles went to Dawson last Friday night and came away with a 6-6 tie. Back Alfred Chapple of the Eagles scored for the locals in the second quarter to put Sterling in front 6-0. The teams played scoreless ball until early in the final period when Jerry Kelley scored a touchdown for Dawson.

Finishes Military Orientation Course in Medical Corps

Fort Sam Houston, Tex. (AHTN C)—Second Lieutenant Clarence B. Long, son of Mr. and Mrs. Cecil A. Long of Sterling City, recently completed a 12-weeks military orientation course for newly commissioned medical service officers under the Reserve Forces Act program at Brooke Army Medical Center, Fort Sam Houston, Texas.

Lieutenant Long is a 1950 graduate of Big Spring High School and a 1957 graduate of the University of Houston. He is a member of Phi Delta Chi fraternity and was formerly employed by Dugan Drug of Houston.

Junior Class Officers Are Elected

The junior class of Sterling City high school met last week and elected class officers as follows:

President—Danny Stewart
Vice-Pres.—Tony Allen
Secretary—Bobby Hughes
Treasurer—LeRuth Reed
Co-Business Managers — Brenda Augustine and Robert Quintana.

The juniors have planned a full schedule for this school term including a car wash and hobo day Saturday, September 20, from 10 a.m. to 5 p.m.

Anyone who wants a car washed please contact a junior. The price will be \$125 per car and we will try to do a good job.
Brenda Augustine,
Business Manager.

Pledged Into TCU Fraternities

The Greek Letter fraternities of Texas Christian University pledged two Sterling City boys last week during rush week at TCU.

Jackie Cole was pledged into Sigma Alpha Epsilon and James M. Davis made Sigma Chi.

Roping Next Tuesday

There will be calf roping at the rodeo grounds next Tuesday night, September 23. Both open and amateur ropings will be held for two calf averages.

The ropings are sponsored by the Sterling Rodeo Association.

In case of fire Dial 8-2121.

Lions To Have Football Boys as Guests

The Lions Club members met at noon Wednesday for the regular weekly luncheon meeting in the community center. Guests present were R. T. Caperton and Gerald Breeding of San Angelo.

Fire chief R. P. Brown told the group that the Fire Department is to meet at 1:50 p.m. next Thursday for a practice drill, and that there would be no night meeting on that day. He will sound the fire siren once at 1:50 to call the practice meeting. The need is for at least 17 members present each time, said the chief.

Brown told that the new pumper truck had been checked out last week for the state fire insurance commission and tested out o.k.

Coach W. L. Young invited the club to a program at 12:30 after the next meeting to see some 2-man football plays in front of the football field. The members voted to go to the program.

The club voted to invite the football boys to the luncheon on Tuesday, September 30. The day of meeting was set up one day due to the beginning of the world series start.

North Concho River Soil Conservation News

The North Concho River Soil Conservation District is divided into 5 subdivisions or Zones. On Tuesday, October 7, at 2:30 p.m., land owners in zone 5 will meet in the court room of Sterling City court house and elect a member to represent them on the board of supervisors of the North Concho River SCD. Zone 5 includes all land in Sterling County south of Lacy Creek and the North Concho River.

Supervisors are elected for five year terms. They must own land in the zone which is holding the election. They shall be elected by written ballots. To be eligible to vote, a person must own land in the zone and must be 21 years of age. No poll tax is required.

The supervisors now serving on the board urges each land owner in zone 5 to turn out and vote for the man of his choice.

For any group or organization to be successful they need local support. Do your part in helping to elect a supervisor to serve on the local board to promote soil and water conservation.

Reynolds Foster completed construction on a dirt tank last week. This is the third one completed with one more to be constructed. These tanks are used for stock water, to help get better distribution of livestock and more uniform grazing in a pasture. They are also being used to reduce erosion of gullies below the tanks. Water that otherwise would be lost will now be held up and put into the ground.

SOIL BANK PROGRAM

This is a reminder that you must get in touch with the county ASC office by September 26, 1958, if you wish to sign up for participation in the program. Here are some of the features of the Conservation Reserve Program for 1959:

1. A contract for reduced crop acreage for up to 10 years.
2. Annual rental payments on the land during the period of the contract.
3. A special incentive to place all the cropland on the farm in the program.
4. Cost-sharing to establish land, water, forest and wildlife conservation practices on the reserved land.

When you come to the county office, bring information about the acreage of each crop on your farm for the past two years, and the average yield of your three main crops. We can then determine maximum payment rates for your farm and give you full information about the program.

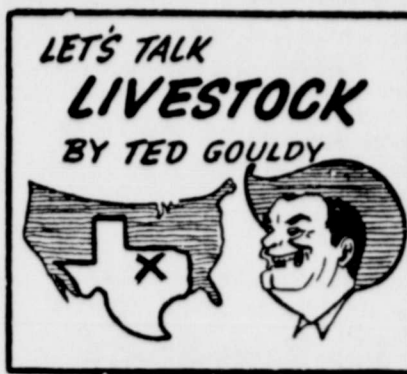

Johnny Hailey, ASC.

NOTICE. FIREMAN!

Thursday, September 25th will be the next meeting date for practice. The siren will sound one time at 1:50 p.m. All volunteer fireman please go to the fire station. Please do not call 8-2121 as the phone will not answer, because there will be no fire.

R. P. BROWN, Fire Chief

Good Rains This Week

MODERATE RECEIPTS OF CATTLE AT MAJOR MARKETS FIRMS TRADE

FORT WORTH—Fears expressed in the trade last week that excessive runs of cattle and calves might arrive at points around the major marketing circle proved unfounded Monday. The twelve major markets showed over 14,000 fewer cattle and calves, although Fort Worth had nearly ten percent more.

Trade developed along active lines on most cattle and calves at all points, although the feeder cattle trade was inclined to shy away from heavyweight yearlings and feeder steers unless some concessions in price were accomplished. Stocker cattle and calves suitable for pasture purposes were in broad demand at all points.

At Fort Worth, the stocker trade was very active and again there were both large and small stockmen from all over the Southwest seeking replacement cattle and calves. Cattle and calves were active and fully steady with some sales on calves strong to 50 cents above the close of last week. Fed steers and heifers were in small supply and sold at firm rates. Cows and bulls were active at strong prices throughout.

Good to choice slaughter steers and yearlings bulked at \$24 to \$26.50 and medium to lower grades cashed at \$18 to \$24. Fat cows sold mostly at \$18 to \$21. A few heiferish kinds higher. Cannors and cutters sold for \$13 to \$18. Bulls brought \$13 to \$22 in most sales, odd head outside that range.

Good to choice slaughter calves cashed at \$24 to \$26.75 and a few to \$27. Common and medium slaughter calves drew \$18 to \$23 and culls sold at \$16 to \$18. Medium and good stocker steer calves ranged from \$28 to \$33 and common to medium sorts cashed at \$20 to \$27. Stocker heifer calves ranged downward from \$30. Stocker steer yearlings of medium to good grades sold from \$20 to \$25 and some lightweights drew \$26 to \$27. A few medium to fairly good stocker cows sold from \$18 to \$20.

HOGS ADVANCE AS NORTHERN MARKETS OPEN TO SMALL SUPPLY

Trade on butcher hogs was 25c higher and packer hogs sold 25 to mostly 50 cents higher at Fort Worth Monday. Local supplies follow the same pattern as the Mon-

Good rains covered the county the first part of the week, ranging from 1.35 here in town to double that in favored spots. Sunday it rained a half inch here in town and did a repeat on Monday. Tuesday it rained .35 here in town.

Areas to the south and east got better than an inch on Sunday and better than the town reading on Monday and Tuesday.

The situation for the county as a whole is good. Ample rains to provide good fall and winter grazing has fallen in the past month, and large feed bills do not loom on the horizon.

NO SHOW TONIGHT; WILL BE SATURDAY AND SUNDAY

Horace Donalson, owner of the Palace Theater here said he would not have the show open tonight, Friday, September 19, due to the football game with Union. He said though, that he would show both Saturday night and Sunday afternoon.

The film showing is "The High Cost of Loving" starring Jose Ferrer and Gena Rowlands.

day receipts around the major market circle and were below expectations.

Top hogs scored \$21.25 to \$21.50 and medium to good kinds cashed at \$20 to \$21. Sows sold from \$18.50 to \$21, as the sausage makers scurried around after the limited supply. A few stags drew \$12 to \$15. A few pigs sold from \$15 to \$18. Odd boars cashed in the \$8 to \$9 range.

SLAUGHTER LAMBS WERE VERY SCARCE, WEAK TO 50c OF F

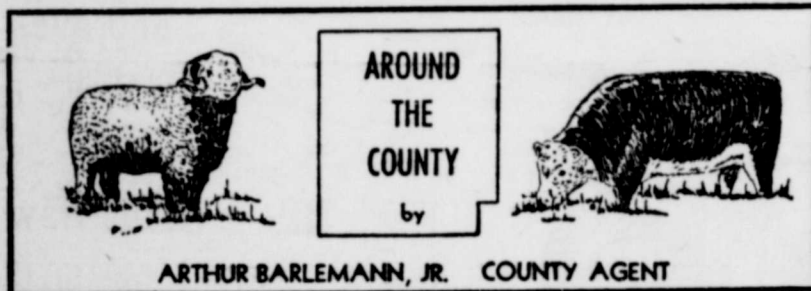

Despite being in negligible supply, packer types of lambs were weak to 50 cents or more lower at Fort Worth Monday. Packers displayed little interest and feeder buyers were active at firm prices. Hence, the bulk of the offerings was sold as replacement lambs.

Stocker sheep found strong prices, quality considered. Slaughter classes of sheep and goats were also firm.

Slaughter lambs were dull and weak to 50 cents or more lower. The trade was lacking an adequate test on fat lambs, as most offerings were mixed fat and feeder lambs and the feeder prices usually outstripped packer offers except on culls.

Medium to good fat lambs drew \$18 to \$20 and cull to medium lambs drew \$12 to \$18. Stocker and feeder lambs sold from \$19 to \$21, a few buck lambs around \$16 to \$18. Slaughter ewes sold from \$7 to \$8. Fat goats sold at \$7, with light canners at \$6 and a few billies at \$5. Kid goats sold at \$10 to \$11.

Solid mouthed stocker ewes sold at \$15 to \$16 per head and yearling two-year-old and three-year-old ewes sold from \$18 to \$21.

Congratulations are in order for three Sterling County 4-H club members. Club members who did an excellent job and deserve congratulations are Reynolds Lee Foster, Mitsy Davis and David Durham.

Reynolds Lee won the district award for the best plant collection in the new 4-H club demonstration on range management sponsored by the Texas Sheep and Goat Raisers' Association. He will receive an engraved belt buckle from the association. In addition, his notebook and plant collection has been entered in the state contest for final judging there along with the books from eleven other Extension service districts. Lee will represent District Seven. The two top books in the state collection will receive scholarships to the annual range camp at Junction next year.

Mitsy Davis won the county award for the same demonstration. Due to the fact that she was not old enough to enter the district competition, the second place county book was entered. Mitsy will receive a gold medal of honor from the Texas Sheep and Goat Raisers Association. Both books were very good; Marcus Loader, work unit conservationist with the Soil Conservation Service, was judge. Mitsy had more plants than Reynolds Lee but in other respects the books were equal. Mitsy can add to her book and enter the district competition next year.

David Durham entered the district competition for the Sheep and Goat Award. His record books were fourth in the district competition. Competition in this division was stiff; a number of the entrants have been raising sheep for as long as eight years and have an impressive record due to the length of time they have been at it.

Don't forget that September 26 is the deadline for getting in touch with the local ASC office if you have cropland that you wish to place in the Conservation Reserve. Contracts can be signed now for placing the land in the reserve for ten years. An annual rental will

be paid on land in the reserve. For further details contact the local ASC office here. Johnny Hailey is county yoffice manager here.

Rats and mice are still a problem in nearly every part of Texas. According to the Rodent Control Service more trouble from these rodents can be expected with the coming of winter.

Cold weather will reduce their food supply and force both rats and mice to seek shelter. Presently the mice are the main trouble in Sterling County. The rats have confined themselves to the pastures and fields thus far but could become a problem in the home as well around barns and feed storage areas when cold weather strikes.

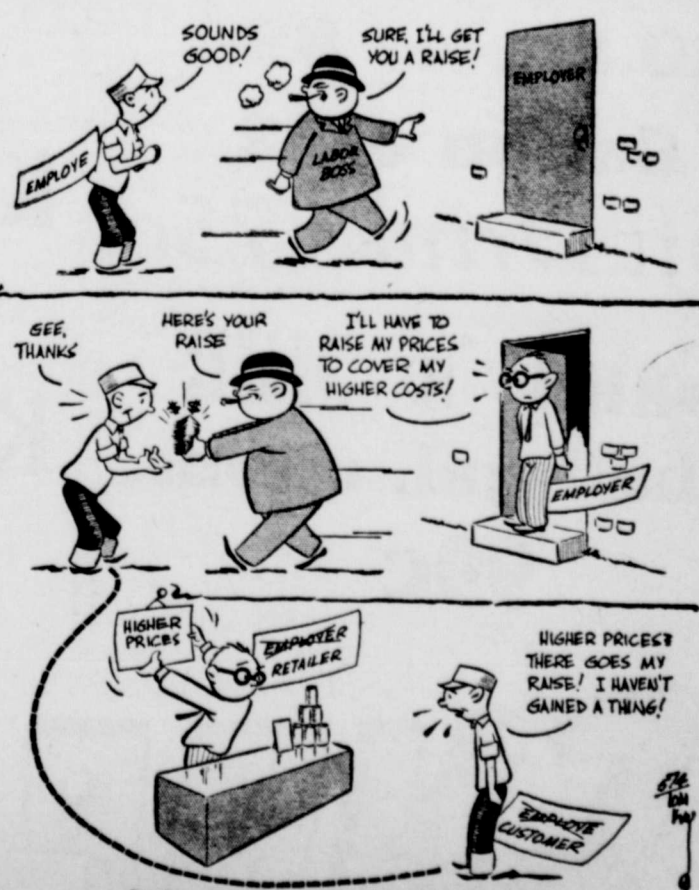

Research figures show that each rat does \$20 damage annually. Multiply this by 100; it is very probable that the average size barn will have at least several times 100 rats if the present situation continues. Control measures now could reduce this number considerably.

Warfarin is still a good bait material although the rodent control service now uses Fumarin which is a refined product of Warfarin and works similarly. For use in barns where there are large stocks of feed they recommend Pival, a liquid which works in the same manner as Warfarin. It is a soluble material which is mixed with water and used successfully where rats or mice have large feed supplies such as in barns, feed stores, and the like. It is put out in baby chick water fountains for the rodents.

During the last few days I have had several requests from agents in other counties in search of aged ewes to be put on grain fields. Farmers in these areas want to buy old ewes which would not do on the range but which could be put on small grain fields and raise a lamb. They will buy either bred or unbred ewes.

If you have any old ewes or know of anyone that does, I will be glad to put you in touch with the interested people.

It's a wise woman who makes it a practice to keep a jar of homemade chocolate sauce in the refrigerator. She's never at a loss for the clever touch that turns a humdrum meal into an occasion. Chocolate sauce poured over ice cream is a favorite dessert in most homes. Chocolate sauce lends added importance—and deliciousness—to leftover cake or a simple pudding, too. Prettily served and attractively garnished, these family desserts take on a festive air.

Mallow Fudge Sauce

3 squares unsweetened chocolate
1/2 pound (32) marshmallows
1/2 cup light cream
1/4 teaspoon salt
1 teaspoon vanilla

Place all ingredients except vanilla in top of double boiler; heat over hot water until choco-

late and marshmallows are melted. Then beat with egg beater until smooth. Remove from heat and stir in vanilla. Serve warm or cold. This sauce may be kept in covered jar in refrigerator until needed. Makes about 2 cups sauce.

Note: If desired, 1/2 cup chocolate chips may be used in place of unsweetened chocolate.

Rules Listed For Windows

How much window space should be planned for each room in building or remodeling a home?

Windows can affect the comfort of a family both physically and psychologically, says the University of Illinois Small Homes Council. Most homes need at least twice as much glass area as they have.

Here is a set of new rules worked out by the Council for ideal windows in the home:

1. Each room needs glass areas in excess of 20 percent of the floor area in each room. Much more is desirable on cloudy days.
2. In cool climates, the principal window areas should be placed toward the south, since this direction has the brightest sky. In warmer climates, a northeast orientation will limit heat from the sun.
3. Windows in more than one wall give more effective daylighting than windows in just one wall. One large window, however, gives a better distribution of light than the same amount of glass space distributed around the room.
4. Windows placed as close to the ceiling as possible lengthen the depth of light penetration into a room.
5. At least 10 percent of the floor area in a room should be matched with windows that open. Popular windows of ponderosa pine are available in many styles that open, including the familiar double-hung style that gives effective ventilation by opening at top and bottom. A further advantage of wood windows is that they can be painted or stained to match color schemes inside and out.
6. Draperies that cover a portion of the window when open can reduce daylight by as much as 75 percent. Drapery hardware should be installed to keep the material off to the sides of the window.

Fish Sticks Top A Casserole

By Betty Barclay

THERE are only four ingredients in this tasty, time-saving casserole—two come from the freezer, one from the pantry shelf, one from the refrigerator. Combine them for a delicious supper or luncheon dish.

Fish Stick Topped Casserole

1 package (10 ounces) Birds Eye Mixed Garden Vegetables; 1 can condensed cream of mushroom soup; 1/2 cup milk; 1 package (8 ounces) quick-frozen pre-cooked fish sticks. Cook mixed garden vegetables as directed on package. Drain. Add soup and milk and mix. Pour into shallow casserole or baking dish. Cover and heat in a hot oven (425° F.) 10 minutes. Remove from oven, and place fish sticks in a single layer on top of vegetables. Then continue to heat, uncovered, about 12 minutes longer, or until fish sticks are well browned and thoroughly heated. Makes 3 or 4 servings.
